3rd UPPER EGYPT
ASSISTED REPRODUCTIVE CONFERENCE

CAIRO MARRIOTT HOTEL - ZAMALEK

PRE CONFERENCE WORKSHOPS

Dear friends and colleagues

On behalf of the organizing committee of the 3rd Upper Egypt Assisted Reproductive Conference, it gives us a great pleasure to invite you to participate in the 2nd Pre- congress workshop in Reproductive Medicine and IVF, a two day course, which will take place in Cairo Marriott Hotel, on February 19-20, 2018. This course is an opportunity for all infertility specialists, gynecologists, andrologists and embryologists to enhance their technique in the diagnosis and treatment of infertile couples.

We look forward to welcoming you in Cairo

FEBRUARY 19-20, 2018 | CAIRO MARRIOTT HOTEL, EGYPT

MONDAY

19 FEB 2018

09:00 am– 18:00 pm

09:00-09:20

Physiology of Reproduction.

AMAL SHOHAYEB
Egypt

09:20-09:40

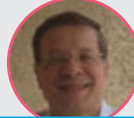

Infertility Causes and Diagnosis.

AHMED HUSSIEN
Egypt

09:40-10:00

Ultrasound in Infertility Assessment.

MOHAMED ALI .KADER
Egypt

10:00-10:20

HSG in Infertility Assessment.

SOHA TALAAT
Egypt

10:20-10:40

Laparoscopy in Infertility: Assessment and Treatment.

GOLDBERG JEFFREY
Canada

10:40-11:00

Hysteroscopy in Infertility Assessment and Treatment.

OSAMA SHAWKI
Egypt

11:00-11:30

Q AND A

11:30-12:00

COFFEE BREAK

12:00- 12:20

Is semen Analysis is Enough: Male Infertility- Diagnosis & Management .

ALI MAHRAN
Egypt

12:20 -12:40

Thyroid Dysfunction in Reproduction.

AHMED NABIL
Egypt

12:40-13:00

Ovulatory Dysfunction and Hyperprolactinemia in Reproduction.

MAHMOUD HOSNY
Egypt

13:00-13:20

Imminent & Premature Ovarian Failure.

MOHAMED YOUSSEF
Egypt

13:20-13:40

Polycystic Ovary Syndrome.

HAZEM ABDEL GHAFAR
Egypt

13:40- 14:00

Endometriosis and Adenomyosis & Reproduction.

GOLDBERG, JEFFREY
Canada

14:00-14:30

Q AND A

14:30-15:00

COFFEE BREAK

15:00- 15:20

Fibroid and Reproduction.

YACCOUB KHALAF
UK

15:20- 15:40

Unexplained Infertility.

MOHAMED YAHIA
Egypt

15:40-16:00

Recurrent miscarriage and implantation failure.

MOHAMED BEDAIWY
Canada

16:00-16:20

Intrauterine Insemination- Indications & Procedure.

MOHAMED SABRY
Egypt

16:20-16:40

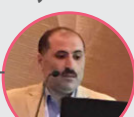

Embryo Tansfer (ET).

MOHAMED ABOULGHAR
Egypt

16:40-17:00

History and Physiology of Understanding Medically Assisted Reproductive Techniques.

MOHAMED YOUSSEF
Egypt

17:00-17:30

Q AND A

PGD & PGS UPDATES WORKSHOP

FEBRUARY 19-20, 2018 | CAIRO MARRIOTT HOTEL, EGYPT

EMBRYOLOGY & PGD
ACADEMY

Cleavage and Trophectoderm Biopsy for Preimplantation Genetic Diagnosis Workshop

AIMS OF THE COURSE

The program will provide embryologists with a comprehensive knowledge and understanding of embryo biopsy. As well as lectures, the course will include hands-on practicals and demonstrations cleavage stage and blastocyst biopsy. During two days, delegates will not become competent at these techniques but will have enough hands-on to go away and practice in their own laboratory setting. The workshop will also allow scientists to discuss the technology with their peers and with experts in the field. As well as the lectures, additional information will be given in the form of copies of the PowerPoint presentations and a detailed workshop manual.

IVF QUALITY CONTROL WORKSHOP

FEBRUARY 20, 2018 | CAIRO MARRIOTT HOTEL, EGYPT

Creating an Embryology Laboratory Quality

A Quality approach in the ART laboratory is fundamental to achieve the best possible outcomes for both patients and staff. A cornerstone of this approach is the laboratory's Quality Manual, which provides the blueprint for all of the policies and procedures that support a quality approach. But what is a Quality Manual, what does it need to include, and why do you have to develop your own, rather than buying one "off-the-shelf"? this Workshop will address all of these questions, and provide you with the background and information you will need to create your own useful and compliant Quality Manual for ART.

TUESDAY
20 FEB 2018

09:00 – 13:00

09:00 – 09:30

TESTICULAR BIOPSY- LABORATORY VIEW: SPERM EXTRACTION: ARE THERE ADVANCED TECHNIQUES?

FEBRUARY 20, 2018 | CAIRO MARRIOTT HOTEL, EGYPT

TUESDAY
20 FEB 2018

15:00 – 19:00

- Testicular biopsy is the most important procedure in assessment of azoospermic patient.
- Most of the ICSI centers had advocated the idea of cryopreservation of testicular sperm before starting ovarian stimulation (Devroey et al., 1995), and since in most of the patients with NOA, only limited number of testicular spermatozoa could be retrieved, sperm freezing may be a risky procedure in some cases (Schlegel et al., 1997).
- In this workshop, we will learn more about the most advanced technique that can help the embryologist to make procedures of researching and detection of sperm in testicular biopsy samples more clearly, easily, helpful and more benefit. And by this technique we can detect sperm in samples with very rare sperm to use it in ATR to help many couples.

POSTGRADUATE ANDROLOGY

C O U R S E

19- 23 February 2018
Cairo Marriott Hotel
(5 Days from 9 am till 5 pm)

Objectives

The objective of the course is to bring the field of andrology to generalists and specialists interested in men's health. As the field of andrology is rapidly progressing with new modalities and treatment, the doctor on the ground will want to be updated on the latest developments. This is especially so in the age when men are living longer and they are becoming increasingly concerned with issues of quality of life. The theme of the course is Practical Case Scenario Prospects in the Daily Practice.

Target

- Andrologists
- Urologists
- Dermatologist
- Internists
- General practitioners
- Fellows, Residents

CLINICAL RESEARCH METHODOLOGY BEGINNER LEVEL INTERACTIVE WORKSHOP

This new 1-day author academy on clinical research methodology helps researchers build robust protocols in order to increase their publication success. For this beginner level, we will give strategies on how to formulate impactful research questions, recruit enough participants to achieve high statistical power. We will also review how to report variables and select the appropriate clinical study design. This workshop is meant to be highly interactive between the trainer and attendees and includes several activities.
