Advances in Drug Delivery

Y. Madhusudan Rao and A V Jithan

New Book Series

Advances in drug delivery is a very specialized area of pharmaceutics where in the principles and technologies applied in the formulation and development, are emerging and progressing. Advances in Drug Delivery incorporates latest information regarding various subjects of drug delivery. Drug delivery is a broad term encompassing various means of achieving optimum drug reach to the target tissue, cell or the receptor. Several preformulation, formulation, biopharmaceutical, targeting and pharmacokinetic principles are applied in drug delivery. Research and development in drug delivery is increasing at a rapid pace throughout the world. The need for increased efficiency of new therapies and reduction in future public health expenses will definitely bolster this area of research and development. In order to meet this demand, many well known and efficiently applied

drugs will be reformulated in new drug delivery systems that can be value-added for optimized therapeutic activity. Further, several new molecules are being generated by medicinal chemists and their formulation is not any more empirical but it is now very systematic. The aim of book is to enlighten pharmaceutical scientists all around the world with latest information on the topics which are involved in cutting edge growth of pharma research and industry.

Highlights

- A chapter on hot melt extrusion is included
- Included a chapter on oral disintegrating tablets - a value addition product
- Caters to all those who aim to achieve higher objectives in drug delivery

About the Editors

Prof. Y. Madhusudan Rao, M.Pharm, Ph.D is currently working as senior professor in University College of Pharmaceutical Sciences, Kakatiya University, Warangal. He with 35 years of experience in teaching and research, 155 research publications, 15 review articles, guided 27 scholars for Ph.D, is having 6 national and 1 international patent. He taught cosmetic technology for B.Pharm and M.Pharm students for more than 13 years. He guided the research work for 3 students at M.Pharm and 1 student for Ph.D in the field of Cosmetics and Cosmeceuticals. He acted as consultant to many industries producing cosmetics and few of the products developed are commercialized and launched. A few more cosmetic products are to be launched this year. Apart from his interest in cosmetics, he has considerable experience and publications in Novel drug delivery systems, Biopharmaceutics and Pharmacokinetics. He received research projects from various funding agencies.

A. V. Jithan, Ph D is currently working as Principal and Professor at Mother Theresa College of Pharmacy, Hyderabad. Dr. Jithan is a recipient of several awards and medals in his entire academic career. He has authored a textbook for M.Pharm. Students with the title: Oral Drug Delivery Technology published by PharmaMed Press, Hyderabad. He has guided number of M.Pharm students and currently guiding Ph.D. candidates. He has 50 peer reviewed publications. He is a recipient of SERC-Fast track grant from DST India.

Contents:

Volume - III: 1. Iontophoretic Drug Delivery 2. Solid Lipid Nanoparticles 3. Orodispersible Films 4. Preformulation 5. Colon Targeting 6. Hydrogels 7. Nanomedicines in Healthcare Systems 8. Brain Targeting 9. Liposomes 10. Osmotic Drug Delivery Systems

Cosmeceuticals

Y. Madhusudan Rao and Shayeda

In cosmetic industries most of the details are kept as secrets and are not fully disclosed. Herbal and Natural Cosmetics and Cosmeceuticals are not discussed properly and very few literatures are available. The evaluation part of the products are mostly not disclosed. This book covers regulatory aspects of Cosmeceuticals in various countries including India. Regulatory aspects also differ in various countries as far as Cosmeceuticals is interpreted differently. In some countries they are equated as Cosmetics, in others they are considered as OTC drugs/drugs. The author has been associated with teaching and research field of cosmetics for more than 30 years. He acted as consultant to many industries producing cosmetics. This book is useful for students of pharmacy (under graduate and post graduate), teachers and people in cosmetic industry and allied fields.

Contents: 1. Cosmeceuticals 2. Acne and its Treatment Options 3. Anti-Aging 4. Antiperspirants and Deodorants 5. Sunscreens 6. Hair Dyes 7. Psoriasis 8. Leucoderma and its Treatment 9. Hyperpigmentation and its Treatment 10. Medicated and Antidandruff Shampoos 11. Medicated Toothpastes
2012 978-93-81075-93-7 423 pp HB Rs. 2495.00

Oral Drug Delivery Technology, 2nd Ed.

Aukunuru Jithan

- The structure of the book is revamped to give a more elegant look and comprehensive overview. Several chapters have been revised and expanded to provide greater insight.
- The entire chapter on oral formulations has been given a totally new look. Description of all types of oral formulations has been included in this one chapter.
- A chapter on process validation has been added.
- Chapters on safety and toxicity of new drug substances and Pharmaceutical statistics have been deleted to bring more attention to pharmaceutics and industrial pharmacy.
- The book can be used as a textbook as well as reference book for B.Pharm, M. Pharm and Ph.D. students and can be used as a quick reference by the industrial scientists.

Contents: 1. New Drug Substances 2. Biotechnology Products 3. Evaluation of Early Development Candidates: Physical Properties 4. Complementary Techniques for Solid State Drug Analysis 5. Gastro Intestinal Tract Membrane: Drug Transport and Biopharmaceutics 6. Drug Absorption Assessment 7. Drug Absorption Enhancement 8. Salt Selection and characterization 9. Prodrugs: Design, Kinetic Study and Synthesis 10. Regulatory Affairs 11. Oral Formulations 12. Pharmacokinetics 13. Clinical Trials and Bioavailability Studies 14. Pharmaceutical Technology 15. Product Processing and Evaluation 16. Process Validation 17. Quality Control 18. Dissolution Testing 19. Statistical Quality Control

Advances in Pharmaceutical Sciences, 4 Vol. Set

H.S.Bean, A.H. Beckett and J.E.Carless, Chelsea College of Science and Technology, London.

Considerable progress has been made during the last one or two decades in the field of pharmaceuticals, and yet there is still very little literature dealing specifically with the area of knowledge. Undoubtedly this because pharmaceuticals embraces a wide range of disciplines, and much information of value to the pharmacist appears in journals having no obvious connection with pharmacy. The aim of this set is to concentrate on areas of specific interest to the pharmaceuticals; for example, this will consider the physical aspects of pharmaceuticals, pharmaceutical microbiology and the influence of formulation on product stability and efficacy. The articles will be an appraisal of a subject rather than a mere factual abstraction of the literature. The authors are experts in their field and have been encouraged to include the results of their experience.

Contents: Volume - 1: 1. Solubility in Systems Containing Surface-active Agents 2. Preservation of Emulsions against Microbial Attack 3. Contemporary Trends in Heat Sterilization Volume - 2: 1. Kinetics and Mechanics in Stability of Drugs 2. Particle-size Analysis 3. The Flow Properties of Powders 4. Water Determination and its Significance in Pharmaceutical Practice Volume - 3: 1. Recent Advances in Tablet Technology 2. The Formulation of Aspirin 3. Cohesive Pharmaceutical Powders Volume - 4: 1. Rheology of Pharmaceutical Semisolids 2. Determination of Thermodynamics of Functional Group in Solutions of Drug Molecules 3. Radio Pharmaceutical 4. Rectal Administration of Drugs

Set Price: Rs. 7500.00

Pharmaceutics-I (General Pharmacy): A Practical Manual

N. K. Jain and Vijay Mishra

Contents: 1. Aromatic waters, 2. Solutions, 3. Syrups, 4. Elixirs, 5. Spirits, 6. Powders, 7. Lotions, 8. Liniments, 9. Mucilages, 10. Glycerins/glycerites, 11. Inhalation, 12. Tinctures and extracts, 13. Pastes, 14. Jellies, 15. Ear preparations, 16. Eye preparations, 17. Nasal preparations, 18. Pills, 19. Lozenges, 20. Pastilles, 21. Size reduction, 22. Mixing of solids

Experimental Approaches to Biopharmaceutics and Pharmacokinetics

Dr. B. Suresh, Dr. J. Raju and M. Vijay Kumar

Contents: 1. Calibration Curve of Salicylic Acid by Colorimetry 2. Calibration Curve of Diclofenac Sodium by UV Spectrophotometry 3. Linear Regression and Correlation Coefficient 4. Disintegration of Tablets 5. Dissolution of Tablets 6. Dissolution of Enteric Coated Tablets 7. Dissolution of Sustained Release (SR) Tablets 8. Dissolution Study of Different Dosage Forms 9. Effect of Polymorphism on Drug Dissolution 10. Effect of Complexation on Solubility and Dissolution Rate 11. Comparative Dissolution Studies of Marketed Products and Treatment of Data by using Anova 12. In Vitro Drug Diffusion from Ointment Bases 13. In Vitro Drug Permeation (Diffusion) Study of Ointment 14. Protein Binding Studies 15. In Vitro Drug - Drug Interaction 16. BA/BE Studies 17. Determination of Creatinine Clearance by Nomogram Method 18. Determination of Creatinine Clearance by Nomogram Method 19. One Compartment Open Model-IV Bolus 21. One Compartment Open Model-IV Infusion 22. One Compartment Open Model-Extravascular 23. Two Compartment Open Model-IV Bolus 25. Multidose Injections 26. Multidose Extravascular

Cosmetics : A Practical Manual, 3rd Ed.

Swarnlata Saraf and Shailendra Saraf

Contents: 1. Introduction to Cosmetics 2. Evaluation of Cosmetics 3. Cosmetic Excipients 4. General Instruments for Cosmetics Evaluations 5. Herbal Cosmetics Containing Herbal Drugs 6. Essentials of Stability Testing of Cosmetics 7. Assessment of Toxicity of Cosmeceuticals 8. List of Cosmetics : Formulation, Method of Preparation and Uses

COMING SOON

Pharmaceutical Solid Dosage Forms: Capsules

B.S. Sanmathi

Contents: 1. Capsules 2. Soft Gelatin Capsuls (Softgels) 3. Microencapsulation

Pharmaceutical Solid Dosage Forms: Tablets

B.S. Sanmathi

Contents: 1. Tablets 2. Coating of Tablets

Bioadhesion: Approaches to Drug Delivery

Dinesh Kumar

Contents: 1. Introduction to Bioadhesive Drug Delivery 2. Basic Concepts of Bioadhesion 3. Bioadhesive Polymers 4. Bioadhesive Drug Delivery Systems 5. Evaluation of Bioadhesive Formulations 6. Bioadhesive Nanoparticles 7. Bioadhesive Microspheres 8. Bioadhesive Nanogels 9. Bioadhesive Patches/Films

COMING SOON

Nano-Carrier Systems: Theories, Methods, and Applications

Amit K. Goyal and Goutam Rath

Contents: 1. Introduction of Nanotechnology 2. Polymeric Nanoparticles 3. Polysaccharides Nanoparticles 4. Lipid Nanoparticles 5. Metallic nanoparticles 6. Liposome 7. Niosomes 8. Dendrimers 9. Nanocapsules 10. Aquasomes 11. Nanosuspensions 12. Microemulsions 13. Nanohydrogels 14. Nanofibers 15. Immunostimulating Complexes 16. Techniques used to Characterized Nano-carrier Systems 17. Toxicological Aspects of Nanomaterials

Biopharmaceutics and Pharmacokinetics:

A Practical Manual, 2nd Ed.

N. Venkateswaramurthy**

International Journal of Pharmaceutical Sciences and Nanotechnology

An International Quarterly Research Journal of Pharmaceutical Sciences

IJPSN provides broad coverage of all aspects of pharmaceutical science,
furthering research into the nanotechnology systems

Editor-in-Chief: Prof. D. Samba Reddy

Texas A&M Health Science Center, College Station, Texas, USA.

Volume 7, 2014 (April, July, October, January) ISSN: 0975-3278

Indexed in Chemical Abstracts from 2009

**BEST
RESEARCH
PAPER AWARD ****

Subscription* Details

One Year (4 issues: January-December) Rs. 5000.00

(*Subscription should be paid in advance) Bank DD / Local Cheque should be drawn in favour of Pharma Book Syndicate

YOU CAN SEND YOUR SUBMISSION OF PAPER / ARTICLE REQUEST AT
e-mail: submissions@ijpsnonline.com / subscription@pharmabooksyndicate.com

For more details please visit us at : www.ijpsonline.com

We have instituted "Best Research Paper Award" to recognize outstanding achievement in pharmaceutical science as demonstrated by the author in quality and originality of the manuscript published in the International Journal.
