We work with people world wide and do syncrometer testing through personal consultations and saliva testing and guide our clients through the Dr. Clark protocols. We lecture on detoxification and the Hulda Clark protocols in Toronto.

Health In-Sync was started in 1998, to help guide individuals through the Hulda Clark Protocols and detoxification methods.

Gloria Ertel NTS, D.Ac, and Angelica Mark HN, D. Ac., CT, are experienced detoxification specialists, and after working with various protocols for the healing

and rejuvenation of the body, found a lot explained in the Hulda Clark program. They spent time with the late Dr. Clark, learning her methods and Syncrometer testing procedures.

In 2006 Health In-Sync acquired the Canadian division of Self Health Resource Centre from Dr. Clark's brother Leo Regehr.

Kerrie Muschalla, CNP, joined Health In-Sync in 2009 and brings her passion for helping others to achieve optimal health.

In 2010, Health In-Sync embarked on a second healing modality, called Quantum Formula's by Healers Who Share. Similar to Dr. Clark's 'homeography', Quantum Formula's are remedies based solely using energetic water. Our clients are experiencing fantastic results with this alternate way of healing.

Health In-Sync moved from Toronto to Barrie, Ontario, Canada on October 23, 2010. Our online store went live on November 16, 2010.

Design and implementation of a personal health program, which constitutes the fundamental base to regenerate from illnesses - disease, prevent their occurrence and develop optimal levels of health and fitness. The program begins with a thorough diagnostic assessment to ascertain the causes and origins of all health problems and illnesses. The regeneration of the human being is addressed through an integrative methodology of natural health methods: food as medicine, plant medicine interventions (protocols) as an extension of medicinal food preparation, the cultivation of the human energy field (Zen Yoga, Tai Chi - Qi Gong) and the application of the Psychology of creativity and human potential. The approach is an East-West / North-South integration of knowledge with emphasis in simplicity and efficacy. For every illness there is an equation of multiple factors operating at different levels of functioning: biological, psychological and spiritual. The personal health program incorporates interventions covering all these levels of functioning. Among other interventions of Natural Biological Medicine, Dr. Clark protocols and procedures are integrated in this comprehensive multi-level personal health program. Dr. Clarjen-Arconada has accumulated over thirty years of experience and has integrated Dr. Clark protocols and procedures since she published her first book in 1995.

I am A Doctor of Chinese Medicine and Acupuncture here in London Ontario. Since entering the 4 year program in 1990 I was on a search for an answer to cancer. The Chinese doctors before me had cancer described as a parasite and had been at times successful with herbal mixes. These recipes are not written down, but are known to some practitioners. Over the years of looking for common denominators in the disease I came to the conclusion it must really be a parasite that was causing the cancers in tissues too weak to fight back. While camping in Algonquin Park, a cancer survivor talked to me about Dr. Clark's book. He sold me a copy and what I read made perfect sense. Dr. Clark's ability to know the exact parasite responsible has made it possible to help with cancer patients that come my way. It has been absolutely successful in all that have taken the mix. I have been able to use my skills in acupuncture and herbs to help the body heal itself and my hypnosis therapy to ease their minds. I hope to see all these things added to the treatment of cancer patients.

Patients for the west or east coast find it less expensive to come to see us even with the costs of travel and hotel stays than to have the work done nearer home. We have seen patients from half the states and five other continents. We remove root canaled teeth, treat cavitations, and thoroughly clean tooth sockets after extractions. These poisons burden our immune systems which then allow for parasites & diseases to take hold.
