WELCOME TO THE OSHER LIFELONG LEARNING INSTITUTE AT THE UNIVERSITY OF DAYTON

The Osher Lifelong Learning Institute (UDOLLI) began 26 years ago as the University of Dayton Institute for Learning in Retirement or UDILR. Since 2004, we have been proud members of the Osher Lifelong Learning Network, a group of more than 100 institutes across the country dedicated to meeting the needs of adult learners over 50 years of age who wish to gather for the joy of learning and personal fulfillment.

OUR MISSION STATEMENT

The purpose of the Osher Lifelong Learning Institute at the University of Dayton is to offer adults 50 years or better a wide variety of seminars based on the peer-learning concept and designed to be intellectually stimulating in an informal and noncompetitive environment.

We are a vibrant community

We are adults with wide-ranging interests in art, current events, health and fitness, history, literature, music, religion and science. A curriculum committee works with the Executive Director of Special Programs and Continuing Education to select our curriculum on the basis of member requests, the expertise of moderators, variety and balance. Moderators include University of Dayton (UD) professors and community professionals who lead peer-to-peer informal lecture and discussion seminars that typically meet once a week for two hours, for four to eight weeks. The summer program consists of two one-day sessions, three lunch-and-learn presentations, five seminars, one being offered online.

Our seminars are noncredit

There are neither tests nor grades, nor educational requirements. Participation is essential, ranging from keeping up with assigned readings and contributing to seminar discussion to sharing the results of one's own research.

UDOLLI is a cooperative venture

We rely on the contributions and participation, both in seminars and out, of each member. Members assist the Executive Director of Special Programs and Continuing Education by moderating seminars, coordinating lecture series, leading small group discussions, organizing activities and volunteer projects, serving on the board of advisors and committees, acting as seminar liaisons, helping in the office and volunteering for all other tasks that keep us going.

Becoming a member of UDOLLI is easy

Registering for seminars is simple and convenient. Page 27 gives complete registration information and procedures. Once you register for a seminar, you automatically become a UDOLLI participating member for the current academic year. The term of membership conforms to the academic calendar, beginning in September and ending in June.

Friends of the Institute are individuals who donate \$80 or more each year to support UDOLLI's goals; Life Members are individuals making a one-time donation of \$2,000 or more; and Distinguished Service Life Members are individuals giving UDOLLI extraordinary service. Life and Distinguished Members may attend seminars at no cost.

We are part of the University of Dayton's Office of Special Programs and Continuing Education, which is directed by Julie Mitchell and sponsors lifelong learning programs and professional development. Founded in 1994 as the University of Dayton Institute for Learning in Retirement, we have grown from the original 98 members to more than 2,000 members.

Enjoy member benefits

As a UDOLLI member, you are invited to participate in UDOLLI activities and related continuing education-sponsored events such as the Duane W. Chapman Senior Symposium, Senior Fellows undergraduate audit program, New Horizons Music, Dayton Celebration Chorus and University programs. Pages 25-26 give more information about these programs.

As a UD community member, you are invited to participate in UD-sponsored activities such as lectures, recitals, and art and cultural events, and enjoy campus privileges such as Roesch Library and the RecPlex (membership fee required). You're welcome to shop at the UD bookstore and eat at the campus coffee bars or Riverview Cafe, Curran Place. For identification, you'll use your name badge received upon registering for your first seminar.

You may qualify for a grant

If you meet certain financial criteria, you may qualify for a UDOLLI grant, entitling you to enjoy all UDOLLI member benefits and attend seminars at no cost or a reduced cost. Please call Julie Mitchell at 937-229-2605 in the Office of Special Programs and Continuing Education for additional information. All requests are confidential.

Are you interested in moderating a seminar?

UDOLLI is grateful to its volunteer moderators who share their knowledge and provide a comprehensive curriculum. Moderators become Friends of the Institute for the academic year in which they teach. They and their spouses can enjoy member benefits and may attend seminars during the year at no cost. If you are interested in learning more about becoming a moderator, Julie Mitchell will be happy to talk with you. MONDAY SEMINARS

Biblio-Biography: A Bibliophile's Guide to the Life Story of Books

ZOOM

In this seminar we will look at the history of books. We will learn about the physical development from clay tablets and papyrus scrolls through trade paperbacks and e-books, along with the invention of writing, alphabets and the printing press. We will also see how the purposes of and attitudes toward books have changed over the centuries. We will talk about libraries and bookstores, book collectors and book thieves. And we will have time to share our feelings about books we love and why we love them.

6 Mondays, January 11-February 22 (**No seminar January 18 in observance of MLK Day**)
9:30-11:30 a.m., Zoom

***Rita Dushman Rich** is a semi-retired Speech/Language Pathologist who has moderated a few previous seminars with UDOLLI. She is an avid reader and an unrepentant bibliophile. Her personal book collection is filled with mysteries, histories, novels and non-fiction, but finances (and common sense) prevent her from becoming a true bibliomane (one who values books as objects rather than for the words they contain). She suffers from a severe case of abibliophobia (fear of being without reading material).*

America's Sports Car - An Examination of the Corvette NEW

ZOOM

The Corvette has been attracting the interest of a broad cross section of Americans and those in other countries since its debut in 1953. Acknowledged as "America's Sports Car" the Corvette has a convoluted history involving corporate politics, racing, production ups and downs, as well as a couple of near-death experiences. That it still thrives is a testament of the basic concept of the car, as well as to the many Corvette supporters, owners and enthusiasts both domestically and around the world.

6 Mondays, January 11-February 22 (**No seminar January 18 in observance of MLK Day**)
9:30-11:30 a.m., Zoom

***John Sheehan** has moderated seminars for UDOLLI since 2012, has been a Corvette owner since 1981 and is a member of the National Corvette Museum. He currently owns a lightly modified 2003 Corvette Z06.*

Woodland Cemetery and Arboretum

ZOOM

Woodland Cemetery, in the heart of Dayton, is one of the Gem City's best kept secrets. This seminar will help you discover the timeless beauty and fascinating history of Woodland and the lives of the famous and infamous residents resting peacefully within. Each week a different topic will be presented featuring specific residents. This fall will feature two NEW programs: Aviation Notables and Artists, Poets, Musicians and Dancers. As always, a lively discussion about the cemetery, its practices, and your memories of Woodland will be included in the program.

6 Mondays, January 11-February 22 (**No seminars January 18 in observance of MLK Day**)
12:30-2:30 p.m., Zoom

Angie Hoschouer is the Manager of Development and Marketing at Woodland Cemetery, Arboretum and Foundation. She was a former volunteer before becoming employed at Woodland and has four generations of ancestors buried at Woodland dating back to 1854. Angie has been a UDOLLI moderator since 2015. She enjoys local history and is the president of the Randolph Township Historical Society.

Debunking Myths about Islam: A Journey from Fiction to Fact NEW

ZOOM

This seminar is designed as an opportunity to come to an understanding of the various myths and misconceptions that surround Islam. Given the fact that general unawareness in our society about Islam is very common, it is quite understandable that this lack of information can easily lead to a fear of Muslims and mosques. Many Americans in Dayton have never been inside a mosque or met a Muslim. The number of those who have met a Muslim woman and conversed with her is even less. The course hopes to open up a dialogue about the common misconceptions about Islam with the hope that the participants will bring their own questions to the table.

6 Mondays, January 11-February 22 (**No seminars January 18 in observance of MLK Day**)
12:30-2:30 p.m., Zoom

Bushra Shahid is originally from Pakistan. She has a Master's degree in English Literature. Since coming to the United States her focus has been the community building relations and fostering better understanding of different faiths. She has helped create and build various projects in which her community, the Ahmadiyya Muslim Community is actively involved. She is the founder of the women's interfaith group in Dayton that strives to create understanding of different faiths. She is also part of a project that publishes books on Islam for both children and adults.

Mr. Jefferson at Home: Monticello and Poplar Forest NEW

ZOOM

“Architecture is my delight, and putting up and pulling down one of my favorite amusements.”

This short seminar will take you to Thomas Jefferson's two homes: Monticello and Poplar Forest. We will also look at where he lived as a child and how his time in Europe and his study of classical architecture influenced him. He used his knowledge and experience to realize world-class design in the Virginia Statehouse in Richmond and the Grounds of the University of Virginia, as well as in his homes. All of these buildings were built and maintained by enslaved people. The course combines elements of history, building and landscape design, geography, invention and family life.

6 Mondays, January 11-February 22 (**No seminars January 18 in observance of MLK Day**)
3-5 p.m., Zoom

Susan McGough has an M.A. in American Studies from the University of Hawaii. While working at the University of Virginia, she staffed the continuing education course on Monticello and participated in an archaeological dig at Poplar Forest. She continues independent study of Thomas Jefferson and his homes. In earlier versions, this course has been offered at several Osher Institutes.

Drafting a New Constitution for a Brand New Country NEW

ZOOM

This seminar will consider various provisions of a brand new constitution for a brand new country and decide what provisions should be included in the new constitution. The discussion will necessarily compare the provisions of the proposed new constitution with the provisions of the U.S. Constitution adopted in 1789.

Participants will be asked to use their common sense, their innate sense of fairness and their understanding of societal values, culture and human nature to assess what constitutional language should be adopted in order to create a fair, just and effective system of government for today's world. Due to time limitations the main focus will be on the more fundamental aspects of a governing system.

WEDNESDAY SEMINARS

Real News? Fake News? What is News?

ZOOM

This seminar will draw from a nationally-recognized news literacy curriculum, as well as content from the moderator’s 30-plus years of teaching college journalism.

The first two weeks’ content will introduce concepts traditionally accepted by journalists for judging “news,” new trends in news content, and the moderator’s examples of “real” news, “fake” news, and content that is somewhere in between. For the third and fourth sessions, seminar participants will be urged to submit examples they have found in the media for analysis and discussion. Based on the first two weeks’ conclusions, we will attempt to establish criteria that will help us evaluate, so we can separate “real” from “fake” news.

Each seminar session will last about one hour, with time allotted for discussion to continue.

Where, when and who were the Greeks? What differentiates the Roman “Republic” from the “Empire” and how was Europe formed by 2000 years of Roman civilization. How/why did Western Europe become “Latin” Christian rather than the original Greek? What were the “dark ages”? Who were those lords, ladies, knights of the “feudal” middle ages and why castles? When and how did cities and “civilization” revive and give birth to a “middle class”?

The Tudors Revealed

ZOOM

The Tudors have been portrayed as monarchs who presided over a free, prosperous and happy people. In fact, Henry VIII spent excessively on unnecessary wars resulting in heavy taxes that kept the government barely solvent during the entire 118 year Tudor dynasty. Homelessness and poverty grew until, during the reign of Elizabeth I, the standard of living for the common people was lower than any time during the previous 250 years. The rule of law was bypassed as Tudor monarchs ordered hundreds of executions without any evidence of guilt. Most people were neither free, prosperous nor happy during the Tudor century.

6 Thursdays, January 14-February 18
3-5 p.m., Zoom

Mark Cannon was a research scientist at Wright-Patterson Air Force Base before retirement. He has always had a great interest in history. He has moderated UDOLLI courses on WWI, WW2 the Civil War, Napoleon, A Travelers History of England and the Plantagenet Dynasty of England.

6 Thursdays, January 14-February 18

FRIDAY SEMINARS

ZOOM

TaiChi Easy to Improve Balance

Tai chi is an ancient Chinese exercise and has roots in Chinese martial arts; it uses a series of slow, flowing motions and deep, slow breathing to exercise the body and calm the mind. You move from one pose to another gradually, shifting your weight and extending your limbs to challenge your balance.

“Tai chi can help people especially older adults improve their balance and lower their fall risk. And by reducing their risk of falls, seniors can lower their odds of suffering a debilitating fracture.” (<https://www.health.harvard.edu/staying-healthy/best-exercise-for-balance-tai-chi>)

We All Live in a Yellow Submarine NEW

This is a three week seminar briefly reviewing the history and development of the submarine from ancient times to current day. We will explore persons like Archimedes, da Vinci and Fulton and how they developed basic principles which allowed people to satisfy their fascination of navigating underwater. We will look at how this fascination quickly evolved into developing a weapon of war. We will look at the Turtle, a submersible used during our Revolutionary war against the British and at the Confederate submarine Hunley.

We will briefly look at the submarine in World Wars I and II as well as the post-war development of the modern nuclear submarine today. Lastly, we'll explore how a submarine basically works by taking a "dive" underwater, imaging what is needed to successfully survive our trip under the waves and how these basic needs are met.

3 Fridays, January 29-February 12

FRIDAY SELECTED TOPICS

The Supreme Court Under the Direction of Roberts: Judicial Hits or Flops? NEW

ZOOM

During her confirmation hearing, Justice Amy Coney Barrett repeatedly said that "a judge must apply the law as written, not as the judge wishes it were." Relatedly, over and over, she stressed that she interprets the law in a neutral, objective manner and does not channel her personal beliefs as an avowed conservative and devout Catholic.

Do her remarks accurately depict the judicial decision-making process? Or, in many instances, do the Justices channel their personal beliefs? Are they simply politicians in robes?

In this two-hour lively interactive presentation, the moderator will suggest answers to these questions. To do so, he will discuss cases that SCOTUS has already decided and cases it will decide during the Court's current term (now that Justice Barrett sits at the end of the hearing room bench).

1 Friday, January 29

Winter is the perfect time to gather knowledge, learn techniques, discover plant choices and get ready for gardening in the spring. More people are getting into the swing of gardening, and in this class, we hope to cultivate this interest with tried and true information to make you successful.

Think about these two questions: How long have you been gardening? And What type of garden do you have/wish to have? Responses will be collected by the moderator before the seminar.

Aviation – The Birth of a New Industry

This seminar identifies a long human fascination with flight through the air. From balloons to gliders and then to powered aircraft invention continued. Following the Wright Brothers 1903 demonstration of powered flight and their sale to the United States Army of their 1909 Flyer, a new industry began. With the advent of the Great War in Europe, aviation development continued at a rapid pace as each side innovated and found new uses for the airplane. After the war, aircraft evolved from wooden biplanes to sleek aluminum single wing aircraft. Many new companies in the United States were excited about manufacturing aircraft. Some succeeded and some went bankrupt. The government provided support through air mail contracts, airports, and navigation aids. Soon passengers began flying and by World War II, the birth phase of aviation was over as the industry had evolved. At the conclusion of the seminar the student will have a greater understanding of Aviation - The Birth of a New Industry.

Paul Cooper is a retired Air Force brigadier general and pilot with 35 years of service. He has combat experience in Vietnam, Desert Storm and Bosnia, and has commanded three different air bases. He is a graduate of both the Industrial College of the Armed Forces and Air War College, and has a master's degree in aviation history. He is a past president of UDOLLI and serves on the Board of Trustees at the Foundation of the National Museum of the Air Force.

Heroes of the Air

The MEDAL OF HONOR is the highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Forces of the United States. In World War II, the Medal of Honor was awarded 464 times. Some of those Heroes of the Air included Jimmy Doolittle, Butch O'Hare, and Pappy Boyington. During a single August 1943 raid on the Nazi oil refineries, five Medal of Honors were awarded in a suicide attack that cost one third of the B-24 force. The Heroes of the Army Air Forces in Europe and in the Pacific in addition to the Navy and Marine Forces in the Pacific will be identified. Their background and mission will be enhanced with video when available during this online seminar.

CONNECTING GENERATIONS & CULTURES

A TALENT BANK & CLEARING HOUSE PROGRAM

With age comes experience and wisdom that can be priceless when shared with others

1. What Is This Program About?

The UDOLLI Connecting Generations & Cultures (CGC) program connects UDOLLI to the Dayton area community utilizing our vibrant, highly educated, experienced and talented members. Connecting Generations & Cultures is a Talent Bank & Clearing House program for community organizations. We put your talents to work by connecting you to organizations to help carry out their mission. As members of our program, many of you are ready and anxious to share your decades of knowledge, experience and wisdom with those who can benefit.

2. Connecting Criteria

The CGC program has been reaching out to various community groups, and many have reached out to us. We connect to organizations that meet any one of these criteria: is it educational, cultural, civic, social, governmental, inter-generational? Can our members and the organization's members contribute to and benefit from the connection experience? As opportunities come along we promote them to UDOLLI members. Check out our connected organizations at right. Let us know of any organizations you feel would make a good connection with our program.*

*NOTE: A recommendation is no guarantee we will make a connection. We carefully review every idea to ensure it fits within UDOLLI's mission and the objectives of the Connecting Generations & Cultures program. Our Executive Director makes all final decisions. All UDOLLI members involved with any Connecting Generations & Cultures program must understand and accept that they represent the Osher Lifelong Learning Institute at the University of Dayton and must adhere to all rules and regulations that may apply to the University and our program.

3. Connecting You

Here's how we get you connected. We communicate an organization's needs in a variety of ways: email, newsletter, seminar announcements, special presentations and promotional flyers. You'll learn about the organization, decide if you're interested and then you reach out to the organization's contact directly. You are then on your way to a new adventure.

Your connection could be for a single project or an ongoing program.

For example, you could share your ideas during a creative planning session or work with the organization on a regular basis to carry on their mission. There may be several of your fellow UDOLLI members involved in the same activity, or it might be just you. Whatever project or organization you get involved with, you will meet new friends and perhaps build lifelong relationships. You may even find that a connection can be life changing. You may be a senior, but you're not done yet! You can share your years of experience and wisdom to make our community a better place.

4. Our Connected Partners

The following list includes all organizations to-date we have connected with since the inception of CGC in 2013. With some of our connections our members have been deeply involved working on a variety of projects, while with others we are just getting started in making deeper connections. The connection may currently be active or inactive. Our members have contributed their expertise in a variety of ways: teaching, mentoring, donating, facilitating deliberation discussions, and facilitating creative and strategic planning sessions.

DAYTON CELEBRATION CHORUS

The Dayton Celebration Chorus is an adult community chorus that serves the city of Dayton and the Miami Valley region. Open to all interested adult singers and requiring no audition, the Chorus sings a diverse repertoire of both sacred and secular choral literature, with an emphasis on American music. Founded in 2003 as the Schuster Center Celebration Choir, the organization was first sponsored by the Victoria Theatre Association. In 2014, the group affiliated with the University of Dayton Office of Special Programs and Continuing Education.

Performance venues have included the Schuster Center for the Performing Arts, Courthouse Square Grande Illumination, Kroc Center, Dayton Art Institute, Victoria Theatre, The Greene, UD Arena, Fifth Third Field, and various churches and retirement communities. Chorus members have enjoyed performance opportunities with the Dayton Philharmonic Orchestra's Holiday Festival Community Chorus, the UD New Horizons Band, the Miami Valley Symphony, and various guest artists and conductors. DCC has been selected annually to sing the National Anthem for the Dayton Dragons at Fifth Third Field.

For registration information, please visit:

NEW HORIZONS MUSIC

Learn to play music in a band as a senior adult — even if you have no musical experience! Playing music is a special joy that will help you maintain mental and physical health. It is also a way of experiencing life — playing music from the past keeps us in touch with those feelings; daily practice keeps us active in the present; and striving for new goals attaches us to the future.

One band member describes it as “serious fun.”

As a member of New Horizons Music, you will meet new friends and work with them as a team to learn music for concerts and other performances in the community. New Horizons ensembles typically perform many times each year in venues ranging from formal concerts to shopping malls and from parks to retirement and nursing homes.

UD New Horizons Music offers adults 50 years of age or better the opportunity to begin a musical instrument and provides a re-entry point for those who have been away from active music making for many years. Instruments taught include: flute, oboe, bassoon, clarinet, saxophone, trumpet, French horn, trombone, baritone, tuba and percussion.

For registration information, please visit: https://www.udayton.edu/continuing_education/senior_programs/nhmp/index.php

Are you interested in moderating a seminar?

Moderators are the life blood of our program: without moderators, there's no UDOLLI. If you have a passion for a subject that might be interesting to others, consider offering it as a seminar. It can be a lot of work, but it's almost always very rewarding and a lot of fun. It also comes with perks: free seminars for you and your spouse for a year. Best of all, it's easy! If you'd like to propose a topic, send a proposal to jmitchell1@udayton.edu. Include the following:

1. Your name, mailing address, phone number and email address
2. The title of your seminar, with a brief description of what the seminar participants will learn
3. Any special requirements
4. A brief biography demonstrating your expertise in the subject area and your presentation abilities.

Let us know if you'd like a sample proposal. Julie Mitchell, the executive director of UD's office of Special Programs and Continuing Education, will discuss your seminar proposal with the UDOLLI curriculum committee. If your topic is selected, you'll be asked to fill out a moderator/ seminar information form. This will give us the information we need for our course catalog, explain your room setup and audio/visual requirements, and tell us the days and times you're available to moderate.
