

PEOPLE YOU KNOW. CARE YOU TRUST. ALWAYS.

PCS Status Board

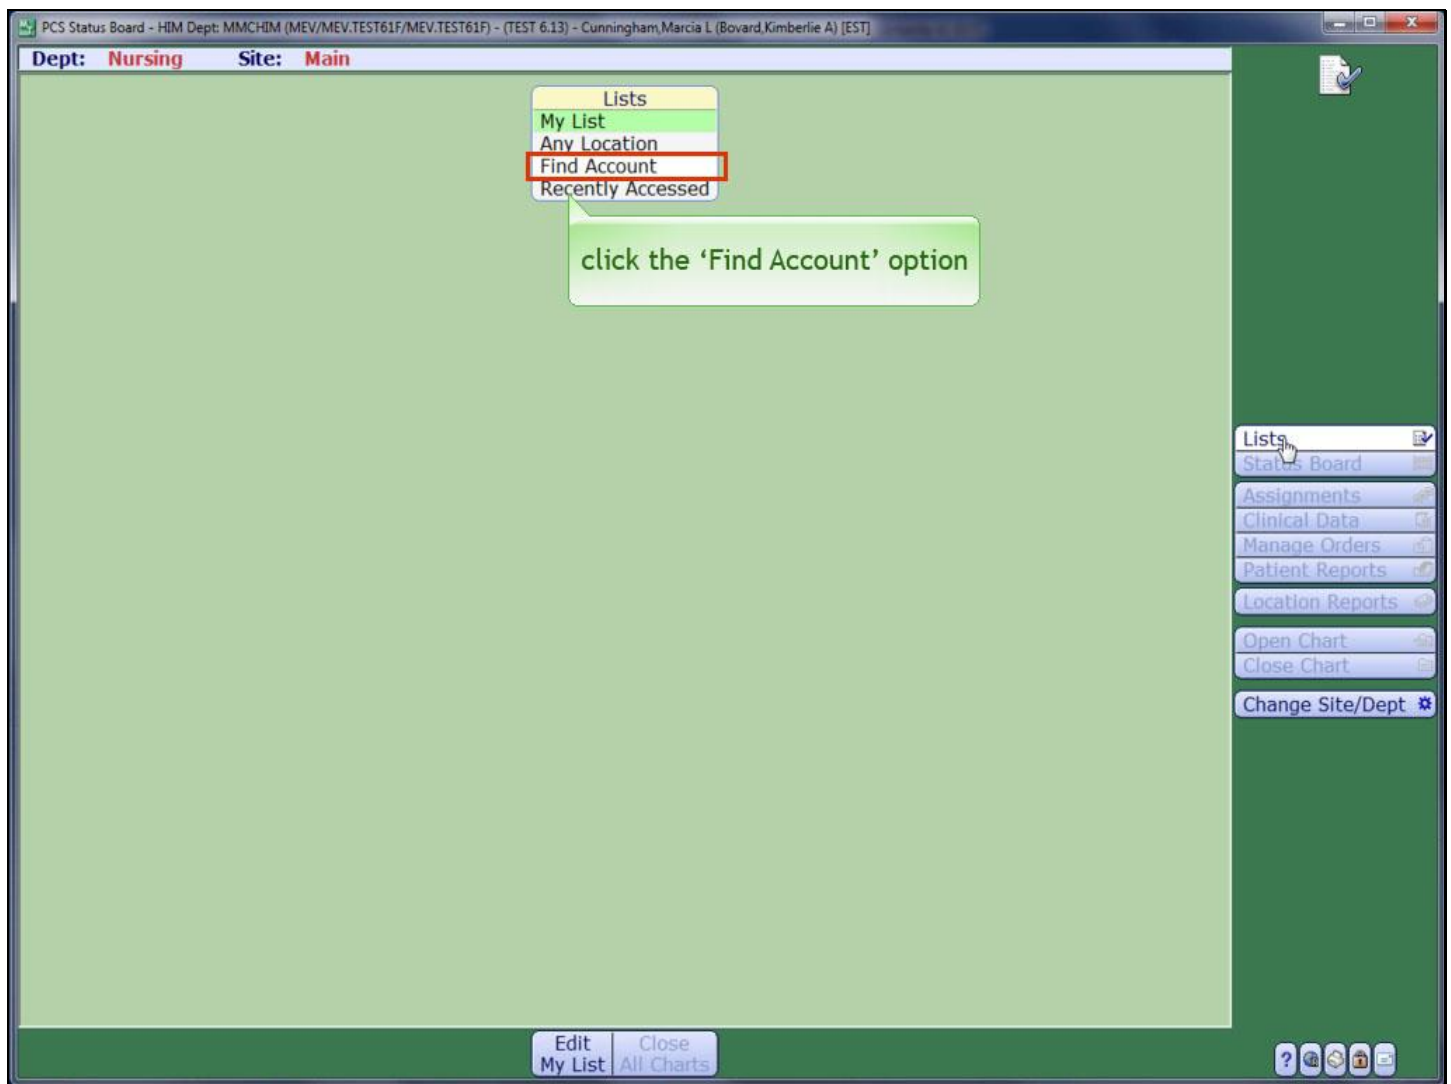

You have launched PCS and are brought directly into the Status Board. We will review the PCS functions throughout this training. However, let's start by building our patient list.

You can either assign an entire location or just a specific bed assignment.

As you can see above, there are not any patients on the Status Board.

The 'Lists' button will provide different options of adding patients to your list. Click the 'Lists' button on the right panel to explore these different options.

You may have more than one Status Board display option available.

You also have various methods of finding your patients. These options will assist you in building your patient assignment. Click the 'Find Account' option.

PCS Status Board - HIM Dept: MMCHIM (MEV/MEV.TEST61F/MEV.TEST61F) - (TEST 6.13) - Cunningham, Marcia L (Bovard, Kimberlie A) [EST]

[Search](#) [Find More](#) [Prev Date](#) [Next Date](#)

The 'Find Account' option will allow you to find a single patient based on demographic information, such as last name, first name, account number, medical record number, EMR number, or social security number.

You may also search patients by a particular provider, or patients admitted to a particular location.

Lastly you may search for patients seen on a specific service date.

For example, we will find our patient using the last name, first name lookup. For the purposes of our demonstration, we will type in 'Test,Parker'.

'My List' will now display at the top and will contain the chosen rooms and patients. It will remain this way until you click 'Edit My List' and change it.

Take a moment now to review the Status Board display fields from left to right. First is the 'Open Chart' column. This allows you to open a patient chart to access more information.

In the following column you will see the patient room, bed, and possible temporary location. Note that the column that is being sorted has either an upward or downward arrow.

To the right is the 'Patient Name and Admitting Physician' column, and then a column containing the patient's most recent vital signs.

The 'Orders' column is located next. From here you will be able to acknowledge orders if you are a registered nurse or, view new orders for all disciplines. The 'Transfer' column will contain a yellow flag when the physician has utilized the manage transfer routine. The 'Discharge' column will contain a green flag when the physician places an order to discharge the patient.

The 'Next Intervention' column will display reminders of key assessments that are due. The 'Next Med' column will display the medications ordered for that patient. Clicking in this field will launch you into the MAR. Pain reassessment reminders will also display here.

We will scroll to the right to continue viewing 'My List'.

'New Results' will provide you with any lab, micro, radiology, or blood bank results.

The 'Code Status' column displays the resuscitation order placed by the physician. The final column is the 'Comment' section; information entered here is communicated to the nursing supervisor and other management. It is not a part of the permanent chart.

All columns are able to be sorted by clicking on the header for that column. For this lesson, click on the 'Orders' header.

This concludes the lesson on the 'PCS Status Board'.

This course guided you through the steps in utilizing the 'PCS Status Board'. The following were reviewed:

- Finding a patient and building 'My List'.
- Display fields on the 'Status Board'.
- The 'Clinical Data', 'Manage Orders', and 'Patient Report' buttons.

MEDITECH best practice guidelines have been integrated into this lesson.

Please refer to your facility-specific workflows for process questions not covered in this course.
