*Project description categories (Access Control, Communications, Physical Enhancements, Surveillance, and Vessel) are defined and located below. The listed projects funded will reduce or eliminate vulnerabilities identified in a formal port vulnerability assessment. Because of this, a more detailed description of each individual project is SENSITIVE SECURITY INFORMATION (SSI).

Project Description:

Access Control includes: identification systems, access gates.

Communications includes: Communication systems, Command and Control, computer systems.

Physical Enhancements includes fencing, physical barriers, screening and detection equipment.

Surveillance includes the following: cameras, closed circuit television (CCTV), lighting.

Vessel funding is awarded for patrol-related activities only.
