An indispensable book to stop bullying and teasing in the preschool classroom.

Summary:

In preschool, children encounter their first experiences in forming and joining social groups outside their family. It is natural for them to experiment with social interactions while learning about their world. In this guide, teasing and bullying are addressed as a continuum of intentionally hurtful behavior, from making fun of someone to repetitive physical abuse. Creating a caring environment at the beginning of school reduces the need for children to assert themselves through negat...

An activity-a-day, for preschoolers, for a year.

**Summary:** Organized by month, teachers will find 360 hands-on activities, games and ideas for fun learning every day of the year. Each month begins with a pre-planned activity calendar indicating learning skills and appropriate age level. Activities require a minimum amount of preparation and encompass a broad range of subjects such as nature, animals, the human body, holidays and the weather.

**Author Bio:** Patty Claycomb has been teaching children for fourteen years. She has a B.S. degree in child psychology. Patty believes that a teacher must both love her children and provide them with the best possible environment for them to grow and learn. This magical combination has taken shape in *The Busy Classroom!* She has tested this curriculum program in her own classroom. It works, it's fun and creative with well-organized monthly topics. She promises you a busy classroom!

BIG activities engage little learners with this complete curriculum for science, math, and language.

Summary:

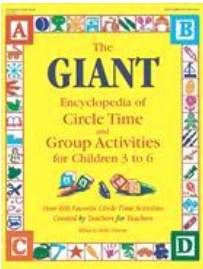

BIG activities engage little learners with this complete curriculum for science, math, literacy and language.

BIG is powerful. Children want to be BIG. They want to *do* BIG. They love enormous numbers like a hundred million billion and long words like "tyrannosaurus rex." They love to spread their arms wide and run as fast as they can. Thinking BIG, Learning BIG is filled with BIG activities to engage the imaginations of young children.

Children learn best by seeing, feeling, and doing....

This book offers teachers the tools to develop preschoolers' fine motor skills in preparation for kindergarten.

**Summary:**

Teachers know how important it is to develop children's fine motor skills as a stepping stone to future learning. Christy Isbell's new book, *Mighty Fine Motor Fun*, provides teachers with the tools and information to teach fine motor skills to children ages three to five. Isbell covers a wide range of current research on fine motor development, from developmental differences between boys and girls to guideposts for what is developmentally appropriate for children at each age.

A second volume of can't fail programs and activities for groups of toddlers.

Summary: Teachers of toddlers loved *Toddlers Together*. This new book is arranged seasonally, and packed with over 200 activities arranged by theme within each season. Additions include 19 new themes; how to set up learning centers for toddlers; suggestions of toys, books, and materials to use with toddlers; a suggested daily schedule and a sample newsletter. This is a complete curriculum resource for teachers of toddlers.

Author Bio: Cynthia Catlin has been an educator of young children more than fifteen years, ten of those teaching two year olds. Cynthia earned a BS in psychology and a MA in Early Childhood Education. Currently, she is the director of University Presbyterian Children's Center in San Antonio, Texas. Cynthia is a popular workshop presenter who shares with others her enthusiasm for the special nature of toddlers. She and he husband are the parents of two young sons.

New and classic games (with a non-competitive twist) that get everybody moving, laughing, and learning!

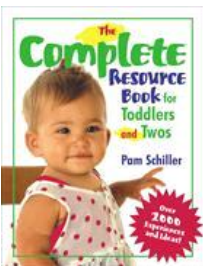

Summary:

As I was setting up for a staff development workshop one night, I overheard one teacher tell another about a little girl who'd had a terrible crying jag over being eliminated from a game of Simon Says. The second teacher clucked in sympathy and the conversation moved on from there. There was no discussion of the fact that perhaps the game should be modified in the future so it didn't make children feel bad-that the intention of a game is to have fun.

*You've witnessed it yourself, I'm s...*

A unique teaching resource that uses storybooks to engage children's natural curiosity about the world around them.

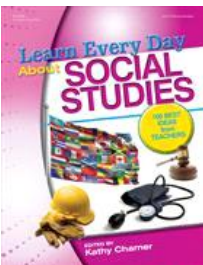

**Summary:**

Young children are naturally interested in their world. They are learning to understand who they are, who their family members are, and what it means to have friends. They are curious about their communities, who lives and works there, how things are made, and what they cost. They are beginning to ask questions about their environment and the greater world.

With *Social Studies and Me!* teachers can support children's curiosity by using storybooks to engage them in social studies and lit...

This little book is full of big fun for children as they learn about time and money.

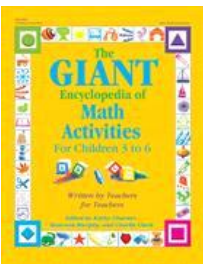

Summary:

Time and money are challenging, abstract concepts with concrete, everyday importance. Using role-playing, games, songs, and dramatic play, *30 Fun Ways to Learn About Time and Money* explores these difficult concepts through props, real-life scenarios, and imaginative play. The activities also help children develop speaking and listening skills while building relationships with peers and adults. These activities are practical, easy to do, and use readily found materials.

It can be a chal...

The 12th book in this best-selling series makes math activities fun and easy!

Summary:

The twelfth book in this best-selling series features six hundred creative math activities written by teachers for teachers. Organized by curriculum area or time of day, each activity is complete with math concepts, materials needed, and step-by-step instructions. Math is the new focus in early childhood education, and the easy-to-use math concept index is a fabulous feature for teachers so they can easily find appropriate activities for the children they teach. Loved by children becau...

An easy way to teach math to young children using art.

Summary: Get ready to create and count in this exciting introduction to math! *MathArts* is an innovative approach that uses creative art projects to introduce preschoolers to early math concepts. Each of the 200 hands-on projects is designed to help children discover essential math skills through a creative process unique to every individual. Math concepts include: One-to-one correspondence; matching; sorting; grouping; classifying; opposites; number recognition; number values, and counting. This...

Author Bio: Award-winning author MaryAnn Kohl has written 14 books for Gryphon House. Her philosophy, "It's the process, not the product," guides her writing as she provides open-ended art activities for young children. MaryAnn's activities focus on the experience of art, not the final product a child creates.

These engaging activities introduce children ages three to six to the fun world of animals.

**Summary:**

Even the youngest children love animals; they want to pet puppies, visit lions at the zoo, and imitate animal sounds. *Learn Every Day About Animals* is an activity book inspired by children's fascination with our furry friends. With this resource, teachers can easily incorporate learning about animals into any curriculum: games like "Whose Feet Are These?" teach recognition, while "Playdough Porcupine" makes use of art centers, and "Scratch Like a Monkey" gets kids active and moving. Cu...

Children explore the world around them using their senses with over 200 engaging learning activities.

**Summary:**

How do children learn about the world around them? They touch, taste, see, smell and hear it, of course! With over 200 activities, *Learning Games* will delight children as they expand their learning by engaging all of their senses. Children can explore their sense of smell, for example, by making an air freshener from cloves and oranges, taking a "smelly walk" to identify different smells, or by making sweet smelling pictures. The chapters are organized by each of the five senses, with ...

**Summary:**

Young children are naturally interested in the patterns and processes occurring in the world around them. They are beginning to learn about the changes happening each day, month, and season. They are starting to ask questions about the environment and world beyond. They are anxious to explore the creatures in their own backyard.

*Math and Science Investigations* supports young children's natural curiosity and encourages them to explore what happens around them. Hands-on investigations he...

Energize your sand and water play with over 70 ideas and activities.

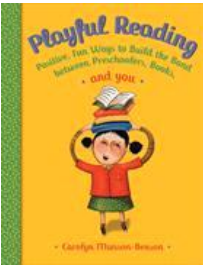

**Summary:**

Learn creative new ways to help children think and discover on their own. With over 70 sand and water table ideas, children develop problem-solving skills by applying knowledge, facts, and techniques in their world. Designed for children ages three to six, *Sand and Water* uses fun mediums like aquarium rocks, bird seed, mud and worms, rock salt and more to encourage children to release tension, concentrate, and become absorbed in an activity.

Sherrie West has been active in the field of...

A wonderful tool for working with children, this book turns "The End" into the beginning of imaginative play.

**Summary:**

When a story comes to "The End" it does not have to be the end of the story. Instead, teachers can continue the learning with fun and playful activities and experiences. *Story Play* encourages teachers, librarians, child care professionals, and family members to become storytellers with ideas for expanding stories into meaningful learning experiences.

Summary:

Teachers and parents can significantly improve children's comprehension, enjoyment, and personal involvement in reading at any grade level by using the series of activities provided in this book. Because the ability to imagine is a key skill that many struggling readers often lack, this book outlines strategies to teach students how to add vivid mental pictures to their reading. In a clearly designed set of lessons, students are taken through a series of steps--drawing on the images they...

Based on phonics and whole language skills, this method advances children ages 3 to 8 from knowing their alphabet to reading second-grade-level picture books.

**Summary:**

Even the best software can not teach your child to read. You need books and the most important tool of all - the kitchen table - where you sit and do the lessons. The Reading Lesson book gives you an easy to follow recipe for teaching your child to read.

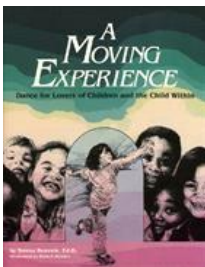

This 444 page book contains twenty lessons. The lessons are easy to do both for parent and the child. You will need to work with your child about 15 to 20 minutes a day. A typical lesson can be finished in approximately one to two week...

Ways to teach music to children for the musically hopeless.

Summary:

Change the Singer

This game takes a lot of concentration and careful listening.

1. Start by alternating lines of a song with your child.

You sing: The wheels on the bus go up and down, up and down, up and down.

Child sings: The wheels on the bus go up and down, all around the town.

2. Make it a little harder.

You sing: The wheels on the bus go

Child sings: Up and down, up and down, up and down

This groundbreaking guide for directors helps prepare an early childhood program for disaster--before it strikes.

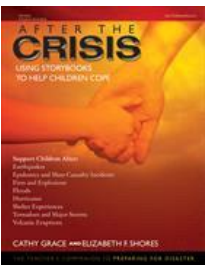

**Summary:**

Disasters happen without warning. A catastrophic event can destroy an early childhood program, and preparedness is the responsibility of any program director. Based on the authors' experiences working in Mississippi after Hurricane Katrina, *Preparing for Disaster* explains the steps directors can take to insure the safety of the children they care for and the program itself.

This groundbreaking guide contains forms, worksheets, staff-training workshops, and task lists, as well as helpfu...

The perfect book for teachers to introduce sign language to young children.

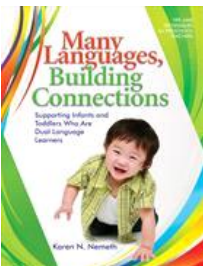

Summary:

Studies show that young children who learn sign language are well prepared to acquire future language and literacy skills. Sign language provides a good foundation for language skills and an additional avenue of communication for infants, toddlers, and preschool children. Infants and toddlers often become frustrated when trying to communicate their needs. Sign language allows them to communicate their needs without words, reducing frustration.

Written for teachers of hearing children f...

Summary:

All infants and toddlers need experiences that nurture, support, and teach their home language and culture. Language is a vital component of early experiences well before the child can say his first word. Infants and toddlers whose families come from diverse backgrounds and speak different languages are appearing in all kinds of early care and learning settings in growing numbers. Even the most experienced caregiver can feel a bit unsure about meeting the unique needs of infants and to...

Open the door to literacy and learning for young dual language learners.

Summary:

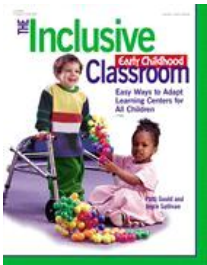

Open the door to literacy and learning for young dual language learners.

In classrooms across the country, teachers are encountering more children who are learning English and who come from diverse language backgrounds. As challenging as this may be, a preschool teacher's goal remains the same: to welcome all children and give them the best possible start in education and in life.

Even the most experienced teacher can feel a bit unsure about meeting the unique needs of children from di...

The best handbook for preschool teachers working with children with autism.

**Summary:**

Preschool can be overwhelming for a child with autism. Autism affects how a child communicates, behaves, and relates to others. What do you do when a three-year-old with autism falls on the floor kicking and screaming? How do you communicate with a child who looks away and flaps his hands? What do you do with a four-year-old who watches the ceiling fan as it rotates around and around?

Who can help if you suspect a child in your class has autism? Childcare providers need to know what t...

Enhance the learning process by putting your children's art to work through creative display.

**Summary:**

What children see around them affects what and how they learn. Displaying children's artwork with thoughtfulness and care benefits children, teachers, and families. Ceilings, floors, tabletops, windows, doors-it's all useful space to display the beautiful works of children, enhance the learning process, and communicate to parents what their children are experiencing in school. Learn how to create rooms of wonder using the basics: color, line, texture, composition, focal points, and rhy...

This hands-on guide helps K-3 teachers turn classrooms into inspiring learning environments.

**Summary:**

Based on the latest research about how children learn, this book helps elementary school teachers make their classrooms into creative spaces that facilitate teaching and learning. It also delves into specific areas of classroom design such as use of color and plants, room arrangement, learning centers, and the impact of clutter. With before and after photos of real classrooms, teachers can examine each area and determine their own classroom's need for improvement.

**Summary:**

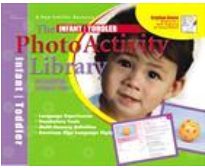

Learning environments are an important topic as more and more teachers try to make their classrooms into places that support and inspire learning. Using "before" and "after" pictures of real early childhood classrooms, *Real Classroom Makeovers* shows early childhood teachers step-by-step how small changes can transform their classrooms into wondrous environments for young children to learn and grow. With a budget-conscious focus, the book provides visual examples of dramatic changes tha...

A valuable tool to develop language skills with infants and toddlers.

Summary:

This essential teaching tool helps caregivers and teachers develop language and pre-reading skills with infants and toddlers. The sturdy four-color photo cards are -organized by theme. Each of the fifty cards has a photograph of people and objects that infants and toddlers encounter every day, such as a dog, a sock, a truck, a ball, or a belly button. The back of each photo card has a vocabulary list, suggested activities for each photograph, the American Sign Language sign related to ...
