My School DC Lottery

The My School DC lottery gives families the opportunity to apply for available seats in early childhood programs for 3- and 4-year-olds, out of boundary DCPS schools in grades K-12, citywide schools, DCPS application high schools, and participating charter schools. A single, random lottery is run by My School DC to determine placement of new students at all participating schools. The Office of the State Superintendent of Education (OSSE) oversees the My School DC lottery in collaboration with DCPS, the Public Charter School Board (PCSB), and participating charter schools.

To learn more about the lottery process, visit www.myschooldc.org

Key Dates

To review key lottery and enrollment dates, please visit <http://enrolldcps.dc.gov/Keydates>

KEY WORDS

Feeder-pattern school (also destination school): a school that a student has a right to attend based on a student's current school. This assignment only happens during the years a student moves from elementary to middle school or from middle to high school.

In-boundary school (also neighborhood school): a school that a student has the right to attend based on where the student's guardian lives. To identify your student's in-boundary school, visit <http://dcatlas.dcgis.dc.gov/schools/>.

My School DC application: an online application families must use to apply for DCPS out-of-boundary schools (K-12), all DCPS preschool (PK3) and prekindergarten (PK4) programs, citywide schools, DCPS application high schools (9-12), and participating public charter schools.

My School DC common lottery: a single, random lottery that determines placement for students at all participating My School DC lottery schools.

Out-of-boundary school: a school that a student does not have the right to attend because it is not an in-boundary school or a feeder-pattern school.

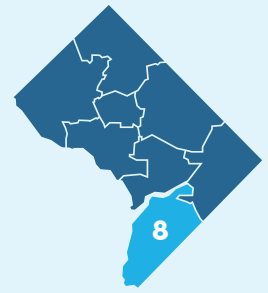

Application high school: a DCPS high school that requires an application for entry into the school. There are two types of DCPS application high schools:

Citywide: a school that does not have a boundary and therefore cannot be claimed as an in-boundary school. Citywide schools can only be accessed through the lottery and do not provide guaranteed enrollment to any new student. *Ron Brown is the only DCPS citywide application high school.*

Selective : a school that admits students based on specific eligibility criteria. DCPS has six selective application high schools: Banneker, Columbia Heights Education Campus, Duke Ellington, McKinley Tech, Phelps, and School Without Walls.

ANACOSTIA

“Greatness is not derived from a school’s name or reputation. It’s the students, staff, and community that make Anacostia High School great, day in and day out.”
— Kadeem, Class of 2019

Why Anacostia High School?

Anacostia High School was modernized in 2014, which provided the community with exceptional facilities to house the school’s academic programs focused on preparing students for college and career readiness. The school’s public safety academy, where students earn credit toward the Metropolitan Police Department cadet program, completed its first year and is enrolling new students. The school has incorporated the ASPIRE enrichment block into the schedule to provide students with academic interventions, character education, and an opportunity to participate in the performing arts. The school strongly encourages students to participate in athletics and afterschool programs to bolster college applications.
