| <p>Description: Takata Corporation (Takata) has decided that a defect which relates to motor vehicle safety exists in certain 2007-2008 Cadillac Escalade, Escalade ESV, Escalade EXT, Chevrolet Avalanche, Silverado 1500, Suburban, Tahoe, GMC Sierra 1500, Yukon, and Yukon XL vehicles. This is based upon Takatas decision that front passenger airbag inflators it supplied to GM are defective. GM has submitted to NHTSA a Petition for Inconsequentiality and NHTSA has granted GM until August 2017 to complete its investigation and to submit all data supporting the petition. If the petition is denied, GM will conduct a recall of the airbag inflators covered by Takatas defect information report. For more information visit www.regulations.gov and search for Docket No. NHTSA-2016-0124.</p> <p>The propellant in some types of Takata airbag inflators can degrade over time, especially after long term exposure in hot and humid regions. If the propellant degrades to a certain level, the inflators may rupture during deployment, causing serious or fatal injuries.</p> <p>Remedy: The necessity of a remedy is dependent upon NHTSAs decision on GMs Petition for Inconsequentiality. Additional information will be available following that decision. In the meantime, you can also check the status of this recall at my.gm.com/recalls. GM considers your vehicle safe to drive.</p> | | | |

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 5/17/19 at 4:30:02 PM (CDT). First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
