Pathology Informatics
(ACMIO)

Moffitt Cancer Center

A Top 10 Cancer Hospital

Moffitt Cancer Center is dedicated to one lifesaving mission: to contribute to the prevention and cure of cancer.

Moffitt, the only National Cancer Institute-designated Comprehensive Cancer Center based in Florida, employs more than 7,000 team members. It is recognized for scientific excellence, multidisciplinary research, and robust training and education.

Moffitt's staff includes some of the world's best oncology physicians, surgeons, researchers, nurses, and healthcare professionals.

The Moffitt Medical Group (MMG) is Florida's largest multi-disciplinary medical group practice that is dedicated to cancer care. The MMG, based at Moffitt Cancer Center, also provides services at other hospitals and clinics throughout the state of Florida and beyond.

Moffitt's research includes more than 450 clinical trials focusing on cutting-edge discoveries in genomics and immunotherapy that can be rapidly translated into improved diagnostic, preventive and therapeutic advances for their patients. Moffitt employs about 800 research faculty scientists, career staff scientists, postdocs, graduate students and support staff dedicated to cancer research.

The Moffitt Story

Moffitt Cancer Center was established in 1981 by the Florida Legislature to address the state's cancer burden. The center was named after H. Lee Moffitt, former Speaker of the Florida House of Representatives.

In 1977, Moffitt lost three friends to cancer, each of whom had to seek sophisticated cancer treatment outside of Florida. Moffitt's sadness produced a resolve that would direct his efforts for years to come. While serving as speaker of the Florida House of Representatives, Moffitt worked tirelessly to influence legislation that established the cancer center in Tampa.

Facts & Figures*

- 7,000+ team members
- 425+ transplants a year
- 9,465 admissions
- 23,760 new patients
- 206 licensed beds
- 450,116 outpatient visits
- 11,601 surgical cases
- 68,148 patients seen
- \$92,479,943 total community benefit

Moffitt Research

Moffitt's five research programs, supported in part by the Cancer Center Support Grant (CCSG), consist of integrative teams of more than 140 faculty members working together to tackle the complexity of cancer. The five programs are:

- **Cancer Biology and Evolution** - a first-in-kind CCSG Program that emerged from systematic in-house collaborations of mathematicians, evolutionary biologists, and basic and clinical cancer researchers.
- **Cancer Epidemiology** - contributes to reducing cases of cancer through research to identify risk factors across the cancer continuum comprising etiology, progression, and outcome, and the translation of that knowledge into successful prevention and early detection interventions.
- **Chemical Biology and Molecular Medicine** - integrates chemical biology and systems biology technologies to develop new therapeutic approaches for the treatment of cancer.
- **Health Outcomes and Behavior** - contributes to the prevention, detection, and control of cancer through the study of health-related behaviors, health care practices, and health-related quality of life.
- **Immunology (IMM)** - defines the mechanisms by which tumors evade rejection by the immune system and develops strategies to thwart them. Key to the Program's success is the close integration of IMM clinical, translational, and basic scientists that facilitates rapid progression of novel immunotherapies from the bench to bedside.

Recognized for Excellence

- The only National Cancer Institute (NCI) - designated Comprehensive Cancer Center based in Florida and one of only 50 nationally.
- Ranked No. 11 on U.S. News & World Report's Best Hospitals for Cancer rankings in 2020, making Moffitt the best cancer hospital in Florida. This is the 21th year in a row that Moffitt has been nationally ranked by U.S. News & World Report.
- Moffitt was named LGBTQ Healthcare Equality Leader by the Human Rights Campaign Foundation in 2020.
- Moffitt achieved exemplar status for its Nurses Improving Care for Healthsystem Elders (NICHE) program, the highest designation in an international nurse-driven initiative designed to help hospitals improve the care of older adults. Moffitt is one of only 38 medical centers in the nation to have achieved this status.
- For the fifth consecutive year, Moffitt Cancer Center has been recognized on DiversityInc's Top Hospitals & Health Systems List. Moffitt ranked No. 5 on DiversityInc's 2020 list of Top Hospitals & Health Systems.

An Employer of Choice

- Ranked in Computerworld's 100 Best Places to Work in IT in 2020.
- Moffitt made the Tampa Bay Times Top Workplaces ranking for the 10th time.
- Moffitt was named one of the 2018 Top 10 Nonprofit Companies for Executive Women by the National Association for Female Executives (NAFE).
- Named one of the Best and Brightest Companies To Work For®, and one of the Best and Brightest Companies in Wellness by the National Association for Business Resources.

Moffitt's Commitment to Diversity & Inclusion

Dr. Green

Leadership Commitment

B. Lee Green, PhD, Vice President of Moffitt Diversity states:

"The essence of true diversity enriches everyone's overall experiences. At Moffitt Cancer Center, we seek to create and foster an environment where everyone can enter the doors and feel confident that they will receive the best state-of-the art, compassionate cancer care in the nation. This is why Moffitt continues to build and renew its commitment to promoting diversity and equity through its cancer care, research, education and employment. Moffitt's leadership believes that diversity and inclusion is paramount to achieving excellence and fulfilling its mission to contribute to the prevention and cure of cancer."

Moffitt Diversity is charged with ensuring that the diverse communities and populations that comprise the fabric of the Cancer Center embrace its Culture of Diversity. This commitment to diversity will enable Moffitt to sustain its reputation

as one of the premier cancer centers in the country. At Moffitt, diversity is not addressed as a separate entity, but woven into the overall fabric of the organization's efforts.

"I am extremely excited and optimistic about the future of Moffitt and the impact that our commitment to diversity will have on our employees, our community, and our contribution to the prevention and cure of cancer," said Dr. Green. "Max De Pree said it best: We need to give each other space to grow, to be ourselves, to exercise our diversity. We need to give each other space so that we may both give and receive such beautiful things as ideas, openness, dignity, joy, healing and inclusion."

Diversity Vision

Moffitt Cancer Center is recognized as the model wherein the diversity of our employees and communities is valued and supported as essential components to contributing to the prevention and cure of cancer.

The cancer center is an equal opportunity employer. It is the policy of the cancer center to prohibit unlawful discrimination and harassment of any type and to afford equal employment opportunities to workforce members and applicants, regardless of race, color, religion, sex, sexual orientation, gender identity or expression, national origin, age, marital status, disability, genetic information, veteran's status, or any other characteristic protected by federal, state, or local law.

Diversity is a priority at Moffitt and is meant to promote a culture of diversity and inclusion as we contribute to the prevention and cure of cancer. Moffitt Diversity focuses its efforts on eliminating those obstacles to an individual's ability to exist within their personal comfort zone at the Cancer Center. Everyone is important to meeting this priority. Addressing and responding to diversity and inclusion fosters an environment where mutual respect for diverse cultures, communication styles, languages, customs, beliefs, values, traditions, experiences, and other ways in which it identifies itself, is the expectation.

Associate Chief Medical Information Officer for Pathology Informatics

Overview

Moffitt Cancer Center is in the midst of an organizational wide strategic transformation journey called “Impact 2028” driving advancements in three main focus areas: personalized care continuum, digital care & discovery accelerator, and market expansion. Led by a visionary new CEO, Dr. Patrick Hwu from MD Anderson Cancer Center, Moffitt is making significant investments into achieving this ambitious journey.

The Chief Digital Innovation Officer, Dr. Edmondo Robinson, is building a team of innovators who will design and implement new digital technology solutions in the areas of business operations, clinical care, research, and consumerism that further drive success of the organization.

The Chief Information Officer, Elizabeth Lindsay-Wood, has added 90 new positions to the IT team along with several Directors who are maturing governance, scientific computing, enterprise architecture, and other capabilities.

There is strong support for informatics across Moffitt and leaders view it as a critical component for their overall strategic growth.

Position Scope

A key part of Moffitt's digital growth strategy is the creation of the new Associate Chief Medical Information Officer for Pathology Informatics (ACMIO) position. With a direct reporting relationship to the Chief Medical Information Officer, Dr. Randa Perkins, the ACMIO will lead a team of two experienced informatics liaisons and a matrixed team of physician informaticists in Pathology. As a member of the medical faculty, the ACMIO will be responsible for clinical services for 20% of their time as directed by the Chair of Pathology, Dr. Bruce Wening.

The ACMIO will develop and implement a strategic vision for evolving pathology and laboratory information systems using cutting-edge technology and ensuring pathology data can be easily accessed and captured by clinicians and researchers. As a part of the larger clinical informatics team, the ACMIO will also support laboratory and pathology data integration into clinical workflows. The ACMIO will also serve as a liaison between Pathology and IT to help drive the change in technology necessary to support digital transformation.

The Qualified Candidate

Minimum Qualifications

- MD/DO or equivalent
- Active Board Certification in Pathology
- Active Board Certification in Clinical Informatics or Board Eligible to complete within 24 months of hire
- 3+ years of experience at minimum 25% of full-time employment spent working directly with healthcare information systems outside work as practicing clinician
- Practicing physician

Preferred Qualifications

- Formal Pathology Informatics fellowship
- Research and publications within the field of pathology/clinical informatics/biomedical informatics
- Experience leading a team in long-term efforts, projects and/or committees and large organizational governance
- Experience with clinical trials research

Relocation Information

Tampa, Florida

The third most populous city in Florida, Tampa is a scenic city along the state's Gulf Coast. The Tampa Bay metro area includes Tampa, St. Petersburg and Clearwater.

The area offers a highly desirable quality of life with year-round sunshine. Beautiful scenic beaches with clean sand and clear water are easily accessible and residents enjoy numerous recreation options including golf, biking and water sports.

The state of Florida has no state income tax and houses in Tampa are relatively affordable.

"Top 5 Best Big Cities to Live"

- *Money Magazine*

Tampa is a vibrant city with plenty of entertainment, cultural, and leisure attractions. Downtown's Riverwalk is a 2.4 mile continuous pedestrian walkway along the Hillsborough River with stores, restaurants, and features the Curtis Hixon Waterfront Park as the centerpiece. Bayshore Boulevard is a beautiful 4.5 mile linear park along Tampa Bay that is considered "the world's longest continuous sidewalk." David A. Straz Jr. Center for the Performing Arts is the second largest performing arts complex in the Southeastern United States. The city also hosts events year-round such as the largely attended Gasparilla Pirate Festival.

Tampa Bay Area beaches include Clearwater Beach, St Pete Beach and the state park beaches of Caladesi Island and Fort DeSoto Park. Clearwater Beach was named the "#1 Beach in the U.S." by TripAdvisor in 2018.
