

# PENNSYLVANIA

The simple choice for energy efficiency.

April 2017

## Families and businesses are saving with the help of ENERGY STAR®

Pennsylvania is home to more than **519** businesses and organizations participating in the U.S. Environmental Protection Agency's ENERGY STAR program:

- 81** manufacturers of ENERGY STAR certified products
- 32** companies supporting independent certification of ENERGY STAR products and homes
- 83** companies building ENERGY STAR certified homes, three of which are committed to building 100% ENERGY STAR

as well as many businesses, school districts, governments, and faith-based groups using ENERGY STAR resources to reduce energy waste in their facilities.

### Across the state of Pennsylvania

**5,654,291 customers** are served by ENERGY STAR utility partners

**22,107 homes** have earned the ENERGY STAR

**19,501 buildings** (nearly 1.8 billion square feet) have been benchmarked using EPA's ENERGY STAR Portfolio Manager

**1,033 buildings** have earned the ENERGY STAR for superior efficiency, including 284 schools, 16 hotels, 7 hospitals, 274 office buildings, and 4 industrial plants

U.S. Steel Tower, Pittsburgh, PA.  
ENERGY STAR Certified in 2016.

### Recent Partner of the Year Winners

- Air King America
- Brandywine Realty Trust
- EnergyCAP Inc
- Liberty Property Trust
- North Penn School District
- PECO
- PPL Electric
- Ricoh USA, Inc.
- Saint-Gobain

### State Spotlights

**Air King America** offers one of the most complete lines of ENERGY STAR qualified ventilation products on the market including Bathroom Exhaust Fans, Continuous Operation Exhaust Fans, Inline Exhaust, Under Cabinet and Chimney Range Hoods.

"It's an honor to be recognized again by the EPA for our innovative energy efficiency solutions that are helping our customers save energy and money every day." – **Craig Adams, President and CEO, PECO**

**SEPTA's** Headquarters in Center City Philadelphia, built in 1972, represented an ongoing energy challenge for facility managers confronting the daily realities of a building constructed in an era of cheap energy prices and little regard for energy-efficient design. ENERGY STAR certification has aided building managers in overcoming this challenge.

*"Ricoh prides itself on efficiency and adaptability in the new world of work, and our partnership with ENERGY STAR plays a key role in that. We don't see business results at odds with sustainability: We see sustainability as an opportunity to better serve our planet as we find ways to better serve our customers. Sustainability is in our DNA, and we are proud to continue building on it today and into the future."* – **Donna Venable, Executive Vice President, Ricoh Americas**
