

WELCOME TO PASCAL GROUP

PASCAL GROUP is an independent facility established in 2008 providing **Calibration & Repairing** Services for Testing & Measuring Instruments , **Trading** of industrial requirements , **Consultancy** for **ISO 9001:2000, ISO 14001:2004, OHSAS 18001, ISO 22000, ISO 17799, TS 16949, HACCP, CE Marking, UL Marking, ISI Marking** , Industrial Trainings of **MSA , SPC , Six sigma Black Belt , Calibration , Uncertainty etc..._**

WELCOME TO PASCAL PHYSICAL LABORATORY (CALIBRATION DIV.) – (A Unit Of Pascal Group)

PASCAL PHYSICAL LABORATORY is an independent calibration laboratory established in 2008 providing calibration of a wide range of Mechanical , Electro-technical , Electronics , Audio-video and Process control instruments. And is well equipped to cater to the stringent requirements of the Quality Management System laid down by various quality standards.

Salient Features

- ⌚ Fast Turnaround
- ⌚ Calibration Services
- ⌚ Repair Services
- ⌚ Onsite Calibration
- ⌚ Pick-Up & Delivery
- ⌚ Training & Workshops on Calibration
- ⌚ Annual Maintenance & Calibration Contract.
- ⌚ Consultancy for New Lab. Setup & Accreditation
- ⌚ Providing New Measuring & Calibration Equipments
- ⌚ Automatic Recall when Instruments are Due for Calibration
- ⌚ Training of MSA , SIX SIGMA BLACK BELT , CALIBRATION
- ⌚ Consultancy for ISO 9001:2000, ISO 14001:2004, OHSAS 18001, ISO 22000, ISO 17799, TS 16949, HACCP, CE Marking, UL Marking, ISI Marking etc...

PASCAL

As an outsourcing partner for industry PASCAL assumes responsibility for all of your Quality Assurance related requirements.

PASCAL PHYSICAL LABORATORY is without peer, providing one-stop shopping for all your calibration requirements.

PASCAL'S CALIBRATION FACILITIES AS UNDER

SL. NO.	NAME OF THE INSTRUMENTS	RANGE
1	ABBRASION TESTING M / C	----
2	ABEL FLASH POINT APPARATUS	----
3	ABRASION RESISTANCE TESTING MACHINE	----
4	ABRASION TESTER	----
5	ABRUPT PULL TESTER	----
6	ACCELERATED CURING TANK	----
7	ADHESION TESTER	----
8	AIR DELIVERY CHAMBER	----
9	AIR ENTRAINMENT METER	----
10	AIR GAUGE UNIT	----
11	AIR HYDRAULIC RIVETER	----
12	AIR PERMEABILITY APPARATUS	----
13	AIR PLUG GAUGE	----
14	AIR RING GAUGE	----
15	AIRBOMB	----
16	ALMEN GAUGE	----
17	ALTIMETER	----
18	ALTITUDE CHAMBER	----
19	AMMETER (AC / DC)	Single Range
20	AMMETER (AC / DC)	Each Additional Range
21	AMPLIFIER	----
22	ANEMOMETER (HOT-WIRE)	----
23	ANEMOMETER (THERMO)	----

SL. NO.	NAME OF THE INSTRUMENTS	RANGE

This is what our customers' want, what they need, and it's what we provide.

At **Pascal Physical Laboratory**, we listen to you and make every effort to provide the services that you need to satisfy your business requirements. This is what has made Pascal Physical Laboratory the foremost calibration lab in the North India.

We care, so we provide :-

- Fast turnaround on most calibration services.
- Eleven certified metrologists staffing one shift.
- Rush calibration service, i.e. overnight and 2-day service
- Instrument pickup and delivery free of cost.
- Onsite Calibration facility.
- Monthly notification when instruments are due for calibration.
- Software equipment management system.
- All India shipping.

We're constantly updating and expanding our electronic, mechanical and dimensional calibration capabilities by listening to your business requirements, committing financial resources to new instruments and dedicating many hours to extensive employee certification and training.

Remaining up-to-date with instrumentation and techniques is crucial to your success and ours.

We provide high-quality, state-of-the-art calibrations with documentation that satisfies your industry and regulatory or audit requirements.

For Any Queries Please Contact :-

ON – SITE CALIBRATION SERVICE ADVANTAGES

- Eliminates instrument down time and the need for spares
- Minimal interruptions to your manufacturing process
- No questions as to where your instruments are or when they will be returned
- You can have all of your calibration services done at once, or schedule them throughout the year
- Our calibration technicians are available to answer your questions immediately
- No shipping costs or delays for NCR clients.

The entire on-site calibration services process is handled by our on-site coordinators who will assist you from scheduling to document delivery.

They will assign the appropriate field service calibration technicians and answer all your questions regarding your instruments.

ON-SITE CALIBRATION CAPABILITIES INCLUDE

- Electronic
- Mechanical

- Fiber Optics
- Room / Furnace Thermal Mapping

If you don't see the type of calibration you need, that doesn't mean we can't do it. Give us a call to learn more about our full list of calibration services.

SETTING UP AN ON-SITE VISIT

- ▶ **Send a list of instruments to be calibrated and a PO number to Pascal Physical Laboratory.** Your documentation is required to ensure you obtain the correct service and meet the requirements of ISO 9001:2000, TS:16949, ISO/IEC 17025:2005.
- ▶ **Arrange for an on-site service calibration technician visit through our coordinator.** Select the combination of technical expertise and days that may work for you.
- ▶ **Coordinate with your instrument users and arrange for workspace on the appointed days. Host PASCAL technicians, make security arrangements and stage the instruments for calibration.** Our calibration technicians will need a clean, well-lit area with 110VAC electrical power and stable temperature conditions. Shutdown and breakdown the instruments as necessary for calibration and provide access to PASCAL personnel.
- ▶ Access to instruments should be arranged with the instrument users, including any lockout tagout requirements, and a point of contact to supply the instruments to the technicians for calibration during the day(s).

CALIBRATION OF LAB. STANDARDS

PASCAL is an extraordinarily diverse commercial laboratory serving many industries as well as other laboratories. Our capabilities far surpass that of most commercial laboratories.
