Pennsylvania Sustainable Forestry Initiative®

Implementation Committee

**Directory:
Participants,
Partners,
Supporters
and Loggers**

The work of the Sustainable Forestry Initiative® (SFI®) starts with a Standard but SFI is much more. SFI Implementation Committees (SICs) are the grassroots network that broadens the reach of the SFI program. The Pennsylvania SIC extends the SFI program's reach by working to foster an appreciation of conservation and forest management throughout the forestry community. A partnership among private landowners, independent loggers, forestry professionals, local government agencies, forestry associations, academics, scientists and conservationists, the Pennsylvania SIC representatives include the following:

Pennsylvania SFI® Implementation Committee

Ken Roberts Verso Corporation (SIC CHAIR)*
 Todd Sparks Hancock Forest Management (SIC VICE CHAIR)*

PENNSYLVANIA'S HARDWOODS INDUSTRY STANDS PROUD WITH THE SFI PROGRAM

Pennsylvania hardwood stands for quality. When you buy Pennsylvania hardwood, you're buying the world's best. When you take the next step and buy Pennsylvania hardwood from manufacturers/suppliers certified to the Sustainable Forestry Initiative® (SFI®) Standard, you're helping ensure a continuous supply of quality hardwoods for generations to come.

SFI Inc. is an independent, nonprofit organization that is solely responsible for the internationally recognized SFI program. The program promotes sustainable forest management, improved forestry practices, and responsible purchasing of forest products through its forest certification standard. By following the SFI Standard, forest landowners, forest managers, forest products producers and other program participants practice responsible forestry on the lands they manage, and influence millions of additional acres in North America and globally through unique fiber sourcing requirements.

At the heart of the SFI Program are 34 SFI Implementation Committees (SICs) spread across North America that work independently at the state, provincial or regional level to support the growth of sustainable forest management. No other forest certification program in the world has this level of grassroots support to promote responsible forestry.

Since 1995, the Pennsylvania SIC has worked with local conservation groups, government agencies, forestry and professional associations, landowner groups and many others in providing leadership and sharing best practices to improve forest management on both certified and uncertified lands. To date, the Pennsylvania SFI Professional Timber Harvester Training Program has trained more than 7,000 individuals, improving safety, resource sustainability and professionalism. To learn more about the Pennsylvania SIC, please visit our website (www.sfiopa.org).

In Pennsylvania, more than 105,000 acres of forestland are SFI-certified, 54 companies hold SFI Chain of Custody Certificates, and 26 companies hold SFI Certified Sourcing Certificates. This directory lists SFI Program Participants, SIC Partners, SIC Supporters and Professional Timber Harvesters representing companies, organizations and others presently committed to sustainable forest management in Pennsylvania.

CERTIFIED SFI PROGRAM PARTICIPANTS OPERATING IN PENNSYLVANIA

SFI Program Participants are fully committed to upholding the SFI program standard and are certified through independent auditing. SFI Program Participants believe forest landowners have an important stewardship responsibility and a commitment to society, and they recognize the importance of maintaining viable commercial, family forest and conservation forest land bases. They support sustainable forestry practices on forestland they manage, and promote it on other lands.
