## I. Overview.

**PDF Invoice Pro** is the complete PDF customize solution for magento. It allows you to fully customize the look of your PDF invoice easily by using html/css. **PDF Invoice Pro** support for multiple PDF layout, multiple language, right to left language, barcode and QRcode.

## II. Installation.

### 1. PDF Invoice Pro extension.

If you are using **Easy PDF Invoice** extension with **Local PDF Processor** you need to uninstall the **Local PDF Processor** before start installing the **PDF Invoice Pro** extension

#### Step 1: Disable Compilation.

- Log into Magento Admin Panel and go to System → Tools → Compilation and disable the compilation.
- After last step you can run the compilation process again.

#### Step 2. Upload package files.

- Extract the extension package.
- Upload all files and folder inside the **step1** folder to your magento root folder.
- After all files in step1 folder is uploaded, upload all files and folder inside the **step2** folder to your magento root folder.

#### Step 3. Clear cache.

- Go to **System** → **Cache Management**. Clear the store cache.

#### Step 4. Upload package files.

- Upload all files and subfolder inside the **step3** folder to your magento root folder.

#### Step 5. Clear cache.

- Go to **System** → **Cache Management**. Clear the store cache.

#### Step 5. Re-login.

- Log out and log back into Magento Admin Panel.

You have installed **PDF Invoice Pro** extension. If you get any error while install extension please contact to our support team: [support@vnecoms.com](mailto:support@vnecoms.com).

## 2. Easy PDF Invoice - Custom Variables.

This is a plug-in of PDF Invoice Pro extension. With this plug-in you will able to add product attributes and customer attribute to your PDF file. You can add only attributes which you want to display on your PDF file.

**This plug-in is optional. Install it if you need this feature.**

### Step 1: Disable Compilation.

- Log into Magento Admin Panel and go to System → Tools → Compilation and disable the compilation.
- After last step you can run the compilation process again.

### Step 2. Install the extension via magento connect.

- Get extension key from : <http://www.magentocommerce.com/magento-connect/easy-pdf-invoice-custom-variables-7546.html>
- Go to System->Magento Connect->Magento Connect Manager. Use your admin account to login again.
- Paste the extension key to the textbox then click install
- Click to **Process** to install the extension

Install New Extensions

- 1 Search for modules via [Magento Connect](#).
- 2 Paste extension key to install:

Extension dependencies

Channel	Package Name	Version	Status
community	Easy_PDF_Invoice_Custom_Variables	1.0.0.7 (stable)	Ready to install

- After you click to process button, the extension will be installed automatically until you get success message from black screen.

Auto-scroll console contents

```

Starting to download Easy_PDF_Invoice-1.0.4.1.tgz ...
..done: 14,148 bytes
Installing package community/Easy_PDF_Invoice 1.0.4.1
Package community/Easy_PDF_Invoice 1.0.4.1 installed successfully
Package installed:
  community Easy_PDF_Invoice 1.0.4.1

Cleaning cache
**
Cache cleaned successfully
```

### Step 3. Clear cache.

- Go to System → Cache Management. Clear the store cache

### Step 4. Re-login.

- Log out and log back into Magento Admin Panel.

## 3. Easy PDF Invoice - Aitoc Checkout Fields.

This is a plug-in of Easy PDF Invoice extension. With this extension you will be able to display all Aitoc Checkout Fields to your PDF template as variables.

**This plug-in is optional. Install this if you are using Aitoc Checkout Fields extension.**

Installing this extension is same as **Easy PDF Invoice - Custom Variables.**

You can get the extension key from this link:

<http://www.magentocommerce.com/magento-connect/easy-pdf-invoice-aitoc-checkout-fields-4517.html>

## 4. Easy PDF Invoice - Aheadworks Booking and Reservations.

This is a plug-in of Easy PDF Invoice extension. With this extension you will be able to display data from Aheadworks Booking and Reservations extension to your PDF template as variables.

**This plug-in is optional. Install this if you are using Aheadworks Booking and Reservations extension.**

Installing this extension is same as **Easy PDF Invoice - Custom Variables.**

You can get the extension key from this link:

<http://www.magentocommerce.com/magento-connect/easy-pdf-invoice-aheadworks-booking-and-reservations-7798.html>

### III. Get License Key & Add Domain To Your License.

- Login to your customer account at <http://www.vnecoms.com/>.
- From your customer dashboard click to **My Licenses**

The screenshot shows the 'MY ACCOUNT' sidebar on the left with 'My Licenses' highlighted. The main area shows 'My Dashboard' with a greeting and a message about updating account information.

- On My Licenses page you will see all of your licenses.

#### My Licenses

License Key	Extension	License Type	Created At	Status
[Redacted]	PDF Invoice Pro	Unlimited domains	8/6/13	Alvaible

- Click to license key to view the detail information of the license.

#### Edit License

The 'License Information' section displays the following details:

- License Key: [Redacted]
- Extension: PDF Invoice Pro
- License Type: Unlimited domains
- Created at: 8/6/13
- Expiration Date: N/A
- Status: Alvaible
- Related Order: # [Redacted]

The 'Domains' section features a table with columns for 'Logo', 'Domain name', and 'Listing'. Below the table is a prominent blue 'Add Domain' button.

- Click to add domain to add your domain to the license.

**License Information**

License Key	[REDACTED]
Extension	PDF Invoice Pro
License Type	Unlimited domains
Created at	8/6/13
Expiration Date	N/A
Status	Alvaible
Related Order	#1 [REDACTED]

**Domain Information**

Domain \*

Logo \*

Do not display my logo on "Our Customer" page

Required Fields

« Back

- Enter your domain and logo then click **Save** button.

**License Information**

License Key	[REDACTED]
Extension	PDF Invoice Pro
License Type	Unlimited domains
Created at	8/6/13
Expiration Date	N/A
Status	Alvaible
Related Order	# [REDACTED]

**Domains**

Logo	Domain name	Listing	
 VnEcoms™ E-commerce made easy!	www.vnecom.com	Yes	 

- Now copy the license key then use it to activate the extension.

#### IV. Activation Extension.

- Login to your admin panel. Go to menu **System -> VnEcoms Licenses**

The screenshot shows the Magento Admin Panel with the 'System' menu open. The 'VnEcoms Licenses' option is highlighted, and an 'Add License Key' button is visible next to it. Below the menu, the 'License Key Manager' section is shown with a table containing no records.

- Click to **Add License Key** button.

The screenshot shows the 'Add License Key' form. It includes a 'License Key \*' input field and buttons for 'Back', 'Reset', and 'Save License Key'.

- Enter your license key and click **Save License Key**.

The screenshot shows the 'License Key Manager' with one record found. The record details are as follows:

License Key	License Information
[Redacted License Key]	Extension: PDF Invoice Pro License Type: Unlimited domains Domains: www.vnecoms.com

- You will see some information about the license from the grid. Click to view detail information of the license. You also need to update your license when you add new domain to your license.

The screenshot shows the 'View License Key' detail page. It includes a 'License Key \*' input field and buttons for 'Back', 'Reset', 'Delete License Key', and 'Update License Key'. Below the input field, the 'License Key Information' is displayed in a table:

License Key Information	
Extension	PDF Invoice Pro
License Type	Unlimited domains
Created At	Aug 6, 2013
Expiration date	n/a
Domains	www.vnecoms.com
Status	Active

## V. User manual.

### 1. Manage Purchased PDF Template.

Here you can manage all PDF template which you purchase from our store. After you purchase a PDF template you will get the package to import here.

**Magento Admin Panel** | Global Record Search | Logged in as admin | Tuesday, August 6, 2013 | [Try Magento Go for Free](#) | [Log Out](#)

Dashboard | Sales | Catalog | Mobile | Customers | Promotions | Newsletter | CMS | Reports | **Easy PDF** | System | [Get help for this page](#)

**Latest Message:** Get More eCommerce Power with Magento Enterprise [Read details](#)

**One or more of the Indexes are not up to date:** Catalog Search Index. Click here to go to [Index Management](#) and rebuild required indices.

**Template Manager** [Add Template](#)

Page 1 of 1 pages | View 20 per page | Total 1 records found [Reset Filter](#) [Search](#)

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions [Submit](#)

ID	Name	SKU	CSS Path	Action
1	Free001	easypdf-free-001	ves_pdfpros/invoice_template/free-001/invoice.css	<a href="#">Edit</a>

In the package extension you will see a free template file **easypdf-free-001.xml** you can use this template for your pdf templates. From above image you can see the **css path** field. This is the path of the css file. you can modify this css file to change your pdf but this is not recommend.

### 2. Manage PDF Templates.

This page lists all of your pdf templates.

**Magento Admin Panel** | Global Record Search | Logged in as admin | Tuesday, August 6, 2013 | [Try Magento Go for Free](#) | [Log Out](#)

Dashboard | Sales | Catalog | Mobile | Customers | Promotions | Newsletter | CMS | Reports | **Easy PDF** | System | [Get help for this page](#)

**Latest Message:** Get More eCommerce Power with Magento Enterprise [Read details](#)

**One or more of the Indexes are not up to date:** Catalog Search Index. Click here to go to [Index Management](#) and rebuild required indices.

**PDF Template Manager** [Add Template](#)

Page 1 of 1 pages | View 20 per page | Total 1 records found [Reset Filter](#) [Search](#)

ID	Logo	Identifier	Store View	Customer Group	Comment	Priority
4		test_pdf_template	All Store Views	NOT LOGGED IN General Wholesale Retailer QAAAA		1

When you add new template or edit an exist pdf template you will get the page like image below.

The screenshot shows a web interface for editing a PDF template. At the top, there are navigation buttons: Back, Reset, Delete Template, Save Template, and Save And Continue Edit. The main content area is titled 'Edit API Key '4'' and contains several form fields:

- Identifier \***: A text input field containing 'test\_pdf\_template'.
- Logo \***: A file upload area with a 'Browse...' button, 'No file selected.' text, and a 'Delete Image' checkbox.
- Store View \***: A dropdown menu with options: 'All Store Views', 'Main Website', 'Main Store', 'English', and 'French'. 'Main Website' is selected.
- Customer Groups \***: A dropdown menu with options: 'NOT LOGGED IN', 'General', 'Wholesale', 'Retailer', and 'QAAAA'. 'NOT LOGGED IN' is selected.
- Comment**: A large text area for entering a comment.

On the left side, there is a sidebar with a 'PDF Template Information' section and sub-sections for 'Additional Css' and 'Design Template'.

The first section is **PDF template information**. From this section, you can set a PDF template is used for individual store or customer group. The logo which you upload from here will be used to the PDF file.

This screenshot shows the 'Additional CSS' section of the 'Edit API Key '4'' form. The sidebar on the left now highlights 'Additional Css'.

The main content area has a title 'Additional CSS' and a large text area containing the CSS code: `..easypdf-free-001{color: #333;}`. Below the text area, there is a note: 'Your classes must be start by .easypdf-free-001 . Ex .easypdf-free-001 .your\_class'.

The second section is **Additional Css**. here you can add the additional css for your pdf template. We recommend you to add your css here instead of modify the css file of **base pdf template**.

The third section is **Design** on this section you can design your PDF templates using html/css. First you may need to choose **Base PDF template** which is purchased from our store. You can choose a base PDF template then modify it to match your requirement.

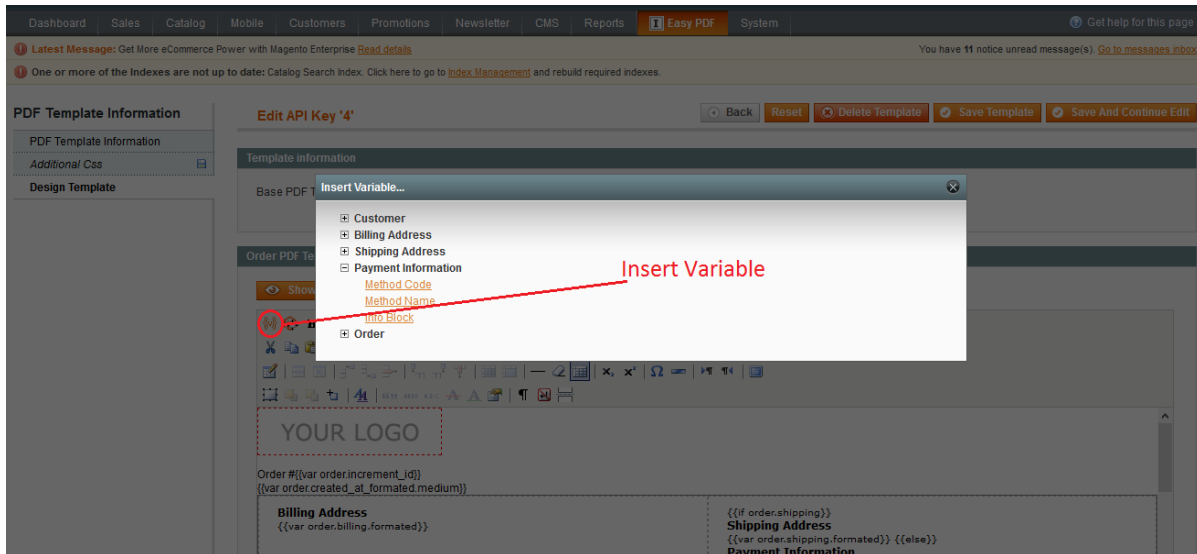

```

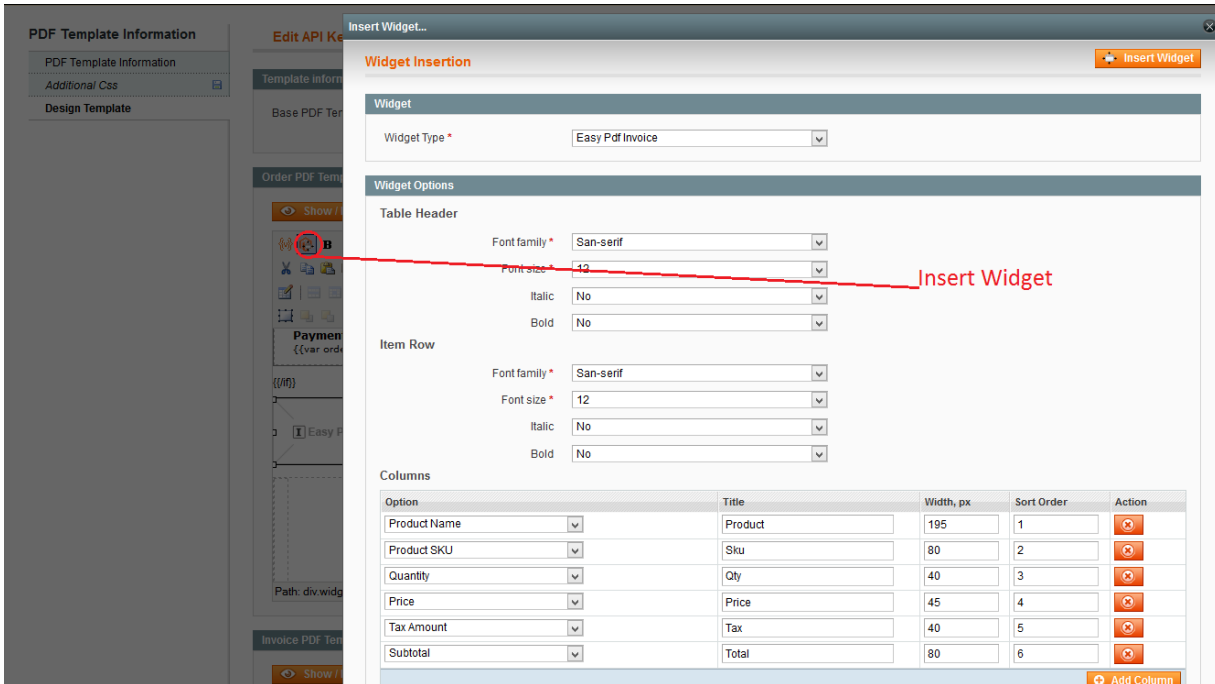

<div class="logo-container">{{var MY_LOGO}}</div>
<div class="logo-container">This is test message</div>
<div class="invoice-header">Order #{{var order.increment_id}}<br /> {{var order.created_at_formatted.medium}}</div>
<table class="tbl-info" cellspacing="0" cellpadding="0">
<tbody>
<tr valign="top">
<td>
<h3>Billing Address</h3>
{{var order.billing.formatted}}</td>
<td>{{if order.shipping}}
<h3>Shipping Address</h3>
{{var order.shipping.formatted}} {{else}}
<h3>Payment Information</h3>
{{var order.payment_info}} {{/if}}</td>
</tr>
</tbody>
</table>
<p>{{if order.shipping}}</p>
<table class="tbl-info" cellspacing="0" cellpadding="0">
<tbody>
<tr valign="top">
<td>
<h3>Payment Information</h3>
{{var order.payment_info}}</td>

```

You can switch between **wysiwyg** editor and **html** editor.

Insert variables very easy by click to the icon from editor then you will see all available variable.

Insert the items widget very easy. You can define the lable, font, size of each columns.

### 3. Configuration.
