Partners Logo Usage Guidelines

Introduction

Purpose

The intent of this document is to maintain consistent and correct usage of the Chronicle logo, and to provide guidance for general usage for partners, and third-party vendors.

Chronicle logo lockups

The lockups use the “n” from the typemark to maintain a standard spacing between the two logo elements. Three formats are available.

Horizontal lockup

Vertical lockup

Dos and don'ts

Partners should use the Chronicle logos provided by your Chronicle GTM or Marketing contact.

Do **not** edit or alter the logos, other than resizing them.

Do **not** use background colors other than black or white. Do **not** change the logo colors.

Do **not** add style elements to the logo.

Do **not** create your own version of a Chronicle logo and do not merge any Chronicle logos with your own logo.

Templates and diagrams

Templates

Partners should use their own corporate templates (slides, whitepapers, data sheets, etc.) for partner-led presentations. Partners can copy/paste Chronicle diagrams into the Partner's templates.

If a Partner and Chronicle are giving a joint presentation using material about both companies, a mix of Partner and Chronicle's templates (Partner template for Partner slides, Chronicle template for Chronicle slides) should be used.

Diagrams

Partners can use existing Chronicle diagrams, available as PNGs, or screenshots provided by Chronicle. Do not alter the screenshots.

For existing diagrams, partners can add their logo where reasonable but otherwise do not alter our diagrams without prior approval.

If a partner wishes to modify an existing Chronicle diagram, to better show product integration, please work with Chronicle marketing and get final approval before using.

Thank you
