Education. The story so far

It is no secret that a good education has the power to change a life. What is new is the demand for that change.

Governments are investing in the education of their citizens more than ever before, eager for them to compete in the global workforce. People are spending more of their own money on educating their families and themselves. Combined with technologies that continue to develop at breakneck speed, the result is a world that has the desire, and the means, to learn on a scale never seen before.

The global challenge for education is not just about providing access, but also ensuring progress.

Our vision is to help people throughout the world understand each other better by better understanding the needs of each individual learner. More than 1.5 million teachers and 35 million students use our English language learning resources and tools each year. We offer dynamic and effective learning solutions to individuals, institutions and corporations in over 150 countries.

As the world's leading learning company, we can help make a difference.

Working together to support education

Measuring success

Our purpose as a company – and, ultimately, the true measure of our success – is to ensure we really do help equip more people with the knowledge and skills they need to progress in their lives.

Technology

We believe that technology has the power to transform education, to make it more effective and personal. We also know it can't be done alone – so join us!

Changes and the reform

We are leading the change through materials that meet the new LOMCE requirements and supporting skills for progression in study, work and life.

Changes and educational reform

We are leading the change through materials that meet the new LOMCE requirements and supporting skills for progression in study, work and life.

The LOMCE gives more prominence to core subjects and to Foreign Language Learning. In the area of foreign languages, the reform brings a more extensive timetable, an increase in content and an emphasis on communicative skills.

It also fosters the integration of Key Competences into everyday learning and the application of knowledge to real world concepts. New systems and criteria for evaluation have also been introduced.

Pearson's textbooks meet the requirements of the new legislation and provide adequate materials to ensure a successful language learning experience for both teachers and learners.

You will find updated information about the law and specific LOMCE materials for your textbooks by clicking on the section LOMCE News and materials at www.pearsonELT.es

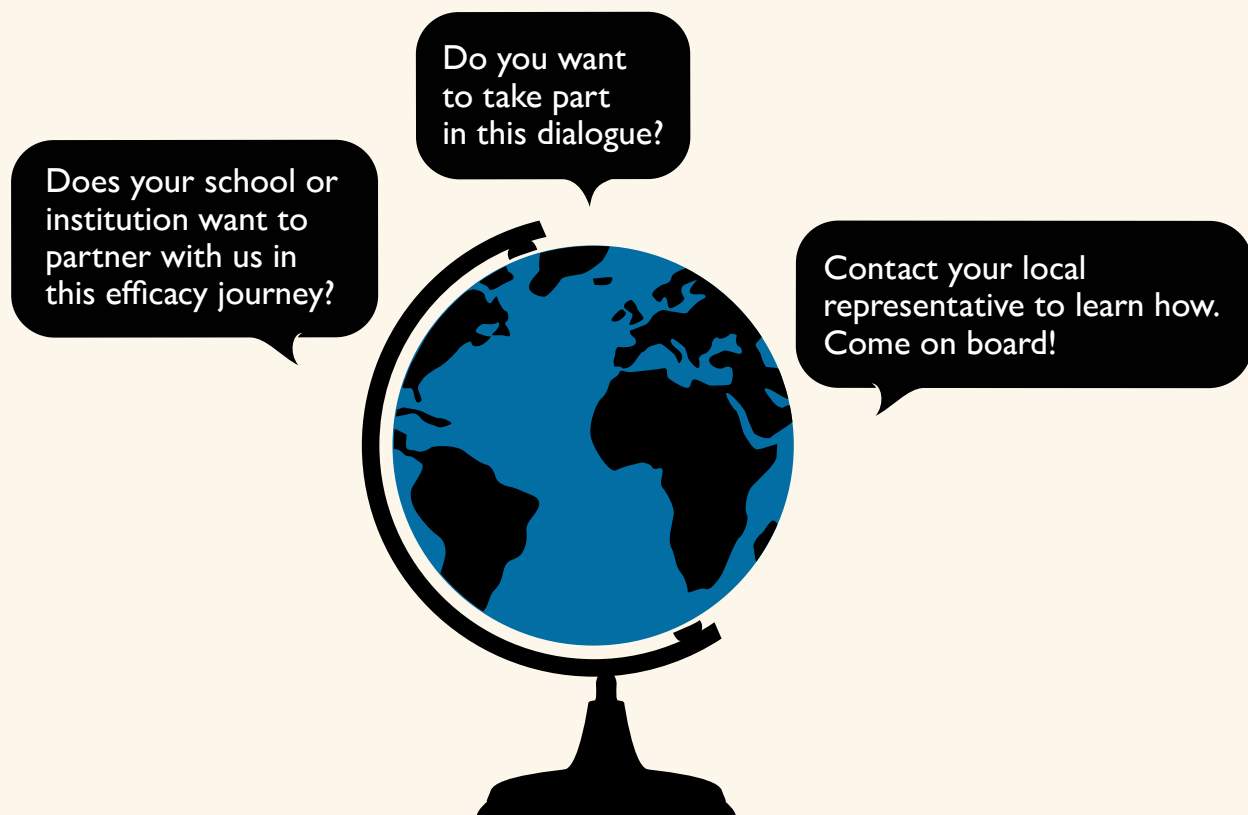

Making measurable impacts on people's lives

WHY. As an educational company we believe we have the responsibility and overall mission to ensure that we help equip more people with the knowledge and skills they need to progress in their lives – this is ultimately the true measure of our success.

WHAT. We refer to this commitment as 'efficacy', and we have publicly pledged to report on learning outcomes of our entire range of products from 2018. We have also shared our [efficacy toolkit](https://efficacy.pearson.com/efficacy-tool/) (efficacy.pearson.com/efficacy-tool/), the method we use to understand how our products and services will achieve their intended outcomes.

HOW. We want to have a dialogue and collaborate closely with you. Openness and transparency are key to our efficacy journey, we want you to join us as we recognise that we won't have all the answers. Our aim is to move forward, together as a global community, from a culture that focuses on the inputs of education, to one that measures its success by outputs.

ON ISLANDS

Óscar Ruiz Maroto

Islands has been designed for bilingual schools or schools with more intensive English programmes. We believe that pupils will enjoy learning English with the games and the wide variety of activities that the material offers, and will be especially motivated by the online world.

Magdalena Custodio

We wanted Islands to be a flexible course - no matter what your teaching style is, we think Islands is going to fit in with it. Our aim was to provide teachers with a vast amount of resources: activities, worksheets and digital resources, as well as incorporate a CLIL lesson into every unit, making content more meaningful for every pupil.

Watch Islands Authors videos at
www.pearson.es/islands

Sagrario Salaberri

We designed a clear step by step methodology to make Islands very easy to use. And as it is literacy-based, your pupils will learn how to read and write in English in a natural way.

ON BIG ENGLISH

“What matters to me most are the things teachers care about and issues teachers face in the classroom. You all want the best for your students. You want them to be self-sufficient learners; and you want to help them pass their exams. And when it comes to the classroom materials, you all agree on one thing - keep it simple. Show us the steps to integrate all these critical things into our daily lessons but keep it streamlined and manageable. Make it fun but also make it achievable. So I have taken your advice to heart... everything you said you wanted and the teacher support items you said you needed.”

2 Read the clues. Guess the names of the activities from Exercise 1.

- You do these two activities on water. Surfing...
- You need a pony for this activity.
- You need a paddle for this activity.
- You use a ball in this activity.
- You walk a lot in this activity.
- You make music on these kind of instruments.
- You make a picture in this activity.
- You use darts with a club in this activity.

	morning	afternoon
Lisa	surfing	
Joe		

4 Write three sentences about activities you like and don't like.
I like *skiing* but I don't like *hurling*.

Reading

1 Look at the photos (1–4). What activities can you see?

2 Read the text quickly. Match the photos (1–4) to the correct paragraph (A–D).

3 Read the text again. Choose the correct options.

- Ricky is a professional sportsman.
- The first thing Ricky does is to check the weather.
- The reporter Amanda Moreno is spending the day with Ricky.
- Ricky and Amanda are in Copacabana beach in the morning.
- One of Ricky's best friends is called Leo.
- Ricky is very good at swimming.

4 Guess the job. Then listen to Ricky and check.

5 Find words in paragraph A that mean:

- an unusual name
- mountains in the Americas
- to rise to the surface of the water

6 What about you? In pairs, ask and answer.

- What sport are you good at?
- What sport is popular in your country?
- What sport is the most popular in your country?
- What sport do you like?
- What sport do you dislike?

Guess the Job!

Reporter Amanda Moreno is spending the day with nineteen-year-old Ricardo Dos Santos. He's a university student from Brazil.

A It's 8:00 a.m. and I'm having breakfast with Ricardo - nickname Ricky - in Copacabana Mountain in Rio de Janeiro. It's December, so the weather is great at the moment. The students aren't studying - they're on holiday. Today, I'm taking photos of Ricky for our **Guess the Job!** competition.

B Ricky's first activity today is mountain biking. He isn't riding down the road - he's riding up the road. It isn't easy!

C It's 11:00 a.m. Now we're hiking up the mountains for Ricky's next activities. I'm not enjoying it, but Ricky likes walking and climbing. Now we're at the top. Ricky is ice climbing and skateboarding. He's having fun!

D Now it's 4:00 p.m. We aren't on the mountains, we're in Copacabana beach. Ricky is swimming and surfing. Surfing is a popular sport here and Ricky is very good at it. But why is he doing all these activities? Can you guess the job?

Is Ricky ...

- a professional sportsman?
- a student in a film?
- a holiday camp instructor?

Reality television

is a type of TV programme that presents situations without scripts and uses unknown people instead of professional actors. The producers of these programmes guarantee entertainment by choosing interesting people and editing the episodes carefully. Here are three of the most popular:

AMERICAN IDOL

The aim of the show is to find the best new solo pop singer. Viewers can vote by telephone, by text or online. Auditions take place around the country and are open to anybody aged 15-24. A panel of five judges chooses the performance and the results are broadcast live. The prize is a \$1 million recording contract.

THE X FACTOR

This is another music competition to find new talent. It's the biggest television talent competition in Europe. Anybody over 13 can audition. Contestants are divided into four groups: female solo artists under 30, male solo artists under 30, singers over 30 and bands. Each judge takes one group and coaches them during rehearsals. The prize is a \$3 million recording contract.

ON SPEAKOUT

Speakout has been one of the most exciting projects we've ever worked on. There's a fantastic synergy between the authors (and editors too!). We all get on like best friends, so our meetings are full of jokes and chocolate, as well as serious discussions about the materials, and the latest trends in teaching methodology. We've been so lucky to be able to work with the BBC and have access to their archives to select great video material for the course. It has made all the difference. PEARSON TEST OF ENGLISH - SHOW THE WORLD HOW GOOD YOUR ENGLISH IS!

Whatever your age and wherever you study or work, Pearson can offer you an English language test that can help you make progress in your life by showing schools, universities, companies or other institutions the level of language proficiency you have reached. All our PTE exams are provided in partnership with Edexcel, the UK's largest awarding body for academic and vocational qualifications and are clearly aligned to the Common European Framework.

PTE-Young Learners tests provide fun English language assessment for Primary school pupils aged from 6 to 12. They assess a young learner's ability to use English language communicatively, with an emphasis on real-life scenarios rather than on knowledge of specific language items and vocabulary.

- Four different levels of PTE Young Learners from pre-A1 to A2 level.
- Candidates can sit the exam at their own school. Ask us about becoming a test centre!

Our PTE General exam suite is designed to reward positive achievement in English language learning and is perfect for teen and adult students. Our tests integrate all four skills and focus on assessing the ability to communicate in English, rather than on test-taking skills. The tasks in the test are a natural continuation of what happens in and out of the classroom, giving you the opportunity to perform at your best.

- Recognised by universities, regional education authorities and employers around Spain.
- Already the exam of choice for thousands of Spanish students needing to accredit their level of English, especially at B1, B2 and C1 levels.

PTE-Academic is the world's leading computer-based test of English for study abroad and immigration. It assesses the real-life English skills you need at university and for living abroad, and is approved by the UK and Australian governments for visa applications as one of the most secure and rigorous English proficiency tests around.

Online and on-demand at one of our Pearson Professional centres in Spain. One single 3-hour test, and results in under 5 days.

Accepted by thousands of international academic programmes including most UK universities, as well as the most prestigious universities around the world such as Yale or Harvard.
