Pro-XL Sports Performance Rack Systems

Pro-XL Sports Performance Rack Systems

Designed for the needs of the Modern Athlete!

Engineered and manufactured in the USA from superior components and featuring the latest training options. The TuffStuff Pro-XL Series has been built to satisfy the evolving needs of today's athletes! Pro-XL is more than just a series of power racks, Pro-XL is a training system engineered to accommodate any strength program or conditioning protocol that an athlete may encounter. The Pro-XL combines heavy weight frame components and TuffStuff's exclusive features like – integrated anchor loops to securely anchor suspension straps and assistance tubing used for bodyweight training, Swing Lock J hooks and Lever Lock safety rails that adjust in 3-inch increments to quickly and easily accommodate all size users, and narrow width "thick grip" frame connectors, designed to minimize contact with weight plates during overhead lifts and also function as an advanced pull-up station – all combined to accommodate multiple athletes utilizing a variety of training systems.

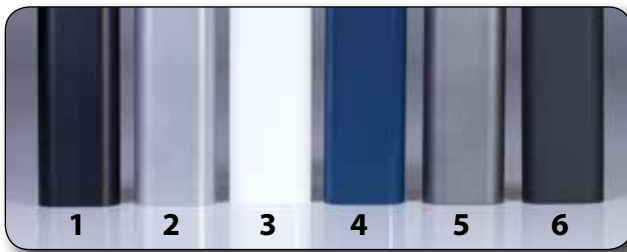

The TuffStuff Pro-XL Series of Sports Performance Racks & Platforms – **Equipment for the athlete in all of us!**

Dual, mid-width, "thick bar" frame connectors double as additional pull up station.

Integrated, anchor loops for suspension straps and assistance tubing used for bodyweight training, lifting aids and more.

Custom two tone finish offers choice of six primary colors:
 (1) Matte Black (2) Platinum Sparkle (3) Sky White (4) Twilight Blue
 (5) Charcoal Texture (6) Wrinkle Black
 Custom color available – inquire with your sales representative.

Customize your Olympic Platform with your own logo.

Digitally printed on vinyl floor decal and die-cut to your specification. One or 4-color process logo. Please inquire with your sales representative for logo set-up fee and any additional charges.
