

OSHA Hazard Communication (HazCom GHS) Training

The OSHA Hazard Communication Standard (29 CFR 1910.1200) requires all organizations whose workers are exposed to hazardous chemicals to implement safeguards and methods to ensure that workers are informed about the dangers of hazardous chemicals in the workplace that they may be exposed to.

OSHA Hazard Communication (HazCom GHS) Training

OSHA's Hazard Communication Standard, also known as HazCom, is a federal regulation (29 CFR 1910.1200) that specifies that when hazardous chemicals are present in the workplace, employees have a right to know about the risks involved with storing and handling such substances. The Hazard Communication Standard is now aligned with the Globally Harmonized System of Classification and Labeling of Chemicals (GHS) which is a worldwide standard.

Hazard Communication compliance for an organization revolves around putting in place compliance programs and training to ensure that workers are informed and all pertinent information is clearly and effectively communicated about hazardous chemicals that they may be exposed to in the workplace.

As part of satisfying the Hazard Communication compliance requirements established by OSHA, employers are required to provide a Hazard Communication (HazCom GHS) awareness training to workers when a worker is first placed into a job that entails potential exposure to hazardous chemicals, when new hazardous chemicals are introduced, etc.

HazardCommunicationsTraining.com offers an online self-paced training to satisfy the training requirement from OSHA's Hazard Communication Standard.

This online training course is valid for all US states and territories and meets or exceeds the requirements for Hazard Communication (HazCom GHS) training established by the Occupational Safety and Health Administration (OSHA).

Audience:

Any individuals who may be "exposed" to hazardous chemicals when working must be provided information and be trained prior to initial assignment to work with a hazardous chemical and whenever the hazard changes.

Examples:

Physicians, Nurses, Hospitals, Laboratories, Pharmacies, Cleaning/Janitorial, Automotive, Pest Control/Lawn Care, Plumbers, Manufacturing/Industrial, HVAC, Oil and Gas, Emergency Responders, etc.

SAFETY DATA SHEETS (SDS)

Online Hazard Communications Training

The online training is meant to handle the educational component and training requirement.

Rollout Our Smart Training to Your Workforce in 5 Minutes or Less

How? Our training system is smart - *very smart* - and does almost everything for you. All you have to do is to email generic instructions to your staff. It is the same instructions for everyone and we've already pre-typed the instructions for you.

Have staff that doesn't have email? No problem, print off the instructions and give it to them as a piece of paper.

Once you provide the generic instructions to your staff you are done. The smart training system then takes over from there and trains, tests, generates certificates, emails you a copy of those certificates, and maintains a training log.

It can't get any easier.

- ✓ Our smart system utilizes a single shared multi-user login that eliminates the hassle of having to setup and manage multiple usernames and passwords.
- ✓ Everyone from your organization can log in from home or work (24x7) using the same shared login (no limit on simultaneous users).
- ✓ On passing the final exam, each individual is prompted to enter their name. The system then generates a PDF certificate for the individual and emails a copy of the certificate to the administrator for record keeping.
- ✓ The smart system maintains a detailed training log automatically for you.

The HazCom GHS Right to Know course is **1 hour** long, self-paced, and generates a **2 year** certification upon completion.

There are no contracts or minimums. Our training works like a phone card so you can just purchase as you need. We provide a cumulative discount over the life of the account so it always gets cheaper over time.

Pricing Per Course	
Qty of Training Seats	Pricing Per Seat
1-9	\$29.99
10-24	\$24.99
25-49	\$23.99
50-99	\$22.99
