Your registration supports student scholarships! Thank you!

## AUGUST 19-22, 2021

Kent State University College of Podiatric Medicine  
Independence, OH

Kent State University College of Podiatric Medicine is approved by the Council on Podiatric Medical Education as a provider of Continuing Education in Podiatric Medicine. Kent State University College of Podiatric Medicine has approved this activity for a maximum of 26.5 CECH.

**CONGRATULATIONS TO OUR 2020 & 2021 HALL OF FAME INDUCTEES & ALUMNI AWARD RECIPIENTS**

The Hall of Fame & Alumni Awards Dinner, traditionally the feature event of KSUCPM's Annual Alumni Reunion Weekend, serves to honor a cohort of alumni award recipients, as well as induct new members into the Hall of Fame Society. Taking place Saturday, August 21st this year, the event will stand alone as an intimate dinner shared by both 2020 and 2021 honorees. The casual Friday night student and alumni networking event, as well as the OPMSA Annual Golf Outing will return for the 2022 Alumni Reunion Weekend.

**Presenting the 2021 Hall of Fame Inductees and Alumni Award Recipients:**

**2021 Hall of Fame Inductee:**  
David Alper, DPM,  
Class of 1983

# GOALS & OBJECTIVES

**Understand deformities of the foot and ankle that cause gait abnormalities and pain.** The panel of experts will review clinical diagnosis and the surgical management of the pediatric and adult flatfoot and cavus foot. Operative interventions will be discussed including procedure selection and description of the accepted techniques. Pitfalls and complications of deformity correction will be discussed.

**Recognize the medical conditions leading to pathology in the foot and ankle.** The attendee will appreciate the underlying systemic diseases that affect planning and outcomes of surgical intervention. The attendee will identify common manifestations of systemic diseases in the lower extremity as well as understand how to prevent the complications related to these systemic diseases.

**Evaluate and treat.** The attendee will become familiar with the clinical criteria used to evaluate and treat forefoot, midfoot, rearfoot and ankle pathologies. Conservative and surgical treatments will be based on evidence-based literature and clinical knowledge provided from expert panels.

**Utilize evidence-based guidelines on reducing operative complications.**

**Understand pathologies leading to foot and ankle pain and deformity.** The attendee will learn systematic approaches for evaluation of foot and ankle deformity as well as understand concomitant pathomechanics. The selection of diagnostic imaging modalities and how these studies influence the treatment method will be discussed. The content experts will review the trending research to help guide best standards of practice.

**Treat traumatic injuries of the foot and ankle.** The attendee will recognize the various traumatic injuries and fractures that occur in the foot and ankle. The panel of experts will review triage, diagnostic studies, surgical planning, surgical technique, and rehabilitation practices to manage these injuries.

**Understand best practice guidelines and accepted practices.** Based on the clinical experiences of the panel of experts and the conclusions of the medical literature, the attendee will become familiar with optimal management strategies of foot and ankle conditions.

**Recognize pediatric deformities presenting in the foot and ankle.** The attendee will recognize common pediatric foot and ankle deformities. Clinical diagnosis, proper selection of surgical procedures, and timing and techniques will be emphasized to demonstrate proper management of pediatric foot and ankle pathologies.

**Examine the role of imaging in diagnosing foot and ankle conditions.** The attendee will examine the available imaging studies to effectively evaluate foot and ankle abnormalities and treatment planning. Manage patient cases involving staging principles, positioning and fluoroscopy methods.

**Develop and refine surgical acumen and skills through lectures and workshops.** Attendees will learn new surgical techniques through hands-on workshops emphasizing tissue handling, use of latest implants, and prevention of complications guided by experts in the field.

**Establish ethical practices.** The attendee will be exposed to common ethical considerations relating to the practice of medicine and understand the multifaceted nature of the doctor-patient relationship. The changing landscape of healthcare with the influence of social media, healthcare policy, and digitalization of medical records will be discussed.
