

Chrysler performs a series of validation tests to ensure your consumer electronics will function properly in your vehicle. Below are lists of validated mobile phones and iPods®, including instructions for pairing your Bluetooth®-enabled mobile phone and connecting your iPod® with your vehicle. For questions and additional help, call 1-877-855-8400.

## **Phone Compatibility**

Uconnect™ Phone is a hands-free, voice-activated, in-vehicle communications system. It utilizes Bluetooth® technology to enable your mobile phone to connect to your vehicle without wires or a docking station, allowing you to use your phone through simple voice commands. Uconnect Phone supports many popular Bluetooth-enabled mobile phones. Performance can vary widely due to the wireless carrier, phone software level, and radio software level. Listed below are phones that have passed validation testing with specific software levels and wireless carriers.

## **iPod® Compatibility**

Uconnect supports many iPod® models for playback and control. Listed here are iPod models that have passed validation testing.

## **How to Use This Guide**

There are two compatibility lists: One for navigation radios and another for non-navigation radios. Identify which radio you have, either by picture or by ID shown on the lower corner of the radio faceplate, then go to the appropriate bookmark.

## Non-Navigation Radios

### Phone pairing guidelines

1. Press the Uconnect™ hard-key to begin.

2. Wait for the beep.
3. Say SETUP/PHONE PAIRING.
4. When prompted, after the beep, say PAIR A PHONE and follow the audible prompts.
5. You will be asked to say a four-digit PIN number which you will later need to enter into your cellular phone. You can enter any four-digit PIN number. You will not need to remember this PIN number after the initial pairing process.
6. The Uconnect system will then prompt you to begin the cellular phone pairing process on your cellular phone. Before attempting to pair phone, please see your cellular phone's user manual (Bluetooth® section) for instructions on how to complete this step.
7. For identification purposes, you will be prompted to give the Uconnect System<sup>[1]</sup> a name for your cellular phone. Each cellular phone that is paired should be given a unique phone name.

## Navigation Radios

### Phone Pairing Guidelines

1. Press the MENU hard-key on the right side of the radio
2. Then touch the System Setup soft-key to get to the System Setup menu.
3. Touch the Phone Pairing soft-key to access the Bluetooth® Devices menu. This menu lists all paired Bluetooth devices
4. Press the PAIR soft-key to start a new pairing.
5. Enter any 4 Digit Security PIN and touch the PAIR soft-key again.
6. The pairing procedure starts. Refer to the user's manual of your Bluetooth phone to complete the procedure.
7. You will then be asked to set a priority for the paired phone. If there is more than one paired phone available, the navigation radio will try to connect to the phone with the highest priority setting.

## iPod® Compatibility

Plug your iPod® into the custom cable located in the glove box or center console. With this "plug and play" hook up you can control your iPod through your radio controls.

### Non-Navigation Radios<sup>[2]</sup>

iPod® Model	Generations Supported	iPod® generations that require the new interface cable for vehicle charging
iPod classic®	4th, 5th and 6th	6th
mini	1st and 2nd	
iPod nano®	1st, 2nd, 3rd, 4th and 5th	4th & 5th
iPod touch®	1st, 2nd and 3rd	2nd & 3rd
iPhone®	Original, 3G and 3Gs	3G & 3Gs

### Navigation Radios\*

iPod® Model	Generations Supported
iPod classic®	4th, 5th and 6th
iPod nano®	1st, 2nd, 3rd, 4th
iPod touch®	1st, 2nd

1 Uconnect in-dash DVD capability is not available in all states. See your dealer for details.

2 iPod shuffle® is not supported.

3 Some iPods and iPhones will not charge with the factory supplied interface cable. A new interface cable is available that will allow all iPods to charge from the vehicle. The new cable is available through your dealer.
