

Paul White Photograph Collection

The Paul White Photograph Collection consists of approximately 362 black and white historical photographs of all sizes collected by the late Richland County Commissioner Paul White. Many image topics are centered around Mansfield and surrounding communities. Mr. White left these photographs to the Richland County Chapter OGS and their collection is part of the Ohio Genealogical Society archives – Richland County Room.

All photographs were inventoried by OGS volunteers in 2010 and 2011 on successive Volunteer Work Days.

If using the OGS Library, individual files may be pulled and utilized by asking the OGS volunteers and staff present. Regular black and white photocopies may be obtained through the mail by using the normal OGS Library Copy Service procedures/fees. If a quality photographic reproduction or scan is required, contact should be made with the Richland Co Chapter OGS to see about current rates. Contact information is provided on their website through the Chapter section of <http://www.ogs.org>

If used in a publication, credit should be given as follows:
