Welcome to your Practice Assessment Document (PAD)

Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the Standards for Pre-Registration Nursing Education (NMC 2010).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement.

Ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to the intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your mentor/supervisor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

Mentor/Supervisor responsibilities

As a Mentor/Supervisor you have an important role in supporting and guiding the student through their learning experience. This includes facilitating any reasonable adjustments the student may need to get maximum benefit from the placement.

As well as undertaking the required assessments, your role also includes identifying relevant learning opportunities and creating learning and development plans with the student. Duty rotas should support the development of the student/mentor relationship and allow the facilitation of learning. To enable this, 40% of the student's time spent in practice must be under your direct or indirect supervision.

When assessing the student, take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action an Action Plan should be instigated to address specific needs or concerns with a specified timeframe. In the event of this, seek guidance from the university representative and/or senior practice representative.

Sign-Off Mentor responsibilities (Part 3 only)

Sign-off Mentors must allocate time with the student to reflect, give feedback and keep a record of the student's progress in their final period of practice learning. In accordance with 'Due Regard', the assessor must be registered on the same part of the NMC register.

Guidance for using the PAD to Facilitate and Guide Practice Learning

Assessment criteria in the PAD are based on the NMC Essential skills clusters, progression criteria and standards for competence (NMC 2010). All mentors/supervisors/other professionals who comment in this document should sign and give their details on the record page which can be found in the first section of this document.

Components of Assessment (see individual university guidance/regulations)

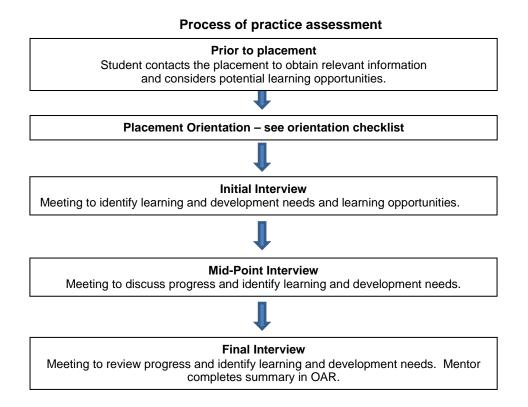

Professional Values: These are assessed and must be achieved by the end of each placement.

Essential Skills: These can be assessed in a range of placements but need to be assessed as achieved at least once by the end of the Part.

Assessment of an Episode of Care: This assesses the student's progress towards competency and must be achieved *by the end of the Part.* Examples are included in the 'Student and mentor Guide' An additional assessment of 'medicines management' is included in Part 2 and Part 3. Please refer to the 'student and mentor guide' regarding specific guidance on drug calculations in Part 3.

Patient/Service User/Carer Feedback Form: The mentor/supervisor must give permission before the person receiving care is approached for feedback on the student's performance. This is not formally assessed but may contribute to the mentor/supervisor's overall feedback.

Recording Additional Experiences and Feedback: There are two additional forms (included in each placement section, the first of these relates to working with other healthcare professionals/interprofessional working and the second can be completed by any staff member (inc. academic representatives/link lecturer) who wish to record student progress.

Further information / guidance is included in the university specific pages (overleaf) and in the *Student and Mentor Guide to Practice Learning*

Guidelines for Assessment and Progression

This document has been designed for use across nine Universities, this section outlines the process for assessment and progression for students in City University London nursing programmes. **Placement**

Each 'placement' is an organised practice experience which enables the student to observe, participate and practise their skills in a variety of real life contexts. The experience enables the student to relate theory to the practice of caring and enables their skills and knowledge to develop through supervised practice. The adult nursing student's practice experience will take place within a distinct geographically based Community of Practice. In in mental health nursing practice experience may also take place with an allocated group of service users (client attachment). Both of these approaches are organised so that the student works consistently within an established team of health and social care professionals. The student's practice experience will take place in a variety of settings such as specialist units, hospital wards and primary care settings such as Health Centres and service user's homes. For children's nursing students the student will be given a range of placements which encompasses a child community of practice across multiple Trusts or placement providers. This will also include nurseries, special schools, health visiting as well as wards and primary care.

There will be opportunities across a range of practice placement experiences to be assessed in the NMC Essential Skills and Professional Values in Practice in order to achieve the Progression Points (1 and 2) and completion of practice learning for entry to the NMC Register on successful completion of the Programme.

If the student's placement is less than 4 weeks there may be occasions when it is not necessary to complete an interview.

It is expected that a student passes each placement. In the event of a failed placement a student may be offered the opportunity for an additional placement. Refer to the flow chart *Process to Address Issues of Competence / Professional Conduct in Practice* for further information.

Absence

If a student is unable to attend placement they must inform the clinical area of this directly, text the university sick line on 07624819021 stating name, student ID, cohort and dates of sickness / absence. Any student absent for more than one week must also inform the Programme Director/Practice Lead via email. Failure to comply with this requirement will result in this being documented as unauthorised absence.

Assessment of Essential Skills

The four opportunities for assessment of essential skills in the PAD could be undertaken during the Student's Engaging in Practice Modules as appropriate for the relevant Part of the programme (Parts 1, 2 and 3).

The student **ONLY** needs to achieve each essential skill ONCE across the Part (1, 2 and 3) and **NOT** in every practice placement period or practice learning experience unless there is a change in the student's performance.

If an essential skill is assessed as achieved early in a Part (1, 2, and 3), it is expected that the student will maintain that level of competence. When this does not occur a student will not achieve statement 7 of the Professional Values in Practice Statements (*the student makes consistent effort to engage in the requisite standards of care and learning*) and will require an action plan to address this.

Assessment of Professional Values in Practice

Assessment of Professional Values in Practice will be completed in each placement at mid-point and end-point.

Practice Assessment - Episode of Care

The practice assessment – episode of care will be completed **ONCE** in each Part of the Programme (1, 2 and 3). Prior to the **summative** assessment the student needs to agree with their mentor a **formative** attempt with feedback.

Submission and Progression

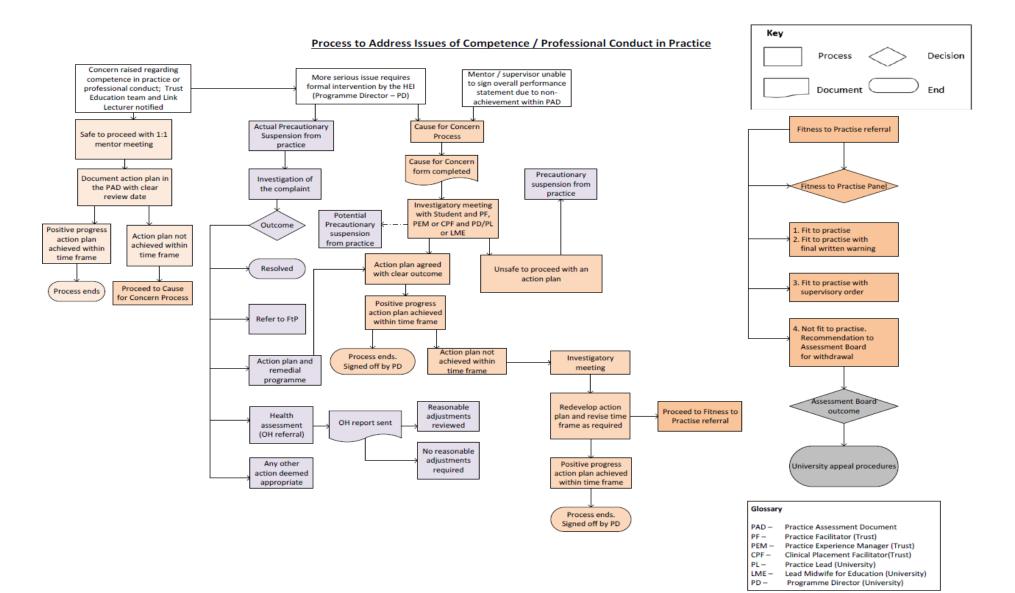

At the **END** of each **PART** of the Programme (1, 2 and 3), the student will submit the PAD, using University procedures, with all the essential skills, Professional Values in Practice, and Episode of Care achieved in order to Progress from Part 1, 2 or for completion. It is an NMC requirement that to pass each part of the programme, the student must successfully complete both the theoretical and practice elements of the programme by the end of each part (NMC 2010). The programme is therefore comprised of three sequential parts as required by the NMC. Students are required to complete and pass each part in order to be eligible to continue into the next part of the programme. If a student has not complete all outstanding assessments, please note the following:

If by the end of the Part (1 or 2 or 3) the Essential Skills, Episode of Care and Professional Values in Practice have **NOT BEEN ACHIEVED** then the student will have failed practice. This will be reported to the Assessment Board who will make recommendations including the ratification of externating circumstances. Recommendations could be:

- 1) If a progression break is required due to NMC requirements between part 1 and part 2 or between part 2 and part 3
- 2) or withdrawal from the programme.
- 3) A lower award may be recommended, without eligibility to register with the NMC.

If Extenuating Circumstances are accepted, completion of the PAD would need to be successfully completed by week 12 of the next part (without impact on academic commitments). In the event of a progression break or discontinuation of study the relevant funding bodies, e.g. NHS Student Bursaries or Student Finance England will be notified and bursary payments will stop. For further information please consult the Programme Handbook.

Practice Assessment Document

Descriptors for Assessing Students in Practice

The NMC has identified skills and professional behaviours that a student must demonstrate by the first progression point:

These criteria cover:

- Safety, safeguarding and protection of people of all ages, their carers and their families
- Professional values, expected attitudes and the behaviours that must be shown towards people, their carers, their families and others (NMC 2010).

Mentors are required to assess students at the level they are expected to achieve for their progression point. These descriptors should be used when assessing Professional Values, Essential Skills and the Episode of Care.

By the end of Part 3 the student needs to achieve all the Essential Skills, Professional Values, the Episode of Care Assessment and the Medicines Management Assessment.

| Achieved | Knowledge and understanding | Professional attitude | Participation in care and practical skill |
|----------|---|--|--|
| YES | Has a good knowledge-base and understanding is evident to support safe and effective practice. Can provide explanations to others, justifying decisions & actions using a sound evidence-base. | Is able to demonstrate positive engagement with learning and is able to respond proactively and flexibly to situations. | Is able to safely, confidently and competently focus on the patient in both predictable and less well recognised situations of care. |
| ΝΟ | Is only able to identify the essential knowledge-base and needs to develop further understanding and/or has an inadequate knowledge base or demonstrates unsafe practice. | Is disengaged from the learning process and/or responds inappropriately to patients/service users and/or colleagues. | With minimal supervision is not able to demonstrate safe practice and is unable to perform the activity independently. |

'Achieved' must be obtained in all three criteria by the student

Professional Values in Practice

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within legal frameworks, and be able to articulate the underpinning values of The Code (2015). Professional values expectations are reflected in the statements below. Yes = Achieved, No = Not Achieved (Refer to Grade Descriptors on Page 8)

Students can complete their evidence at any stage prior to the final interview. If there are any issues/areas for concern, these must be recorded in the Mid-Point or Final Interview as appropriate. 'Not Achieved' must trigger an Action Plan at the time of assessment and must be documented. The Action Plan template can be found on Page 91

Professional Values in Practice

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within legal frameworks, and be able to articulate the underpinning values of The Code (2015). Professional values expectations are reflected in the statements below. Yes = Achieved, No = Not Achieved (Refer to Grade Descriptors on Page 8)

| Professional attitude, | | nsibility | | | |
|--|--------------------------------|---------------------------------|------------------|-----------------------------|--------------------------|
| | Student Evidence / Comments | Achieved Mid-Point Yes/No | Initial/ Date | Achieved Final Yes/No | Initial/ Date (Final) |
| 1.The student maintains confidentiality in accordance with the NMC code and recognises limits to confidentiality for example public interest and protection from harm. | | | | | |
| 2. The student is non- judgemental, respectful and courteous at all times when interacting with patients/service users and all colleagues. | | | | | |
| 3. The student maintains an appropriate professional attitude regarding punctuality and communicates appropriately if unable to attend placement. | | | | | |
| 4.The student's personal presentation and dress code is in accordance with the organisation's uniform policy. | | | | | |
| 5. The student acts as a role model in promoting a professional image. | | | | | |
| 6. The student is proactive in promoting and maintaining the person's privacy and dignity. | | | | | |
| 7.The student demonstrates openness, trustworthiness and integrity | | | | | |

| | Student Evidence / Comments | Achieved Mid-Point Yes/No | Initial/ Date | Achieved Final Yes/No | Initial/ Date (Final) |
|--|--------------------------------|---------------------------------|------------------|-----------------------------|--------------------------|
| 8. The student makes | | | | 100,110 | |
| consistent effort to engage | | | | | |
| in and reflect on the | | | | | |
| requisite standards of evidence based care and | | | | | |
| learning to enhance care | | | | | |
| and their own professional | | | | | |
| development. | | | | | |
| Safe and compassiona | te care | | | | |
| 9. The student is attentive, | | | | | |
| kind, compassionate and | | | | | |
| sensitive to the needs of | | | | | |
| others. | | | | | |
| 10. The student maintains | | | | | |
| consistent person-centred | | | | | |
| practice and empowers | | | | | |
| people to meet their own | | | | | |
| needs and make choices. | | | | | |
| 11.The student reports any | | | | | |
| concerns to the appropriate | | | | | |
| professional member of | | | | | |
| staff when appropriate e.g. | | | | | |
| safeguarding. | | | | | |
| saleguarung. | | | | | |
| 12. The student | | | | | |
| demonstrates the potential | | | | | |
| to lead and work | | | | | |
| autonomously and to listen | | | | | |
| and seek clarity where | | | | | |
| appropriate. | | | | | |
| 13. The student is self- | | | | | |
| aware and self-confident | | | | | |
| and is able to work within | | | | | |
| the limitations of own | | | | | |
| knowledge, skills and | | | | | |
| professional boundaries | | | | | |
| and to take appropriate | | | | | |
| action. | | | | | |
| 14. The student manages | | | | | |
| appropriate and | | | | | |
| constructive relationships | | | | | |
| with the multidisciplinary | | | | | |
| team, patients/service | | | | | |
| users, families and other | | | | | |
| carers, with the intent of | | | | | |
| building professional, | | | | | |
| caring relationships | | | | | |
| ensuring that decisions | | | | | |
| about care are shared. | | | | | |
| | | | | | |

Students can complete their evidence at any stage prior to the final interview. If there are any issues/areas for concern, these must be recorded in the Mid-Point or Final Interview as appropriate. 'Not Achieved' must trigger an Action Plan at the time of assessment and must be documented. The Action Plan template can be found on Page 91

Assessment of Essential Skills

Assessment of Essential Skills is undertaken across the Part. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the Part. If an Essential Skill is assessed as Achieved (YES) early in the Part it is expected that the student maintains that level of competence and can be re-assessed in subsequent placements at the mentor's discretion.

The Grade Descriptors are 'Yes' – (This skill has been achieved), 'No' (this skill has not been achieved). Refer to Grade Descriptors on Page 8 for further details.

Part 3 Episode of Care

This assessment must be completed by the end of Part 3 during a specific episode of care, managing care for a group of patients/service users or a complex patient. This should be for a minimum of 6 hours including a handover of care.

Guidelines

In discussion with the student, the mentor will identify an appropriate episode of care involving organising and managing the care for a group of patients/service users or a complex patient scenario.

The aim of this assessment is to demonstrate the student's progression in the following four competency domains in the context of the relevant field of nursing:

- Professional values
- Communication and interpersonal skills
- Nursing practice and decision-making
- Leadership, management and team working

Learning outcomes

- 1. The student plans, organises and manages patient-centred care within an appropriate timeframe with minimal supervision from the mentor.
- 2. The student uses effective management skills to organise work efficiently. Prioritises and organises workload and appropriately delegates to others.
- 3. The student is able to handover information delivering accurate verbal and written reports in relation to person-centred care.
- 4. The student has maintained appropriate professional values, expected attitudes and behaviours during the episode of care.
- 5. The student must demonstrate that they have maintained safety and safeguarding for the patient and carers or family.

Please ensure that you reference the above 5 learning outcomes in your reflection on the next page

Part 3 Medicines Management

This assessment must be completed by the end of Part 3 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in community settings under the supervision of the mentor.

During Part 3 the student should be consolidating their knowledge, skills and competencies in relation to the safe administration of medicines. This assessment should normally be undertaken with a small group of patients/service users or caseload.

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies

Regulatory requirements: Standards for medicines management (NMC, 2007).the code (NMC, 2015)

The aim of this assessment is to demonstrate the student's knowledge and competence in administering medications safely.

Learning outcomes

- 1. The student is able to apply knowledge of pharmacology, how medicines act and interact in the systems of the body, and their therapeutic action.
- 2. The student is able to prepare medications where necessary, safely and effectively administer these via common routes and maintains accurate records
- 3. The student is able to safely and accurately perform medicines calculations.
- 4. The student is able to demonstrate that they have maintained appropriate professional values, expected attitudes and behaviours during the administration of medicines.
- 5. The student is able to maintain safety and safeguard the patient from harm.

Sign-off mentor record sheet

The NMC identify that sign off mentors must have time allocated to reflect, give feedback and keep records of student achievements in their final period of practice learning. This will be equivalent to an hour per student per week. The time allocated may need to be greater earlier in the practice experience and reduced as the student becomes more confident and competent, (NMC 2007). The first meeting should include a discussion of the student's Ongoing Achievement Record (OAR).
