

PREMIUM GAS FIREPLACE INSERTS

The Right Fireplace Insert Company For You

"For more than forty years, we have been passionate about the science and art behind making beautiful fireplace inserts for homes in North America. We utilize the finest materials and subject them to vigorous testing standards to make fireplace inserts that stand up to the rigors of time.

These fireplace inserts are the best money can buy. We have a worldwide reputation for award-winning innovations in fireplace insert design, and yet the most significant recognition to me is when a family entrusts us to be their fireplace insert of choice.

Take your time, enjoy looking through this catalog and keep the home fires burning."

All Fireplace Inserts Are Not Created Equal

There are a lot of nice fireplace inserts out there that you might like. Allow us to introduce you to the greatest gas inserts in the world. We know you'll find one that you are going to love!

Fireplace Xtrordinaire® offers four extraordinary models of premium gas burning fireplace inserts. While every one of these fireplace inserts embody the same attention to detail in design and construction, each model is quite unique. Sizing and heating capacity range from medium to large heaters.

Beauty Is Not Optional

We make the most beautiful, elegant fireplace inserts in the world. Our models feature a wide array of designer faces and firebacks to choose from, along with high definition log set options. Our attention to detail is second to none and our gas inserts provide the most realistic, wood-like fires available. When you purchase a Fireplace Xtrordinaire®, you are not only getting an efficient heater, but a stunning statement piece for your home.

Incredible Performance

All of our insert models are excellent home heaters designed to provide radiant heat through the large fireviewing glass and natural convection through the heat exchanger. Incredible turndown rates and high efficiencies make these some of the most efficient gas burning inserts in the world.

No Power? No Problem!

All Fireplace Xtrordinaire® fireplace inserts will work in a power outage.

Innovations

We are known the world over to be the most creative group of innovators and designers, bringing life to innovations such as:

- Ember-Fyre® & Ember-Fyre® II
- Ember-Glo™
- GreenSmart®
- Custom Shop Collection

MID-SIZED FIREPLACE INSERT PAGES 6-9

32 DVS DELUXE

The 32 DVS has the smallest footprint of our mid-sized models, and is our 'go-to' insert for fitting into almost any fireplace. This Deluxe model features the award-winning Ember-Fyre® Burner.

31,000 BTUs

430 DELUXE

This Deluxe model features a large ceramic glass viewing area that extends down to the hearth. The 430 also comes standards with Ember-Glo™ ember bed lighting.

31,000 BTUs

LARGE FIREPLACE INSERTS - PAGES 10-13

34 DVL DELUXE

This model is the larger counterpart to the 32 DVS, which also includes our Deluxe features and the award-winning Ember-Fyre® Burner.

40,000 BTUs

616 DELUXE

The 616 features our biggest fireview, with up to 20% more glass than other large inserts its size. This Deluxe model features Ember-Glo™ ember bed lighting.

39,000 BTUs

NOTE: "Deluxe" insert models include the GreenSmart® Remote Control, quiet Convection Fan and Accent Lights.

The 32 DVS Deluxe and 34 DVL Deluxe Feature the Award-Winning Ember-Fyre® Burner

You'll be amazed at the realism of our patented Ember-Fyre® burner technology. Known for its gorgeous, dancing yellow flames and high-definition detailed logs, Ember-Fyre® is the most realistic wood-like gas fire available.

Ember-Fyre® Protected By U.S. Patent #6,602,068, #6,443,726 and other patents pending.

The 430 Deluxe and 616 Deluxe Feature the New Ember-Fyre® II Burner

Inspired by our popular award-winning Ember-Fyre® Burner, the new Ember-Fyre® II offers the next generation of high definition, wood-like burner technology. Just like our original Ember-Fyre® Burner, Ember-Fyre® II provides a realistic looking fire with dancing yellow flames and incredible attention to detail that makes it hard to distinguish from a wood burning fire. Ember-Fyre® II includes Ember-Glo™ ember bed lighting and your choice of highly detailed log sets or Fyre-Art™.

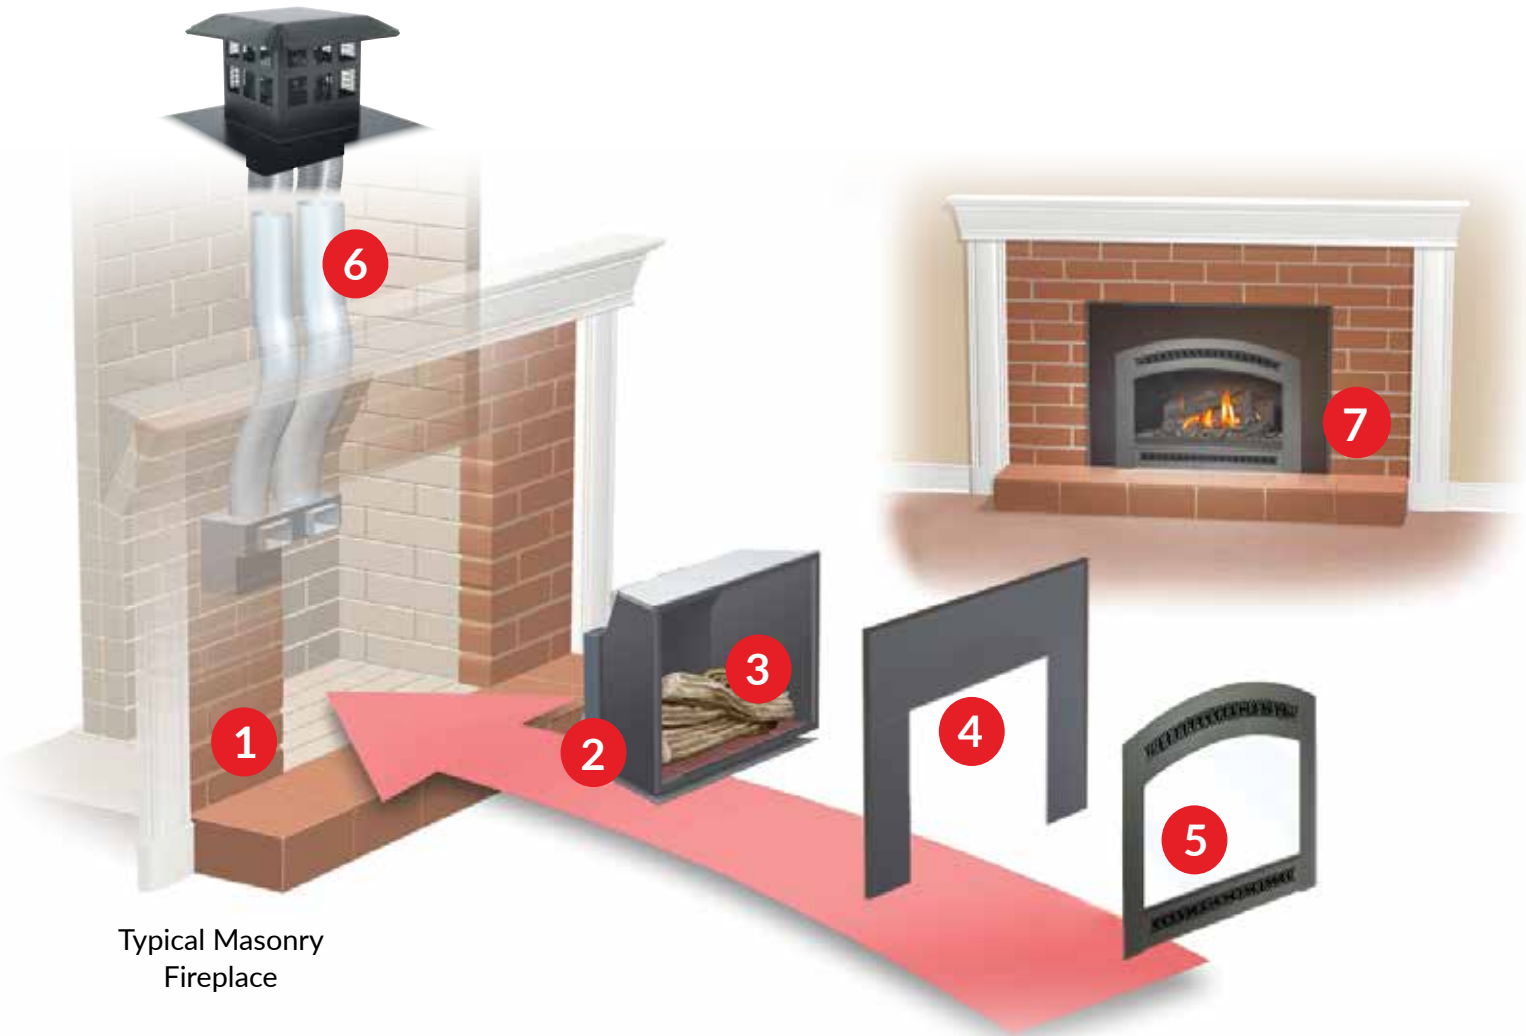

AN INSERT FOR EVERY FIREPLACE

Turn Your Fireplace Into An Efficient Heat Source

Fireplace Xtrordinaire® gas inserts allow you to enjoy a gorgeous, glowing fire without losing heat out of your chimney. These inserts are designed to transform virtually any masonry or zero clearance (metal) fireplace into an efficient source of heat. Traditional, open fireplaces can have efficiency ratings as low as 15%, and depending on the condition, can actually draw the heat out of your home for a net heat loss. Our heater-rated gas inserts achieve steady state efficiency ratings as high as 90%.

All Fireplace Xtrordinaire® Gas Inserts Feature Direct Venting

All Fireplace Xtrordinaire® Premium Gas Inserts feature an efficient co-linear direct venting system. This dual-liner system allows for direct venting through an existing masonry chimney with one liner to vent exhaust and the other liner to provide combustion air and maintain indoor air quality.

- 1 Measure Your Existing Masonry or Metal (Zero Clearance) Fireplace
- 2 Select the Insert That Best Fits Your Fireplace
- 3 Choose A Log Set and Burner
- 4 Select A Finish Panel (Required on 430 and 616)
- 5 Pick One of the Designer Faces
- 6 Add the Co-Linear Direct Vent Chimney
- 7 Enjoy the Heat!

The 32 DVS shown with the Classic Arch™ Face, Ember-Fyre® Burner with High Definition Log Set, Handmade Brick Fireback, One-Piece Finish Panel and Insert Wiring Kit.

Traditional 1,500 Square Foot Heater

This insert is an efficient way to heat mid-sized homes and living spaces up to 1,500 square feet. The 32 DVS features a ceramic glass viewing area and our award-winning Ember-Fyre® Burner with a high definition detailed log set.

This Deluxe model includes our most popular options, namely, adjustable rear Accent Lights, a 180 CFM convection fan and the GreenSmart® Remote Control. Learn more about our exciting GreenSmart® features on pages 18-19.

Insert Choices *See Pages 14-17*

- Five face designs to choose from
- Choose between the Award-Winning Ember-Fyre® Burner with high definition log set or Dancing-Fyre™ Burner with choice of Classic Log Set, Driftwood Fyre-Art™ or Fyre-Stone™ Rock Kit
- Multiple Finish Panels to choose from. Custom fit panels are also available. *(See page 15 for sizes)*
- Four fireback choices *(Not all firebacks are available with Driftwood Fyre-Art™ or Fyre-Stone™ Rock Kit)*
- Insert Wiring Kit

Specifications

Traditional 1,500 Square Foot Heater with Large Viewing Area

The 430 is a beautiful insert that is ideal for providing supplemental heat to homes or living spaces up to 1,500 square feet. Featuring 430 square inches of ceramic glass, this model has a larger fireview than most inserts its size. The ceramic glass extends down to the hearth to offer a “clean face” look that resembles a traditional masonry fireplace. This model features Ember-Fyre™ II burner with Ember-Glo™ ember bed lighting.

This Deluxe insert features the GreenSmart® Remote Control, top Accent Light and a 180 CFM convection fan. Learn more about our exciting GreenSmart® features on pages 18-19.

616 DELUXE LARGE GAS INSERT

Traditional 2,000 Square Foot Heater with Large Viewing Area

The 616 is an excellent heater and beautiful focal point for larger homes and grand spaces up to 2,000 square feet. This insert features our biggest fireview, with 616 square inches of ceramic glass that extends down to the hearth. This creates a “clean face” look with minimal metal facing and a larger fireview than other inserts its size. This model has a gorgeous flame appearance and features the Ember-Fyre™ II burner with Ember-Glo™ ember bed lighting.

This Deluxe insert features the GreenSmart® Remote Control, top Accent Light and a 180 CFM convection fan. Learn more about our exciting GreenSmart features on pages 18-19.

All of our Deluxe Gas Fireplaces in this catalog feature the patented GreenSmart® System. This proprietary system is the most innovative collection of components, controls, and technology that when combined provides an elegant, greener, and smarter way to heat your home.

GreenSmart® Deluxe Multi-Function Wireless Thermostat Remote Control

- Two Thermostat Modes
- Change Between IPI GreenSmart® and CPI Pilot Modes
- Flame Adjustment (6 levels)
- Convection Fan Operation (6 levels)
- Accent Lights (6 levels)
- Comfort Control™ (Controls rear burner)
- Ember-Glo™ ember bed lighting

Manual Setting ON/OFF

Fire and fan stay where you manually set it.

Thermostat Setting

Fireplace turns ON or OFF to maintain your desired home/room temperature.

Smart Thermostat Setting

Automatically adjusts the flame height based on the temperature setting, so the flame will modulate up/down as opposed to shutting ON/OFF like normal thermostats. This setting conserves fuel and maximizes the unit's heating ability while extending the viewing pleasure of the fire.

Choice of Pilot Modes - Easily Switch Between IPI & CPI Modes:

IPI GreenSmart®- Intermittent Pilot Mode

Use in summer or milder heating days to reduce gas consumption from the pilot. The pilot only turns on when the unit calls for heat, saving more energy.

CPI - Continuous Pilot Mode

Use in fall/winter or in cold climate areas. CPI keeps the pilot on at all times. This warms the vent system to maintain a strong draft in your chimney and reduce moisture condensation on the glass. This system includes a battery back-up, ensuring proper ignition, even during power outages.

Flame Adjustment

Adjust the height/heat of the flame.
6 levels of flame heights to choose from.

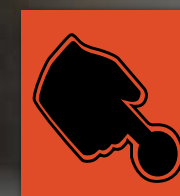

Accent Lights

This feature adds a warm glow to both the logs and fireplace interior, and can be used when the fire is on or off. Perfect as a nightlight or soft indirect lighting for the room, the Accent Light allows for visual enhancement of your fireplace 365 days a year. 6 levels to choose from.

Comfort Control™

Comfort Control™ turns off the rear burner while leaving the front burner on for an attractive flame when heat output is not the priority. This feature offers a turn-down ratio of up to 75 percent and offers a more efficient way to heat your home by only burning the correct amount of fuel to keep a constant room temperature.

Ember-Glo™

Ember-Glo™ combines adjustable halogen under-lighting with colored glass and embers in front of the fire to provide an amazingly realistic ember bed effect.

Convection Fans

Circulate room air around the firebox and deliver heated air into your home. 6 speeds to choose from.

Accent Lights Off

Accent Lights On

Marcus, one of our master craftsmen, works on hand-forging parts for our beautiful Timberline™ face.

Custom Shop

The Custom Shop features all of the unique hand-crafted, hand-painted and hand-hammered items that our artists craft at the House of Fire. The texture and luster make each piece a bold statement of indulgent artistry.

Custom Shop Pieces

STEEL FORGED FACES

- Artisan™ Face Collection
- Timberline™ Face Collection

Light Weight Concrete Mantels

- Hand-Hewn Timber Mantel & Legs
- Polished Gray Concrete Mantel and Hearth

Custom Hand-Forged Face Designs

Each Artisan™ and Timberline™ face is hand crafted by in-house blacksmiths through a skillful and labor intensive metal forging process. From start to finish this process requires focus, stamina and an artful eye. Every individual piece of metal is heated in a forge at extremely high temperatures, hand-hammered and worked multiple times to complete an authentic finished product with textured surfaces, hammered edges and incredible attention to detail. Each face is an individual custom work of art that bears unique, subtle characteristics from the hands of its creator.

Hand-Rubbed Bronze Patina

This finish features warm undertones that are absorbed deep into the metal, giving it the luster and beauty of an oil-rubbed bronze piece of art.

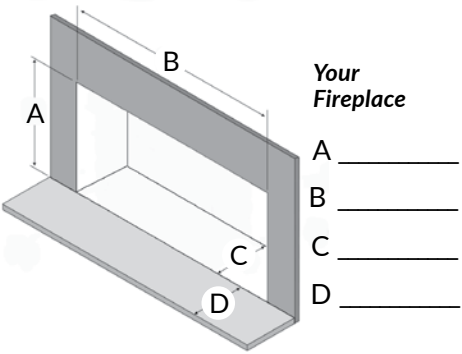

Hand-Rubbed Burnished Patina

This finish offers a timeless look that resembles worn, aged steel with beautiful textures that create subtle high and low lights.

SIZING YOUR INSERT TO YOUR FIREPLACE

Determine which insert is best for your home based on your fireplace size and heating requirements.

Minimum Fireplace Requirements Per Model

SAFETY FIRST

Your safety is our number one concern. All of our gas inserts are very safe to own and operate in your home.

Fireplace Xtrordinaire® gas insert faces come standard with a ANSI-compliant glass screen, providing a safety barrier that protects against accidental contact with the hot glass surfaces and reduces the potential for injury. These screens are practically invisible and are so discrete that they do not detract from the fire view in any way.

FIREPLACEX® DESIGN MY FIRE BE YOUR OWN DESIGNER

With our New & Enhanced Designer My Fire Web App

Pick your insert, accessories, and extras then snap a photo of your room and upload it to the app to see what your new fire will look like in your room! Visit our website at **FIREPLACEX.COM**

7-YEAR “REAL WORLD” WARRANTY

Our 7-Year Warranty offers more protection on key components than the so-called “Limited Lifetime” warranties of our competitors. FireplaceX® builds inserts to last a lifetime.

We'll stand behind the quality and performance of our products year after year because that's the way we do business - and you don't have to read the fine print for your peace of mind.

YEARS 1-2:

All parts and labor on your gas burning appliance, including blower and one-way freight allowance.

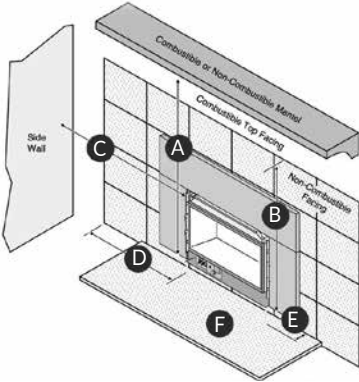

YEARS 3-5:

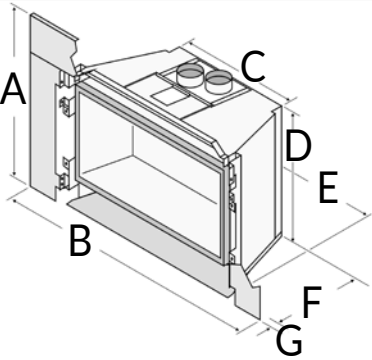

All parts and labor on the firebox, door assembly, air control assemblies and one-way freight allowance.

YEARS 6-7: Parts only on firebox, door and air control assemblies.

PROFESSIONAL HEARTH DEALERS

Only the most professional specialty hearth retailers are selected to sell Fireplace Xtrordinair® fireplace inserts. They represent our total commitment to exceptional products and excellent service. In addition, they have successfully completed special training programs in the proper selection, installation, and service of all Fireplace Xtrordinair® products.

Your professional Fireplace Xtrordinair® hearth dealers are experts who can advise you on everything from customizing the color of your appliance to selecting appropriate venting and chimney materials.

ADDITIONAL HEARTH PRODUCTS

Fireplace Xtrordinair® produces a wide variety of quality wood and gas appliances. Find your favorite fire today by visiting: www.FireplaceX.com.

TESTED & CERTIFIED

ANSI Z21.88-2014/CSA 2.33-2016 "Vented Gas Fireplace Heater", CGA 2.17-M91 (R2009) "Gas Burning Heating Appliances for Manufactured Homes", and CSA P.4.1-15 Testing method for measuring annual fireplace efficiency. We recommend all Fireplace Xtrordinair® appliances be installed and maintained on an annual basis by your Specialty Hearth Retailer.

Improper installation of your gas appliance or failure to operate it in accordance to the guidelines detailed in the Owner's Manual may negate your warranty and endanger your home and family. Installation information is available on our website at www.FireplaceX.com.

MADE IN AMERICA

Our fireplace inserts are proudly manufactured in America at The House of Fire. If you're ever in the Seattle area, we invite you to take a free tour of The House of Fire world-class manufacturing plant. You will meet the artisans, engineers, craftsmen and craftswomen who design and hand build these fabulous appliances. Wear comfortable shoes, the factory is eleven acres indoors!
