MOKELUMNE PEDESTRIAN OVERCROSSING

Addenda: 7

8/9/21	2:00 PM	21-02222	Brentwood	\$7,800,000	Public Works
Plan Issuer: Contra Costa Transportation Authority-CCTA				925-256-4700	000-000-0000
Contract #: 561					

The Mokelumne Bicycle and Pedestrian Overcrossing Project proposes to construct a pedestrian and bicycle overcrossing in the City of Brentwood, just south of Lone Tree Way over State Route 4 (SR4). The 16-foot wide overcrossing structure will be a multi-span bridge with a bent in the median of SR4. The total project length is approximately 2700 feet (853-foot structure and 1847-foot fill section). Only a 265-foot portion of the structure will be within State right-of-way (ROW). The project will be constructed utilizing the Caltrans 2018 Standard Specifications and Standard Plans.

PLEASE NOTE: An electronic bidding process has been adopted for this solicitation. Paper bids will not be accepted. Electronic bids shall be submitted through www.bidexpress.com.

RFQ - DESIGN-BUILD PROJECT - TECHNOLOGY PARK, PHASE 2

Addenda: 0

8/10/21 2:00 PM 21-02242 San Luis Obispo **School**
 Plan Issuer: Cal Poly Facilities Planning & Capital Projects 805-756-1299 805-756-7566
 Contract #: MJ0085, Phase 2

The Trustees of The California State University are requesting Statements of Qualifications (SOQ) from interested and qualified design-builders (Respondents) to design and build the above-named Project. The Trustees will select a design-build team consisting of a general contractor and Architect (Design-Builder) using a two-step process: (1) this Request for Qualifications (RFQ) from which Respondents may submit SOQ to the Trustees, and (2) the Request for Proposals (RFP) which the Trustees will issue to the shortlisted firms.

In general, the scope of work consists of the design and construction, under a procedure more commonly referred to as "turnkey construction", of a multi-story pre-engineered metal building and associated sitework, for the Technology Park Phase 2 project.

This project proposes to expand on the existing Technology Park facility by constructing a new two or three story building adjacent to the existing. In general, the proposed building is anticipated to be in the range of 20,000 sf to 30,000 sf. dependent on final pricing and funding available at the time of RFP. There is to be a mix of fully finished space ready for occupancy with the remainder of space left in a state ready for tenant improvement (warm shell).

The Estimated Project Design-Build Direct Construction Cost (not including general req., OH&P, bonds, insurance) is \$6,750,000.

The term "Phase 2" is used to define the second building within the master plan of the technology park. Phase 1 (building 1) is existing. "Phase 2" is not a defining a phased approach project.

This project is federally funded and is required to conform to the Economic Development Agency (EDA) requirements for procurement, design, audit, and development of construction documentation.

FIRE TRAINING TOWER REPAIRS

Addenda: 5

8/10/21 2:30 PM 21-02197 Pleasanton \$400,000 **Public Works**
 Plan Issuer: City of Pleasanton - Engineering 925-931-5650 000-000-0000

Prebid Conf: MAND 7/21 @ 9 AM and 1 PM; 7/26 @ 9 AM and 7/30 @ 9 AM at 3333 Busch Road, Pleasanton (Meet at the parking lot) Contract #: 21458

The LPPD Fire Training Tower, located at 3333 Busch Road in Pleasanton CA, is a seven-level concrete structure, including a basement level. Live fire drills have been conducted in the structure on a regular basis for many years and portions of the building have incurred some damage in the form of spalling and cracks. There are two burn rooms in the structure, both on the north side of the building – one on the 2nd floor and one on the basement level.

The scope of work consists of 2,200 (add alternative additional 2,300) linear feet of epoxy injection of cracks, repair of 530 (add alternative additional 75) square feet of spalled areas and surface sealing in accordance with the project specifications. The scope of work also includes the removal and replacement of 1,575 square feet of fire tiles located in the building's two burn rooms. The scope shall include all labor, materials and equipment necessary to complete the work. The contractor will be responsible for moving any items within the work areas to gain access for the repair work. The contractor is also responsible for removal and off-haul of all debris.

RFP FOR CIVIL ENGINEERING DESIGN SERVICES FOR OAK GROVE ROAD PAVEMENT REHABILITATION - PHASE 3

Addenda: 1

8/10/21	4:00 PM	21-02265	Concord			Public Works
Plan Issuer: City of Concord - Engineering Services Division				925-671-3361	000-000-0000	
				Contract #: 2557		

Project No. 2557 will involve pavement rehabilitation on Oak Grove Road, from Treat Boulevard to Walnut Creek city limits. Work will also include installation/upgrades of curb ramps at intersections/crossings, minor concrete repairs to facilitate pavement rehabilitation, adjustment of utilities, adjustment of pedestrian push buttons to meet accessibility standards, restriping, and installation of signage/striping features as shown on the Bike and Pedestrian Safe Routes to Transit Master Plan. The estimated useful life of pavement rehabilitation shall be 15-20 years. Design scope of Project No. 2557 will also include the construction of fiber optic conduits and boxes for future use of broadband services, communications network, and traffic signal interconnect upgrades. No fiber optic cables will be installed as part of Project No. 2557.

888-543-8500

Prebid Conf: 7/23 @ 10 AM (If you plan on attending the Site Visit, you must provide:

estimating@dsquarellc.com the company name, driver's license #, and number for attendees no later than July 21, 2021 at 1 PM)

This USCG RMACC Task Order will take place at the USCG Station Novato Housing & PAC Strike Team, Novato, CA The project involves the demolition of a Water Tower approximately a 70' tall and 30'in diameter metal structure, with associated abandoned water piping and a ladder leading to a rooftop with guardrails. The tower is located on a small hilltop above the Alta Vista portion of Novato Family Housing. There is a functional cell tower structure and new water piping in close vicinity which will need to be protected during demolition. Work also includes the demolition of pump houses consist of two separate concrete block structures (a 406 sf. clay roof tile structure and a 210 sf. concrete roof slab structures), separated about 18" apart. The building with the concrete roof slab will be demolished completely and the structure with the clay roof tiles will remain intact, but all interior non-structural component will be removed. This project is subject to the Buy American Act and the attached Prevailing Wage Decision rates. The D Square Construction Sample Subcontract is available for review in the SUBCONTRACT DOCS folder, with the bidding documents in our online plan room. By submitting a price proposal, subcontractors are acknowledging they have read our subcontract and will sign our subcontract as part of condition of doing the work they are proposing on, and that their price will remain valid for the 120 days stated in the solicitation. The Bid Schedule contains one (1) Base Bid Item Price Line and two (2) Option Price Lines. Trades Required: Utility Locator, Scaffolding (Containment), Hazardous Material Testing, Lead-Based Paint Abatement, Asbestos Abatement, Selective Site Demolition, Building Demolition, Demolition, Painting, Earthwork, Asphalt, Site Utilities.

GOLDEN GATE PARK GOLF COURSE CLUBHOUSE

Addenda: 5

8/11/21 2:30 PM 21-02273 San Francisco \$2,240,000 **Public Works**
 Plan Issuer: City & Co of San Francisco 415-554-6229
 Prebid Conf: 7/28 @ 10 AM (meet at Golden Gate Park Golf Course, 970 47th Ave, San Francisco) Contract #: 0000005084

The Project is to construct a new one story golf clubhouse building in replacement of the previous clubhouse building which has been previously demolished above grade. The new clubhouse building consists of an open area for retail and dining, a kitchen/bar with counter seating and built in seating, a commercial prep kitchen, administrative office, and all-gender restrooms accessed from the exterior. The building is wood frame on concrete mat slab, with steel columns, glue laminated wood beams and a cross laminated timber roof deck. The building features window walls of glass and patio doors that open out to a concrete patio. A fenced in utility and service yard is located at the south side of the building. The project includes grading, paving, and planted areas to construct accessible parking spaces and new walkways and ramps connecting the clubhouse building to the existing driving cage.

ELECTRICAL UPGRADE FOR ELKS LODGE #1015

Addenda: 2

8/12/21 2:00 PM 21-02263 Alameda

Public Works

Plan Issuer: Alameda Elks Lodge No. 1015

510-522-1015

000-000-0000

Prebid Conf: 7/29 @ 10 AM at the Lodge (Meet in the rear parking lot of the Lodge)

Furnish and install transformer pad and pull boxes, per AMP standards, as shown on the drawings (CAUTION THE DRAWINGS DO NOT SHOW ALL THE WORK REQUIRED UNDER THE CONTRACT-MUST MAKE OWN VERIFICATION). Complete conduit connections to the boxes and transformer pad, using existing underground conduits previously installed. Work includes excavation, backfill, concrete pad, and paving. Complete conduit installation to the basement area and connect to new switchboard.

Furnish and install new 1200 amp, 120/208 volt, 3 phase, 4 wire switchboard including a pull section, a meter main section and a distribution section in the basement area of the Lodge. Switchboard shall include 1-1200 amp 3P CB, 1-400A 3P CB, 3-200A 3P CB, 1-125A 3P CB, 2-200A 3P Spaces, 100% Ground Bar, CU Buss, NEMA 1 and braced for 65 KAIC. Sufficient space shall be provided in the pull section for an 8' drip loop of the incoming conductors.

Furnish, install and connect secondary copper conductors from the transformer pad to the new switchboard. AMP will connect the conductors to the transformer.

Furnish and install new 400A feeder from the new switchboard to the existing switchboard, after disconnecting the existing overhead service. Change the existing main switchboard 600 amp uses to 400 amp low peak fuses.

Furnish and install new 200A feeders to the elevator service, the new 200A panelboard and the gym building. Change fuses as necessary.

Furnish and install a 225A, 120/208 volt 3 phase 4 wire, 30 circuit, surface panelboard with 1-200A 3P Main CB, 1-60A 3P CB and 6-20A 1P CB, braced for 22 KAIC. Furnish and install a 200A feeder from the new switchboard to the new panelboard.

Extend existing 2" conduit stub ups to their proper location in the basement.

Furnish, install and connect new feeder to new 15 Ton AC on upper roof.

Extend conduits to bowling building.

Furnish an electrical building permit from the City of Alameda and complete all inspections required of the permit.

RFQ DWINELLE HALL ANNEX - RENOVATION FOR DISABLED STUDENTS PROGRAM CENTER - UC BERKELEY **Addenda: 1**

8/12/21	2:00 PM	21-02369	Berkeley		School
----------------	----------------	----------	----------	--	---------------

Plan Issuer: UC Berkeley - Capital Projects				510-642-6273	000-000-0000
				Contract #: 12813A	

The University of California, Berkeley is seeking an executive architectural consultant to investigate, evaluate, program and design improvements to the Dwinelle Hall Annex for a new Center for the University's Disabled Students Program (DSP). The first phase of the consultant's efforts will be a Study to identify and prioritize access improvements, seismic, code/life-safety and building envelope deficiencies. Dwinelle Hall Annex, approximately 8500 gsf, is currently largely unoccupied because of environmental issues (mold) and lack of disability access. The primary goals of the study phase are identification of these much-needed improvements and repairs and engagement with the DSP in preliminary programming sessions. The Study will be used to guide the subsequent phases of detailed programming, design and construction.

16TH STREET IMPROVEMENT PROJECT (REBID) - SFMTA

Addenda: 6

8/12/21 3:00 PM 21-02082 San Francisco \$15,200,000 **Public Works**
 Plan Issuer: City & Co of San Francisco (SFMTA) allan.andaya@sfmta.com 415-701-4666 000-000-0000
 Prebid Conf: 7/15 @ 10 AM (Zoom meeting. See Invitation for Bids for meeting participation instructions). Contract #: 1313R1

The scope of the 16th Street Improvement Project includes upgrade and installation of the overhead contact system (OCS) and traction power infrastructure. In addition, transit bulbs will be constructed to enable more efficient passenger boarding and alighting. Pedestrian bulbs and curb ramps will be constructed to enhance pedestrian safety. Traffic signals and traffic signal communication infrastructure will also be added or upgraded. Other project scope includes streetscape, streetlight, landscape, and roadway rehabilitation improvements. Some relocation of Water utilities will also be included in this project to accommodate construction of pedestrian and transit bulbs.

In order to provide minimal overall disruption to the public, the 16th Street Improvement Project will incorporate other planned projects on 16th Street. The San Francisco Public Utilities Commission (SFPUC) has incorporated its sewer main replacement scope into this Projects.

The above description of the Work is a general summary only and does not modify the requirements set out in the Specifications, Drawings or other Contract Documents.

(This Project is a REBID. Previously scheduled bid date was 10/29/20).

RFP/Rfq ON-CALL CEQA CONSULTING - WEST COUNTY WASTEWATER

Addenda: 0

8/13/21 4:00 PM 21-02375 Richmond **Public Works**
 Plan Issuer: West County Wastewater District 510-222-6700 510-222-3277

West County Wastewater (WCW) is requesting qualifications (RFQ) from experienced environmental consulting firms who can assist with the preparation of initial studies, Negative Declarations, Mitigated Negative Declarations, and Environmental Impact Reports with projects as needed. The services requested will primarily function as an extension of WCW staff on tasks related to environmental review under the California Environmental Quality Act. The intent of this RFQ is to contract with one or more knowledgeable and experienced CEQA Consultant(s) for assistance preparing the CEQA documents for WCW rules, regulations, and permit application projects where the WCW is the lead agency under CEQA or other CEQA-related tasks.

PLEASE NOTE: All responses shall be submitted through the District's e-Procurement Portal, ProcureNow.

STORM DRAIN CULVERT REPAIRS BROAD STREET AT LEFF STREET

Addenda: 1

8/17/21	11:00 AM	21-02414	San Luis Obispo	\$340,000	Public Works
Plan Issuer: City of San Luis Obispo				805-781-7200	805-781-7198
				Contract #: 91156	

In general, the project consists of repairing the interior of a 4'x4' concrete box culvert and a 3' wide by 4.5' tall concrete arch culvert within the public right-of-way and below street level, abandonment of two existing lateral 12" CMPs at ~Sta. 2+35 and ~3+33, at the intersection of Broad Street and Leff Street, San Luis Obispo, California. Work will include interior surface re-conditioning and coating of the culverts. Repairs will also include storm drainage repairs and curb ramp improvements at the four corners of this intersection.

RFQ ARCHITECT-ENGINEER SERVICES FOR SWITCH STATIONS (SW) SW-A5 AND SW-A6 BACKUP POWER SUPPLY PROJECT - UC LBNL

Addenda: 0

8/17/21 12:00 PM 21-02349 Berkeley **School**

Plan Issuer: Lawrence Berkeley National Laboratory - Procurement 510-486-7529 000-000-0000
 Contract #: RS0416-2021

The University of California, Lawrence Berkeley National Laboratory ("The University", "Berkeley Lab" or "LBNL") at One Cyclotron Road, Berkeley, California as Management and Operating prime contractor of LBNL for the U.S. Department of Energy (DOE) is seeking information on the qualifications of Architect-Engineer (A-E) Teams interested in providing A-E Services for the Project described herein on the LBNL main site, in accordance with this Request for Qualifications (RFQ).

The Project includes backup power options. LBNL personnel seek the services of an A-E company that can present multiple options for backup power and determine the most effective option for switch station levels at 12kV. Of the planned upgrades to switch stations; A5 (SW-A5) and A6 (SW-A6) are the top priorities that are judged to be the best options for backup power.

RFP - CALIFORNIA VALLEY LAND ACQUISITION PROGRAM

Addenda: 0
Public Works

8/17/21 3:00 PM 21-02315 San Luis Obispo
 Plan Issuer: County of San Luis Obispo mviles@co.slo.ca.us 805-781-5216
 Contract #: 1618

The County of San Luis Obispo is seeking Statements of Qualifications/Proposals from experienced entities to implement the California Valley Land Acquisition Program (CVLAP or Program), consistent with the framework set forth in the CVLAP Strategic Plan (Plan). The goals of the Program are to (1) permanently protect and manage important habitat for wildlife and plant species within the California Valley subdivision area, and (2) provide open-space connectivity between nearby protected properties. To this end, the County is seeking an entity to leverage existing funds, approximately \$1.5 million, to implement a program for the acquisition and maintenance of properties consistent with the framework set forth in the CVLAP Strategic Plan (Plan), including all annual and periodic tasks, stewardship/management activities, and funding and reporting obligations. In addition, the County is seeking an entity which can further leverage the County's ability to obtain parcels within California Valley through tax defaulted sales consistent with the goals and priorities outlines in the CVLAP.

Plan Issuer: UCSF - Alison Kang alison.kang@ucsf.edu

415-353-7393

000-000-0000

Prebid Conf: MAND 8/3 @ 10 AM (Zoom Meeting)

Contract #: PRO-000017

The Ambulatory Care Center (ACC) 3rd and 4th Floor Hematology and Bone Marrow Transplant expansion project is a three-phase project that will expand the capacity of the existing clinical services provided on the 4th floor into the Eastern half of the 3rd floor. The project is a remodel of approximately 14,800 square feet. Hazardous material abatement is required on the 3rd floor. Work includes new interior partitions, ceilings, finishes, casework, new plumbing, mechanical, electrical, lighting, and low voltage systems to tie into the existing building.

The 3rd floor clinic is a complete remodel and will include reception and waiting, exam rooms, consult rooms, additional patient toilets, provider touchdown stations, administrative offices and conference rooms, and a staff/break room. Additional 3rd floor work includes interior refresh of existing elevator lobby and corridor, remodel of existing staff and public toilets located in the core and upgraded accessible drinking fountain.

The 4th floor treatment area remodel will expand the existing cancer infusion center: an additional infusion bay, additional pheresis rooms, consult/infusion room, blood draw, central line draw room, (2) additional nurse stations, clean utility room, and soiled utility room.

PLEASE NOTE: A mandatory Pre Bid Job Walk will be conducted on Tuesday, August 3, 2021, beginning promptly at 4:00 PM. Participants shall meet at Ambulatory Care Center (ACC) Building located at 400 Parnassus Ave., San Francisco in the elevator lobby of the 3rd Floor. Only bidders who participate in both the Conference and the Job Walk in their entirety will be allowed to bid on the Project as Prime Contractors.

For further information, contact University's Project Manager, Kayla Henson, at (415) 416-5142. RFIs are due no later than August 6, 2021, at 5:00 PM.

HAZMAT REMEDIATION & INTERIOR DEMOLITION OF BLDG 12 AT FORT MASON HISTORIC DISTRICT Addenda: 0

8/19/21 5:00 PM 21-02388 San Francisco \$100,000 to \$250,000 State-Federal

Plan Issuer: National Park Service lei_yang@nps.gov 646-356-2118 000-000-0000

Prebid Conf: 8/3 (To participate in the Site Visit, send an email to Contracting Officer Lei Yang, at: Contract #: 140P8621R0028 lei_yang@nps.gov by COB July 30, 2021.)

This Project is located at building 112 at Fort Mason, Golden Gate National Recreation Area (GGNRA), San Francisco, CA. The site is located on a historic U.S. military base and is now managed by the National Park Service.

Project involves interior demolition and abatement of hazardous materials at National Park Service (NPS) Building 112, the Bay Grounds shop, located within the Fort Mason Historic District of the Golden Gate National Recreation Area in San Francisco, California. The building was constructed in the mid-1940s and recently used for the storage of materials and equipment by the NPS landscaping personnel. In 2019, the interior of the building was extensively damaged by a fire caused by arson. In its current state, the building is not accessible due to the high level of toxicity resulting from the damaged interior fabric. Contractor shall furnish all labor, material, facilities, equipment, services, employee training and testing, permits and agreements necessary all abatement and demolition activities in compliance with all applicable Federal, State and Local regulations and Division 001 project specific submittals.

SF STATE SCIENCE REPLACEMENT BUILDING - EARTHWORK

Addenda: 2

8/20/21 1:00 PM 21-02235 San Francisco \$900,000 **School**
 Plan Issuer: DPR Construction joannam@dpr.com 650-868-8691 000-000-0000
 Prebid Conf: MAND 7/20 @ 2 PM Contract #: SF-01736
 CONTRACT DOCUMENTS WILL BE AVAILABLE ONLINE ONCE RECEIVED

The successful subcontractor will be responsible for collaboration, coordination and complete execution of the Bid Package #4 (BP #4 - Earthwork) Scope as described and specified in the Contract Documents. Further description in exact scope breakdown and scope responsibility will be given with the Request for Proposal (RFP) and Bid Form (Attachment 2) to be issued on or around 7/15/21.

The Project covers demolishing portions of an existing structure and adding an additional 126,000 GSF on the site. 54,000 GSF of the 1950's/1960's Building will be renovated. The project is located on the eastern edge of the SF State campus, between Hensill Hall to the north and the HSS Building to the south. Three wings on the east side of the existing building were built in the 1960s, and three wings on the west side were built during the 1950s. The 1960s portion of the existing building will be demolished to make room for a new building that must be less than 75 feet above ground. Approximately 30% of the western wings were renovated in 2015. The remaining areas in the western wings will be renovated as part of this project. The Project is expected to achieve a minimum of LEED Gold. The address is 1600 Holloway Ave, San Francisco, facing 19th Avenue to the east and the central Quad to the west. The Project site has high visibility along the campus's two most public faces. The site is located at the very heart of the SF State campus. It is immediately adjacent to Hensill and Thornton Halls, both of which house other CoSE programs.

Contact DPR via email at joanna@dpr.com to receive prequalification instructions. Qualified subcontractors are required to have the following applicable California subcontractor's license classification: C-12 - Earthwork and Paving Contractors.

NEW DOE LIBRARIAN OFFICE REMODEL - UC BERKELEY

Contract #: 1004856 &

1004858

The City of Oakland (City) seeks proposals from professional consulting firms or teams with demonstrated experience in preparing feasibility studies for public library facilities. For the Hoover-Durant Branch Library, the consultants must demonstrate capacity and experience in community facilities, including one person experienced in the development of branch library facilities. The firms or teams must possess demonstrable experience and a strong background in effective, inclusive outreach and engagement with diverse communities impacted by racial disparities and various public agencies; strategic facilities planning; capital funding strategy; and programming, resource needs, and design of libraries. The proposing teams shall possess experience in identifying and examining viable, creative financing strategies or other potential funding sources to design, construct, and operate the new and/or expanded facilities. The teams shall include professionals for holistic building assessments (i.e. structural and specialty engineering, cost estimating, building science, mechanical, electrical and plumbing engineers specializing in resiliency and energy sustainability, etc.).

RFQ - ON-CALL GEOTECHNICAL & ENGINEERING TESTING SERVICES

Addenda: 0

8/20/21 5:00 PM 21-02379 Seaside

Public Works

Plan Issuer: City of Seaside 831-899-6825 831-899-6211

The City of Seaside (City) seeks Request of Qualifications (RFQs) from qualified firms or individuals to provide On-Call Geotechnical and Engineering Testing Services. The City intends to select up to three consultants for a three-year period, with the option of two (2) one-year extensions through mutual consent between the City and the chosen Consultant(s). Consultants do not need to be able to provide all services described in the "Preliminary Scope of Services," below. Selection will be based on demonstrated expertise in providing support to the City of Seaside Public Works and Engineering Department.

Questions regarding this RFQ should be directed to pwinfo@ci.seaside.ca.us

8/24/21 3:00 PM 21-02444 San Francisco \$2,500,000 to \$2,800,000 **Hospital**

Plan Issuer: UCSF - Lisa Trogdon lisa.trogdon@ucsf.edu 415-502-4268 000-000-0000
 Prebid Conf: MAND 8/4 @ 10 AM (Participants shall meet at UCSF Mt. Zion Cancer Research Ctr Contract #: C863685
 - Main Entrance, 2340 Sutter St., San Francisco)

The scope of the Project is to replace the existing mechanical cooling system at the facility. Building centrifugal chillers, cooling towers, and associated pumps and appurtenances will be replaced as part of this project.

The building is served by (x2) existing 325-ton chillers, and (x2) existing 325-ton cooling towers with (x3) circulation pumps for both the chilled water and condenser water loops. The project will remove the existing chillers, cooling towers and pumps and replace them with (x2) 250-ton chillers, and (x2) 325-ton cooling towers. (x2) circulation pumps and appurtenances will be provided for both the condenser and chilled water loops within the building and installing an economizer bypass heat exchanger to the system. With the exception of the cooling towers, all equipment will be located in the basement and shall tie into local piping distribution connections in the building. The new equipment are to be integrated to the facility's existing Distech Control System.

PLEASE NOTE: Only bidders who participate in both the Conference and the Job Walk in their entirety will be allowed to bid on the Project as Prime Contractors.

For further information, contact University's Project Manager, Lee Ann Depew, at (650) 324-5316. RFIs are due no later than August 11, 2021, at 4:00 PM.

VEGETATION MANAGEMENT FOR CONTRACTORS AT ARROYO LAS POSITAS AT BLUEBELL DR (SITE 55) **Addenda: 0**

RFP ON-CALL CITYWIDE BICYCLE PARKING INSTALLATION AND MAINTENANCE (REBID) - CITY OF BERKELEY Addenda: 0

8/26/21 2:00 PM 21-02394 Berkeley **Public Works**
 Plan Issuer: City of Berkeley - Finance Dept/General Services Division 510-981-7200 000-000-0000
 Contract #: 20-11371-C

The City of Berkeley (the "City") is requesting proposals for on-call furnishing, installing, and maintaining bicycle parking racks and bicycle parking corrals at various locations citywide. The on-call bicycle rack installation contract will be for a three (3) year period tentatively beginning on November 1, 2021 and ending October 31, 2024. During the term of the contract, the City anticipates to allocate \$110,000 per year for on-call construction services, for a total not-to-exceed contract amount of \$330,000 during the term of the contract.

PORT SAN LUIS BREAKWATER REPAIRS

Addenda: 0

8/31/21 1:00 PM 21-02205 Avila Beach \$5,000,000 to \$10,000,000 Public Works

Contract #: W912PL21B0008

*** BID DOCS WILL BE UPLOADED ONCE AVAILABLE ***

Construction services will consist of breakwater repairs at Port San Luis Harbor. Repairs will be made to approximately 1500 linear feet of the breakwater between Whalers Island and the head section. The proposed repairs will entail removal and resetting of existing armor stone and placement of new 15-20 ton armor stone. The intent is to repair the damaged sections to authorized design specifications including a crest elevation of +16 feet MLLW, on the harbor side slope from the seabed to the crest. The breakwater is accessible by sea only. Excavation for access is needed to achieve adequate water depths in the area. Exposure to wave energy is expected to influence construction operations.

SALINAS FIRST UNITED METHODIST CHURCH KITCHEN/BATHROOM REMODEL

Addenda: 0

8/31/21 1:00 PM 21-02430 Salinas \$800,000 Commercial

Plan Issuer: Edward Moncrief efmoncrief@gmail.com 408-836-6117

Prebid Conf: 8/4 @ 10am- site

The Salinas First United Methodist Church, with financial support from the City of Salinas (CDBG grant) and a number of private donors, has initiated its Kitchen/Bathroom Remodel Project. The project includes the re-building of the church's kitchen, pantry, storage room, and three bathrooms. The newly built improvements will support the church's homeless meals program; a program that it has operated for over ten years, utilizing its now dismantled kitchen.

The church already has removed all fixtures and furnishings previously used for the meals program. Additionally, all demolition and hazardous materials have been removed in accordance with applicable State and local regulations and permitting procedures. Floors and walls in the affected spaces are exposed down to the sheeting or studs. Those still intact will need only surface improvement. The additional work to be completed includes new electrical wiring, insulation (external walls), sheet rock, plumbing, flooring, the rebuilding of one wall and relocation of two others, new doors and windows, the installation of cupboards, counters, shelving, stove and hood, dish washer, sinks, ventilation, grease trap, and walk-in refrigerators; the installation of movable shelves (pantry), hot water heater, parking-lot asphalt slope-repair, etc. as further specified in the construction drawings. The project also entails the remodeling of the men's and women's bathrooms and a gender-neutral bathroom.

As indicated above, all work related to demolition and removal of furnishings and hazardous materials has been completed and signed off by the City Inspector. This work is included in the final drawings but should not be a part of the prospective contractors' bids.

RFQ FOR PROJECT MANAGEMENT SERVICES FOR THE AFRICAN AMERICAN HOLISTIC RESOURCE CENTER - CITY OF BERKELEY Addenda: 0

8/31/21 2:00 PM 21-02337 Berkeley **Public Works**
 Plan Issuer: City of Berkeley - Finance Dept/General Services Division 510-981-7200 000-000-0000
 Contract #: 21-11456-C

The City of Berkeley (the "City") invites submittal of Statements of Qualifications (SOQs) from qualified individuals or firms interested in providing Project Management Services in support of the City's development of the future home of the African American Holistic Resource Center (AAHRC) at 1890 Alcatraz Avenue, Berkeley. As a result of this RFQ process, the City will be contracting with an individual or firm for a 5-year term to assist the City to manage the AAHRC project.

The City is seeking to renovate and/or rebuild the existing City-owned building/property at 1890 Alcatraz Avenue in Berkeley as the new AAHRC with the goal of providing a welcoming, culturally responsive, stand-alone resource center focused on improving the social determinants of health and well-being of African Americans. This facility will offer a wide array of activities and services connective in this spirit.

The individual or firm selected will assist the City in managing all traditional phases of a project including planning, design development and construction and, additionally, will aid in an operational analysis and on-going funding plan which details potential funding sources for programs, operations and maintenance.

RFQ KANSAS AND MARIN STREETS WET WEATHER CONVEYANCE TUNNEL Addenda: 0

8/31/21 2:00 PM 21-02391 San Francisco \$12,500,000 to \$16,000,000 **Public Works**
 Plan Issuer: City & Co of San Francisco - Utilities QBD@sfgwater.org 415-551-4603 000-000-0000
 Prebid Conf: 8/10 @ 9 AM (Virtual meeting. See RFQ for meeting participation instructions.) Contract #: DB-131

The City and County of San Francisco's (the "City" or "San Francisco") San Francisco Public Utilities Commission (SFPUC) is issuing this Request for Qualifications (RFQ) in search of Candidates with the qualifications specified in this RFQ as a prerequisite to respond to the forthcoming Request For Bids (RFB) to design and construct the Kansas and Marin Streets Wet Weather Conveyance Tunnel (Project).

As part of its Sewer System Improvements Program (SSIP), the SFPUC is proposing the Project to improve the area's sewer system performance during wet weather. The neighborhood surrounding the intersection of Kansas and Marin Streets has historically been subject to flooding during moderate to heavy storms. The City has identified and analyzed various solutions to the flooding challenges and completed an Alternatives Analysis Report (AAR) and a Conceptual Engineering Report (CER) to meet the Project's needs. This proposed Project will provide an auxiliary sewer (an 8-foot diameter tunnel, approximately 900 feet long) that provides additional conveyance capacity and serves as a connection between an existing 12.5-foot x 6.5-foot reinforced concrete box sewer under Marin Street and another 20-foot x 30-foot reinforced concrete box sewer (the "Contract C Box") inside the SFPUC's property, Lot 31. The proposed auxiliary sewer would allow wet weather flows to enter the Contract C Box earlier, thereby, lowering the hydraulic grade line (HGL) of the Marin Street sewer. Based on the findings and results of the hydraulic analysis performed, the elements described below would meet the proposed project needs.

The SFPUC seeks to qualify Candidates with demonstrated experience and qualifications in the design and construction of tunnels, shafts, underground concrete structures, and the installation of sewer systems. Whether a Candidate has such qualifications will be determined through the evaluation process described in Section III of this RFQ. Candidates chosen through this process will be "Qualified Contractors" and will be notified of their eligibility to submit bids, via the forthcoming RFB, for construction services associated with the Project. Candidates responding to this RFQ do so with the understanding that the SFPUC does not guarantee the award of any contract or work as a result of qualification.

RFP FOR ELEVATOR MAINTENANCE SERVICES - ALAMEDA COUNTY GSA

Addenda: 1

9/1/21 2:00 PM 21-02335 Various Cities **Public Works**
 Plan Issuer: Alameda County General Services Agency (GSA) 510-208-9700 510-208-9711
 Prebid Conf: 8/3 @ 10 AM via Microsoft Teams Meeting Contract #: 902003
 It is the intent of these specifications, terms and conditions to describe the full service elevator maintenance and elevator phone monitoring services being requested by the County.

The County has 87 elevators, dumbwaiters, and wheelchair lifts requiring "full-service" maintenance in 31 County-owned locations. These lifts include hydraulic and electric units used for freight, passenger elevators, and security elevators that transport inmates in jails and holding cells. Manufacturers include Dover, U.S. Elevator, Otis, Montgomery, Schindler, Motion, Home and Independent. These elevators service requirements include full service, emergency services, routine maintenance, routine safety inspections, and emergency telephone monitoring. The RFP includes list of all known lifts on County property, the types of services they require, descriptions of the units, and their locations.

PLEASE NOTE: Bid pricing must be submitted online through Alameda County EZSourcing Supplier Portal. Please register at: <https://ezsourcing.acgov.org/>

RFQ AS-NEEDED ARCHITECTURAL SERVICES FOR HEALTH FACILITIES NO.3

Addenda: 1

9/1/21 2:00 PM 21-02249 San Francisco **Public Works**
 Plan Issuer: City & Co of San Francisco 415-554-6229
 Contract #: 0000005401

San Francisco Public Works (Public Works), a department of the City and County of San Francisco (City), seeks to retain the services of qualified Consultants and/or joint venture (JV) firms to provide Professional Architectural and Engineering Planning and Design Services for Health Facilities and related services on an as-needed basis. The selected Consultant, including its team of subconsultants, will support the Building Design and Construction Division of Public Works. Projects may include, but not limited to, healthcare facilities under the jurisdiction of the Office of Statewide Health Planning and Development (OSHPD), such as acute care hospital facilities, clinics; and other City-owned facilities.

The City intends to award up to four (4) master agreements (contracts) with a not to exceed value of \$2,000,000. Each master agreement will have a five (5) year term with Contract Service Orders (CSO) or tasks issued during the first three years only. Since this is an "As-Needed" contract, award of a master agreement does not guarantee that the selected firms will perform all or any portion of the services described in this RFQ, nor does it guarantee that the maximum amount will be expended. The maximum contract dollar amount does not represent a guaranteed revenue source for any of the selected firms.

Questions regarding the RFQ must be submitted no later than 4:00 PM, PDT on Aug 11, 2021, by email, to the Contract Manager, Olivia Lee, at: Olivia.Lee@sfdpw.org.

AMP GENERATOR REPLACEMENT PROJECT Addenda: 3
9/1/21 3:00 PM 21-02424 Alameda **Public Works**

Prebid Conf: MAND 8/11 @ 10 AM at 2000 Grand Street, Alameda Contract #: CS 08-21-01
The Project is located at 2000 Grand Street, Alameda, CA 94501, and is described as follows: AMP, a department of the City of Alameda, is a municipal electric utility for the City of Alameda with an emergency backup generator at its Service Center to support the 24x7 System Control and other critical systems in the case of loss of power from the utility electric distribution system. AMP has purchased a replacement generator set, automatic transfer switch from Kohler to be delivered to and installed by a qualified contractor in accordance with manufacturer's instructions. AMP is also obtaining an updated Permit to Construct from the Bay Area Air Quality Management District and has filed for the building permit that is ready to be issued to the contractor by the City Permit Office. The qualified contractor will furnish all other materials, labor, tools, and equipment, for demolition, disposal, and installation to complete in place all work necessary for the turnkey installation of work identified on the plans, specifications, general conditions, and special conditions, and complete and ready for use. The qualified contractor will also temporarily furnish a mobile generator as backup power during construction, so backup power is available in the event of loss of power delivered through the utility distribution system serving the City of Alameda. The Specifications contain the full description of the Work.

NEW TENNESSEE VALLEY PARKING LOT

Addenda: 0

9/2/21 2:00 PM 21-02484 Marin County \$500,000 to \$1,200,000

State-Federal

Plan Issuer: U.S. Department of Transportation Federal Highway Administration 000-000-0000 000-000-0000
 cflacquisitions@dot.gov

Prebid Conf: Site Visits may be arranged during normal duty hours. No organized Site Visit will be held. Contact Jorey Deml at: cflacquisitions@dot.gov with questions. Contract #: 6982AF21B000018

Tennessee Valley is located in Marin County and receives approximate 195,000 annual visitors per year and is within the National Park Service, Golden Gate National Recreation Area. The existing gravel surfaced Tennessee Valley parking lot and trail head can accommodate approximately 75 cars. The parking area is the main access point to Tennessee Valley Beach and serves a larger trail system that includes the California Coastal Trail, the Miwok Trail, and the Marinello.

The Project will pave and formalize the Tennessee Valley Trailhead parking lot to address deteriorated surfacing, drainage deficiencies, parking capacity shortfalls and pedestrian safety issues. Construction includes stabilization of the surface of parking areas and pedestrian walkways to reduce regular maintenance requirements associated with potholing, wash boarding, rutting and ponding. The parking lot will be striped to maximize parking capacity and curbs will be added to improve storm drainage and reduce resource damage associated with off-pavement parking and erosion of shoulders. The Project will construct pedestrian connections between parking areas and trailheads to improve safety and operability.

Technical questions (plans and specifications) regarding this Solicitation will not be accepted after 4:00 PM on August 26, 2021. Questions must be submitted in writing by email at: CFLContracts@dot.gov. Answers will be posted at: https://sam.gov.

[RFQ DESIGN BUILD EXTERIOR ENCLOSURE CONTRACTOR \(NEW HOSPITAL AT PARNASSUS HEIGHTS\) - UCSF](#) Addenda: 0

9/3/21 2:00 PM 21-02384 San Francisco

Plan Issuer: UCSF - Rebecca Palm-Song rebecca.palm@ucsf.edu \$2,000,000,000 **Hospital**
 415-353-4038 000-000-0000

Contract #: PRO-000002

The University of California, San Francisco (UCSF) Health is seeking a Design Build Exterior Enclosure Contractor to help build the New Hospital at UCSF Helen Diller Medical Center at Parnassus Heights, commonly referred to as the New Hospital at Parnassus Heights (NHPH). Refer to the RFQ Scope document for trade description of work.

The construction cost for the project is estimated at \$2.0 billion. UCSF Health's goal is to maximize innovation, quality, productivity, flexibility, and collaboration to create value for cost through use of the current, best-in-class project delivery model for large healthcare programs. Core team members (GC, AOR, Engineers, Trade Contractors, and Subconsultants) are required to colocate with the project team during design and construction services.

UCSF has a master program that will serve as the starting point for design. The project includes

NHPH as well as renovation of existing space within Moffitt and Long Hospitals. NHPH will connect to both Moffitt and Long Hospitals. New construction will not exceed 955,000 BGSF and renovations may be approximately 200,000 SF. Renovations of the existing Parnassus Central Utility Plant (PCUP), loading dock, Medical Center Way, and site utilities may be incorporated into the scope of the NHPH Program. Langley Porter Psychiatric Institute (LPPI) will be demolished before this project can begin.

Should you have questions regarding the RFQ, general inquires may be sent to Rebecca Palm-Song by email at: Rebecca.Palm@ucsf.edu. RFI deadline is August 20, 2021, at 2:00 PM.

PREQUALIFICATION WIDENING OF US 101 SB TO SR 87 SB CONNECTOR & US 101 SB ON-RAMP FROM STORY ROAD - SCVTA

Addenda: 9

SCOL70 **9/6/21 5:00 PM** 21-00241 Santa Clara County \$2,900,000 to \$3,500,000 **Public Works**
 Plan Issuer: SCVTA -Santa Clara Valley Transportation Authority 408-321-7189

Prebid Conf: Non-Mandatory 8/19 @ 10AM (Via Micforsoft Teams - To be determined) Contract #: C19240

At Location 1, the Project will widen the existing connector ramp to provide two standard 12-foot mixed flow lanes with standard inside and outside shoulders. The improvements involve restriping, pavement widening, reconstructing a lined trapezoidal ditch, and installing a new Traffic Monitoring System (TMS).

At Location 2, the Project will widen the existing diagonal on-ramp to add a standard 12-foot High Occupancy Vehicle (HOV) lane. The Project will also re stripe the adjacent Collector-Distributor (C-D) to Southbound US-101 to provide a standard 12-foot HOV lane. The improvements involve restriping, pavement widening, extending a reinforced concrete box culvert, and installing new ramp metering systems.

NEW RFP - SANITARY SEWER LIFT STATION #13 AND FORCE MAIN REPLACEMENT

Addenda: 1

9/10/21 5:00 PM 21-02500 Atascadero

Public Works

Prebid Conf: 8/18 @ 9am- site Contract #: C2020W02

The City of Atascadero is requesting the services of a civil engineering consulting firm with experience in the design of sewer lift stations and gravity sanitary sewer systems, and the preparation of final Plans, PS&E for replacement of Sewer Lift Station #13 and approximately 11,400' of new 8" force main.

The selected firm will be responsible to provide general design project management, necessary geotechnical testing and recommendations, topographic survey, and cost-effective replacement design. The lift station portion of the project includes but is not limited to the installation of pumps, controls, alarm systems, wet-wells, wet-well linings, flow meter, and back-up power generator. The force main replacement includes abandonment of the existing force main alignment along El Camino Real and Del Rio Road (11,400'), with a new force main to be installed below Santa Cruz Road and Traffic Way, connecting to existing gravity sewer near the intersection with Orillas Way (11,000'). The selected consultant will be expected to prepare design plans and construction documents for these improvements.

NEW DISTRICTWIDE SECURITY MANAGEMENT SYSTEMS REFRESH PROJECT

Addenda: 0

9/16/21 2:00 PM 21-02512 Dublin, Livermore & Pleasanton

\$3,300,000

School

Plan Issuer: Chabot-Las Positas Community College District - Purchasing & Warehouse Services

925-485-5245

925-485-5271

Prebid Conf: MAND 8/18 and 8/25 @ 10 AM at Chabot College Campus, 25555 Hesperian Blvd., Contract #: B21/22-01
Facilities Management Office Trailer, adjacent to Building 3000, Hayward and will then meet at 11:30 AM at Las Positas College Campus, 3000 Campus Hill Drive, Facilities Management Office Trailer, adjacent to Building 1300, Livermore

The Chabot Las Positas Community College District Security Management System Refresh Project is a technology refresh of existing security systems and devices.

The project includes two complete and independent Security Management Systems, including access control, video surveillance, and license plate recognition sub-system. One system will be installed and configured at Chabot College, in Hayward California and will control all related and subordinated systems and devices at the campus. The other system will be installed and configured at Las Positas College, in Livermore California and will control all related and subordinated systems and devices at the campus as well as those at the District Office, in Pleasanton California.

The project includes: new access control system, video surveillance system, and license plate recognition system servers and software; the replacement of the existing low frequency access control cards and fobs with new high frequency smart credentials and fobs; replacement of the existing access control system intelligent field panels, door controllers, I/O modules, and card readers with open architecture encrypted devices; replacement of the existing video surveillance system cameras and the installation of new cameras to existing emergency communication system towers; and the integration of the existing emergency communication systems devices in the new Security Management System. Existing power supplies, field devices, electronic locking hardware, and wire and cabling will be utilized to the greatest extent possible, however new Ethernet cabling and powered fiber transceivers will be required to support communication to new IP cameras in various locations. The project will include set-up, configuration, and programming of the Security Management Systems at each campus.

NEW RFQ AS-NEEDED PROJECT CONTROLS & CONSTRUCTION MANAGEMENT SERVICES NO. 1

Addenda: 0

9/16/21 2:00 PM 21-02522 San Francisco

Public Works

Plan Issuer: City & Co of San Francisco

415-554-6229

Prebid Conf: MAND No Pre Bid Meeting is scheduled for this Project

Contract #: 0000005404

San Francisco Public Works (Public Works), a department of the City and County of San Francisco (City), seeks to award up to six (6) master agreements (Contracts) to pre-qualified Consultant or joint venture (JV) firms to provide Project Controls and Construction Management related services on City projects on an as-needed basis as described in the attached RFQ. Projects may include infrastructure improvements, building and landscape improvements, and other City-owned facilities.

The result of this RFQ, through the evaluation and selection process, will be a master agreement with a not to exceed value up to \$3,000,000 with each selected consultant. Each master agreement will have a five (5) year term with Contract Service Orders (CSO) or task orders, to be issued during the first four years only.

Questions regarding the RFQ must be submitted no later than Wednesday, August 25, 2021, 4:00 PM by email to the Contract Manager, Olivia Lee, at: olivia.lee@sfdpw.org

NEW [RFQ FOR DESIGN/BUILD CONTRACT FOR GONZALES COMMUNITY CENTER COMPLEX](#)

Addenda: 0

9/16/21 4:00 PM 21-02458 Gonzales

Public Works

Plan Issuer: Swinerton Builders RKagiyama@swinerton.com

408-567-9755

408-567-9754

Prebid Conf: 8/20 @ 1pm- Info can be found in the description/scope of work

The City of Gonzales (hereinafter "the City") intends to contract with a Design-Build Entity to design and construct the Gonzales Community Center Complex ("Project" or "Community Center"). The Project will be located on Gabilan Court at 5th Street, Gonzales, California. The Community Center will provide a flexible, vibrant facility and hub for the community, supporting social needs of all kinds, with operations and ongoing maintenance enabling independent use of various activity spaces, and minimizing operational costs while increasing benefits to the entire community.

The Project is approximately 23,000 square feet with approximately 3.6 acres of sitework. The construction value of the Design-Build Contract will be approximately \$20 to \$22 Million.

Pre-qualification Conference: A Non-mandatory Pre-qualification Conference will be held at the date and time listed in the above "Timetable" at the project site. In event the Joint Use Gym just over the fence from Gabilan Court (City shares the Joint use Gym with the Gonzales Unified School District) becomes available, the conference will be held inside. A tour of the project site will follow the conference. Attendance at the Pre-qualification Conference is not mandatory for Design-Build Entities attempting to become pre-qualified to compete for this advertised project. Pre-qualification conference attendees should allow ample time to find a parking space and walk to the meeting location.

NEW [RFQ - ELECTRONIC DOOR CONTROL SYSTEM, ELECTIONS/OFFICE OF REGISTERED VOTERS](#)

Addenda: 0

9/17/21 2:00 PM 21-02481 Hollister

Public Works

Plan Issuer: County of San Benito

831-636-4170

831-636-4176

Contract #: PWB-2114

The Elections/Office of Registered Voters Office seeks responses to the Request for Qualifications for the following project scope of work:

Elections Access Control Requirements

1. Installation of an Access Control System without disturbing areas with asbestos, to include dropped ceiling tiles.
2. Walk-thru visits by potential bidders will be accommodated. (Most already have visited, BUT a minor change has been added and we will accommodate if another visit is desired.)
3. Install 9 cameras. First 8 locations are shown on floor plan. 9th is to be installed in 1st floor courtroom (room 101)
 - a. Cloud storage for 14 days minimum
 - b. Viewable by anyone with credentialed access, from PC and/or smart phone
 - c. Ability to download footage for local storage.
4. Install access control on 21 doors. 20 are shown on the floor plan. 21st is the double door leading into the 1st floor courtroom (room 101). Access control must offer:
 - a. Access via keycard, fob, tags, and / or wristband
 - i. Entry via mobile phone is acceptable but cannot be the only access credential.
 - b. Log who and when doors were accessed.
 - i. Searchable and printable from single source
 - c. Single source programming of all doors / cards. Must be able to grant access to an individual to select doors from one location.
 - i. Must be able to easily disable all access to an individual.
 - ii. Ability to grant access only during specified times or days.

BASE QUALIFICATION QUESTIONNAIRE: INFORMAL FORM CONTRACTS \$300,000-\$640,000 ONLY ONLY - UCSF **Addenda: 0**

9/30/21	2:00 PM	21-02175	San Francisco			Hospital
Plan Issuer: UCSF - Alison Kang alison.kang@ucsf.edu				415-353-7393	000-000-0000	

Effective January 1, 2015, Senate Bill 502 amended Public Contract Code Section 10504.5 enabling the University of California, San Francisco Medical Center to informally bid projects up to \$640,000. For informally bid projects between \$300,000 and \$640,000, the University is required to solicit bids only from qualified General Contractors and Mechanical, Electrical, and Plumbing (MEP) subcontractors. Qualification is based on meeting the requirements in the Base Qualification Questionnaire.

Upon returning a completed Base Qualification Questionnaire, your firm will be notified if qualified or the reasons for not being qualified. If a qualified general contractor, your firm will be among the "qualified" bidders that the University may informally solicit bids from. If a MEP subcontractor, your firm will be among the "qualified" bidders that qualified general contractors may informally solicit bids from.

RFP FROM DESIGN-BUILD ENTITIES - DUBLIN TRANSIT CENTER PARKING GARAGE PROJECT **Addenda: 1**

10/14/21	2:00 PM	21-02443	Dublin		\$34,000,000	Public Works
Plan Issuer: Alameda County General Services Agency (GSA)				510-208-9700	510-208-9711	

Prebid Conf: MAND Mandatory Pre-Bid Conference: 8/11 @ 2 PM; Non-Mandatory Site Visit: 8/13 @ 11 AM at Dublin Transit Center Parking Garage (Meet in the corner of Martinelli Way & Iron Horse Drive, Dublin) Contract #: 18124

County of Alameda is developing a multi-level parking structure on a 2.4-acre County owned property (Parcel D-1) located at the Dublin Transit Center. This parcel is currently undeveloped, with a three-story residential building to the North, a five-story mixed-use building to the West, and the existing Dublin/Pleasanton BART Parking Garage to the South. The lot to the East of this parcel has not been developed, and plans have not been made for its use. The topography in the area is generally flat, and the site currently has a primarily pervious surface. The height of the proposed development is governed by the adjacent five story mixed-use development and the existing six-story Dublin/Pleasanton BART Parking Garage.

Capitol Connection Q&A for Contractors

Week of 8/9/21

By Shauna Krause, President, Capitol Services, Inc.

To protect yourself you need the right answers, and a warning to beware like you will find here today. You can share a great bond with your family, but your license bond is yours alone. Buying business assets will include the company name, but will it include the contractor's license? It seems the theme here is change, and sometimes that includes sudden unexpected loss that means the end of the partnership...

Q: I have worked for my father's contracting company for many years and he passed away recently. I have applied for a new license and I'm requesting that his license number be re-issued to me. The CSLB sent me a letter requesting a contractor's bond. My Dad just renewed the bond on his license. Can I request that the CSLB also transfer his bond?

A: No, unfortunately bonds are not transferrable. So even though you will be keeping your father's license number you will need to obtain a new contractor's bond.

Q: My client currently has a California license (for the purpose of this conversation we'll call it ABC Inc). If ABC Inc. purchases the assets of another existing licensee and wants to continue operating the existing licensee's business, but under ABC Inc., could the license be amended to identify more than one dba name, or would they be required to obtain a separate license?

A: In an asset sale you cannot continue to operate under the same license number that the company currently has. When purchasing the assets of a licensed business, your client as the buyer will be transferring the assets to ABC Inc. and from that point can either obtain a new license for ABC Inc. with a dba name attached (which may be the current business name reflected on the seller's license), or they can form a new entity, purchase the assets, and continue operating the business.

Q: My Partner recently passed away. I have read that a Partnership license is cancelled upon the death or Disassociation of one of the General Partners. I plan to apply for a new license but I know that takes some time. We have quite a bit of work in progress. Is it possible to request that the CSLB hold off on cancelling the license until we finish the work in progress?

A: First of all, I'm sorry for your loss. B&P Code Section 7076 allows for the remaining General Partner or Partners to request a continuance of the license to complete projects in progress and undertake new work for a reasonable amount of time, which will be determined by the CSLB. This request must be made in writing within 90 days of his death.

FRAUD ALERT: The CSLB released a bulletin warning Contractors of a phone scam targeting licensees. In the scheme, an individual falsely identifying themselves as an employee of the CSLB demands a license "activation" fee of up to \$500 be paid immediately over the phone or the license will be cancelled. **The CSLB never calls licensees asking for credit cards or other confidential information.** If you receive any such call, take down the caller's information and contact the CSLB.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at *Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827*. INTRODUCTION

Creating the skeleton of a building, or framing, is one of the first parts of construction. Frames can be made out of wood or other materials, such as steel or concrete, but no matter what material is used, there are safety tips you need to remember.

HAZARDS

Some of the hazards involved in framing include:

- Falling objects
 - Wood, tools, or the actual frame itself can fall on workers.
- Musculoskeletal injuries
 - Improperly carrying or handling the materials used in framing.
- Injuries from tools
 - Tools used in framing, especially nail guns, can cause very serious injuries.

PREPARATION

- Inspect the site before you begin work for potential hazards and for planning purposes.
 - Decide ahead of time where the best place to put materials will be.
- Perform regular inspections throughout the job. This includes inspecting:
 - Tools and materials to make sure they are still safe to use.
 - The area to make sure no additional hazards have been created.
- Stack materials to prevent sliding, falling, or collapse.
 - When unbanding materials, be aware the load could have shifted during transportation and take the necessary precautions to avoid injuries from the material falling on you.

PROPER PROCEDURE

Although there are many hazards, there are also safe procedures in framing that can prevent the hazards from occurring. Remember:

- Cal/OSHA requires structures to be securely anchored, guyed, or braced to prevent them from falling.
- Use proper fall protection
 - Be sure to always have the proper fall protection required by Cal/OSHA, which could include guardrails, fall arrest systems, or fall prevention systems.
 - Not only is fall protection required for the edges of buildings, but for skylights and floor openings as well.
- Cal/OSHA also requires temporary restraints when manually raising framed walls that are 15 feet or more in height in order to prevent horizontal sliding or uplift of the wall bottom plate. Some examples of temporary restraints are:
 - Cleats on the foundation.
 - Straps on the wall bottom plate.

- Do NOT work from or even walk on top plates, joists (horizontal pieces of the frame), trusses or other structural members until they are securely braced and supported
- Do not move materials any more than you have to:
 - Have the materials delivered as close to where you will be using them as possible
 - Use proper lifting techniques.
 - Ask for help if something is too heavy.
 - If possible, cut the material to the needed specifications before moving it; this will lighten the load you need to carry.
- Wear the proper personal protective equipment. This may include:
 - Hearing protection
 - Hard hats
 - Gloves
 - Eye protection
 - A dust mask
- Pay attention to all warning signs and do not go into any limited access areas you are not authorized to enter.
- Report all unsafe conditions.

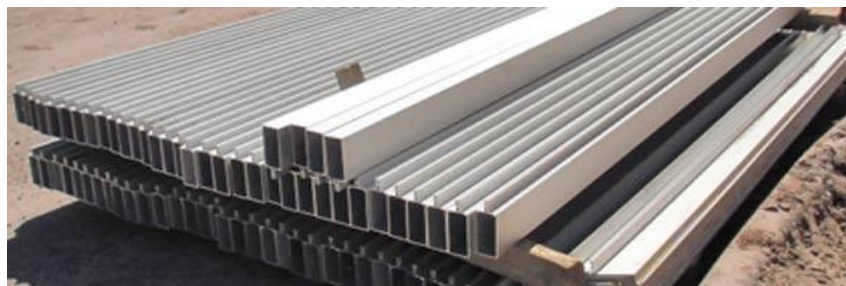

POWER TOOLS

- Never use a tool that you haven't been trained on.
- Always use the tool properly and follow the safety instructions: no shortcut is worth an injury or death.
- Be aware of where the electrical cords are so no one trips over them.
- Unplug the tool when you are finished using it and put it in a safe place so it will not be damaged and so no one will be accidentally injured.

CONCLUSION

There are many aspects to framing, and each carries its own sets of hazards. However, if you use common sense and remember to follow safety tips, you should be able to protect yourself and others from injuries while framing.
