metall

Ytbehandlingar för stativ i metall är uppdelade i tre priskategorier, Standard RAL, Selected RAL och krom samt Anycolour RAL. Kulörbeteckningar för metall anges i RAL-kulör. För ytterligare kulörinformation, kontakta Mitab Support.

Standard RAL

För samtliga produkter där inget annat anges gäller följande kulörer som standardkulörer i kategorin Standard RAL: Svart, Vit och Silver.

Tänk på att alla produkter inte erbjuds i alla kulörer och att vissa produkter enbart erbjuds med strukturlack.

Selected RAL

Kategorin inkluderar ett urval av kulörer där vi erbjuder en större variation i färgsättning utan tillkommande startkostnader. Kulörerna i kategorin Selected RAL kan komma att förändras med tiden. Vi kan inte garantera möjlighet till komplettering utan tillkommande startkostnad. Samtliga kulörer levereras i matt utförande.

Krom

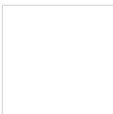

Till utvalda produkter erbjuds krom som ytbehandling, se priskategorier under respektive produkt. Endast 3-värt krom s.k. miljökrom används i våra produkter.

Anycolour RAL

Kategorin erbjuder en fast prissättning per produkt samt en fastställd startkostnad för samtliga kulörer i sortimentet RAL-classic. Samtliga kulörer levereras i matt utförande om inget annat anges.

Mitab erbjuder färgkartor över RAL-classic. Behöver du en färgkarta, kontakta Mitab Support.

bets / täckbets

Vi använder såväl bets (spritbets) som täckbets på våra artiklar. Var därför noggrann med att kontrollera vilket utförande som gäller på den produkt du är intresserad av. Där inget annat anges är täckbets standard. Det innebär att trästrukturen är synlig, men att färgen är homogen likt ett lackerat utförande. Skivor betsas på ask fanér, sitsar och ryggar på björk fanér om inget annat anges. För ytterligare info, kontakta Mitab Support. Vi tillhandahåller alla betsfärger. Bets anges, likt metallkulörer i tre olika priskategorier. Priser anges för sits/rygg i nämnd ordning eller i förekommande fall sits och rygg. Ange alltid betskulör med NCS-nummer.

Bets Standard NCS

Betskulörer i standardkollektionen inkluderar svart och vit.

Samtliga kulörer levereras i matt utförande.

Bets Selected NCS

Betskulörer i denna priskategori är färgmatchade med kulörerna i RAL Selected och erbjuds utan ställkostnad.

Samtliga kulörer levereras i matt utförande.

Bets Anycolour NCS

För alla kulörer utanför Standard och Selected tillkommer startkostnad utöver angivna styckpriser. Samtliga kulörer levereras i matt utförande om inget annat anges på beställningen.

stain / cover stain

We supply both stain and covering stain. Therefor we ask you to pay attention to what version is standard on the product you are interested in. If nothing else is expressed, covering stain is standard. This looks like lacquer colouring but the surface graining of the wood is visible. Table tops are stained on ash veneer, seats and backs on birch veneer if nothing else is mentioned. For further information, contact Mitab Support. We supply all colours. Stain is also divided into three price categories. Prices are for seat/back in that order or for seat and back where applicable. Always refer to stain colours with NCS-numbers.

Stain Standard NCS

Colours included in stain NCS Standard is black and white.

All colours are supplied with mat finish.

Stain Selected NCS

Colours included in stain NCS Selected is colour matched with RAL Selected and is offered without starting cost.

All colours are supplied with mat finish.

Stain Anycolour NCS

Colours included in stain NCS Anycolour is colour matched with RAL Anycolour and is offered with an additional starting cost.

All colours are supplied with mat finish if nothing else is noted on the purchase order.

kompaktlaminat

Kompaktlaminat eller homogent laminat är ett laminat av HPL-typ (Högtryckslaminat). Laminatet saknar traditionell bärarskiva och består endast av hårt sammanpressade pappersark. Kompaktlaminatet är extremt tåligt. Den typ Mitab använder sig utav är 12mm tjock och har vit dekor med svart kärna. För inomhusbruk.

Standard kompaktlaminat *Standard compact laminate*

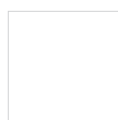

Vit *White*

högtryckslaminat

Högtryckslaminat (HPL) tillverkas genom att flera skikt av impregnerat papper pressas samman under högt tryck och hög temperatur. Detta ger ett slitstarkt, hållbart och hygieniskt ytmaterial. Mitab använder högtryckslaminat som ytmaterial på bordsskivor i kombination med spånskiva eller MDF som bärare.

Formica Infiniti™ är en typ av högtryckslaminat skapat med teknik som skyddar materialet från märken, fingeravtryck och skador och håller det vackert längre. Det har en matt finish, används av Mitab till skivorna på produkten Fold och finns där i tre färger.

Standard högtryckslaminat *Standard high-pressure laminate*

Vit laminat *White laminate* - F1040 Alpino (Formica)

Svart laminat *Black laminate* - F2253 Diamond black (Formica)

compact laminate

Compact laminate or homogeneous laminate is a HPL-type laminate (High pressure laminate). The laminate lacks traditional carrier and consists only of hard compressed paper sheets. The compact laminate is extremely durable. The type Mitab uses is 12mm thick and has a white surface with a black core. For indoor use.

high-pressure laminate

High-pressure laminate (HPL) is composed of layers of paper that are impregnated and bonded together with a protective overlay under high pressure and heat, and applied to a substrate. The resulting surfaces are simple to clean and maintain, and they are also lightfast, odourless and resistant to alcohol, organic solvents and water. Mitab uses high-pressure laminate (HPL) as a surface on table tops together with chipboard or MDF as a carrier.

Formica Infiniti™ is created with technology that protects it from marks, fingerprints and accidental abrasions, so it looks better for a longer time. It has a matt finish and is used by Mitab in the table tops for the product Fold. Mitab supplies this surface in three colours.

massivträ

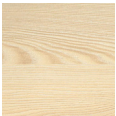

Massivträ karakteriseras av variationer i textur och färg, vilket gör varje produkt unik. Det massivträ Mitab använder sig utav är i huvudsak hämtat från Europa och är antingen lackerat, betsat eller täckbetsat. När massivträ utsätts för solljus förändras färger på materialet över tid.

solid wood

Wood is characterised by variations in grain, texture and colour, making each wooden furnishing a unique object. The solid woods used by Mitab are mainly sourced in Europe and have a lacquered, stained, or cover stained finish. Exposure to light will alter the colour of wood over time.

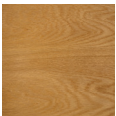

Standard massiv trä *Standard solid wood*

Ask *Ash*

Björk *Birch*

Ek *Oak*

glas

Mitab använder sig av härdat Floatglas. Genom upphettning och avkyllning blir glaset 6 – 7 gånger starkare än vanligt glas. Om glaset går sönder granulerar hela glaset i små ofarliga bitar vilket eliminerar risken för personskador.

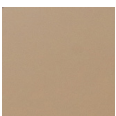

glass

Mitab uses a tempered Float glass. Through heating and cooling process the glass becomes 6 – 7 times stronger than regular glass. If the glass breaks it crumbles into small pieces which eliminates the risk for personal injuries.

klädselmaterial

Klädselmaterialen i Mitabs kollektion är indelade i fyra olika prisgrupper samt läder. Mitab tillhandahåller även andra tyger från alla ledande leverantörer. För prisinformation kontakta Mitab Support.

På sidorna 23-28 finns en tygmatrix som är till för att visa vilka av våra standardtyger som är tekniskt möjliga till respektive produkt och visas med en svart prick (●) och vilka tyger som Mitab rekommenderar för ett riktigt bra resultat visas med en stjärna (*). Vi reserverar oss för användning av vissa tyger till vissa produkter med hänsyn till produktens slutgiltiga kvalitet. Alla tyger är inte lämpliga för alla modeller.

Tygåtgång

Alla uppgifter angående tygåtgång för våra modeller gäller för tyger utan mönsterpassning och med bredd 1,5m, samt att uppgiven tygåtgång gäller för enfärgad klädsel. Vid större antal kontakta Mitab Support angående exakt materialåtgång. Fraktkostnad för insänt klädselmaterial betalas av kunden.

Mönsterpassning

Vid användning av mönstrade tyger förbehåller vi oss rätten att ta ut kostnad för mönsterpassningar. Kontakta Mitab Support för ytterligare information.

Insänt klädselmaterial, c.o.m.

Kunden ansvarar för att klädselmaterial kommer Mitab tillhanda senast 15 arbetsdagar före utsatt leveransdag. Överblivet material kan återsändas på kundens bekostnad.

Delad klädsel

Flera av våra produkter kan tillverkas med delad klädsel. På flera av produkterna kan du se direkt i prislistan vad detta kostar. Om du inte hittar eller har specifika frågor om delad klädsel, kontakta Mitab Support.

Läder

De priser som anges för läderutförande på respektive produkt avser svart läder i kvalitet Noir från Sørensen Leather. Om läderutförande inte anges innebär det att modellen inte rekommenderas eller kan erbjudas i läder. VIKTIGT!! Vi förbehåller oss rätten att lägga till sömmar och delningar på produkter i läderutförande. För pris på läderutförande i andra färger än svart, kontakta Mitab Support för prisinformation.

stoppningsmaterial

Som stoppningsmaterial i produkterna används kallskummad polyeter. Materialen uppfyller kraven enligt brandtest FMVSS nr 302 punkt 5, samt den så kallade Californiatesten.

cmhr

CMHR – Combustion Modified High Resilience. Högelastiskt skum som är flamskyddat för att uppfylla det engelska brandkravet "Consumer Protection Act, Furniture and Furnishing (Fire) (Safety) Regulation 1988, Schedule 1, Part 1, ignition source 5." CMHR skum går att få mot en extra kostnad, kontakta Mitab Support. När du väljer att använda CMHR skum blir resultatet oftast en något fastare sittkomfort. För mer information kontakta Mitab Support.

upholstery

The upholstery in Mitabs collection is divided into four price categories plus leather. Mitab can also supply other fabrics from the leading suppliers on the market. For pricing information please contact Mitab Support. The fabric matrix on page 23-28 is used to show which of our standard fabrics are technically possible for respective products and are shown with a black dot (●) and which fabrics Mitab recommends for a really good result is shown with a star (). We reserve the right to deny use of certain fabrics in certain products considering the products final quality. All fabrics are not suitable for all products.*

Fabric requirement

All information about fabric requirement refers to fabrics without pattern and with width 1,5m. All figures are for one fabric/colour. For exact material requirement for larger numbers please contact Mitab Support. All freight costs on c.o.m. are paid by the customer.

Pattern matching

When using patterned fabrics we reserve the right to make additional charge for pattern matching. Contact Mitab Support for further information.

Customers Own Material, c.o.m.

The customer is responsible for making the upholstery material available to Mitab at least 15 days before delivery. Excess material can be returned to customer on customers expense.

Multiple fabrics

Several of our products can be configured with multiple fabrics. The pricing can be found in the pricelist. If you can't find the price or if you have other questions about multiple fabrics, please contact Mitab Support.

Leather

Printed prices for leather version refers to black leather, Noir from Sørensen Leather. If there is no price printed for leather version on a product, this means we do not recommend or supply this product in leather version. NOTE !! We keep the right to adjust upholstery (add stitching) for all products in leather version. For prices of leather in other colours than black, please contact Mitab Support for pricing information.

foam

Cold cured PU foam is used as the upholstery filling material in all our products. This material complies with the requirements for fire resistance class, test FMVSS No. 302, clause 5, and the California Test.

cmhr

CMHR - Combustion Modified High Resilience. A high resilience foam that is flame retardant to meet the requirements set by the English fire safety regulation "Consumer Protection Act, Furniture and Furnishings (Fire) (Safety) Regulation 1988, Schedule 1, Part 1, ignition source 5". With CMHR foam you get a slightly firmer seating comfort. For further information please contact Mitab Support.

mesh

Mesh är ett stickat polyestermaterial som ofta används som en bärande del i konstruktionen av en produkt. Mitab använder sig av mesh som bärande material i ryggen på produkten Risto och finns enbart i svart utförande.

Standard mesh *Standard mesh*

Svart *Black*

filt

Polyesterfilten som Mitab använder sig av är ett 100% återvunnet, non-woven material. Materialet har dels goda ljudabsorberande egenskaper och fungerar bra som konstruktionsmaterial då det värms upp och formpressas. Filten som Mitab använder finns i ett flertal färger och används i olika produkter i sortimentet.

Standard filt *Standard felt*

Vit *White*

Beige *Beige*

mesh

Mesh is a knitted polyester material often used as a carrier in a construction of a product. Mitab uses mesh as a carrier in the backrest of the product Risto and is only available in black.

felt

The polyester felt material used by Mitab is 100% recyclable non-woven material. It has sound-proofing qualities and works well as a structural material when it's thermoformed. The felt used by Mitab is available in several colours and is used in different products in the range.

Grå *Grey*

Antracit *Antracit*

pur

PUR är ett skummat material med ett tätt ytlager. Materialet är oftast infärgat och är perfekt när man önskar hög slitstyrka och vattenavvisning. Det är ett vanligt material och vi kommer i kontakt med det dagligen utan att vi reflekterar över det. Mitab använder sig av PUR till armstödsdetaljer och sitsar och finns i tre färger.

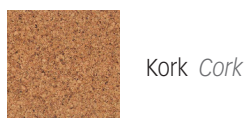

Standard PUR *Standard polyurethane*

kork

Kork, ett naturligt material från barken på kork ek. Det är mycket lätt och ogenomsläppligt för vätska. Det är elastiskt och komprimerbart och har en utmärkt förmåga att isolera mot värme och ljud. Det är också brandsäkert och har ett högt nötningsmotstånd. Vi tycker också att kork är ett vackert material som gör varje produkt unik. Mitab använder idag kork som sitsmaterial i produkten Boet.

Standard kork *Standard cork*

polyurethane

Polyurethane (PU) is a synthetic foam material with a homogenous surface. The material is most often coloured and is often used for high durability and water resistance. It's a common material which we get in contact with every day without noticing. Mitab uses polyurethane for armrests and seats and is available in three colours.

Standard PUR *Standard polyurethane*

cork

Cork, a natural material from the bark of the cork oak. It is very light and impermeable to liquids. It's elastic and compressible and an excellent thermal and acoustic insulator. It is also fire retardant and has a high abrasion resistance. We also think that cork is beautiful material that makes every product unique. Mitab use cork for the seat of the product Boet.
