

# OUR WINE LIST

## PHILOSOPHY

*The selection of wines on the following pages has been carefully selected with the same pride and passion that we take with all that we do here at Moo Moo The Wine Bar + Grill Gold Coast. We have selected wines that highlight the features and expressions of the regions selected. With older and rarer wines we utilise a network of trusted specialists to ensure the provenance of each bottle presented to you.*

*We endorse a policy of continuing education to help our staff achieve a more thorough understanding in order to provide you with an exceptional experience.*

*Enjoying a glass of wine can be a great adventure. Take the opportunity to try something new that will hopefully excite, delight and be a great addition to your meal.*

*We understand the list is comprehensive but do encourage you to engage with our sommeliers or friendly wait staff and please don't be afraid to ask any questions.*

*We are proud to announce that Gourmet Traveller Wine has recognised this list as being one of Australia's best with the award of '2 out of 3' glasses, at the 2012, 2013, 2017 + 2018 Australia Wine List of the year awards.*

*Thank you for joining us today at Moo Moo Gold Coast.*

*Sit back, relax and enjoy.*

# CHAMPAGNE

Undoubtedly the most highly regarded region in the world for the production of sparkling wine - Champagne is approximately 160 kilometres east of Paris in the country's north east and is centred around the towns of Reims and Epernay where most of the Champagne houses are based.

Being one of the northernmost regions in the wine growing world it's cooler climate produces high levels of acid which are perfectly suited to the production of sparkling wine but the most significant contribution to the wines of Champagne is made by the soils. A major factor adding to the finesse of the wines is the belemnite chalk subsoil which in most areas sits below a thin layer of surface soil providing excellent drainage as well as moisture retention for the vines. The only three grapes allowed in the production are Pinot Noir which provides structure and weight, Pinot Meunier for middle palate fruit and Chardonnay that gives the wine acidity and elegance. When the wines are young you can expect bright, fresh styles with citric acidity but as they begin to mature the richer notes of butter, nuts and toffee will surface.

## NON VINTAGE

Champagne produced from a blend of wines from different years to give a specific flavour profile, texture, weight and acidity.

NV Louis Roederer Brut	Reims	125.00
NV Pol Roger Brut	Epernay	160.00
NV Pol Roger Brut (1500ml Magnum )	Epernay	340.00

09 Pierre Gimmonet & Fils 'Fleurion' 1er Cru Blanc de Blanc	Reims	250.00

## SPARKLING WINE

*Australia and New Zealand are starting to produce some very interesting and very good quality sparkling wine. Though not as highly regarded as their French counterparts these wines should be judged on their own merits and seen as a different style of product that has been made in a completely different part of the world.*

### NON VINTAGE

*Sparkling wine produced from a blend of wines from different years to give a specific flavour profile, texture, weight and acidity.*

Jansz Brut	Piper's River, TAS	65.00
Redbank Prosecco	Kings Valley, VIC	69.00
Deviation Road Altair Brut Rose	Adelaide Hills, SA	75.00
Cloudy Bay 'Pelorus' Brut	Marlborough, NZ	85.00
Alasia Moscato	D'Ásti, Italy	55.00

### SPARKLING RED

*All of these wines are produced using the traditional method for Champagne but with red (black) grapes. The bubbles 'lift' the wine to give it a more aromatic and elegant nose than still wines produced of the same grapes.*

NV Rockford 'BLACK' Shiraz	Barossa Valley, SA	180.00
----------------------------	--------------------	--------

## WHITE WINE BY VARIETAL

### RIESLING

*One of the great aromatic whites, Riesling can be made in a myriad of different styles ranging from very dry to very sweet. The grape has very high levels of acid that gives the wines length and makes them well suited to matching with many different foods. The sweeter styles provide great contrast to fresh, spicy Asian dishes while the drier, more zesty bottles tie in perfectly with shellfish.*

19 O'Leary Walker Watervale	Clare Valley, SA	55.00
18 Jim Barry 'The Florita'	Clare Valley, SA	125.00
19 Jim Barry 'Lodge Hill'	Clare Valley, SA	65.00
19 Mesh	Eden Valley, SA	72.00
08 Dry River 'Craighall'	Martinborough, NZ	118.00
15 Balthasar Ress Kabinett (Sweet)	Rheingau, GERMANY	80.00

### PINOT GRIS + GRIGIO

*One of the most puzzling definitions for many wine drinkers is the difference between Pinot Gris and Pinot Grigio. Though they are both produced from the same grape, the two styles are very different and unfortunately many producers who incorrectly label their wines are not helping people make the distinction. Both styles of the wine are usually dry with floral notes and light stone fruit as well as spice and honey but Pinot Gris is more rich and textural whereas Pinot Grigio is generally crisp and lighter bodied.*

19 La Maschera Pinot Grigio	Limestone Coast, SA	65.00
18 The Lane 'Block 2'	Adelaide Hills, SA	60.00
19 Barrington Pinot Gris	Barrington, TAS	56.00
20 Brokenwood Pinot Gris	Beechworth, VIC	68.00
18 Tiefenbrunner Pinot Grigio	Alto Adige, ITALY	65.00
16 Hugel 'Classic' Pinot Gris	Alsace, FRANCE	80.00

## SAUVIGNON BLANC

*If wine grapes were in a popularity contest, Sauvignon Blanc would be the hands down favourite. Although it seems that many vignerons steer the grape in a direction that suits the market there are still a few out there who employ more a 'minimal intervention' method to their style that allows the fruit to express its regionality. Sauvignon can be made in many different styles with the most popular being those showing tropical fruit flavours of passion fruit, pineapple and banana while others have a 'greener' more herbal note with often green bean or asparagus.*

### AUSTRALIA

19 Hill Smith Estate	Eden Valley, SA	55.00
18 Dalrymple	Piper's River, TAS	70.00
17 Wineglass Bay	Freycinet, TAS	65.00

### NEW ZEALAND

*New Zealand is now without doubt the most recognised country when it comes to the production of Sauvignon Blanc. The Marlborough region is the most sought after offering wines with tropical fruit and often a 'funk' that adds character to the nose though Central Otago is quickly becoming recognised for their fresh, zesty, mineral quality.*

14 Flowers on the Vine	Marlborough	50.00
18 Opawa	Marlborough	65.00
17 Mt Difficulty 'Bannockburn'	Central Otago	70.00

### FRANCE

*Although Sauvignon Blanc originated in Bordeaux it's best examples in France come from the Loire Valley which runs along the longest river in the country (also named the Loire). The wines are sometimes oak aged to give a more full and complex palate and are in general more rich and textured than those of New Zealand with a distinct minerality.*

18 Pascal Jolivet	Sancerre	100.00
-------------------	----------	--------

## SEMILLON

*Although it is highly regarded in many white wine blends Semillon is often overlooked as a single grape varietal. It is particularly good with food and has high acidity with citrus and melon flavours.*

18 Margan	Hunter Valley, NSW	62.00
11 Brokenwood 'ILR' Reserve	Hunter Valley, NSW	150.00

## VIOGNIER

*Viognier is highly aromatic with good length and flavours of peaches and apricots.*

18 Yalumba 'Organic' Viognier	Barossa, SA	55.00
17 Yalumba 'The Virgilius' Viognier	Eden Valley, SA	95.00

## WHITE BLENDS + VARIETALS

*Most wines whether white or red are blended with one thing in mind; balance. As with all things flavour, acidity and texture should be in harmony with one another. If any one thing starts to dominate a wine then it can become one dimensional & lose its appeal very quickly.*

18 John Duval 'Plexus' Marsanne Roussane Viognier	Barossa, SA	79.00
18 Bleasdale 'Potts Catch' Verdelho	Langhorne Creek, SA	52.50
18 Cape Mentelle Sauvignon Blanc Semillon	Margaret River, WA	69.50
18 Nautilus Estate Albarino	Marlborough, NZ	64.00
17 Hugel 'Gentil' Gewürztraminer Pinot Gris Riesling	Alsace, FRANCE	52.50
18 Marc Bredif Vouvray Chenin Blanc	Loire Valley, FRANCE	85.00
18 Pra 'Otto' Soave DOC Garganega Chardonnay	Veneto, ITALY	60.00
17 Nigl Gruner Veltliner	Kremstal, Austria	65.00

## CHARDONNAY

The world's most popular white wine grape Chardonnay is grown everywhere that wine is produced and is considered a "wine-maker's" grape - referring to the fact that the wine-maker has many choices in regards to how the final wine will express itself. Oaking can add flavours of butterscotch and spice or the grape can be allowed to express its own varietal flavours from citrus to tropical fruit depending on the climate in which it is grown.

### SOUTH AUSTRALIA

The cooler climate resulting from high altitudes in the Adelaide Hills and Eden Valley are perfect for the production of Chardonnay and most of the best examples of the style are from these two regions.

17 Heirloom	Adelaide Hills	65.00
19 Barratt 'Piccadilly Valley'	Adelaide Hills	90.00
17 Heggies	Eden Valley	63.00

### VICTORIA

Victoria has many different regions for wine which produce varied styles depending on their latitude, altitude, climate and soil type.

18 Kooyong 'Clonale'	Mornington Peninsula	70.00
18 Kooyong	Mornington Peninsula	85.00
16 Tarrawarra Estate	Yarra Valley	67.00

### NEW SOUTH WALES

Tumbarumba is a cool climate wine growing region between Melbourne and Sydney, just 3 hours from Canberra. The wine region was established here in the early eighties and is still regarded as one of the newest wine producing regions of New South Wales.

17 Penfolds 'Bin 311'	Tumbarumba	125.00
-----------------------	------------	--------

### WESTERN AUSTRALIA

Western Australia's Margaret River has been long recognised as a premiere region for top-quality Chardonnays, showing a full-bodied and tropically fruity wine usually with a heavy yet balanced oak influence.

17 Voyager 'Girt by Sea'	Margaret River	60.00
17 Vasse Felix 'Heytesbury'	Margaret River	195.00

### TASMANIA

Being the southernmost of all of our states Tasmania obviously has a cooler climate and one that is suited beautifully to the making of fresh, dry white wines that have good acidity and often flavours of green apple, melon and pear.

17 Freycinet 'Louis' Unwooded	Bicheno	55.00
16 Dalrymple 'Cave Block'	Pipers River	85.00

### NEW ZEALAND

The cold climates of New Zealand are well suited to the production of Chardonnay and offer many different styles which can vary greatly depending on the winemaker but often show a dry, minerality that many other countries struggle for.

17 Cloudy Bay	Marlborough	80.00
---------------	-------------	-------

### BURGUNDY, FRANCE

Chablis is one of the most recognised wine regions/styles in all the world. It is typified by complex white wines that show remarkable balance between fruit, oak and acidity. The chalk soils add an unparalleled minerality to the back of the palate.

16 Oliver Leflaive Bourgogne Blanc	Puligny-Montrachet	110.00
18 William Fevre Petit Chablis	Chablis	85.00

### ARGENTINA

One of the most defining features of Argentina's climate is the altitude; nestled high above the ocean in the foothills of the Andes. Due to this Argentina's climate is cooler than the rest of South America resulting in a long, slow ripening season which results in a very balanced and fruity Chardonnay. The finest examples of which are also accompanied by a hint of French oak.

18 Bodega Catena Zapata	Mendoza	70.00
-------------------------	---------	-------

# RED WINE BY VARIETAL

## ROSÉ

*The most common method of making Rosé is to leave the wine in contact with the skins after crushing the grapes, which allows the extraction of colour. Though some are sweet most of the best styles are dry and refreshing with flavours of strawberry and rose petal.*

18 Triennes Rose IGP Mediterrance	Provence,FRANCE	65.00
18 Collector Shoreline	Canberra	50.00

## PINOT NOIR

*The 'fickle mistress' of the wine-making world; Pinot Noir can be stunningly complex in flavour and breathtakingly delicate in texture... That is if you were to plant it in the ideal type of soil and the weather for any given year was perfect for Pinot Noir's individual need. This may be why many winemakers dedicate their lives to taming this unforgiving grape. When young this grape is full of cherry and red berry flavours but with age a leathery, savoury character for which the grape is prized starts to appear.*

### MAINLAND AUSTRALIA

*Mainland Australia produces a variety of styles of Pinot Noir, ranging from light and fruity to medium bodied and savoury.*

19 Kooyong Massale	Mornington Peninsula	75.00
18 Kooyong Estate	Mornington Peninsula	115.00
17 Tarrawarra Estate	Yarra Valley	60.00
18 Barratt 'Piccadilly Valley'	Adelaide Hills	92.00

### TASMANIA

*Tasmanian Pinot Noir, though vibrantly fruity when young, is often complimented by earthy, almost truffle-like aromas.*

11 Domaine A	Coal River Valley	180.00
18 Dalrymple	Piper's River	85.00

### NEW ZEALAND - NORTH ISLAND

*With a climate and soil profile similar to that of Pinot Noir's homeland of Burgandy and spattering of clones of the most highly coveted DRC vines, it comes as no surprise that Martinborough produces some of the finest Pinots in the new world.*

14 Ata Rangī	Martinborough	195.00
--------------	---------------	--------

### NEW ZEALAND - SOUTH ISLAND

*There are some great Pinot Noir styles being produced in various regions throughout the south island of New Zealand but they are fast becoming overshadowed by those of Central Otago, the world's most southerly wine growing region.*

16 Wild Earth	Central Otago	85.00
17 Amisfield	Central Otago	119.00
16 Valli 'Waitaki Vineyard'	North Otago	145.00
17 Fromm 'La Strada'	Marlborough	78.00
17 Cloudy Bay	Marlborough	95.00

### USA

15 Domaine Nicolas-Jay	Willamette Valley, OR	230.00
------------------------	-----------------------	--------

### BEAUJOLAIS/RED BURGUNDY

*Burgundy is one of France's most well known regions with Pinot Noir being the dominant grape. Many winemakers all over the world use Bourgogne Pinot Noir as a benchmark for their production of the grape. Beaujolais on the other hand is located further south and although most people consider this region part of Burgundy it is actually a region of its own; with Gamay as its premiere grape.*

17 Georges Duboeuf Beaujolais Cru 'Fleurie'	Beaujolais	82.00
16 Domaine Faiveley Mercurey 'La Framboisere'	Burgundy	115.00

## GRENACHE + BLENDS

*Lighter styles of red wine with a medium body that work very well with food, in particular light red meat such as beef tenderloin or lean lamb. These wines have aromas and flavours of red berries and plum.*

18 Robert Oatley 'G-18' Signature Grenache	McLaren Vale,	65.00
17 Yalumba 'Vine Vale' Grenache	SA Barossa, SA	75.00
15 Langmeil 'The Fifth Wave' Grenache	Barossa, SA	140.00
17 John Duval 'Annexus' Grenache	Barossa, SA	135.00
17 John Duval 'Plexus' Shiraz Grenache Mataro	Barossa, SA	115.00
17 Mysterious Mr Black 'Jack' Grenache	Kalimna, SA	95.00

## MERLOT

*One of the world's most popular grapes, Merlot is used successfully in both varietal wines and in blends. It is one of the primary grapes used in Bordeaux and is the most planted grape in France but is also extremely popular in many of the world's other wine growing regions. Merlot is an early ripening grape and when produced in cooler climates tends to show light, red fruit flavours such as strawberry, raspberry and plum whereas in warmer climates it leans more toward dark berries, black cherry and chocolate. Because of its medium body, natural fruit sweetness, gentle tannin structure and soft, fleshy mouth feel it is the perfect grape to introduce the palate to red wine.*

17 Torres Atrium	Spain	60.00
18 Smith & Hooper	Wrattonbully, SA	72.00

## RHÔNE VALLEY REDS

*Home to many of the best châteaux in France the Rhône valley produces a huge amount of fine, elegant, dry red wine that is suited to food. The southern areas is generally warmer producing bolder, richer reds from predominantly Grenache while in the north finesse and elegance are presented with Syrah as the dominant grape.*

16 Paul Jaboulet Aine 'Les Jalets'	Crozes-Hermitage	90.00
11 E. Guigal Saint-Joseph, Lieu-Dit Rouge	Saint-Joseph	140.00
15 E. Guigal Cotes du Rhone	Southern Rhône	85.00
16 Domaine du Vieux Télégraphe 'La Crau'	Châteauneuf-du-Pape	255.00

## MALBEC

*Characterised by its dark inky coloured grapes, Malbec is one of the five grapes used in Bordeaux. However because of the grapes poor resistance to weather it never took off as an individual grape variety in France. It found its home in Argentina where the smaller grapes and tighter clusters lead to a deep colour, intense fruity flavour and velvety texture.*

16 Catena Alta	Mendoza, Argentina	160.00
17 Catena High Mountain	Mendoza, Argentina	75.00
17 Terrazas	Mendoza, Argentina	85.00
14 Bleasdale 'Double Take'	Longhorne Creek, SA	120.00

## SHIRAZ + SYRAH

Although there is much debate as to the origin of the Syrah (Shiraz) grape there is no argument that it is one of the most popular red wine grapes being grown and produced in Australia today. Wines labelled Syrah tend to be a lighter, fruitier style where as Shiraz generally refers to a richer, oak aged style of wine. It is a very versatile grape and can be grown in many different climates all of which result in an original finished product. In cooler areas the grape can have lifted, elegant notes of violets, mint, and eucalypt while in warmer climates rich red fruits and chocolate or liquorice are more evident. The wines are aged in oak more often than not and are well suited to bottle ageing developing softer and more balanced flavours as they progress.

### SOUTH AUSTRALIA

Home to the famous Barossa Valley, South Australia is the undisputed leader in Australia's Shiraz production. The wines are full bodied and opulent with rich, red fruit as well as liquorice, chocolate and cedar resulting from oak ageing. There are also some brilliant bottles coming from the McLaren Vale where the wines have a more floral and spicy character.

### VICTORIA

Victoria has many differing soils and regional nuances that contribute greatly to each bottle but most of them are cooler climate styles with white pepper, violets and mint as well as vibrant red fruit.

### WESTERN AUSTRALIA

Though not as well-known as the highly coveted Cabernets and Chardonnays, Western Australian Shiraz is, at it's best, full-bodied and rich with dark berry flavours complimented by a hint of baking spice, fine grained tannins bring the palate together seamlessly.

## CABERNET SAUVIGNON

*Cabernet Sauvignon is one of the highly prized and sought after red wine grapes in the world. It is grown with great success in many of the world's most recognised regions and although it is more than capable of producing wines of great depth, structure and complexity as a single varietal it is often blended with other grapes to result in some of the planet's most highly regarded reds.*

*In this country, it is best known from the Coonawarra region in South Australia as well as the Margaret River in Western Australia, but in France it is the backbone of many of the best wines from Bordeaux. The grape is also very well made in California and many wine drinkers consider these wines to be among the best in the world.*

### SOUTH AUSTRALIA

*In South Australia Coonawarra is the most recognised region for Cabernet offering dry, earthy wines that are full of berry fruit with great structure and backbone. In the Barossa Valley the darker soils contribute to a richer fruit flavour often with aniseed and chocolate.*

15 Jim Barry 'First Eleven'	Coonawarra	130.00
12 Wirra Wirra 'The Angelus'	McLaren Vale	135.00

### WESTERN AUSTRALIA

*From the Margaret River region, typical aromas of capsicum, spice and pepper with often a leafy, stalky character can sometimes be attributed to whole bunch pressing but is often just the result of the fruit.*

## RED BLENDS + VARIETALS

*Most wines whether white or red are blended with one thing in mind; balance. As with all things, flavour, acidity and texture should be in harmony with one another. If any one thing starts to dominate a wine then it can become one dimensional and lose its appeal very quickly. The wines are always labelled so that the highest percentage grape in the blend is listed first and then so on.*

### SOUTH AUSTRALIA

*Most of the red wine blended in South Australia comes from Cabernet Sauvignon and Shiraz. The Cabernet component gives the wines structure and backbone, while the Shiraz offers further depth with rich, opulent fruit.*

## RED BLENDS + VARIETALS cont...

### WESTERN AUSTRALIA

*The Margaret River is known for a savoury style of herbaceous, leafy Cabernet Sauvignon which is softened by the roundness and sweet fruit of the Merlot grape.*

## RED BORDEAUX

*Bordeaux is regarded by many as the best region in the world for the production of dry red wine. There are many laws in place to help regulate the wine industry which sometimes impedes winemakers choices but almost always guarantees wines of the highest quality. The main black grapes used in Bordeaux are Cabernet Sauvignon, Cabernet Franc, Merlot, Malbec and Petit Verdot.*

## ITALIAN REDS

### PIEDMONT

*This well-known region in Italy's northwest is best known for the Nebbiolo (Spanna) grape which is used to make both Barolo and Barbaresco. The wines are almost always very high in tannin and for that reason benefit greatly from further time in bottle although they are aged at least two years (four for riserva) prior to release.*

16 Prunotto 'Occhetti' Nebbiolo D'Alba DOC		99.00
13 Prunotto 'Bussia' Barolo DOCG		230.00

### TUSCANY

*In the hot, dry climate of Tuscany the all-star of Italian grape varieties, Sangiovese, really thrives. Sangiovese is the base for blends of Chianti but also the ever growing 'Super-Tuscan' which breaks from tradition by adding Cabernet Sauvignon and Merlot. The wines are fruity, rich and alcoholic with a natural acidity.*

## SPANISH/CHILEAN REDS

*Traditionally Spain was reknowned particularly for its Tempranillo and Garnacha (Grenache) though in last century it is becoming increasingly known for Cabernet Sauvignon, with producers such as Miguel Torres creating masterpieces to rival even the finest Bordeaux wines. Chile are reknowned for their Carménère and increasingly their Syrah with the help of John Duvall of Penfold's fame.*

## DESSERT/SWEET WINE BY REGION

*Dessert Wines are made in many different ways but in essence all of them revolve around the idea of concentrating the flavours of the grape by 'removing' some of the water inside the grape. This can be done on or off the vine by depriving the bunches of fruit of water, the onset of Botrytis Cinerea or even by natural freezing as in Eiswein. Whatever the method the result is a rich, sweet, textured wine with fruit flavours dependant on the grape or grapes used and often honey, toffee or caramel.*
