BLACK WIDOW LP - Black Widow II "Black Widow's eponymous second album was a conscious attempt on the band's part to scale back the satanic trappings that had dominated its debut, and, in the process, redirect the media's focus away from the controversy and onto the group's music" (AMG). On the heels of their debut album, Sacrifice, the group's music evolved into an original amalgam of progressive rock, folk, british blues and hard rock. Check out the beautiful "The Gypsy", which highlights Clive Jones' flute, and you'll realize why this album is a milestone of the genre. BLOOMFIELD, Mike CD - Live at the OLD WALDORF Although never a household name like Eric Clapton or Stevie Ray Vaughan, Mike Bloomfield was undoubtedly one of the greats of blues/rock guitar. Bloomfield is best known for his stints with the Paul Butterfield Blues Band and Bob Dylan; he played on such classic albums as Paul Butterfield's "East-West" and Dylan's "Highway 61 Revisited." "Live at the Old Waldorf" captures Mike Bloomfield in his element: onstage in his hometown, the San Francisco Bay Area. The Disc is a collection of beautifully re-mastered performances recorded between 1976 and 1977, along with a set of rare photos and extensive liner notes. The music on this disc is outstanding; old fans will be ecstatic and newcomers just may rush out to buy everything else Bloomfield recorded after listening to this disc. The mastery which Mike Bloomfield exhibited over his Gibson Les Paul guitar was amazing; he could churn out sweet, soulful BB King-style riffs or play biting, stinging lead lines reminiscent of a young Eric Clapton's work with John Mayall's Bluesbreakers. His solos on blues standards like "Sweet Little Angel" and "The Sky is Crying" are simply jaw-dropping. On several tracks Mike's old running buddy Nick Gravenites contributes his gruff voice and wry vocals; tunes like "Dancing Fool" and "Buried Alive in the Blues" are excellent examples of Nick's inimitable tongue in cheek songwriting. All the tracks on this disc have the loose, spontaneous feel of a great live recording. Listening to this disc, it is easy to understand why Bloomfield has always been so highly regarded by guitar players. His solos are like textbook examples of how the electric guitar should be played. Anyone with an interest in blues/rock guitar owes it to them selves to check out this disc by one of the lesser known heroes of electric guitar. Personnel includes: Mike Bloomfield (guitar); Nick Gravenites (vocals, guitar); Roger "Jelly Roll" Troy (vocals, electric bass); Bob Jones (vocals, drums); Mark Adams (harmonica); Mark Naftalin (piano); Barry Goldberg (organ); George Rains (drums). Recorded at the Old Waldorf, San Francisco, California between December 1976 and May 1977 & The Record Plant, Sausalito, California on November 10, 1974. Includes liner notes by Norman Dayron.	1977	Columbia / A COL 4915752	Blues Rock USA	9,90 €

BRAM STOKER CD - Heavy Rock Spectacular Bram Stoker was a mysterious British formation that pressed their first and only album in 1972. Their name evokes macabre gothic atmospheres, and so does their music - fitting for a group so clearly inspired by the 'Prince of Darkness'. In the early seventies, groups like Black Widow, Atomic Rooster and Black Sabbath ruled the day, and the up-and-coming Bram Stoker apparently had everything it needed to make it big, except a bit of luck. The band would soon faded into decades of obscurity, but not before releasing their amazing "Heavy Rock Spectacular", a true pearl of original prog, dominated by the evocative tones of the Hammond organ (dexterously played by a keyboardist who has little to envy of the great Keith Emerson or Vincent Crane). Highlights include "Idiot" with its intense and insinuating vocal riffs, the psychedelic "Ants", and the heavyweight jazz instrumental "Fingals Cave", and "Poltergeist", with sounds that seem to come straight from the abyss, transporting us into a world where everything has a new end and a new beginning.	1972	Akarma / Italy AK 257 CD	Prog UK	12,90 €
BRITISH NORTH-AMERICAN ACT LP - BRITISH NORTH-AMERICAN ACT A combination of pleasant vocal harmonies, sharp and simple songwriting and delicate psychedelic melodies which nurture the listener from the first to the last track. Check out the artwork, it's worth the album just by itself.	1969	Akarma / Italy AK 285 LP	Psych Rock CAN	12,90 €

BROWN, Pete CD - Living Life backwards - best of Harvest years	1968-7	EMI / UK EMI 338 8262	Prog. Jazz UK	9,90 €
One of the UK's most original and enduring musicians and lyricists, Pete Brown's career spans 40 years, starting with poetry performances at the Royal Albert Hall in 1965. He began his musical career in a song-writing partnership with Jack Bruce, where they penned songs for legendary super-group Cream. This 17 track collection highlights some of Brown's best work in his two Harvest label bands - His Battered Ornaments and Pibloko - a brave musical testament that was at the time a bit too leftfield for some, with its use of jazz improvisation mixed with rock and blues. Fully detailed fold- out booklet with informative sleevenotes and pictures from the period.				
BRUNNING SUNFLOWER BLUESBAND CD - Long old road - (3-CD set)	1968-	Akarma / Italy AK 246/3 CD	Blues UK	30,90 €
Always staying true to straight blues (never giving in to any of the strong hard rock currents of the time), the Brunning Sunflower Blues Band helped write the book on British Blues. The songwriting responsibility mostly fell on the 'two Bobs' (bassist Bob Brunning and pianist Bob Hall), an extraordinary talent that can only be fully appreciated on this 5-album box set. A constantly changing lineup which included at various times Peter Green, Jo-Ann Kelly, Dave Kelly and John O'Leary. The box set also contains the rare 1972 London "Hipshakin'" concert, led by the great J.B. Hutto. Mandatory purchase, to be filed somewhere next to Fleetwood Mac, John Mayall, Chicken Shack, Savoy Brown or the Groundhogs' a band of musicians who made rock fans love the blues, no easy task!

CETI CD - LAMIASTRATA This 2002 symphonice power metal release for Poland's CETI apparently was overlooked by most Western metal web sites as there is very little information available on the band or this release. Comparisons to bands such as Blue Murder, House Of Lords, Malmsteen's Rising Force and Pretty Maids would suffice. "Burning Fantasy" features some serious guitar shredding from Andrzej Lysow along with a Pretty Maids styled keyboard layer. Vocalist Grzegorz Kupczyk sounds like a cross between Ronnie Atkins on the early Pretty Maids releases and John Sykes. "The Priests Of Lie" would appeal to any neoclassical metal fan. "Hot Body And Hair" is purely mid 80's Rising Force, sans the title of the song. There is a certain amount of pomp so to speak within many of the tracks. This is not run of the mill power metal as the songs possess many changes in speed and tempo. As with any album recorded in one's secondary language, there are going to be some odd titles and vocal phrasings. Nonetheless, CETI prove that they can craft some pretty good tracks in English afterall.	2002	OSKAR / PL Oskar 1010 CD	Prog. Metal PL	10,00 €
CETI CD - SHADOW OF THE ANGEL ProgMetal act led by Grzegorz Kupczyk of TURBO and NON IRON fame. CLEAR BLUE SKY CD - CLEAR BLUE SKY These three British teenagers were discovered by producer Patrick Campbell-Lyons (member of the 1970s prog band Nirvana), who stumbled across them at one of their live gigs. The result of this relationship was Clear Blue Sky's self-titled debut, an audacious example of hard prog rock with two unique sides. Side A is comprised of their epic "Journey To The Inside Of The Sun", an authentic tour de force of John Simmons' amazing guitar playing. CLIMAX BLUES BAND CD - Rich Man First released in 1972, 4 years before the Climax Blues Band became famous with "Couldn't Get It Right," Rich Man is an excellent release from the band's pre radio-friendly days. During this period their sound was a sort of energetic, yet refined, blues rock, led by the talented guitar playing of Pete Haycock, and refined sax and harmonica of Colin Cooper. Among the best tracks are "Shake Your Love," in perfect Bo Diddley style, and the Son House standard, "Don't You Mind People Grinning in Your Face." COLWELL-WINFIELD Blues Band CD - Live Bust Billy Colwell, Mike Winfield and drummer Chuck Purro, who make up this Boston blues band, are perhaps best known for their excellent 1968 debut Cold Wind Blues, considered one of the great classics of late-sixties, but unfortunately not as well known is their rare second album, recorded live in 1970 and originally released in 1971. Here the band offers up the same exceptional jazz-influenced blues rock that first brought them into the public eye (and even earning them an opening slot for Led Zeppelin). Featuring original compositions and covers of blues classics, revisited with energy and experience. CRESSIDA CD - ASYLUM Cressida was an excellent British progressive rock band, authors of two memorable and still much sought-after LP's. Their second album, Asylum, was even more successful as their first, thanks to the captivating atmospheres and the technical ability of the musicians. Angus Cullen's pleasing vocal style is at times surprisingly folkie, while Peter Jennings unveils enviable talent and class, especially in certain jazz passages. Guitarist John Culley does the rest with clean guitar solos that never sound dated. DICE CD - 1979-1993	1979-9	Scene Records / GER S.R. 4601-3	neo-Prog. GER	9,90 €
<p>The roots of cosmic rock veterans DICE go back to 1974, and this CD first and foremost presents the band's 1979 debut album, a highly praised rarity still recorded in Hamburg with the help of some well-known musicians from the German rock scene, e.g. Alto Pappert (Kraan), Ellen Meyer (ex-singer of Tomorrow's Gift) and George Kuchbeck (Joachim Kühn). Artistically, spheres as different as rhythm'n'blues with slight jazz- rock influences and progressive wave experiments were touched. The whole thing is held together very convincingly however by the guitar work laid down by DICE-boss Christian NÓVÉ, and with its 8 added bonus tracks "DICE 79-93" gives both fans and newcomers a very good impression of what musical refinement the band has accomplished in 28 years.</p> <p>Die Cosmic-Rock-Band DICE besteht bereits seit 1974. Die CD präsentiert zunächst den längst in den Raritätenhimmel aufgestiegene LP-Erstling, welcher 1979 - damals noch in Hamburg - zusammen mit recht prominenten Szenemusikern eingespielt wurde. Dazu gehören Alto Pappert (Kraan), Ellen Meyer (ex-Sängerin von Tomorrow's Gift) und George Kuchbeck (Joachim Kühn). Künstlerisch bewegt sich das Ganze in unterschiedlichen Gefilden - angefangen von Rhythm'n'Blues- und leichten Jazz-Rock-Einflüssen bis hin zu progressiven Wave-Experimenten. Als musikalische Klammer überzeugt dabei besonders die Gitarrenarbeit von DICE-Chef Christian NÓVÉ. Mit weiteren 8 Bonus Titeln verschafft DICE 79-93 Einsteigern und Fans einen guten Überblick über das, was die Band in 28 Jahren an musikalischen Feinheiten zuwege gebracht hat.</p>				
DICE CD - Rauhe Konzerte	1983	Scene Records / GER S.R. 4612-3	neo-Prog. GER	9,90 €
<p>This live concert has already been published before in 1983 and has to be viewed as a reissue that could also have made it into the Second Battle catalogue due to its rarity status. Especially as the vinyl original was released as a strictly limited picture disc much sought after by collectors willing to pay considerable amounts of money! But as DICE does in no way represent an example of the died out species of rock monsters and has stayed very active until this day, we decided to place this release in the Early Birds section. What you can listen to is a very convincing cross-section of the band's live set as it was back then. Dieses Live-Konzert wurde bereits 1983 veröffentlicht und ist ein Reissue, das aufgrund seines Raritätenstatus vielleicht ebensogut ins Second Battle-Programm gepasst hätte - zumal das Original einst als streng limitierte Picture-LP erschien, für die im Sammlermarkt heute beachtliche Preise erzielt werden. Da DICE aber nun mal nicht zu den ausgestorbenen Rockmonstern zählen, sondern bis heute quatschlebendig und aktiv geblieben sind, haben wir auch diese CD-Veröffentlichung lieber hier platziert. Zu hören gibt es einen überzeugend guten Querschnitt des damaligen Bühnenrepertoires.</p>				
DICE CD - Nightmare	1994-9	Scene Records / GER S.R. 4604-3	neo-Prog. GER	9,90 €
<p>After many years without record output the 1997 version of the band moved further into the direction of space rock. Time and again Pink Floyd-like guitar licks manage to break through solidly built walls of sound on their meandering ways while mastermind Christian NÓVÉ accompanies this sound with his slightly Bornemann-like vocals - which is meant as a compliment, of course! On "Nightmare", the band has finally succeeded in taking its progressive potential into a state of maturity never reached before. Receptive listeners can encounter musical dream worlds which almost seemed lost and still offer many newly entered fields to explore.</p> <p>Nach vielen Jahren ohne Tonträger-Output geht die 97er Ausgabe von DICE weiter in Richtung Space-Rock. Pinkfloydeske Gitarrenläufe bahnen sich auf verwinkelten Wegen durch die dicht verwobenen Soundteppiche. Dazu singt Mastermind Christian Nové in leicht Bornemannscher Manier, was auf keinen Fall als Kritik verstanden werden soll. Im Gegenteil - auf "Nightmare" gelingt es, das progressive Potential mehr denn je zur Reife zu bringen. Aufgeschlossene Hörer können in längst verschollen geglaubte musikalische Traumwelten eindringen, in denen es viel Aufregendes zu entdecken gibt.</p>				
DICE CD - Space Rock Live	1997	Scene Records / GER S.R. 4607-3	neo-Prog. GER	9,90 €
<p>On this album, DICE show they are a perfect live act whose ensemble playing is immaculate. What could prove this better than the following entry in the "Lexikon der deutschen Live-Szene" ("Encyclopedia of the German Live Circuit", Charly Wilfer, published 2000 at Schwazkopf & Schwarzkopf, Berlin): "DICE themselves call their style space rock, which is represented without any overdubs on the 1998 CD "Space Rock Live", recorded in 1997 at a concert at the Moritzbastei in Leipzig. The press release mentions influences by LED ZEPPELIN and PINK FLOYD, while the author was immediately reminded of the GRATEFUL DEAD. Be that as it may, this is timeless rock in any case."</p> <p>Auf diesem Album zeigen DICE, dass sie eine perfekt eingespielte Live-Band sind. Wer könnte das besser bestätigen als das "Lexikon der deutschen Live-Szene (Charly Wilfer, erschienen 2000 im Verlag Schwazkopf & Schwarzkopf, Berlin)?" Hierzu die Pressestimme: "Dice selbst nennen ihren Stil Space-Rock. Dieser erklang dann ohne Overdubs auf der 98er CD "Space Rock Live", die 1997 bei einem Konzert in der Leipziger Moritzbastei mitgeschnitten wurde. Das Presseinfo entdeckte in der Musik Anleihen von LED ZEPPELIN und PINK FLOYD. Dem Autor fielen bei Hören spontan GRATEFUL DEAD ein . Wie auch immer, auf alle Fälle handelte es sich um zeitlosen Rock."</p>

DICE CD - Silvermoon	1999	Scene Records / GER S.R. 4610-3	neo-Prog. GER	9,90 €
This release represents a concept album with more than just a touch of science fiction. On this far out space rock trip Christian N��� and his band move from the "Mother of Time" on to the "Silver Moon", finally landing on a "Skyline World". This prog-rock feast with its almost sixty minutes of length shows the band at its best, sometimes with influences of PINK FLOYD, MARILLION and even late TALK TALK (who on their last albums had said a definite goodbye to chart-pop). And all of the time the music represents a never-drying fountain of delighting melodies and rousing guitar solos. People who appreciate real Krautrock-vocals as well, will soon be calling this album a sheer masterpiece of its genre. Mit diesem Werk liefern DICE ein Konzeptalbum im Science-Fiction Gewand ab. Auf dem bisweilen sehr spacerockigen Trip spielen sich Christian N��� und seine Band durch die "Mother of Time" vom "Silver Moon" zur "Skyline World". Ein fast sechzigmin��tiges Progrockspektakel, bei dem man Einfl��sse von PINK FLOYD, MARILLION oder sogar den sp��ten TALK TALK h��rt, die sich zuletzt v��llig vom Chart-Pop verabschiedet hatten. Dennoch sprudeln stets wohlthuende Melodien und mitreissende Gitarrensolis aus der Musik. Wer obendrein auch etwas f��r echten Krautrock-Gesang ��brig hat, wird das Album schon bald als ein kleines Meisterwerk seines Genres zu sch��tzen wissen.

EIRE APPARENT LP - SUNRISE + Bonus This Scottish combo is well known for its collaboration with Jimi Hendrix during their 1967 USA Tour. Hendrix liked the band to the extent that he decided to produce and play on their only full length Sunrise. The result was this fresh psychedelic record with very interesting sound effects. FREEDOM - O.S.T CD - NERO SU BIANCO (BLACK ON WHITE) Freedom recorded the soundtrack to this film by Dino De Laurentiis in 1968. At this time the band was still a foursome (they later became a trio) led by drummer Bobby Harrison, veteran of early Procol Harum. Freedom, a British psych band, characterized by the prominent organ playing of Mike Lease, became a very popular live act during the late sixties-early seventies. This soundtrack showcases the band's excellent songwriting talent (resembling early Traffic at some places on the album) and includes 3 bonus tracks (alternate takes of "The Better Side", "The Butt Of Deception" and "Born Again").	1969	Moving Image / Italy MIE 012 CD	Prog. FRIJID PINK LP - FRIJID PINK Motor City hard rockers Frijid Pink (in the same league as fellow Michigan natives MC5 and The Stooges) enjoyed relative commercial success in the 1970s with this album (their self-titled debut produced by Michael Valvano) reaching No. 11 on the US album Charts and their convincing rendition of the classic "House of the Rising Sun" cracking the Top Ten. Includes two bonus tracks, "Heartbreak Hotel" and "Music For The People", not found on the original LP.	1970	Akarma / Italy AK 216 LP	Blues Rock Hard USA	12,90 €
FRIJID PINK CD - 3 CD - BOXSET A unique opportunity to rediscover a band that despite fleeting forays into the Top Ten during the 1970s disappeared without ever receiving the full recognition it deserved. Signed to Parrot in 1969, Frijid Pink (despite its name) produced some of the most scorching blues-rock of its day, led by the exceptional song writing talents of guitarist Gary Thompson and bassist Tom Beaudry. This triple CD box contains the band's first three albums (Frijid Pink, Defrosted and Earth Omen) along with 8 bonus tracks compiled from the band's singles. GONG CD - YOU Originally released in 1974 as part three in the Radio Gnome Invisible trilogy The group recorded the album on a week-long acid trip in a cottage in England. Daevid Allen (who left the band shortly after the album's release) later recalled the recording session "it was just a wonderful, wonderful trip and we all played and played and played. And we connected so strongly together out of the improvisations, we just improvised and recorded it and then at the end of the day, we would listen to the recordings and take the pieces out that we wanted to learn." However, the band soon became split over David's lyrics and how he had decided to end the tale of Zero the Hero's experience on Planet Gong. GRACIOUS LP - GRACIOUS Heavy UK prog at its best! For their first release, in 1970, the band used the mellotron to create interseting soundscapes and sometimes acoustic guitar to give their compositions a more polished quality. Released in 1972 on Kingdom Records, Cold Cuts is one of the rarest records to ever be reissued. British psych-prog enlightened by brilliant arrangements and highly inspired tunes with echoes of Arzachel and Affinity. GROUNDHOGS CD - Scratching the surface first album. New nice-price jewel-case edition.	1968	Akarma / Italy AK 038 CD	Blues UK	9,90 €
GROUNDHOGS LP - Scratching the surface In 1968, England was in for a full blues revival, and the groups like John Mayall, Alexis Korner, Fleetwood Mac, and Chicken Shack, to name a few, were amongst the most active, not only nationally, but also across the ocean. The Groundhogs, lead by Tony McPhee, the eclectic guitarist who already had two great works with the Hapshash & Coloured Coat, commenced with this "Scratching the Surface". An album, in which the detachment from blues is not so strong. We can enjoy the great work of reinterpreting the Chicago blues within tunes like, "Still A Fool", written by Muddy Waters, or, "No More Doggin'", by John Lee Hooker, the true spiritual guide to McPhee. Steve Rye, learned harmonica player, left the band after this first album, and the band reinforced their sound, creating the foundation for a certain type of hard blues that was in vogue during the 70's.	1968	Akarma / Italy AK 038 LP	Blues UK	12,90 €

GROUNDHOGS CD - Solid	1974	Akarma / Italy AK 331 CD	Blues Rock UK	12,90 €
Recorded in 1974, after a few changes in the line up that included Clive Brooks taking the place of Ken Pustelnik on drums (but still featuring Peter Cruickshank and Tony McPhee on bass and guitar), this is the Groundhogs' seventh album. Once again the band serves up original and aggressive blues rock with a big helping of long guitar jams that never sound tired or banal. Tony McPhee coined his own personal and characteristic vision of the blues with earlier albums like "Thank Christ For The Bomb". "Solid" continues in that vein to bring us more characteristically high-quality stomped-on blues. An important chapter in 70s British blues and hard rock.

Reissue of their 1968 classic first album which is something of a electric mayhem and freeform freakout. Art students/designers, whose striking graphics and many bright and trippy posters for 60s psychedelic UK clubs like Ufo and Middle earth in London, were the creative talent behind this band. Their sound incorporated flower power, love & peace, drop out, hippy and underground trends. They could not have existed in any other era than the late 60s. New jewel box edition.

HAYWARD, Justin CD - The View From the Hill Justin Hayward carries on the legend of the Moody Blues with his latest and best solo effort. As in most MB recordings the beginning starts with an eerie spiritual instrumental before launching into the upbeat "I Heard It". All the songs are also mixed and faded into each other, just like most MB albums. Stand-out cuts include, "Broken Dream" a melancholy look at days gone by and a coming of age; "The Promised Land" focuses on immigrants with a strong beat, clever, fast paced piano and uplifting lyrics and "Troubador", an upbeat rock/folk number speaks about love and hopeful futures. Two songs seem more stringently like storytelling. "Something To Believe In" speaks in a positive way about a family on the edge and "Billy" is one of the saddest, lonliest songs ever written by Hayward. Even with it's bleak outcome, the song never reaches the depths of depression, but one of hope - a common theme in most of his songs. All in all, this album hits on all levels and there isn't a dud in the set. Reaching all extremes in songwriting skills, guitar play and setting numerous moods, this solo effort will be one long remembered. HOYLE, Linda LP - PIECES OF ME Available again. This rare album, finally available on both CD and LP, features the amazing vocals of Linda Hoyle (of Affinity and Nucleus renown), often referred to as the "British Grace Slick". But even without these impressive credentials in her portfolio, Hoyle's beautiful solo album stands firmly on its own two feet. It includes several previously unreleased tracks, plus a cover of Nina Simone's "Backlash Blues" and Laura Nyro's "Lonely Woman". The album's line-up includes guitarist Chris Spedding (Nucleus) as well as drummer John Marshall and bassist Karl Jenkins (both of Soft Machine and Nucleus). This Danish trio (originally called the Boom Boom Brothers) began life as Hurdy Gurdy during a London performance in 1968; Their first and only eponymous album recorded in '71, is considered one of the top 10 Danish rock LPs of all time. The furious guitar playing of Claus Bohling is definitely the band's secret weapon, deftly maneuvering through heavy progressive, blues and jazz. The band brings to mind the first Jethro Tull album, and the influence of Led Zeppelin and Black Sabbath can also be heard, but Hurdy Gurdy are not mere 'sound-alikes', actually their sound is rather unique, particularly in the Eastern-influenced sitar-heavy tracks. 8 tracks. INDIAN SUMMER CD - Indian Summer Indian Summer were a British progressive quartet with tremendous potential. Formed in Coventry in 1969, they were managed by Jim Simpson, of Black Sabbath and Bakerloo fame. The members were Malcolm Harker on bass, Paul Hooper on drums, Bob Jackson on keys and Colin Williams on guitar and vocals. The liner notes on the original RCA Neon label pressing, which is quite rare and collectable, we might add, mentioned that Indian Summer were in fact up against Sabbath for the opportunity of signing a record deal. The record company chose Sabbath and history shows us that they made a very intelligent choice. Indian Summer, however, were too good to be overlooked, and a year later, the record company execs were once again called to see how well the band had developed. They were signed immediately and this debut album was released. Immediately after the album's release, however, Harker left to take over his father's engineering firm. He was replaced by ex-Sorrows' Wez Price. They went on tour to promote the band but decided to call it a day when it all came to nothing. Williams retired from music altogether, Hooper joined Jackson in the Dodgers in 1978 and is currently a member of The Fortunes. Jackson would go on to join Moon and later Badfinger, and he also featured with ex-Uriah Heep vocalist David Byron on his "On the Rocks" album. He's also featured with the likes of The Motors, Jeff Beck and Jack Bruce. Indian Summer were a really good band that deserved so much more than what they received.	1971	Akarma / Italy AK 197 CD	Prog. UK	9,90 €

The band released only one more album in 1970 ("Out of Uranus") before going their separate ways. Blues pianist Lou Martin went on to play with Rory Gallagher and guitarist Mick Clarke went on to form Salt in 1974. Mid-price-reissue 120 grams.	1970	Akarma / Italy AK 99212 LP	Blues Rock UK	11,90 €

KILLING FLOOR LP - Out of Uranus Killing Floor's second album. That Killing Floor came from the harder side of the late-sixties British blues scene, had already been established on their first album, which featured a crushing style of blues rock that made many of their more illustrious colleagues pale by comparison; Mick Clark's devastating guitar solos managed to set the tracks ablaze, while still staying faithful to the traditional 12 beats. „OUT OF URANUS“ the band's second album, is faster and more rock-oriented than the first, with a few psychedelic forays, that was characteristic of many of the more politicized bands of the time, including: Edgar Broughton, Pink Fairies, and Third World War. Mid-price-reissue 120 grams.	1971	Akarma / Italy AK 99232 LP	Blues Rock UK	11,90 €

LITTLE MILTON CD - Running wild blues - (Digipak) Despite being one of the biggest selling bluesmen on Stax and Chess of the sixties and Seventies, little miltion (not a town outside Bournemouth) actually began his career at Sun in the mid-Fifties. This 27 track collection includes everything he recorded during that time bar the odd alternate take. Also included are six bonus titles on which he featured prominently as a guitarist. Three of these with pianist Willie Love predate his Sun recordings, whilst the other three feature Milton accompanying singer Houston Boines on his only ever Sun recording. MAGMA CD - ATTAKK In many ways the ultimate progressive-rock group, magma never enjoyed the commercial success that their unique brand of cosmic music deserved. Released in 1978, this album is one of their most popular, vibrant and accessible. With the emphasis on rhythm and rumbling bass, driven along by the drumming talents of Christian Vander. Including the explosive opening track, 'The Last Seven Minutes', and some amazing H.R. Giger artwork, this is something of a masterpiece. MAY BLITZ CD - MAY BLITZ May Blitz was formed by drummer Tony Newman (Sound Incorporated, Jeff Beck), a musician with a heavy hand and decidedly at home in hard rock territory. Original copies of this album (the band's 1970 eponymous debut) sell for outrageously sums, which makes this reissue an even more welcome addition to the Akarma catalogue. The attractive gatefold sleeve is suitable wrapping for such high quality content - excellent hard rock, supported by the solo guitar acrobatics of Jamie Black. Last copies of Akarma book-sleeve edition.	1970	Akarma / Italy AK 253 CD	Rock Hard UK	12,90 €
MAYFIELD, Curtis CD - Curtis - (Digipak) Classic debut by one of the seminal names almost synonymous with the word 'soul' recorded within months of leaving The Impressions. One doesn't need to be told of the importance of tracks like 'Move On Up' 'Miss Black America' and 'We The People Who Are Darker Than Blue', but if you don't know-then buy it!! Soul anoraks may wish to note that the political and topical nature of this album predates Marvin Gaye's 'What's Going On' and Gil Scott Heron's 'Pieces Of a Man' by a year. Its orchestral sound, whilst for some too similar to Isaac Hayes' 'Hot Buttered Soul' is yet to be bettered in its genre. Now reissued in stylish digipak.	1970	Charly / UK SNAP 233 CD	Funk Soul USA	9,90 €
MAYFIELD, Curtis CD - Curtis / Live - (Digipak) Recorded live at NYC's Bitter End in 1971, this is THE Curtis album. It just doesn't get any better than this. McKENNA MENDELSON MAINLINE CD - STINK Last copies on earth of this official reissue of the first McKenna Mendelson Mainline album, which was received not just as a great album of electric blues, but as some sort of revelation when it appeared in the second half of 1969. This progressive blues outfit operated out of Toronto, Ontario, between 1968-70. They were formed by Mike McKenna (gtr) formerly with the „UGLY DUCKLINGS“, Joe Mendelson (gtr. & voc), Tony Nolasco (drms) and Danie Gerard on bass from The „PAUPERS“ who was 3 months later replaced by Mike Harrison on bass. Having established themselves in Toronto , the band switched bases to England in 1968 and recorded this, their second and classic album "STINK" during their stay in the UK. The CD has some shorter and two longer tracks : the 6:40 min. long title "Mainline" and the 12:20 minute long "BAD WOMEN" This is classic progressive blues rock and a must have album for all fans of this genre.	1969	EMI / CDN EMI C2 26590	Blues Rock CDN	11,90 €

MOBY GRAPE CD - LEGENDARY GRAPE	1989	Acadia / UK ACA 8055	Rock Psych USA	9,95 €
The Mighty MOBY GRAPE (beset by various and protracted legal problems since their famous debut release back in 1967) resorted to recording in secret. A limited release on cassette issued under the name THE MELVILLES appeared briefly and became legendary amongst followers of San Francisco rock and MOBY GRAPE fanatics when it appeared in 1990. Ten previously un-issued tracks recorded around the same time as the cassette have been added and all the original members were involved in the making of "Legendary Grape". Follows hot-on-the heels of the Sony (Best of) "Crosstalk" that received critical acclaim earlier this year. Notes by David Fricke, Senior Editor of Rolling Stone Magazine.

Originally released on Roulette in 1967... this outfit came from Topeka, Kansas and this album is well worth obtaining particularly for the superb opening cut "Crusader's Smile" although many of the other cuts like "Cherry Street" feature good guitar work... they had a good live reputation and performed great cover versions of many of the punk classics of the era, which were full of fuzz and feedback. MU CD - The Last album	1974	Akarma / Italy AK 258 CD	Rock USA	12,90 €
Recorded in 1974, Mu's second album never saw the light of day because the band broke up soon after recording. Finally released as a limited Italian-only edition in 1982, the music transmits a delicate mix of soundscapes, in which elements of blues, folk and West Coast psychedelia meld together thanks to a solid guitar base and the incisive vocals of 70s cult icon Merrell Frankhauser. 20 tracks (bonus tracks!)				
MURPLE CD - IO SONO MURPLE	1974	Akarma / Italy AK 1035 CD	Prog. Italy	9,90 €
Reissue of the only album they ever made, dating from 1974. This is definitely an obscure classic of the 70s Italian progressive rock scene. A concept album in 2 long tracks, for the fans of King Crimson, Emerson, Lake & Palmer and Le Orme. Original artwork. New "Karma book" edition.				
MUSHROOM LP - Early One Morning	1973	Akarma / Italy AK 328 LP	Folk Rock IRE	12,90 €
Original copies of this incredible album by Mushroom, the Dublin duo consisting of Pat Collins (violin) and Joe O'Donnell (everything else), fetch hundreds of pounds on the rare occasions that they actually come up for sale. Musically, Early One Morning, originally released in 1973 on the Hawk label (HALPX 116) is a real one off, combining rock and psychedelic Irish folk, with tasty guitar leads battling with fiddle attacks. The results are awesome, fully justifying the hefty price tag of an original. A monster of an album!!!

In der musikalischen Attitüde von PINK FLOYD oder GROUP 1850 kombinierten MY SOLID GROUND psychedelische Stimmungen mit rockigen Songideen. PLASTIC CLOUD CD - PLASTIC CLOUD Amazing album, from a Canadian band, that combines wonderful melodic soft pop with utterly relentless fuzz guitar. The guitar truly doesn't stop, blazing on behind and around the singing, and somehow it all seems to be with a purpose. The songs are terrific, and this would have been a great pop album even without all the fuzz (or the lyrics about "smoking cow" and "sniffing glue"). RAISINS IN THE SUN CD - RAISINS IN THE SUN The members of Raisins In The Sun have worked with some of the most influential artists in popular music: Bob Dylan, The Rolling Stones, The Doors, Aretha Franklin, Big Star, Cyndi Lauper, Radiohead, Hole - the list goes on and on. But when bassist Harvey Brooks, producer/keyboardist Jim Dickinson, producers Paul Kolderie and Sean Slade, drummer Winston Watson, and singer-songwriters Jules Shear and Chuck Prophet got together in a Tucson, Arizona recording studio last year, there were no expectations. There were no songs. There were no plans. "We just wanted to see what would happen," said Jules Shear. Maybe it was the lack of expectations; maybe it was something in the desert air. Whatever the reason, these seven industry vets left Tucson with an album of roots-influenced rock and pop that they'd written and recorded in less than two weeks. Raisins in the Sun is remarkable not only for its strong songs and performances, but also for the sound of musicians making music in a spontaneous and uncalculated setting. Produced by Raisins In The Sun. Includes: "All the Way," "Old Times Again," "Candy from a Stranger," "Post Apocalyptic Observations," "You Can Let Go Now," "String Bean," "I Taught Her Everything," "Chicken Fried," "Nobody Loses," "Glenn and Stone"	2001	Acadia / UK ACA 4018	Rock Country USA	9,95 €

Only 1,000 copies of Coming To A Head, the band's second album, were originally released (1972, Armadillo Records) making original copies almost impossible to find. Their fluid and delicate psychedelic sound with the ever present violin and vocal parts in perfect harmony makes it the band's best work. SPRING CD - SPRING To borrow a few words from Vernon Joynson's "The Tapestry of Delights", it's 'difficult not to run out of superlatives' when it comes to this fine UK progressive outfit. It's probably the best 70's era progressive album to come out of the UK and, like Gentle Giant's "In a Glass House", should occupy a spot in the collection of any self-respecting lover of the genre. The band was formed in the early seventies by vocalist/mellotron player Pat Moran, keyboard player Kips Brown, drummer Pique Withers, bassist Adrian Maloney and guitarist /keyboard player Ray Martinez. This band's use of the mellotron, a kind of early sampling machine, was their trademark, and they did it tremendously well. Stunning vocals, unique military-type rhythms and superb guitar playing make this a 'must have' album. The three previously unreleased tracks, destined for release on a mooted second album which never materialized, endorse that fact. Original copies of the album are quite collectable, as are most albums on this very good record label. Drummer Pique Withers went on to Dire Straits, Pat Moran (as producer) and Ray Martinez ended up in Airwaves in the late 80's. Moran was also involved, as producer, with The Jon Butcher Axis, amongst a number of others. Martinez also featured with Alkatraz, Michael Chapman, Gypsy and others. STELLE DI MARIO SCHIFANO, Le CD - Dedicato a..... \$2,000+ Italian psych rarity that's quite good. Rarely you can find, in the yet fertile ground of the Italian 60's, a group so innovative and so diverse from all of the other ones from that era. The concept of Le Stelle (The Stars) came about in 1967, and was the work of Mario Schifano, the amazingly talented Italian Pop painter and sculptor, who collected alongside himself four young, unknown musicians. For the recording sessions Dedicated A.... the body of the group was augmented, with the inclusion of vocalist Francesca Camerana and a few more musicians. STRAWBERRY ALARM CLOCK CD - Incense & Peppermints	1967	Collectables / US COL 8015	60's Psych USA	9,90 €
This Glendale, California-based band was originally known as the Iridescentes, a surf combo with one 45 in 1963, and later as Thee Sixpence who issued several 45s under this name. The name change came with the release of the 45 Incense And Peppermints because of other similarly-named groups. This was picked up by UNI and the rest is history as they say. Strawberry Alarm Clock were very much a product of their era and their commercial brand of psychedelia was more acceptable to the general public than that of the more interesting underground bands. Like The Seeds they were very much geared to the flower power scene, and both bands were featured in a cult movie of that era, Psych-Out. One advantage they possessed over The Seeds was their catchy name, although later with the demise of flower power, this would prove to be more of a disadvantage. Efforts the band made to tailor themselves a 'psychedelic' image are evident from the apparel they wore on the front cover of their best album Incense and Peppermints, which was released on Pye (28106) in the UK. Aside from the ultra-commercial title track, this contained a number of prominently instrumental quasi-psychedelic jams, with Mark Weitz's organ usually to the fore. (- Fuzz, Acid & Flowers)

SWEET SMOKE CD - Just a poke & Darkness to light	1972-7	EMI / EU EMI 7243 5 22641 2	Psych Blues Rock USA	9,90 €
Sweet Smoke was an American music group living and playing in Europe from 1970 till 1974. Originally from N.Y. the group moved to Germany where they lived as a family commune. Within a year of their arrival they recorded their first L.P. Just a Poke which almost immediately turned them into a sort of cult icon of the underground scene which was beginning to emerge as europe's response to the american hippy scene. An extremely resourceful and creative group, they took the art of spontaneous improvising to new heights, very often involving their audiences in their music. Words like rock jazz, acid rock, raga rock, hard rock, experimental music are only some of the words used to describe their music. Looking back one can see the early roots of fusion and new age music beginning to manifest through them. Though the basic group consisted of 5 musicians, they came to most of their concerts with their communal family (10-15 of their friends) who helped them on and off stage to create an atmosphere of a musical happening.". Their first LP „Just a poke“ consists of 2 side long tracks „Baby Night (16'24)“ and „Silly Sally (16'22)“ – a true jam experience. 2 LP's remastered on 1 CD.

1970's It'll All Work Out in Boomland was the only album ever to be released by British power trio T2. It featured the potent blues guitar of Keith Cross, who is just 17 on this album. The tracks are all high quality, but the 20 min. "Morning" represents the band's imaginative apex – an excursion in hard blues with underground leanings. T2 had the good fortune of playing a very successful show at the Isle of Wight Festival, which solidified their reputation as one of the best live acts of the period

THIRD POWER CD - Believe This trio from Michigan recorded this album in 1970 and it's a triumph of spaced psychedelic heavy rock - sort of a cross between later Hendrix and Blue Cheer with flashes of liquid acid guitar and head melting bass rhythms. Beautifully melodic vocal harmonies crown a spliffing good album.... Coming now as "nice price" jewel case edition.	1970	Akarma / Italy AK 033 CD	Psych Rock Hard USA	9,95 €
THIRTEENTH FLOOR ELEVATORS LP - The Psychedelic Sounds of... Lo-cost reissue of one of the albums to lays claim to the title "Most Psychedelic Album Ever". This garage psych tour-de-force exploded out of Texas in 1966 and the world was never the same again. The "duggga dugga" electric jug sound floating over the bands savage garage power and large intake of LSD made sure that "You're Gonna Miss Me", "Reverberation" and "Fire Engine" still stand the test of time. 140 gr and red vinyl.	1966	Get Back-Lo-cost / Ital Get 90593 LP	60's Psych USA	11,95 €

TIPPETT, Keith CD - Dedicated To You, But You Weren't Listening Keith Tippet's name is probably familiar to you if you are a fan of '70s British jazz or bands like King Crimson, the Soft Machine and Blossom Toes (who all benefited from Tippet's keyboard playing on some of their greatest albums). Dedicated To You, But You Weren't Listening, recorded in 1971 (with the help of Elton Dean, Robert Wyatt, Gary Boyle and Roy Babbington), gives birth to a personalized avant-garde style that puts Tippet in a class of his own. In the years following the album's release, Tippet became involved in the jazz rock of Centipede and Ovary Lodge with his future wife Julie Driscoll. 7 tracks. TOAD CD - Behind The Wheels This record includes 14 original tracks from various recordings of TOAD, the legendary group to achieve worldwide success at a time when only British and American groups dominated the charts. Most of the songs on this CD have never been released before and tracks like "Tonight" and "Music" feature John Giblin on bass, Mel Gaynor on drums and Tommy Eyre on keyboards. Other tracks feature Mike Fraser on keyboards plus, of course, the three original TOAD members: Vic Vergeat, Cosimo Lampis and Werner Fröhlich. The first five songs feature Bobby Blotzer on drums, Tom Croucier on bass and were recorded in Los Angeles.	197	Akarma / Italy AK 309 CD	Rock Hard CH	12,90 €
TOAD CD - B.U.F.O. A surprise release from the archives of one of the most legendary power-rock bands of the 1970s! This incredibly rare EMI acetate has recently resurfaced, chock full of previously unreleased 1970 recordings of the band! Recorded by EMI and circulated only among a small handful of producers, the acetate was all but forgotten when the band was advised to go back into the studio to re-record everything for their first official album. Guitar virtuoso Vic Vergeat is phenomenal, as usual, and his exceptional talent is really put on display on these 11 excellent tracks. Many of the tracks found here were later released, but in our opinion sound a lot fresher right here. "Karma-book" edition now for nice-price.	1970	Akarma / Italy AK 99268 CD	Rock Hard CH	9,90 €

TOAD CD - OPEN FIRE - Live in Basel 1972 A previously unreleased live album that captures the full energy of this much loved 70s rock band. Emotions are high thanks to their choice of tracks and excellent live rendition. Vic Vergeat is a force to be reckoned with. He's like Alvin Lee on speed with all the power of a young Angus Young, while the rhythm section is no less than devastating. The set opens with "Tomorrow Blue", the celebrated title track from their second album, and continues with "Thoughts" and "Pig's Walk", a true guitar orgy. This is mellow blues that never loses momentum. Also includes a tribute to the legend Jimi Hendrix with "Red House" and "Who Knows".	1972	Akarma / Italy AK 329 CD	Prog. Hard CH	12,90 €

TOAD CD - Stop This Crime More brain frying heavy psychedelic blues rock from Vic Vergeat and his band of European rockers. This afterthought was recorded in 1993 but still sounds as fine as the bands earlier efforts, with plenty of tripped out lead guitar in evidence. V.A. - MAS ROCK & ROLL CD - 26 rare Southamerican 60's teen-punk artifacts!	1965-	Electro Harmonix / EU REF EH 036	60's Beat Garage Southameric	9,90 €
<p>Here it is! You could be tempted to consider "MAS ROCK AND ROLL" a label sampler since most of the artists here have their own record on Electro Harmonix, but this is mucho more! MAS ROCKAND ROLL ("More Rock & Roll") is an incredible compilation of some of the best 60s garage, punk, and rock&roll ever made south of el Rio Grande. And this means not only Mexico, but Southamerica too: Uruguay, Argentina, Chile, Colombia, Peru etc !!!! And for extra oddity added a song from The 5 Torquays (five G.I.s from the US stationed in Germany who later became THE MONKS!) and a band from Madrid, Spain.</p> <p>What you are holding here is the quintessence of what could, with no needed justification, be called some of the coolest moments in the unknown history of rock'n'roll... As told and known, for most of the past century, there has been a kind of "cultural" subculture in which the hippest cats were making the scene.... all over the world. And the scenarios we concentrate on are not in Swingin' London or LA's Sunset Strip... but in places like Lima, Guadalajara, Mar de Plata or Hamburg... We hope this set helps representing such great lost moments in the history of TEEN-music... termed Punk-Rock or Garage Music, as you wish... Thats what Electro Harmonix is all about. We hope you enjoy.</p> <p>TRACKLIST : · LOS SLEEPERS - Zombie (Mejico); · LOS SAICOS - El entierro de los gatos (Perú); · RAUL HITLER - Vivan las mujeres ! Excellent Californian band whose eponymous debut has long since been a staple on many a collector's "most wanted" list. Yankee Dollar mixes avant-garde of the period (Dylan, Buffy Sainte-Marie) with the psychedelic and innovative sound of Jefferson Airplane; a sound typical of the West Coast of the time, characterized by interesting lyrics and an expert use of fuzz guitar. The vocals of Liza Gonzales also definitely deserve mention and do justice to both the covers (Dylan's "Times They Are a Changin'" and Dino Valente's "Let's Get Together") and the band's originals ("Follow Your Dream's Way" And "Johann Sebastian Cheetah").
