## LEGISLATORS' PROCEEDINGS

**February 14, 2005**

The regular meeting of the Board of Legislators was called to order at 2:03 p.m. by Vice Chairman Bennett.

Pledge of allegiance to the flag.

The invocation was given by Legislator Dibble.

Roll Call: Ten members present; absent were Legislators Palmer, Regan, Sherman, Sobeck, and Truax.

**PUBLIC HEARING:**

Vice Chairman Bennett closed the regular meeting to hold a public hearing on Local Law Intro. No. 1-2005, entitled "A Local Law Amending Local Law No. 3 of the Year 1993 Providing for a Permanent Plan of Reapportionment for the Allegany County Board of Legislators". The proposed amendment will move the Town of Allen from District I to District V to help maintain the population balance between legislative districts for more equal voter representation during elections. Comments are summarized below.

Howard Miller of Belfast commented that the constituents and the law would be better served if the Towns of Allen and Granger were both moved to District V rather than just the Town of Allen as is being proposed. Half of the decade since the 2000 census has passed with the votes of District I, with a population of 10,866, not counting any more than the votes of District V, with a population of 9,146. Moving both Towns would bring the districts closer to balance.

Legislator Bennett stated that during the redistricting discussions in committee, it was decided to leave Granger and Centerville in District I, as they both have a closer geographic connection with Fillmore.

Mr. Miller stated that geography shouldn't be the concern, it should be one-man-one-vote. This proposed Local Law may comply with the law, but it doesn't comply ethically.

Legislator Heineman noted that the Town of Granger had been invited to join District V in the past, but there was no interest.

Gudrun Scott, Secretary of the Allegany County Democratic Party, spoke in support of Mr. Miller and questioned whether the sudden interest in redistricting had anything to do with the high democratic voter registration in the Town of Alfred.

Legislator Reynolds stated that the only purpose of this Local Law is to comply with the law.

Mr. Miller pointed out that they weren't talking about Republicans and Democrats, but about human beings.

Ms. Scott noted that if the Town of Granger had been included in the proposal, there is a legislator residing in that Town who would no longer hold an incumbent seat on the legislature in the upcoming elections.

Michael Maiden, of Wellsville, questioned if the only reason Granger was not included in the proposed Local Law was due to their lack of interest.

## LEGISLATORS' PROCEEDINGS

Legislator Bennett stated that the legislators' only concern is to bring the population equality of the districts close enough to comply with the law in the simplest possible way.

The public hearing was declared closed and the Board reconvened in regular session.

**PRIVILEGE OF THE FLOOR:**

Vice Chairman Bennett granted privilege of the floor to Richard S. Golas, SCORE (Service Corps of Retired Executives) Chapter Chairman for the Allegany, Chautauqua, and Cattaraugus County area. SCORE offers free counseling for start up, retention, and expansion of small businesses. Their service is confidential.

Privilege of the floor was also granted to John Padlo, Instructor for the BOCES Government Intern Program. Five Schools are participating this year with a total of fifteen interns.

**RESOLUTION NO. 70-05****RESOLUTION CALLING ON THE GOVERNOR AND STATE LEGISLATURE TO REACH AGREEMENT ON A LOCAL MEDICAID CAP**

Offered by: Ways and Means Committee

**WHEREAS**, Medicaid is a vital component of New York's health care financing system, providing the resources to deliver health care to New York State's most vulnerable citizens, and

**WHEREAS**, since the enactment of the Medicaid program, counties in New York State have been required to contribute a 25 percent matching share with the exception of certain long-term and mental health services, and

**WHEREAS**, in most states, the state government assumes all of the responsibility for the non-federal share of the Medicaid program, so that the burden of paying for the medically needy is distributed over the widest possible tax base, and

**WHEREAS**, nationally, New York State counties fund 85 percent of all local Medicaid dollars taken by states to fund the Medicaid program, and

## LEGISLATORS' PROCEEDINGS

**WHEREAS**, local taxpayers are currently funding a \$7 billion Medicaid local share that is growing at double digit rate, making Medicaid the largest and most volatile single expense in county budgets, and

**WHEREAS**, the growth of local Medicaid costs are siphoning away the limited resources available to fund county budgets without adding new pressures on property taxpayers, and

**WHEREAS**, counties have called for a cap on local Medicaid costs as a way to stabilize local property taxes and lessen the burden the Medicaid program places on local real property taxpayers, and

**WHEREAS**, the Governor has made a proposal that would substantially reduce the impact of the Medicaid local share and provide long term stability to county government in New York, and

**WHEREAS**, this plan is not without controversy as it is legally tied to the enactment of over \$1.9 billion in state share Medicaid cost containment measures, and

**WHEREAS**, in addition to this proposal, other members of the Senate and Assembly have introduced and supported various other "one-house" local Medicaid relief proposals, and

**WHEREAS**, the 2005-2006 New York State budget provides a unique window of opportunity for the Governor and members of the Senate and Assembly to come together and enact significant Medicaid relief that will lessen the burden of local real property taxes, now, therefore, be it

**RESOLVED:**

1. That the County of Allegany calls upon the Governor and the State Legislature to reach agreement on a local Medicaid cap during the 2005-2006 legislative session.

2. That the Clerk of this Board shall forward copies of this Resolution to Governor George E. Pataki, the Speaker of the Assembly, the Majority and Minority Leaders of the Senate and Assembly and State Senator Patricia McGee and Members of the Assembly Catharine M. Young and Daniel J. Burling and all others deemed necessary and proper.

**WHEREAS**, local governments are responsible for eighty-five percent of the state's 110,000 miles of roadways, and are also responsible for fifty percent of the state's 18,000 bridges, and

**WHEREAS**, the Governor's New York State Executive Budget 2005-2006 proposes the program remain flat at the 2004-2005 level of \$35 Million in County/NYC Consolidated Highway Improvement Funds, and

**WHEREAS**, the 2004-2005 adopted state budget restored the \$35 Million in County/NYC CHIPS funding, and

## LEGISLATORS' PROCEEDINGS

**WHEREAS**, because of the restored funds, county highway departments were able to repair important components of the local transportation system, and purchase necessary highway equipment and materials, and

**WHEREAS**, the 2005-2006 Executive Budget Proposal proposes no increase for CHIPS funding to account for the dramatic inflationary increases in the cost of fuel, equipment and material, and

**WHEREAS**, CHIPS is a unique form of a block grant in transportation financing providing critical transportation funding to over 1,600 units of local government in New York State, now, therefore, be it

**RESOLVED:**

1. That the Allegany County Board of Legislators hereby urges the state legislature to support a \$100 Million increase to bring the CHIPS funding level to parity with today's increased costs.

2. This Board urges the state to index these funds as part of the state's multi-year capital plan so that local governments can budget and properly plan to address the deficiencies in the local transportation system.

3. **WHEREAS**, the Governor's Executive Budget submission to the legislature holds Marchiselli funding static at \$40 million, and

**WHEREAS**, Marchiselli funding has not increased in the past 5 years, and

**WHEREAS**, the Marchiselli program has not kept pace with the Federal Transportation Program resulting in delays of state matching funds or eligible portions of projects not receiving state matching funds, now, therefore, be it

## LEGISLATORS' PROCEEDINGS

**April 11, 2005**

The regular meeting of the Board of Legislators was called to order at 2:09 p.m. by Chairman Palmer.

Pledge of allegiance to the flag.

The invocation was given by Legislator Sherman.

Roll Call: All present except Dr. Robert Heineman who resigned as District V Legislator effective March 30, 2005.

**PUBLIC HEARING:**

Chairman Palmer closed the regular meeting to hold a public hearing on the establishment of a County Water District in the Town of Amity. Legislator Graffrath noted that the Water District issue was being explored in the early 1990's and thanked Marion Rossman for her efforts in obtaining signatures on petitions for over ninety percent of the residents.

Gudrun Scott, of Whitesville, commented that other businesses in the area weren't able to get municipal water previously and now the Legislature is supporting the proposed Water District for the sake of the new jail. Ms. Scott feels that it is unacceptable to profit from out-of-County prisoners, and we do not need a new jail.

Chairman Palmer clarified that the out-of-County prisoners to be housed at the County Jail will not be serving sentences there, but will be held there temporarily while awaiting trial in their own counties.

There being no further comments offered, the public hearing was closed and the Board reconvened in regular session.

**PRIVILEGE OF THE FLOOR:**

Chairman Palmer granted privilege of the floor to Shannon Ozella, Crime Victims Coordinator with the District Attorney's Office, who spoke on National Crime Victims' Rights Week, April 10 through 16, 2005. **URGING NEW YORK STATE LEGISLATURE TO PASS AND GOVERNOR TO SIGN  
LEGISLATION AMENDING GENERAL MUNICIPAL LAW SECTION 207-C**

Offered by: Ways and Means Committee

**WHEREAS**, General Municipal Law Section 207-c provides special disability benefits to most police officers and county level deputies and correction officers in the event of an injury in the performance of their duties or if they become sick as a result of performing their duties, and

**WHEREAS**, these special disability benefits consist of the officer's full salary and medical benefits until such time as the disability ceases, and

**WHEREAS**, Court decisions had made it clear that these special disability benefits apply only when an officer is performing duties which are related to the heightened risks and duties of these law enforcement jobs; and the Courts further had held that these special disability benefits should not apply when an officer is performing tasks common to all municipal employees, such as walking to and from a parking lot, walking down stairs or other like duties which all municipal employees perform, and

**WHEREAS**, disability benefits for injuries sustained for performing work activities common to all municipal employees are covered by the Workers' Compensation Law, and

**WHEREAS**, a recent decision by the New York State Court of Appeals held that the current language of General Municipal Law Section 207-c does not allow the special benefits to be limited only to the "heightened risk and duty" cases, and

**WHEREAS**, by virtue of this decision, almost all injuries sustained on the job by police officers, deputies and correction officers are now covered by the enhanced disability provisions of General Municipal Law 207-c, and

**WHEREAS**, this Board believes that the special disability benefits of Section 207-c are well deserved by police, deputies and other local law enforcement officials who, by the nature of their jobs, take many risks that civilian workers do not have to face, and

**WHEREAS**, this Board believes that the special disability benefits should be limited to injuries sustained by such police officers, deputies and other local law enforcement officers who are injured as a result of activities which have the requisite heightened risk and duty requirement, now, therefore, be it

## LEGISLATORS' PROCEEDINGS

**RESOLVED:**

1. That this Board urges the New York State Legislature to pass and the Governor to sign legislative bills number A.2120 and S.2987 which restore the heightened risk and duty standards to the granting of the special disability benefits of General Municipal Laws Section 207-c.

The regular meeting of the Board of Legislators was called to order at 2:00 p.m. by Chairman Palmer.

Pledge of allegiance to the flag.

The invocation was given by Legislator Regan.

Roll Call: All present.

**PRIVILEGE OF THE FLOOR:**

Chairman Palmer granted privilege of the floor to County Treasurer Terri Ross for a report on the County's financial status at the close of the 2004 fiscal year. Ms. Ross stated that recent media headlines announced a \$700,000 surplus. A more accurate statement might have read, "the general fund deficit has been reduced by \$700,000, but remains in the red." During 2004, the County's deficit was reduced from a negative \$1.1 million to a negative \$401,000 by the receipt of \$700,000 more in revenue than was paid out in expenses. This year end total fund balance of negative \$401,000 is broken down as a negative \$3.6 million in unreserved funds and a positive \$3.2 million in reserved funds.

Although the County's fund balance is still running in the "red," 2004 could be considered a "turning point to recovery." The negative fund balance continues to affect the County, resulting in a less-desirable bond rating and higher cost to borrow money for projects such as the jail, bridges, and roads, but the positive turning point may result in reduced fees in the future. In closing, Ms. Ross stated that there is more work to be done for a positive bottom line in both the total fund balance and the unreserved fund balance. Once this is achieved, we will be able to experience a surplus in the true sense of the word.

Privilege of the floor was also granted to Jesse Case for the presentation of the latest print media advertising campaign involving Interstate 86 Exit Strategy. Distribution will be aimed at subscription magazines and industry.

**PRIVILEGE OF THE FLOOR:**

Chairman Palmer granted privilege of the floor to Village of Wellsville Mayor Bradley Thompson, who voiced concern regarding an upcoming Resolution to transfer funds for a study of the ability of the Town of Friendship Wastewater Treatment Plant to process all leachate from the Hyland and County landfills and current and potential future volumes of such leachate. Mayor Thompson stated he supports development of the Interstate 86 Interchange area and the methane utilization issue, but pointed out that Wellsville stands to lose \$100,000 in leachate processing revenue annually if Friendship were to be contracted to receive all leachate from the landfills. Cuba, Bolivar, and Caneadea will also experience losses. As Friendship is the only municipality to benefit, they should fund the study. Mayor Thompson also objected to the use of public funds to benefit a private enterprise (Hyland Landfill).

The invocation was given by Legislator Dibble.

Roll Call: 13 Present; 2 Absent (Legislators Bennett and Regan).

**APPROVAL OF MINUTES:**

The Board meeting minutes of September 12 and 26, 2005 were approved on a motion made by Legislator Nielsen, seconded by Legislator Russo and carried.

**PUBLIC HEARING:**

Chairman Palmer closed the regular meeting to hold a public hearing on Local Law Intro. No. 3-2005, entitled "A Local Law to Provide Increases in the Compensation of Certain County Officers." Approximately 25 County employees and members of the public, as well as five media correspondents were present. Comments are summarized below.

Cindy Gowiski, Birdsall, questioned how the Board could be considering increasing the constitutional tax limit and at the same time increasing salaries for County officers. Ms. Gowiski stated

## LEGISLATORS' PROCEEDINGS

the Board should strongly consider freezing or cutting wages and that spending needs to be controlled before more raises are offered.

George Goetschius, Wellsville, asked if raises were based on merit or cost of living. *(Legislator Russo answered that a rating system was used, based on merit.)* Mr. Goetschius questioned if County officers were included in labor grade classifications and if there was a ceiling on their salaries. *(Chairman Palmer answered that there wasn't.)* Are the legislators in agreement regarding the fairness of the rating and evaluation system. *(Palmer replied that this was the first year for evaluations with given criteria, so there is nothing to judge against; but the system is better than what was done in the past.)* Are the employees just beneath the department heads evaluated and approved through public hearing? *(Palmer answered that some mid-management level employees are evaluated, but raises are given on a routine step basis and are not contingent on a public hearing process.)* Instead of blanket approval, each raise should be considered individually. *(Palmer stated that when the raises are considered in committee, they are discussed individually and adjustments are made.)* How do Allegany County officials' salaries compare with surrounding counties and industry. *(Palmer replied that often when the County has tried to recruit department heads, applicants are not willing to relocate here due to lower wages.)* The County should hold the line on wages in light of our financial situation. *(Palmer stated that two years ago, department heads and non-union personnel were not given raises, other than the few that are mandated by the State.)*

Tim Norton, AFSCME Union President, questioned the higher percentages used in determining department head salaries, as opposed to the one and one-half percent negotiated for AFSCME contract employees for this year and two percent for next year.

Walter Weirich, Rushford, commented that no one objects to paying fair taxes, but enough is enough. Legislators have the responsibility to make government work for everyone and need to make some prudent decisions. Taxpayers need assurances that they can still afford their homes, jobs and education will be available, and government is on their side. Some of the District IV legislators have tried to make some changes, for example, stopping employees from taking County vehicles home at night, but so far have not had the support of the rest of the Board. It's time for change.

Karl Kruger, Friendship, agreed with Mr. Weirich and applauded Legislator Russo's efforts with the vehicle issue. Former Treasurer James Mulholland warned in the past that the County's spending trends couldn't continue or "the wheels are going to fall off the cart." The wheels are very loose. Parking County vehicles at night is a step. Choices may not be easy, but the legislators know what to do, and need to do it.

Following the public hearing, the Board reconvened in regular session.

**PRIVILEGE OF THE FLOOR:**

Chairman Palmer granted privilege of the floor to County Historian Craig Braack for his "Bicentennial Minute." Mr. Braack will highlight bits of County history at this and future Board meetings in anticipation of the County's Bicentennial celebration in May 2006. Mr. Braack spoke briefly on the changes in the County's borders and formation of Towns from April 1806 through 1860.

Roll Call: All Legislators present.

The meeting was turned over to County Budget Officer John Margeson, who read his 2006 Budget Message:

"Good evening and welcome to tonight's public hearing on the 2006 County Budget. Those of you who have been following the efforts to reduce the budget are probably aware that as of last Wednesday the budget required a 10.1 percent tax increase. Late last week we received some encouraging news. The real property assessment rolls for 2006 were finalized and we learned that the tax base in the County increased by 36 million dollars over the 2005 amount. This 36 million dollar increase in the value of taxable real property, by itself, resulted in an immediate reduction of the proposed tax rate increase by 2.8 percent bringing the rate increase, as of tonight, to 7.3 percent. Percentages don't mean much. Dollars and cents do. To the average property owner in Allegany County, a 7.3 percent increase in the County Tax Rate translates into an additional tax burden in 2006 of \$42.40 over what that same property owner paid in 2005 (an additional forty-two dollars and forty cents over the course of a year, or three dollars and fifty-three cents per month).

The Board of Legislators intend to adopt a final budget 18 days from now on Monday, November 28<sup>th</sup>. I believe further effort will be exerted to reduce the tax rate even more.

Much has been made recently of the fact that the County has almost exhausted its constitutional tax limit. We discovered on Tuesday of this week, after consultation with the State Comptroller's office, that the County's constitutional tax limit for 2006 has increased from 21,074,359 dollars to 22,744,399 dollars or an additional 1,670,040 dollars.

## LEGISLATORS' PROCEEDINGS

*As of this evening, the County budget calls for a tax levy of 21,976,353 dollars which is 768,046 dollars below the limit.*

*With regard to tonight's proceedings, we will announce the total budgetary amounts of the major budget fund categories beginning with General Government Support. That figure is located on the bottom of page 5 of the Tentative Budget. I will pause and give an opportunity for attendees to comment on or ask questions about any departmental budget within that category. We will proceed in this fashion until we have completed the Appropriations portion of the budget.*

*We would ask that persons who wish to speak identify themselves by name and the Township or Village in which they live. We would also ask that general statements concerning the budget be limited to no more than 5 minutes.*

*Specific questions concerning the budget will be addressed by myself or the County Treasurer. Some latitude will be allowed for questions which pertain to departmental functioning or legislative policy, however please keep in mind this hearing is intended to be about the budget.*

*We will begin on page 5 of the Tentative Budget with the budgetary total for General Government Support."*

Mr. Margeson then proceeded to have Ms. Finnemore, Deputy Clerk of the Board, to read the tentative budget appropriations by major category, with time allowed for questions between each category.

Approximately 25 people were present for the hearing, including approximately 20 County employees. Those speaking are indicated below with responses in parentheses.

Mary Perkins, Clarksville, asked why the Total General Government Support recommended by the budget officer was more than the department head request. *(The District Attorney's budget request shows zero, Mr. Parker did not return his budget in time for inclusion on the department heads' report.)*

Kate Hollis, Granger, questioned the raise in contingent funds over last year's figures. *(The increase in contingent was a legislative action recommended by the Ways & Means Committee.)*

Rick Hollis, Granger, stated the Community Colleges budget in 2004 was \$610,693 and in 2006 the budget officer recommended \$650,000. He wanted to know if that would be enough to cover the expense? *(We hope so, this is an unknown expense.)*

Rick Hollis, Granger, asked about the recommendation by County Treasurer Terri Ross at a recent Ways & Means Committee meeting stating that the personnel budget in the Sheriff's Office is short of where she believes it should be. Did the Treasurer make the legislators aware of that? *(Ms. Ross brought that to the Legislators' attention. Based on tradition, she feels that there are not enough funds for 2006.)* If money is not added will there be cuts? *(That is one alternative.)*

Karl Kruger, Friendship, asked what the other alternatives are. The new legislators will have to deal with this if there is a shortage. *(We can allow the account to run in the red or allow other money to be transferred to cover that.)*

## LEGISLATORS' PROCEEDINGS

Kate Hollis, Granger, asked who sets up the Sheriff's budget. Don't you know how much money you need to run the department's personnel? *(The collective bargaining agreement itself is some of the problem. Their contract requires deputies that are off due to sick time must be replaced with overtime. We can not predict the overtime budget.)* Who negotiates this contract? *(A labor specialist is hired to negotiate contracts with Mr. Margeson overseeing him. The Sheriff is invited to the table but is not responsible to negotiate the contract.)*

Bette Stockman, Friendship, asked about the "Drop In Center" on page 12 of the budget. *(It is a facility in Wellsville that is financed thru the Mental Health Department. It is a place for people to go to that have been diagnosed with mental problems. A place to receive counseling.)* Is this the first year you have had it? *(No, this is the first year it has been put on the budget as a separate line item.)*

Linda Wydysh, Belmont, asked what the Rural Health Network was. *(It is funded 100 percent with state aid to coordinate public health services with multiple counties such as Allegany, Yates, etc.)*

Rick Hollis, Granger, wanted to know why there is a drop under the State Fuel Crisis Assistance section, especially when fuel prices are going up. *(Social Services Commissioner Patricia Schmelzer stated that the line item is completely funded by federal aid, and that the rate was set before the fuel prices went so high. They are working to change that.)*

Mary Perkins, Friendship, asked what "Beach and Pool" stood for. *(This budget category finances the public beach and swim area at Rushford Lake.)*

Rick Hollis, Granger, asked if the County ever plans on hiring a County Planner again. *(This is a subject of discussion among legislators, but no commitment yet.)*

Rick Hollis, Granger, wanted to know why the County keeps paying state retirement contributions in February rather than December. The County would save one percent if the retirement bill would be paid on time. This would be a savings of \$24,000 per year. *(We do not have the cash to pay the contributions in December. The County would need to look at how the item was budgeted.)* So again in 2006 we are losing the one percent discount again? *(Yes)*

Al Carlin, Willing, asked how many people are benefiting from the Workforce Investment grant fund. *(Employment and Training Director, Jerry Garmon, stated that 7,500 people come thru this program. It varies on the types of services provided.)*

Kate Hollis, Granger, asked why there is such a difference between the department head request and the budget officer recommendation on the Total County Road section. Are people going to be cut? *(Most of that difference is in the budget of maintenance of roads and bridges. The budget officer decided to cut this and not personnel.)*

Mary Perkins, Friendship, asked how we can go from a figure of \$315,000 to zero on page 33 under the Debt Service - Interest on RAN line item. *(At the time the budget was put together the County Treasurer decided to budget \$315,000 for interest on a revenue anticipation note. Then the decision was made that since cash flow is better this year, we won't need the revenue anticipation note, so the interest was taken out.)* Do you think everyone will pay their taxes on time? *(Not everyone.)*

## LEGISLATORS' PROCEEDINGS

Walt Weirich, Caneadea, stated that it is nice that money has been found, but you legislators have to make tough decisions. The taxpayers are demanding more from you. Our County debt is way beyond our means. We hear every year you are raising our taxes. When are the tax increases going to stop? Mr. Weirich feels the County should: #1 make County government more accountable; #2 more discipline on taxes; #3 make County more efficient; #4 think of more ways to save money; #5 help control County government; #6 allow taxpayers to vote on tax increases; #7 enable taxpayers to evaluate our programs; #8 inform taxpayers on mandates made by our state; #9 allow the taxpayers to contribute to the system. He also feels that we need to find the "fat" in each department. We know that most of them are inflated. The department head inflates each budget knowing that they will probably have to make cuts. He feels that each budget should be gone over with a fine tooth comb and leave our constitutional tax limit alone.

Mary Perkins, Friendship, is not happy and stated she can't afford the tax increases. Even with the figures that Mr. Margeson found, her budget can't take a seven percent raise. At the age of 75 the chance to earn extra money just disappears. Senior citizens on fixed incomes do not have the opportunity to pay for a seven percent raise. If she didn't cut firewood and can her own food, she would have to decide on eating or staying warm in order to pay her taxes. Can you pay more attention to the people that you are representing? The people should know what is going on more in the County.

Lynda Hamme, Bolivar, stated her mother can not retire at 69 because the increase in social security was so small. Ms. Hamme is trying to buy a house in Allegany County but is finding it too expensive to afford. She asked where all the money is going for snow removal and salt, she drives these roads and they are in terrible condition. She also asked how many people are going to be losing their jobs because of this budget? *(No answer was given.)*

Rick Hollis, Granger, noted that in the past the County has been running a three to three and one half million deficit. Does this budget help on this? *(Ms. Ross stated that this will only help if we receive more revenues than expenses. There is no money in this budget to get us out of debt.)* What about the cash flow problems? *(Ms. Ross said it looks like we will not have to borrow any money for cash flow in 2006.)* Does the cap on Medicaid help the County? *(Mr. Margeson thinks we will receive some relief in 2006 from this cap. We will not know what the bill will be until July 2006 when the state can tell us. His opinion is that we are going to begin to see relief in some Medicaid costs.)*

Toni Morreale, Rushford, asked what we do with the tourism money. *(Various attractions in the County such as the County Fair, etc.)*

Gary Ostrower, Alfred, asked why, under Law Enforcement on page 6, line A3110, personnel services, there is such an increase over last year's budgeted amount. *(The majority is the result of the Sheriff moving some employees' wages from the jail staff to his administrative staff.)*

Karl Kruger, Friendship, referred to the Wildlife Habitat & Stream Improvement section on page 21, and asked that with the abundance of hunting and fishing available in Allegany County, why is so little money put aside for this section? *(\$2,500 is what the sports federation has requested. This is to develop the habitat and some planting of willows along stream banks.)* Mr. Kruger stated

## LEGISLATORS' PROCEEDINGS

there is one natural resource here in Allegany County and he feels that we should look into it as a moneymaker.

Rick Hollis, Granger, noted that in a recent newspaper article it stated that the cost of retirement and bonds will cause a fourteen percent increase in taxes alone, now we are looking at a seven percent increase. What major programs are going to be cut? How deep are the cuts going to be? *(A lot of hard work was done by the legislators in making cuts, and in addition we have found areas where revenue collections will be better.)*

The public hearing was declared officially closed at 8:05 p.m.

**November 14, 2005**

The regular meeting of the Board of Legislators was called to order at 2:05 p.m. by Chairman Palmer.

Pledge of allegiance to the flag.

The invocation was given by Legislator Regan.

Roll Call: All present.

**PUBLIC HEARING:**

Chairman Palmer closed the regular meeting to hold a public hearing on a Resolution Increasing Limitation on Amount of Funds to be Raised by Real Estate Taxes for County Purposes. The Chairman stated that due to recent developments in the budget process, the resolution will be removed from further consideration. Opportunity for comment was given.

Tom Donnarumma, Town of Alma, thanked the Board for attempting to keep real estate taxes down. Mr. Donnarumma retired from the New York City police force to the Niles Hill area, and stated he's alarmed with the amount of recent budget increases. His taxes have increased 35 percent in the last five years, at a rate that is double the inflation rate, while his pension cost of living increases amount to only three percent per year. The County Board needs to stop its current spending patterns. Residents cannot handle further tax increases. Mr. Donnarumma also noted that due to the magnitude of the new jail project, he feels it should have gone to the taxpayers for a vote.

Mary Perkins, Clarksville, stated that a high percentage of the County's population are on fixed incomes and can't afford tax increases. The Board should re-examine all expenses. Residents are selling their property and leaving the County because they can't afford to stay. Ms. Perkins also noted her concern regarding the County tax sales. She requested that although the resolution is being withdrawn today, the legislators should not consider raising the tax limit in the future either, but figure out a way to stay under it.

Following comments, the public hearing was declared closed and the Board reconvened in regular session.

**PRIVILEGE OF THE FLOOR:**

Chairman Palmer took the floor to present a certificate to the November 2005 Employee of the Month, Keith Hooker, of the Information Technology Department, in recognition of his hard work and dedication to the County.

Chairman Palmer granted privilege of the floor to County Historian Craig Braack for his "Bicentennial Minute." Mr. Braack will highlight bits of County history at this and future Board meetings in anticipation of the County's Bicentennial celebration in May 2006. Mr. Braack presented information on typical residences, beginning with an artist's rendition of the first permanent settler's cabin in 1796 (Elm Valley), and ending with a representation of an 1820's dwelling. As late as 1855, census data indicated that ten percent of the population still resided in log cabins.

**RESOLUTIONS:**

Resolution Intro. No. 234-05 (Increasing Limitation on Amount of Funds to be Raised by Real Estate Taxes for County Purposes) was WITHDRAWN by Legislator Crandall, Chairman of the Ways and Means Committee. The County real property assessment rolls for 2006 were recently finalized showing an increase of 36 million (as compared with 2005 figures) in the value of taxable real property. Also, County Treasurer Terri Ross received notice from the State Comptroller which will allow the County to exclude short-term BAN projects from the constitutional tax limit. As a result of these two developments, the tentative budget, with proposed changes to date, will generate a tax rate that falls under the tax limit. More changes are being considered before the budget is finalized.

## LEGISLATORS' PROCEEDINGS

**December 12, 2005**

The regular meeting of the Board of Legislators was called to order at 2:00 p.m. by Chairman James G. Palmer.

Pledge of allegiance to the flag.

The invocation was given by Legislator Reynolds.

Roll Call: 14 Present; 1 Absent (Regan).

**PUBLIC HEARING:**

Chairman Palmer closed the regular meeting to hold a public hearing on Local Law Intro. No. 4-2005, entitled "A Local Law to Provide Increases in the Compensation of Certain Officers." Approximately eight members of the public, several County employees, and four media representatives were present. Comments are summarized below:

Norman Ungermann, Cuba, Legislator Elect from District II, addressed the Board in opposition to the pay raises. In light of the County's financial situation, Mr. Ungermann felt the Board should not be revisiting this issue after it was voted down just seven weeks ago. He quoted tax rate information and census figures, documenting that since 2000 and through the coming year, the tax rate has increased over 36.5 percent. Over 37 percent of the County's 50,000 people live below the poverty level with an average per capita income of \$14,975. Until the County is operating in the black, everyone must pull together.

Steve Rennie, Fillmore, spoke in favor of the raises and commented that the difference between politicians and statesmen is how they respond to the "loud, angry voices" of the public. Politicians tend to react immediately, while statesmen will listen and seek counsel before making decisions for the common good. Mr. Rennie noted that department heads are asked to do a difficult job; and although the legislature is credited for the budget work, budget cuts are made largely through the diligence of the department heads. He commented that soon we would know which of the new legislators will be "politicians" and which will be "statesmen."

Cindy Gowiski, Birdsall, stated she is not arguing whether or not County officials are doing a good job, but their salaries are almost two and a half times that of her and her neighbors' total family incomes. Ms. Gowiski didn't agree with the argument about staying competitive with neighboring counties for salaries and felt the issue of the raises shouldn't have been brought up for another vote.

Karl Kruger, Friendship, Legislator Elect, agreed with Mr. Ungermann and Ms. Gowiski and stated he would vote against the pay raises. It has nothing to do with whether they are deserved or earned, but it's a dollars and cents issue.

Following comments, the public hearing was declared closed and the Board reconvened in regular session.

**PRIVILEGE OF THE FLOOR:**

Chairman Palmer took the floor to present a certificate to the December 2005 Employee of the Month, Darby Lavery, of the Information Technology Department, in recognition of his hard work and dedication to the County.

## LEGISLATORS' PROCEEDINGS

Chairman Palmer granted privilege of the floor to County Historian Craig Braack for his "Bicentennial Minute." Mr. Braack spoke on the Allegany County veterans of the Civil War and distributed a handout showing numbers of the County's citizenry by Town who served in the Civil War. He noted the very high percentage of County veterans, considering the total population at the time was around 30,000, and compared that to the much smaller percentage serving in the Gulf at the present time.

STOP DWI Program Coordinator Deborah Aumick was granted privilege of the floor to announce the kick off of their "Safe and Sober Holiday Celebration" campaign. The wassail and cookies that were provided were prepared by the BOCES Culinary Arts students.

December 27, 2005

The regular meeting of the Board of Legislators was called to order at 2:05 p.m. by Chairman James G. Palmer.

Pledge of allegiance to the flag.

The invocation was given by Legislator Regan.

Roll Call: 14 Present; 1 Absent (Graffrath).

**APPROVAL OF MINUTES:**

The Board meeting minutes of November 10 (Budget Hearing), 14, and 28, 2005 were approved on a motion made by Legislator Dibble, seconded by Legislator Sobeck and carried.

**PUBLIC HEARING:**

Chairman Palmer closed the regular meeting to hold a public hearing on Local Law Intro. No. 5-2005, entitled "A Local Law Authorizing the Allegany County Clerk to Impose a Cover Page Recording Fee." There being no one desiring to speak, the public hearing was declared closed and the Board reconvened in regular session.

**PRIVILEGE OF THE FLOOR:**

Chairman Palmer took the floor for the presentation of plaques to legislators whose terms will end on December 31, 2005 (Chairman Palmer's plaque was presented to him by Legislator Curtis Crandall):

Rodney K. Bennett	12 Years Service, District I Legislator, 2 Years Vice Chairman, and 9 Years Majority Leader
Kenneth Nielsen	15 Years Service, District I Legislator
Edmund C. Burdick	12 Years Service, District II Legislator
Susan F. Myers	11 Years Service, District II Legislator
Patrick Regan	11 Years Service, District III Legislator
Edgar Sherman	10 1/2 Years Service, District III Legislator, 4 Years Chairman (Presented posthumously; accepted by Grandsons Avery Arden and Jeremy Post, with Wife Caroline also present)

Chairman Palmer granted privilege of the floor to County Historian Craig Braack for his "Bicentennial Minute," highlighting Allegany County post offices. Since the County's beginning, 122 post offices have existed, with only 29 remaining today. Mr. Braack prepared a listing of some of the more obscure post office names that have long since closed. Rural Free Delivery (RFD) started in 1902 causing the closure of many post offices. During the mid 1800s, it took between two and three weeks for a letter from New York City to reach Western New York (at a cost of 18 and one half cents). The present era is marked by numerous electronic innovations such as cell phones, computers, and digital cameras, which allow for instant effective communication.

## **COMMUNITY SERVICES 2005 ANNUAL REPORT**

The Allegany County Office of Community Services consists of two major divisions. The first is the Local Governmental Unit (LGU) that receives money from the New York State Agencies and contracts for services with local providers. The second part of Community Services provides services within the County and also regulatory oversight of other mental hygiene programs.

The Office is under the direction of the Community Services Board (CSB). This Board is comprised of fifteen members appointed by the Legislature (two of whom are County Legislators). The Board is organized with three sub-committees: Mental Retardation Developmental Disability; Chemical Dependence; and Mental Health. These sub-committees work with the CSB and the Director of Community Services (DCS) to provide local planning that ensures the most efficacious delivery of services to Allegany County residents. The Human Services Committee of the County Legislature reviews all proposals, programs and policies.

As the executive officer of the CSB, the DCS is responsible to recommend policy to the Board and to implement existing policies. The office also engages in contract management with direct contract agencies and must assure the contractual, budgetary, and regulatory compliance of these agencies. The Office is also responsible to receive and process monthly expenditures and reimbursement claims from the contract agencies and to complete the quarterly State aid claim process.

During 2005, Allegany County maintained contracts with the following agencies: ACCORD; Allegany Council on Alcoholism and Substance Abuse; Allegany County Arc; Allegany County Mental Health Association; ARA; Finger Lakes Parent Network; Housing Options Made Easy; and Steuben Churchpeople Against Poverty. Annual Reports from these agencies are included with the full report on file in the Office of the Clerk of the Board of Legislators. In addition, the CSB authorized financial support to Pathways, Inc., Literacy Volunteers and the Allegany County Sheriff's Department.

Allegany County Community Services ensures appropriate, coordinated services to County residents needing mental hygiene services. In addition to the oversight of the contractual agencies, direct services are provided through Intensive Case Management (ICM), Single Point of Access (SPOA) and chemical dependence evaluations for the Department of Social Services. In the area of prevention, Community Services offers Common Sense Parenting classes open to all residents with referrals from other agencies. This year in conjunction with the Allegany Council, the Office of Community Services applied for and received a grant to provide case management services for individuals diagnosed with chemical dependency. This program, Managed Addiction Treatment Services (MATS), is designed to save Medicaid dollars and enhance treatment outcomes.

The Community Services Department maintains very collaborative and cooperative relationships with other County Departments and Human Service Agencies in the County. In the area of Mental Hygiene, Allegany County residents continue to receive outstanding services from dedicated providers.

## **CORNELL UNIVERSITY COOPERATIVE EXTENSION 2005 ANNUAL REPORT**

Cornell University Cooperative Extension of Allegany County continued to maintain and expand programming efforts during the past year. Sharing more program staff with Cattaraugus, Wyoming, and Chautauqua Counties has enabled Extension to provide excellent, well attended programs for the residents of Allegany County. Allegany County continued to partner with Orleans, Genesee, Niagara, Erie, Livingston, Wyoming, Chautauqua, and Cattaraugus Counties as part of the Western Region Nutrition Program. Partnerships with McKean, Potter and Cameron Counties have also been established in the Youth Development program area. These partnerships are vital as Cooperative Extension continues to expand resources and programming.

Under the umbrella of Nutrition, Health and Safety, individuals from all economic backgrounds completed Healthy, Wealthy, and Wise programs on issues of daily living skills, parenting, budgeting, long term care, retirement, decision making, food security, food affordability, food safety and nutrition education. A strong emphasis was placed on obesity, particularly childhood obesity, and related health risks. The Worksite Wellness program has become a mainstay in Allegany County with 30 employers continuing to participate in this popular annual program. Nutrition, Health and Safety programs continue to work towards reducing Medicaid and health insurance costs.

The Environmental and Natural Resource Enhancement program area which now has only one staff person has enlisted the assistance of Cooperative Extension trained Master Gardeners and Master Forest Owners to expand natural resources education in the County. Programs were presented on Municipal and Public Forestry, Environmental and Forestry Stewardship, Growing and Pruning Apple Trees, Tree Planting, Consumer Landscape and Gardening, and Ponds and Water Quality.

The Children, Youth and Family Well-Being Initiative encompasses Human Development, Youth Development and the 4-H Program. The 500 Allegany County youth enrolled in the 4-H Program experienced a variety of activities that promote positive youth development. With the goal of turning the tide on childhood obesity, 1,117 Allegany County youth participated in programs that promote healthy lifestyles through healthy eating and exercise.

Cornell University Cooperative Extension's Second Annual Rural Living Conference grew to 160 participants. Enrollment in Cooperative Extension's Rural Landowner Conference remained solid with 500 participants taking part in a full day of workshop options. Other 2005 program topics included Beginning Farmers, Maple School, Farm Business Management, Organic Poultry Production, Farm Bookkeeping, Integrated Pest Management, and Niche Marketing.

**COUNTY ADMINISTRATOR  
2005 ANNUAL REPORT**

In reflecting on my monthly calendars for 2005, it became very evident that a substantial amount of my time was committed to activities associated with construction of the Public Safety Complex and the installation of the water main for County Water District #1 serving area residents, commercial endeavors and the Jail. In addition, I worked with the architectural staff from LaBella Associates of Rochester, New York in developing options for addressing the over crowding situation facing the County Court System. This issue will be addressed, in earnest, in 2006 by the Board of Legislators.

In 2005, I continued to represent the County and the Board of Legislators as Vice Chairman of the Southern Tier Rail Authority, Vice Chairman of the Southern Tier West Regional Planning and Development Board, and member of the Cattaraugus-Allegany Workforce Investment Board.

In July 2005, former Personnel Officer Bernard Morris retired and I assisted the Ways and Means Committee in the process of selecting a replacement.

While it is difficult to represent accurately in this report, the nature of the duties and responsibilities of the position of County Administrator require the dedication of substantial time and energy on a daily basis interacting with our several agency managers and County legislators. These discussions, particularly with department heads, frequently pertain to budgetary issues, personnel issues, program administration and interpretation/explanation of local legislative policies and procedures.

Throughout 2005, I personally attended 108 Standing Committee meetings and 24 Board meetings.

Respectfully submitted,  
John E. Margeson

**COUNTY HISTORIAN  
2005 ANNUAL REPORT**

Once again it has been my pleasure to serve as the County Historian, Museum Curator and County Records Management Officer for 2005.

During the year, I presented 105 slide programs throughout the County and region, answered 39 genealogy requests, answered 28 letters inquiring about a variety of subjects, and conducted six tours of the County buildings for the public.

I wish to thank the Federally sponsored program Experience Works, formerly known as the Green Thumb Program, which pays a senior citizen from our County to work in various government entities. For 18 years now, it has been my pleasure and the County's benefit to have Mr. Francis O'Brien from Scio assigned to my office. He most capably runs the office in my absence.

The unequivocal highlight of the year and my career here was the publishing of the County's 20<sup>th</sup> century history book for our County's Bicentennial Celebration in 2006. The book was over four years in the making with many people contributing countless hours researching and gathering information for the two principle writers: Lee Gridley from Wellsville and myself. The book went to our publisher, Donning Publishing, in May and 2,000 copies arrived in Belmont on December 22. A sincere "Thank You" goes to the Allegany County Area Foundation for their generous loan of \$12,500 to start the process. No person or group will make one cent in profit from the sale of our book. Eventual profits will be used to fund worthwhile historical projects of our County's historical societies, museums and local historians. Special acknowledgment also goes to the Allegany County Tourism Promotion Council for serving as our legal treasury.

Respectfully submitted,

**OFFICE OF DEVELOPMENT  
2005 ANNUAL REPORT**

The Office of Development focused our collective efforts in the development of commerce within the County through the retention, expansion, and attraction of business and services.

Business Assistance / Revolving Loan Fund – During 2005, the Development Office assisted over 250 businesses with various requests from permitting through financing. The Revolving Loan fund structured seven loans totaling over \$125,000. Within the past five years, over \$600,000 in lending has been achieved. At the end of 2005, a project was initiated to combine the County revolving loan fund with the ACCORD Small Business Development Program to become a more streamlined, efficient process for County businesses.

Crossroads Commerce Park (I86 & NYS Rte. 19) – During 2005, several significant benchmarks were initiated and achieved including:

- Creation of the Crossroads Advisory Committee to oversee development initiatives and provide County coordination for infrastructure.
- Creation of distinct County sewer and water districts at the Crossroads.

John E. Foels, Director

## **DISTRICT ATTORNEY 2005 ANNUAL REPORT**

The District Attorney hereby submits this summary of his annual report in the severely condensed format required by board resolution. (“Let thy speech be short, comprehending much in a few words.” *Ecclesiasticus*) The full text of the activities of the office will be filed in the Office of the Clerk of the Board of Legislators, Allegany County Office Building, Belmont, New York, will be posted on the office web page, and is also available from this office upon request.

During the 2005 calendar year, 2,637 new files were opened in our office to be added to those carried over from 2004. Of the 2,637 new files opened, 949 were misdemeanors, 370 were investigations or miscellaneous or initially regarded as felony level arrests, 1,221 were violations, and 97 were violations of probation. Of the new files, 1st Assistant DA Keith Slep was assigned 552, Assistant DA Michael Regan was assigned 751, and Assistant DA Amanda Newton was assigned 395. Assistant DA Carissa Healy, who joined the office in late 2005, was assigned to 171 files. Terrence M. Parker, as District Attorney, assumed direct responsibility for 856 new files, including the pending homicide cases, as well as exercising supervisory authority over all other files. A Special Prosecutor was needed and appointed to handle only 12 files in 2005, less than one-half of one percent of the office matters.

Terrence M. Parker continued to serve as full-time District Attorney, completing his eighth full year as District Attorney, and 22 years as a prosecutor. Norleen Enders and Ronnelle Drozdowski of Belfast, NY, served as the Confidential Secretaries to the District Attorney and Assistant District Attorneys for the year. Keith A. Slep, Michael J. Regan and Amanda B. Newton of Wellsville continued their service as part-time Assistant District Attorneys. In the latter half of the year, Carissa M. Healy of Belmont was appointed as the 4<sup>th</sup> Assistant DA.

All prosecution staff is encouraged to participate in professional development training, and were afforded the opportunity for additional training and legal education through the New York State Prosecutor’s Training Institute and the National College of District Attorneys. The District Attorney also personally continued active involvement with the District Attorneys’ Association of the State of New York to address current legislative goals and State budgetary concerns, and was elected to the Board of Directors of the Association effective January 2006. The District Attorney serves on the Executive Committee of the Domestic Violence Consortium, and on the Advisory Board of the Victim Response Team, an outreach program for assisting domestic violence victims immediately at the time of the offense. Assistance in trainings for Rape Crisis counselors was also provided during 2005, as in previous years. The District Attorney, ADA Keith Slep and DA Inv. Dennis Vespucci continued to be active participants in the Youth Court Program in Allegany County. The District Attorney also continued the practice of making presentations to school classes, service organizations and community groups throughout the County on the legal system, juvenile justice programs and drug and alcohol abuse prevention.

An initiative undertaken by the office in 2004 to institute a local Drug Court came to fruition in 2005. The Drug Court is designed to address non-violent criminal cases where offenders have a demonstrated history of alcohol or other drug abuse or dependency. Now fully operational, the Drug Court should result in enhanced individual accountability of offenders and safer communities, while producing significant financial savings in addressing the needs and rehabilitation of these offenders.

Investigative Services continued to be provided by this office in 2005 through retired Sr. Investigator Dennis Vespucci of Clarksville, formerly of the Division of State Police. Inv. Vespucci also serves as the Office Liaison with the Zone 13 Counter-Terrorism working group. Paul Wright of Wellsville and James Galatio of Cuba continued to serve on our staff as unpaid K-9 Investigators. K-9 investigations were undertaken in numerous narcotics, DWI and other details throughout the County, in a cooperative use of our resources. Presentations to schools and public groups were also done, along with requested school locker searches. Inv. Wright's K-9 partner specializes in drug detection and Inv. Galatio's partner detects weapons and explosives.

Through a continuing grant from the New York State Crime Victims' Program, Mrs. Shannon Ozzella continued to serve as Victim Services Coordinator in 2005, and she also serves as Vice President of the Western New York Coalition of Crime Victim Service Providers. Allegany County has been recognized as a leader in providing assistance and appropriate outreach to crime victims.

The office has its own web page, as part of the County web site, to provide the public and other agencies with ready access to the most commonly requested data on our services. Many inquiries now handled by telephone or letter can be answered with the included information, or through e-mail addresses listed on the site. Links to Youth Court, Drug Court materials, Rural Justice Institute, Local Courts and other resources are included. Please visit our site at: [http://www.alleganyco.com/default.asp?show=btn\\_DA](http://www.alleganyco.com/default.asp?show=btn_DA)

In conclusion, I would invite any member of the public to inquire further if they have any questions regarding our office and invite anyone with an interest to examine the expanded report on file with the Clerk of the Board of Legislators, visit our web page, or request a copy from our office.

And, in keeping with the tradition begun by my predecessor in 1974, I offer the following saying, proverbs and quotes for your consideration and reflection:

*"If you chase two rabbits, you will lose them both."* - Native American saying

*"When a man is happy, he does not hear the clock strike."* - German Proverb

*"Fame is vapor, popularity an accident, riches take wings. Only one thing endures and that is character."* - Horace Greeley, 1811 – 1872

*"The difference between the right word and the almost right word is the difference between lightning and a lightning bug."* - Mark Twain, 1835 – 1910

*"The word 'good' has many meanings. For instance, if a man were to shoot his grandmother at a range of 500 yards, I would call him a good shot, but not necessarily a good man."*  
- Gilbert Keith Chesterton, 1874 – 1936

*"If you speak the truth, have a foot in the stirrup."* - Turkish Proverb

Respectfully submitted,  
Terrence M. Parker, District Attorney

**OFFICE OF EMERGENCY SERVICES  
2005 ANNUAL REPORT**

This office continues to meet the responsibilities of the emergency management program set forth by the State and Federal governments. This includes preparing for, responding to, and recovery from emergencies and disasters.

The County's Comprehensive Emergency Management Plan was updated. Allegany County was one of the first local jurisdictions in New York State to complete a Pre-Disaster Mitigation Plan and be approved by the State as well as FEMA. Local towns and villages and some not-for-profit organizations participated in the planning process and are 'covered' under the County's plan.

The office received a Homeland Security Grant for \$75,000 used in addressing the threat of bioterrorism and cyberterrorism. Local hospitals were given funds to obtain additional personal protective equipment and monitoring equipment. The County's Information Technology Department received a portion of the funding, as did the County haz mat team. The 2006-2007 Homeland Security Grant Program for an additional \$50,000 has been approved.

A request for Federal assistance was made for the June 9 through 10 flood damage. New York State requested Federal assistance for a number of counties but was turned down by FEMA.

Public awareness and education are major components of emergency management. Self-help literature and information were available at the Allegany County Fair. Presentations were made to various organizations.

This office worked with some of the school districts in assisting with disaster preparedness and terrorism planning requirements.

Through a rural health grant, the County received an automatic external defibrillator (AED), which is installed on the ground floor of the County Office Building.

As part of the notification and warning responsibilities, many severe weather statements were disseminated through the County's 911 Center, which is the twenty-four hour warning point for the County.

As the only EMS Training Course Sponsor in Allegany County, seventeen classes were coordinated with one hundred and three students graduating with NY State Health Department certification.

The office will be moving into new office space located within the new Public Safety Facility which will afford good coordination of information during times of emergency.

Respectfully submitted,  
John C. Tucker, Director

## **EMPLOYMENT AND TRAINING ONE-STOP CENTER 2005 ANNUAL REPORT**

The Employment and Training One-Stop Center is the resource utilized by job seekers for career and employment services, and by employers for job matching, pre-assessment and screening assistance. The number of individuals who used a service remained steady in 2005, totaling 2,267. Center staff made 1,468 referrals to job openings resulting in 192 direct placements. Four hundred fifteen (415) people attended workshops and 311 were tested for math/reading skill levels for employment and training purposes.

Local businesses benefited from services including the processing of applications, testing, On-the-Job Training/Work Experience subsidies, and assistance with tax credit information. Forty-seven (47) contracts were written resulting in \$44,392 direct savings to participating employers for costs associated with the training of new employees.

Funding available through the Workforce Investment Act assisted 96 County residents in specific occupational skills training programs linked to current demand occupations. Eligible adults and dislocated workers participated in training programs resulting in certifications leading to careers in Health Care, Business, Education, Technology and Human Services. Seventy-one percent of those who completed training in 2005 found employment upon exit from the program.

Services to low-income at-risk youth included counseling, work experience, exposure to post secondary educational opportunities, occupational skills training, and supportive services. Seventy-nine (79) youth ages 14-21 benefited from those activities through the Summer Youth Employment Program. In partnership with Southern Tier Traveling Teacher, Literacy Volunteers, and ACCORD, the year-round program served an additional 29 youth with an emphasis on dropout prevention, career exploration, job seeking skills, and work experience.

The Center continues to have a strong relationship with the Department of Social Services. A total of 886 applicants were assessed for employability. Four hundred ninety-nine (499) public assistance recipients were assigned to participate in activities involving job readiness training, individualized job search, resume development, and job retention skills. This resulted in welfare grant savings generated through employment, sanctions, and case closings for 147 individuals.

During 2005, 642 customers completed customer satisfaction surveys with over 97 percent reporting positively on services provided by Center staff, along with overall satisfaction with the results of their visit.

In closing, all program activities involved 690 local residents who benefited from services such as counseling, tuition assistance, wage subsidies, supportive services and workshops.

Respectfully submitted,  
Jerry L. Garmong, Director

**FIRE COORDINATOR  
2005 ANNUAL REPORT**

During the year 2005, Allegany County Fire Department volunteers responded to 338 fire calls, 429 accidents, 282 false alarms (mostly at Alfred), 152 tree/lines down, 30 carbon monoxide calls, nine lost persons, and 25 haz mat incidents. Fire and independent ambulances were dispatched from Allegany County for 3,966 ambulance calls with County agencies providing 95 ALS interfaces and 676 from outside ALS agencies. Mercy Flight gave assistance 52 times.

Our Fire Investigation Team includes four (4) Senior Investigators and four (4) Regular Investigators. This year Bob Cracknell and Mike Lasnick came on as Regular Investigators and Pete Liebig moved up to Senior Investigator. The team investigated sixty-five fires; a list of those is attached to the complete report on file in the Office of the Clerk of the Board of Legislators.

The six (6) District Deputy Coordinators attended all mutual aid incidents in their districts and conducted meetings of their Chief officers. These meetings keep officers aware of current events and problems and allow opportunities for them to know each other better.

Russ Hall, the 911 Coordinator, has worked very hard this year on the numbering system and has brought it a long way toward correctness. He is also working on the details of the new 911 communications center and I think we will have a very good system when complete.

We were cut short in our training hours from the State in 2004, but in 2005 we were given a full schedule of hours, and our firemen had the opportunity to attend many classes.

Our three (3) NYS Certified Instructors conducted classes in 2005 with a total of 7,607 person hours. This was an increase of 6,252 from last year.

A copy of the 911 dispatch report is attached to the complete report of the Fire Coordinator on file with the Clerk of the Board of Legislators.

Respectfully submitted,  
Paul W. Gallmann, Allegany County Fire Coordinator

## **DEPARTMENT OF HEALTH 2005 ANNUAL REPORT**

A comedian once walked onto a stage and said that if he had known he was going to live so long, he would have taken much better care of himself. The statement has turned out to be more ironic than humorous. The unexpected side effect of the advance in life expectancy has been a significant increase in what professionals in health care call “chronic diseases.” Heart disease, lung disease, arthritis, peripheral vascular disorders, diabetes, and now cancer are all considered to be in this category. We now all know these to be long term affairs that slowly debilitate, require a small or large fortune in medications, numerous surgical interventions, doctor visits, and may end in long term care facilities, homecare, hospice or death. Chronic disease and the services to treat it are enormously expensive.

This year Allegany County will spend about 8 million dollars on Medicaid alone. The New York State government will spend close to 47 billion and the Federal government about 330 billion dollars on Medicaid. That is just a small fraction of the total spending on health care. This is one very large “pound of cure.” The sad part of these figures is that most of this spending and most of the disease processes that consume it are, in fact, preventable.

The Center for Disease Control, our nation’s lead agency in managing the health of our citizens, now states that the next generation of Americans will probably have a life expectancy shorter than their parents. This is the first such predicted regression since this country was formed.

There is a solution. It resides in the delivery of aggressive Public Health Services. Public Health is the “ounce of prevention.” Our society manifestly cannot continue to consume its resources in the management of avoidable conditions. Each individual is responsible for maintaining their own health and we, as a community, need to help. It is often not easy to know that the reflection in the mirror is worth cutting down on snacks, a little exercise, regular medical check-ups and screening exams, clean air, water, and safe food services, but it is necessary. If properly supported and energized, Public Health can be the catalyst for this change in behavior. We can pull each other up, so to speak.

The full report, on file in the Office of the Clerk of the Board of Legislators, contains a summary of the programming efforts of the employees and contracted services of the Allegany County Department of Health. Together with our partners in Public Health Service: Hospitals, Rural Health Networks, Cornell Cooperative Extension, Community Services, Board of Legislators, Universities, Boards of Education, School Administrations, Faith Based Services, Police Agencies, and many others, we are marketing the idea that individuals are worth a healthy body, mind, spirit, and environment.

We believe these are steps in the right direction. We believe we are, in fact, taking steps for a healthy community.

Gary W. Ogden, MD, CM, Public Health Director

## **HUMAN RESOURCES / CIVIL SERVICE 2005 ANNUAL REPORT**

The Human Resources and Civil Service Department of Allegany County is responsible for a wide variety of duties. In the civil service field, the staff of four oversees 1,688 classified positions within Allegany County. This includes all County departments, 29 towns, 10 villages, 12 school districts, and one special district: Soil and Water Conservation District.

Every town, village, school district, and County department is to report all civil service employee hires, salary changes, terminations, position changes, etc. to this department. Proposed title changes must be reviewed by this department for approval. Except for labor class positions, all hires must have a civil service application submitted by the incumbent. From this information a roster card is made and maintained for each civil service employee. Town and village payrolls are certified two times a year, and school district payrolls are certified four times a year.

Decentralized exams, i.e. Typist, Custodian, Caseworker, are administered by this office on a continuous basis bi-monthly or as needed. This year 107 applicants were examined for decentralized exams.

Examinations conducted by this office and rated by the New York State Department of Civil Service totaled 12. One hundred seventy-two applicants were examined on numerous Saturdays throughout the year. Exam announcements are prepared by this office from information sent by New York State Civil Service. The staff monitors these exams which average between four and seven hours. State exams are rated by State Civil Service.

Each application submitted for an examination must be accompanied by an application filing fee. The filing fee for County employees taking promotional exams for County positions is waived. The fee schedule is \$10 for decentralized exams, \$15 for State exams, \$25 for uniformed exams. This year \$2,301 will be submitted to the New York State Department of Civil Service representing fees for State and decentralized exams rated in 2005. Revenue will be turned in to the Treasurer's General Fund from candidates who failed to appear for exams and from half of the exam fee for most rated exams.

This department continues to be responsible for administering Civil Service Law over the County's municipalities on a daily basis either by phone, letters, walk-ins or personal visits by the staff. Classification review, payroll certifications, job specification writing, and application reviews are a part of administering Civil Service Law. This department maintains a job specification for most classified civil service titles within the County.

The department is responsible for carrying out the following personnel functions: processing new employees; maintaining County personnel records; verifying unemployment claims; administering the County disability program; assisting various County departments and legislative committees in recruitment of personnel; administering the medical insurance plan for 598 active and retired County employees. Money from retirees and/or retiree spouses who pay their health coverage and employees who pay 10 or 15 percent of the monthly premium is received in this office and deposited with the Treasurer. Accrued leave records for all County employees are maintained by this department.

By law the Personnel Officer administers the provisions of the Civil Service Law to the County and each of the municipalities under the jurisdiction of the County. The Personnel Officer also administers three collective bargaining agreements representing the NYS Nurses Association, Deputy Sheriff Local 3989, and AFSCME Local 2574.

The Personnel Officer acts as the Affirmative Action Officer.

Ellen Ruckle, Personnel Officer

## **INDUSTRIAL DEVELOPMENT AGENCY 2005 ANNUAL REPORT**

The Industrial Development Agency focused our collective efforts in the development of commerce within the County through the retention, expansion, and attraction of business and services.

Jamestown Community College – In the fall of 2005, Jamestown Community College established their Allegany County Center at the Crossroads Commerce Center. The County legislature recognized the need for a community college presence to complement the County's strong, existing educational offerings. JCC established offices for admissions, financial aid, and career counseling. Limited, complementary course offerings will be available during 2006.

Crossroads Commerce Park (I86 & NYS Rte. 19) – During 2005, several significant benchmarks were initiated and achieved including:

- Completion of necessary environmental services including archeological, endangered species, Phase I and II Environmental Reviews, and initial survey.
- Initiation of the map, plan, and report for sewer and water services to the Crossroads.
- Completion of preliminary site plans for the initial phase of development.
- Extensive meetings and follow-up with interested development entities seeking to locate at the Crossroads.
- Detailed projects associated with all other utilities including gas, electric, methane, and communications.

Respectfully submitted,  
John E. Foels, Executive Director

**INFORMATION TECHNOLOGY  
2005 ANNUAL REPORT**

The Department of Information Technology continues to support the telephone system throughout the County. As a result of the department supporting the phone system, we have saved the County thousands of dollars. We have the knowledge for programming the phones and moving and punching down lines when personnel move within a department. It has proven to be more cost effective of doing the work ourselves rather than contracting with an outside company.

The Department of Information Technology has been working with the Sheriff's Office in implementing network technology for the new Public Safety Facility. We will continue to service the Sheriff's Office once they have moved, along with any other department that may be moving to the new location. The Information Technology Department is also responsible for the telecommunication system that will be implemented in the new facility.

The Department of Information Technology continues to service over 500 pieces of equipment throughout the County with a staff of four people. The technicians had a total of 37.25 hours overtime for the year, which is due to being on call for the departments that require our services twenty-four hours a day. The department continues to provide technical support to all the offices and departments. The support involves the purchase of new computers, setting them up, and installing the necessary software needed for employees to do their jobs. The technicians troubleshoot all computers, servers, printers, and connectivity for all departments located at the Belmont facilities, as well as facilities located in Wellsville, Friendship, and Alfred.

Respectfully submitted,  
Deborah M. Button, Director

**PARKS AND REFORESTATION  
2005 ANNUAL REPORT**

The Department of Public Works has continued performance of the routine maintenance duties for the County Parks and Reforestation areas. Mowing and trimming occurred on a regular seasonal schedule at the Rushford Swim Area, Seneca Oil Springs, Reforestation Building, County Cemetery, and County Road 48 Fueling Station.

Two timber sales were cruised and marked during 2005. The first sale area had a high percentage of Oak, and due to a low stumpage price on Oak, another lot was selected for this year's sale. The site included mostly Maple, currently a high value species, and Baldwin's Forest Products was the high bid out of four submitted for purchase of the timber on the Hooker Lot. The sale was for approximately 63.6 MBF and the bid was \$58,385.

The County has proposed the sale of three reforestation lots. The forest resources are very low in value and there are access and easement problems. NYS DEC has evaluated the usefulness and value of these properties for possible inclusion into their forest system, however there is an apparent delay in processing the request in Albany.

The squatters at the Cuba Oil Springs property have pulled up stakes and left the area. The fact remains, however, that enforcement of rules and regulations at the area was very difficult and a structure for enforcement and regulation of public behavior needs to be developed.

Respectfully submitted,  
Frederick Sinclair

**PUBLIC DEFENDER  
2005 ANNUAL REPORT**

The Public Defender's Office had a very good year in 2005.

The Allegany County Public Defender provided representation to clients in Family Court facing issues of neglect, abuse, custody and visitation, foster care, and family offenses. Assistants Barbara J. Kelley from Bolivar, New York, and Patricia K. Fogarty from Belmont, New York, and Public Defender Beth E. Farwell each defend criminal cases in Justice Courts, County Court, and Parole Hearings.

The Public Defender's Office opened 804 new files in 2005. There were 177 Family Court matters. There were 127 Felony criminal matters and 356 Misdemeanor cases. There were 80 cases involving Parole or Probation Violations or other matters. Forty cases were turned over to Allegany/Cattaraugus Legal Services, Inc. due to conflicts. Five cases were rejected because those individuals were not eligible for assigned counsel, and 19 cases resulted in the defendants retaining other attorneys.

The Public Defenders remain committed to protecting the rights of our clients and providing the zealous advocacy our clients deserve in our Justice and County Courts.

Respectfully submitted,  
Beth E. Farwell, Public Defender

## **DEPARTMENT OF PUBLIC WORKS 2005 ANNUAL REPORT**

This past year, despite the County's continued financial situation, the Department has maintained a reasonable level of service that is expected by those we serve. The dedication of our employees has made the difference despite a reduction in funding. We will continue our efforts to provide a safe transportation system and a viable solid waste program for the citizens of Allegany County.

CHIPS aid in the amount of \$1,714,885.74 was received from New York State. 17.51 miles of road were Hot Mixed paved, along with the construction of a Salt Storage building at the County Road 48 stockpile area.

Public Works started/completed four bridges and one culvert on the County Road System. A culvert was replaced for the Town of Almond and a bridge for the Town of New Hudson. The Bridge crew was busy repairing Red Flags on several town structures. County crews assisted the Towns of Belfast, Grove and West Almond with FEMA. A sluice pipe was removed for the Village of Alfred.

The construction of BR23-11, on CR7B in Rushford was completed. Work continued on the CR46, East Hill Road Historic Bridge in Caneadea. The selection of an engineering firm for the replacement of two bridges on CR16 in Angelica was made.

The Bridge Maintenance Crew worked on seventy-four different structures during the year.

The Phase I Closure project at the County Landfill was submitted to NYSDEC for final approval. The solid waste user fee system continued. The study for the expansion of the Landfill beyond the existing footprint continued. A total of 3,360 tons were recycled and the County landfilled 32,838.97 tons of solid waste.

I would like to thank my staff for their dedication and all our employees for a job well done. Also, I would like to thank the Board of Legislators, especially the Public Works Committee whose support and interest in this department has been invaluable.

**REAL PROPERTY TAX SERVICE AGENCY  
2005 ANNUAL REPORT**

In compliance with Section 1532 R.P.T.L.

County Reporting: Allegany

Reporting Period: Calendar Year 2005

Major Functions: Maintenance of Assessment Rolls, Tax Rolls, Tax Maps and Assessor Training

**MAINTENANCE OF ASSESSMENT ROLLS AND TAX ROLLS:**

The production of Assessment Rolls, Tax Rolls, Tax Bills, Cross Reference Listings, Change of Assessment Notices, Sales Transmittals and Special Reports were all processed by Allegany County. This includes the 19 School Districts, 29 Towns and 10 Villages that have assessable property in Allegany County. There were 29 towns with the Real Property System on their own computers and were responsible for their own processing in 2005. We provided program and technical support for the Real Property System for these towns.

**TAX MAP MAINTENANCE:**

Tax maps were maintained for all 29 towns in the County. Copies of new deeds, land contract sales, and property transfer reports (RP-5217) were delivered daily by the County Clerk's Office. Split offs of property sales are plotted on the maps, and map overlays and new tax map index cards are generated. The overlays and a copy of the index cards are sent to the assessors along with copies of the deeds and property transfer report. There were 2,174 transfers in Allegany County in 2005. Revenue from the sale of tax maps was \$12,644.66. All tax maps have been digitized and the NYSORPS has approved and certified them for use. Also, GIS coverages are updated and maintained on a monthly basis.

**ASSESSOR TRAINING:**

Assessors in New York State must meet minimum training requirements. When assessors do not meet these requirements, they can be removed from office. We have coordinated assessor training with the State Office of Real Property Services. Many of the Assessors in Allegany County took advantage of the consolidated training courses offered by the State Office of Real Property Services. The Allegany County Assessors' Association met monthly and several training seminars were conducted at these meetings.

**DIRECTOR'S ACTIVITIES:**

This year our office has been working on several continuing projects. We are still in the process of updating our GIS capabilities and looking for new ways to assist other departments with this information. We are continuing our efforts to incorporate the Pictometry photos, GIS maps and tax maps with the RPS V4 system. We are working with the assessors in assisting the County Treasurer's Office in putting together the County catalog of tax sale properties with our assessment information and photos provided by the assessors. We are in the process of applying for a grant through the NYS Office of Real Property Services to help assist us in upgrading our technology capabilities. I remain an active member of the Western Region County Directors' Association, of which I am Coordinator/Treasurer. I attended the spring and summer training conferences in Albany and Canandaigua, and continue to host the monthly County Assessors' Association meetings where we continue to assist them in their efforts to maintain equity throughout the County. I would like to thank my staff for their efforts and hard work, and the Board of Legislators for their continued support.

Respectfully submitted,  
Steven G. Presutti, Director

## **SHERIFF 2005 ANNUAL REPORT**

One year ago, I concluded my Summary Report with a forecast that 2005 would be a year of challenges for Sheriff's Office staff. Time proved that correct. Sheriff's employees worked without respite preparing for the new Public Safety Complex. Two Correction Officers, thrust into the role of "construction managers," fight daily to protect the County's interests in this \$23 million project. Due in part to their understanding of and commitment to our County's goals, the project is on budget and on time. Other staff is completing a comprehensive rewriting of Policy and Procedures for the transition from old jail to new. The year 2005 will be remembered by my staff for the work we did preparing for our transition to a new facility. We paused in the midst of all this activity to honor Deputy Derek P. Ward's memory when we attended the New York State Memorial to fallen police officers in Albany and the National Law Enforcement Officers Memorial in Washington DC.

During the past year 774 inmates were booked in, an increase of 26 over 2004. No inmates were housed for other counties, 26 inmates were sentenced and transported to State prison. The highest single day population was 68 inmates (58 males and 10 females). The average daily population was 55 inmates, up from the 2004 average of 47. The total number of meals served was 43,915, a 4 percent increase from 2004. The average cost per meal was \$1.28, a one-cent decline from 2004.

Civil Deputies served 1,288 civil processes in 2005. These included 475 Family Court processes, 315 Summonses, 392 Property or Income Executions, 34 Eviction Proceedings, 52 Subpoenas and 3 civil arrests. The Sheriff's Office collected Undertakings, Fines, Bail fees and monies for judgment creditors and other fees in the amount of \$792,004.

Selective enforcement activity, community policing, and assists to other agencies resulted in 174 arrests, 93 traffic tickets and 40 accident investigations. Public Safety Dispatchers logged 94,529 radio transmissions and received 11,847 emergency 911 calls. Court Security Officers screened 31,358 visitors to County Court in 2005. On average, 125 visitors passed through the Magnetometer each day, resulting in the confiscation of 287 prohibited items during the year.

The year 2006 will be a watershed year for the Sheriff's Office. At mid-year the Allegany County Sheriff's Office will relocate to the New Public Safety Complex located at 4884 State Route 19. We will move all inmates housed in the current facility to the new building and recall all Allegany County inmates housed in other jails throughout Western New York, saving nearly one-half million dollars a year. By moving our 911 center, emergency communications equipment and technology will catch up to current industry standards and facilitate effective public safety dispatching for years to come. In 2006, the vision held by our Board of Legislators in 2004, when they passed Resolution No. 118-04 authorizing construction of the Public Safety Complex, will be realized.

Randal J. Belmont, Sheriff

## **STOP DWI PROGRAM 2005 ANNUAL REPORT**

In 2005, the Allegany County STOP DWI Program completed 21 years as a community based resource totally funded by drunk driver fines. The 2005 budget of \$141,468 was expended to provide a variety of services to the community to battle drunk driving. Funding from the agency aided in increased enforcement, prosecution, and supervision of offenders as well as improving education efforts and public information. The agency relies on positive partnerships with law enforcement, the District Attorney's Office, town and village officials and not-for-profit organizations.

During the year, nine municipalities plus the Allegany County Sheriff's Office and the New York State Police participated in unannounced DWI patrols. A total of 358 alcohol-related arrests were made in 2005. Five agencies participated in three County-wide "blanket" patrols.

The STOP DWI Office continues to provide funding to the District Attorney's Office to assist prosecutions of DWI arrests. The Probation Department received \$21,000 for the year 2005 to be applied toward salaries for a Probation Officer and an Account Clerk to assist in the collection of fines, preparation of pre-sentence investigations, and supervision of those convicted of DWI offenses.

The Victim Impact Panel, collaboratively administered by this agency, MADD, Probation, and the Allegany Council on Alcoholism, continued to be a viable tool for offender accountability and a method of Restorative Justice for victims of DWI crimes. In 2005, four Victim Panels were held with 177 defendants attending.

The STOP DWI Program continued to provide prevention and education services to youth and adults in the County. The agency supported the local SADD chapters by sponsoring the Awards Breakfast in May and the Leadership Training Conference in October. Donations were made for school-based drug and alcohol-free parties and to assist schools in purchasing products that can be used to educate students about the hazards of drinking and driving. The very successful initiative, Teen New Year's Eve Event 2005, was sponsored by STOP DWI for a fifth year with grants from ACASA and with volunteers from Trapping Brook House, as well as clerical assistance from the Youth for Christ staff. This year, 110 youths enjoyed the safe and fun-filled activities which are an alternative to the traditional celebrations. Many adults also attended with their younger children.

STOP DWI is grateful for the efforts of local and State legislators who have lobbied to increase sanctions for repeat offenders and for tighter controls on alcohol sales to minors. A primary State legislative goal for 2006 is to reduce the number of plea-bargainings of DWI arrests.

Deborah Aumick, Coordinator

## **TOURISM 2005 ANNUAL REPORT**

In 2005, the Tourism Office produced 125,000 copies of the Allegany County Travel & Outdoor Guide as our primary vehicle to promote the County as a travel and recreation destination. The guides were distributed at travel shows; AAA's; New York State Parks and Information Centers on I-86; I-90 in Rochester; and other tourism promotion agencies throughout New York State, the Northeastern United States and Canada. We are in over 200 locations in Erie and Monroe Counties. In the 2005 guide we continued with multiple covers designed for seasons and types of requests.

The response to "Our Allegany County Communities" advertising campaign continues to be very positive.

The Allegany County/I Love New York co-operative ad program continues to see steady growth in partners and revenue.

Finally, we applied for and received notice of our Matching Funds Grant for 2006. We were awarded \$77,004, which is considerably less than previous years due to cuts in State funding. This amount however, will allow us to continue with our current program offerings.

Respectfully submitted,  
Jesse Case, Tourism Specialist

**TRAFFIC SAFETY BOARD  
2005 ANNUAL REPORT**

The Allegany County Traffic Safety Board once again had a booth at the Allegany County Fair, which we shared with the New York State Police and the Allegany County STOP DWI Program. The Allegany County Town Highway Superintendents' Association graciously donated two bicycles. The Traffic Safety Board would like to thank all of the area businesses that donated items for our Fair booth.

The Traffic Safety Board continued to implement "The Traffic Safety Strategic Plan" established six years ago. However, due to budget cuts and the discontinuance of the Traffic Safety Program, our outreach was drastically reduced. The Traffic Safety Board would like to take this opportunity to thank Ms. Kath Buffington for her hard work and dedication to the Traffic Safety Program for the past few years and the number of successful and effective campaigns in which she was involved.

The Board once again supported the Allegany Buckles up Children (ABC) Coalition, which sponsored child safety seat check stations in the County. Very special thanks go out to the entire group of child safety seat certified technicians and all of the people who volunteer their time to insure the safety of our young vehicle passengers.

Finally, the Traffic Safety Board continues to work with and review research data from the Traffic Safety Program to prioritize and establish an interactive network to address safety concerns within the County.

Respectfully submitted,  
Guy R. James, Secretary

**WEIGHTS AND MEASURES  
2005 ANNUAL REPORT**

The year 2005 began with the annual reports to the County and State being filed. I began the year by organizing my duties to try to eliminate the amount of backtracking and overlapping done in 2004. I felt that some reduction was accomplished. I was able to attend my State meeting this year and thus gain valuable information. I discovered four stations that had to stop selling when the price of gas went over \$3.00 per gallon and one that got a half pricing variance. Enforcement of price signs being on top of pumps and being current became a bit of an issue when prices were changing all the time.

Testing this year covered 170 establishments with 1,011 inspections made. The 18 grocery stores and 18 other various stores were checked. The 38 commercial gas stations including two marinas were tested, inspected and approved. This year 84 gas and diesel samples were taken under the NYS Octane Testing Program with no failures. All 12 pharmacies and two hospital pharmacies were tested, inspected and approved. All 20 active truck scales were tested with one failure. Thirteen bulk tanks were checked and/or recalibrated with three being new farms. There were nine businesses closed and two new openings under my jurisdiction this year. Device test summary as follows:

<u>DEVICE</u>	<u>CORRECT</u>	<u>INCORRECT</u>	<u>TOTAL</u>
Scales	339	2	341
Liquid Measures	1,016	21	1,037
Weights	182	0	182
Miscellaneous	32	0	32
Non-Commercial	<u>18</u>	<u>0</u>	<u>18</u>
Total Tests	1,587	23	1,610

<u>PACKAGES IN LOTS MEASURED</u>	<u>PACKAGES MEASURED</u>	<u>LOTS PASSED</u>	<u>LOTS FAILED</u>
2,110	333	23	0

I had a few phone inquiries about devices (mostly Indian gas stations) in the County and one about tax on a gallon of gas. I had a complaint about propane that was resolved. All violations found during testing and inspecting were explained and corrected at that time or in a period of time allowed by the Director. This department has followed up on all calls for assistance and will continue to do so.

Respectfully submitted,  
Gilbert Green, Director

## ANNUAL REPORTS

**MUTUAL SELF-INSURANCE PLAN (WORKERS' COMPENSATION)  
2005 ANNUAL REPORT**

The Allegany County Mutual Self-Insurance Plan is the Workers' Compensation insurance carrier for all County, Town, Village, Private Industry Council, and Soil & Water Conservation District employees. In addition, all active Allegany County Volunteer Firefighters and Volunteer Ambulance Corps workers are covered. Approximately 2,500 people are insured by the Plan.

**COMPARISON OF LOST TIME COMPENSATION CLAIMS**

	<u>2005</u>	<u>2004</u>	<u>INCREASE (DECREASE)</u>
Town	1	2	(1)
Village	1	-	1
County	2	6	(4)
Volunteer Firefighter	3	6	(3)
Volunteer Ambulance	<u>2</u>	<u>1</u>	<u>1</u>
TOTAL	9	15	(6)

Although total claims increased to 132 from the two decade low of 111, our lost time claims dropped 40 percent, from 15 in 2004 to nine in 2005. Six of our nine lost time claims this year occurred in the Sheriff's Office, and volunteerism, our most dangerous areas for losses.

**COMPARISON OF PHYSICALS TAKEN**

	<u>2005</u>	<u>2004</u>	<u>INCREASE</u>
Pre-employment	165	127	38
Firefighter & Ambulance	<u>75</u>	<u>64</u>	<u>11</u>
TOTAL	240	191	49

All employees including part-time, temporary seasonal, summer help, and Job Trak must have a pre-employment physical. In addition, all Volunteer Firefighter and Ambulance Corps members are required, under the Local Law, to have a physical before acting in the line of duty. Our office maintains all physical records by department, organization and individual on a permanent basis.

**COMPARISON OF HEARING RESULTS**

	<u>2005</u>	<u>2004</u>	<u>INCREASE (DECREASE)</u>
Continued	24	37	(13)
Closed	<u>26</u>	<u>19</u>	<u>7</u>
TOTAL	50	56	(6)

Allegany County employee hearings are typically held in Hornell, Olean, Buffalo, and Rochester, but can be requested by the claimant at any State-wide site. More Administrative and Pre-Hearing Conference Decisions, thereby closing cases before formal hearings, have favorably reduced the number of hearings conducted and improved the timeliness of decisions.

Individual safety awards were presented at luncheons for the Villages, Towns and County Public Works Department employees. This marked the ninth year of departmental safety awards to volunteer fire companies and ambulance corps for 100 percent physical compliance and no lost time claims. Four organizations were recognized at the July County Fire Convention in Whitesville.

Respectfully submitted,  
Douglas A. Dillon, Executive Secretary

## **YOUTH BUREAU 2005 ANNUAL REPORT**

During 2005, the Office of Children and Family Services allocated \$119,708 to Allegany County for youth programs, a \$4,835 decrease from the funding allotted for 2004. Of this money, \$29,032 supported eight Special Delinquency Prevention Programs; \$33,552 was granted to 26 Municipalities including Allegany County for the operation of recreation programs; \$16,191 was used to offset administrative costs of running the Youth Bureau; \$29,861 was allocated to ten Youth Service programs directed toward Youth Development, and \$11,072 was used to fund five County programs using Youth Initiative monies.

The Youth Bureau continues to actively collaborate with governmental, civic and not-for-profit agencies throughout Allegany County in order to meet the needs of all County youth. For example, as a participant in Communities that Care and as a member of the Children & Youth Unified Services, this agency continues to work with others to address identified gaps in services to our County youth and families. Similarly, the Bureau has contributed statistical information to the Data Partnership which has established a single database on the Internet which can be accessed by all Allegany County agencies for grant-writing and reporting purposes.

The Bureau continues to work with other agencies to provide assistance to troubled youth so that they may successfully remain in the community. Specifically, funding for these "high risk" youth is granted to programs such as, STEP & First STEP (adventure based/experiential programs), the Summer Youth Employment Program, the Southern Tier Traveling Teacher, and Youth Compeer.

On November 1, 2003, the Youth Bureau took over the administration of the Allegany County Youth Court. The Youth Court has nearly doubled its membership and referrals under the leadership of Coordinator Sienna Markel. During 2005, 65 cases were tried in the Court with a recidivism rate of less than ten percent. The Court now has 75 trained members, ten of whom are former defendants.

In 2005, the Youth Bureau continued its outreach to area schools to find ways to better serve our youth. The Bureau has been privileged to partner with the Allegany-Cattaraugus BOCES, Houghton College, and several local school districts on a 21<sup>st</sup> Century Learning grant. The Bureau also continues to participate in Allegany County's Business, Education, and Community Coalition to foster the Youth Career Day.

The Youth Bureau continues to work closely with the various towns and villages which administer youth recreation programs. These contacts are valuable for monitoring and evaluation purposes, and also for networking and sharing information between and among youth organizations.

The Allegany County Youth Bureau is committed to encouraging the development of innovative youth programs which are based upon the principles of Youth Development.

**COUNTY OF ALLEGANY**  
**Management's Discussion And Analysis**  
**For The Year Ended December 31, 2005**

---

The following is a discussion and analysis of the County of Allegany's (the "County's") financial performance for the fiscal year ended December 31, 2005. This section is a summary of the County's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund based financial statements. This section is only an introduction and should be read in conjunction with the County's financial statements, which immediately follow this section.

**FINANCIAL HIGHLIGHTS:**

- The County's general fund reflected an increase in fund equity at year end of approximately \$2.7 million. This increased the general fund equity from (\$401,000) to \$2,315,000.
- During the year, the County generated \$73.5 million in taxes and other revenues and spent \$70.8 million in general fund expenses. Thus reflecting a continued effort from Allegany Counties leaders to recover from deficit spending.
- In the County's business-type activities (self-insurance fund), Allegany County experienced a slight increase where revenues exceeded expenses by \$20,000 by year end 2005.
- General Fund expenditures increased by 5.7% as compared to 5.4% in 2004. Expenses continue to rise as a result of increased costs in providing services at the same level to our residents coupled with the large budget burden of Medicaid cost, personnel costs, medical insurance costs and NYS retirement cost.
- The Undesignated Fund Balance for the General Fund has a deficit balance of \$923,000 at the close of the 2005 fiscal year. This reflects a decrease in the deficit of approximately \$2.7 million over year-end 2004 Undesignated Fund Balance for the General Fund.
- Our overall net change to General Fund Balance (designated and undesignated) was an increase of \$2.7 million, with an ending fund balance of \$2.3 million. In 2004, our overall net change was an increase of \$720,000.
- In 2005, the County abolished the Finance Committee and re-established the role of the Ways and Means committee in order to continue the practice of overseeing and maintaining spending within the limits set by the County Legislature in the adopted budget for 2005. A turnover of 10 out of 15 Legislators in the fall of 2005 has again changed the committee structure and for 2006, a Budget Committee was established as a sub-committee of Ways and Means. The combined efforts of the entire County Legislative body, administration and management were able to considerably remove the deficit spending through budget cuts, staff reduction and a one-time reflected savings that resulted from the Medicaid Cap implementation for 2005.

**OVERVIEW OF THE FINANCIAL STATEMENTS:**

This annual report consists of three parts: *management's discussion and analysis* (this section), *the basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the County:

- The first two statements are *government-wide financial statements* that provide both long-term and short-term information about the County's overall financial status.
- The remaining are *fund financial statements* that focus on individual parts of the County government, reporting the County's operations in more detail than the government-wide statements.
  - The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.
  - Proprietary fund statements offer short and long-term financial information about the activities the government operates like a business.
  - Fiduciary fund statements provide information about financial relationships in which the County acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

## ANNUAL REPORTS

**For The Year Ended December 31, 2005**

---

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The financial statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

#### **Government-wide Statements**

The government-wide statements report information about the County as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

Historically, a government's largest group of assets, (infrastructure - roads, bridges, etc.), have not been reported nor depreciated in governmental financial statements. The government-wide statements require that these assets be valued and reported within the governmental column of the government-wide statements. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach) which periodically (at least every third year), by category, measures and demonstrates its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. The County has chosen to depreciate assets over their useful life. If a road project is considered maintenance, (a recurring cost that does not extend the road's original useful life or expand its capacity), the cost of the project will be expensed.

The two government-wide statements report the County's net assets and how they have changed. Net assets, the difference between the County's assets and liabilities, is one way to measure the County's financial health, or position.

- Over time, increases or decreases in the County's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the County, you need to consider additional nonfinancial factors such as changes in the County's property tax base and the condition of the County's roads.

The government-wide financial statements of the County are divided into three categories:

- **Governmental activities** - Most of the County's basic services are included here, such as public safety, health and social services, and general administration. Property taxes, sales and use taxes, and state and federal grants finance most of these activities.
- **Business-type activities** - The County of Allegany charges fees to other funds to cover most of the costs of certain services it provides. Business activities include worker's compensation and medical insurance. The County is self-insured for both these services but we charge municipalities and individuals who are provided these services.
- **Component Units** - The County's component unit reports the activities of the Allegany County Soil and Water Conservation District, which is described in detail in the notes to the financial statements. Although legally separate, this component unit is important because the County is financially accountable for them.

Net assets of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (money) are expended to purchase or build said assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation is not calculated if it does not provide or reduce current financial resources. Finally, capital assets and long-term debt are both accounted for in account groups and do not affect the fund balances.

Entity-wide statements are reported utilizing an economic resources measurement focus and full accrual basis of accounting that involves the following steps to format the Statement of Net Assets:

- Capitalize current outlays for capital assets;
- Report long-term debt as a liability;
- Depreciate capital assets and allocate the depreciation to the proper program/activities;

**COUNTY OF ALLEGANY**  
**Management's Discussion And Analysis**

---

- Calculate revenues and expenses using the economic resources measurement focus and the accrual basis of accounting; and
- Allocate net asset balances as follows;
  - Net Assets invested in capital assets, net of related debt;
  - Restricted Net Assets are those with constraints placed on their use by external sources (creditors, grantors, contributors, or laws or regulations of governments) or imposed by law through constitutional provisions or enabling legislation; and
  - Unrestricted Net Assets are net assets that do not meet any of the above restrictions.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants. The County Board establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The County has three kinds of funds:

- **Governmental funds** - Most of the County's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for future allocation. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the entity-wide statements, a separate reconciliation provides additional information that explains the relationship (or differences) between them. The governmental funds consist of the general fund, special revenue funds, and capital project funds. Required statements are the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances.
- **Proprietary funds** - The proprietary funds generally report services for which customers are charged a fee. Like entity-wide statements, proprietary funds provide both long- and short-term financial information. The County uses internal service funds (the other type of proprietary fund) to report activities that provide services to its other programs and activities. The County currently has three internal service funds. These funds are used to account for the County's risk management activities, worker's compensation and medical insurance. For reporting purposes, the risk management services and medical insurance are segregated and blended with the governmental activities while the worker's compensation is reported as a business-type activity as an internal service fund. Required statements are the Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows.
- **Fiduciary funds** - The County is the trustee or fiduciary for assets that belong to others. The County is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The County excludes these activities from the entity-wide financial statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net assets and changes in net assets. This report should be used to support the County's own programs and is developed using the economic resources measurement focus and the accrual basis of accounting, except for the recognition of certain liabilities of defined benefit pension plans and certain post employment healthcare plans. Required statements are the Statement of Fiduciary Net Assets and the Statement of Changes in Fiduciary Net Assets. Since the County has only agency funds, no Statement of Changes in Fiduciary Net Assets has been presented.

- The County's year 2005 revenues totaled \$85,064,203. (See Table 2) Taxes and operating grants and contributions accounted for most of the County's revenue by contributing 44% and 44%, respectively, of every dollar raised. The remainder came from charges for services and other miscellaneous sources.
- The total of all programs and services totaled \$82,479,994 for the year 2005. Of this amount, 54% of these expenses are predominantly related to public safety, economic assistance and opportunity and business-type activities. The County's administrative and finance activities accounted for 9% of the total costs.
- Net assets increased by \$2,584,209.
- Unrestricted net assets for governmental activities - the part of net assets that can be used to finance day-to day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, changed from a \$11.2 million deficit at December 31, 2004 to a \$15.3 million deficit at the end of this year.
- The deficit in unrestricted governmental net assets has arisen over the course of several years. Primarily during the last three years, local sales tax revenues, Medicare reimbursement, and state grants have fallen short of amounts originally anticipated. Increased costs associated with employee benefits, such as medical insurance and NYS Retirement contributions, along with the County's share of Medicaid being on the continual rise, also contributed to this increased deficit. The County chose to draw down accumulated cash balances by passing budgets with little or no increase in real property taxes.

## ANNUAL REPORTS

**COUNTY OF ALLEGANY**  
**Management's Discussion And Analysis**  
**For The Year Ended December 31, 2005**

**Governmental Activities:**

Revenues for the County's governmental activities totaled \$84,202,984 while expenses equaled \$81,638,733. Therefore, the increase in net assets for governmental activities was \$2,564,251 for 2005.

In 2003, the County Board of Legislature implemented three new revenue streams to offset the burden on the taxpayer. These were the Additional Mortgage Tax, Occupancy Tax and Automobile Use Tax. These were implemented late in 2003 and in 2004. We were able to see the benefits from these new revenues.

Effective December 2004, Allegany County increased our local sales tax from 4.0% to 4.5% in hopes of additional relief for the taxpayer in 2005. Our final tax rate increase for 2006 was 6.07% compared to 6.2% in 2005.

In Table 5, we have presented comparative information on the cost of each of the County functions and programs, as well as each function's net cost (total cost less revenues generated by the activities). Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

- ◆ The federal and state governments subsidized certain programs with grants and contributions amount to \$28,272,562.
- ◆ The remainder of the County's net costs, \$45,183,929, were financed by real property taxes and tax items of \$21,251,312, sales tax and other non-property taxes of \$16,253,402 and \$7,679,215 of other miscellaneous revenues.

**COUNTY OF ALLEGANY

- **General government support** - Includes expenses of the County Board, County Offices and administration, contracted professional services, buildings and grounds maintenance, and insurance.
- **Education** - Includes the expenses for special education, the handicapped children program and for contractual expenses with community colleges.
- **Public safety** - Includes the expenses for the sheriff, jail, probation, fire protection and other services and programs along with the associated employee benefits.
- **Health** - Includes the expenses for the public and mental health. In addition, it includes the early intervention and narcotic addiction programs.
- **Transportation** - Includes salaries for employees in the transportation department and the cost of repairing and maintaining County roads and sidewalks.
- **Economic assistance** - Includes expenses for the County's counseling services, family, child care, veterans, aging and nutrition programs.
- **Culture and recreation** - Includes the salaries for employees and cost associated with maintaining the County's beach, tourism department, youth programs and historian.
- **Home and community services** - Includes expenses for the County's planning department, reforestation, conservation, agricultural society, blind and visually handicapped and Cooperative Extension contribution.
- **Debt interest** - Includes the transactions associated with the payment of interest and other related charges to debt for improvements to the County.
- **Unallocated depreciation** - Includes the expense associated with the depreciation of capital assets that could not be allocated to any specific governmental activity. In 2005, improvements in reporting depreciation of the County's capital assets allowed for depreciation expense to be fully allocated to the appropriate functions/programs.

**Business-type Activities:**

Revenues for the County's business-type activities totaled \$861,219 while expenses equaled \$841,261. The major activity in the internal service fund is for our self-insurance plan for employees. The general fund does not treat this expense as an interfund transfer but rather as an expense to the general fund for employee benefits and as revenue to the internal service fund.

**THE COUNTY'S MAJOR GOVERNMENTAL FUNDS:**

Variances between years for the governmental fund financial statements are not the same as variances between years for the governmental activities on the Entity-wide financial statements. The County's governmental fund financial statements are presented on the current financial resources measurement focus and the modified accrual basis of accounting. Based on this presentation, these statements do not include long-term debt liabilities for the funds projects and capital assets purchased by the funds. The governmental statements will include the proceeds received from the issuance of debt, the current payments for capital assets, and the current payments for debt.

The County's governmental fund financial statements reflect a continuing recovery from the previous large deficits in the general fund. Although the capital projects fund still shows a deficit fund balance. The County will be bonding in 2006 for the \$23.7 million Public Safety Complex project that will be completed and opened in 2006. For year end 2005, the long-term funding was not secured for this project and several other projects. It is anticipated that the smaller projects consisting of approximately \$5 million will be long-term financed in 2007.

## ANNUAL REPORTS

**COUNTY OF ALLEGANY**  
**Management's Discussion And Analysis**  
**For The Year Ended December 31, 2005**

**GENERAL FUND BUDGETARY HIGHLIGHTS:**

Over the course of the year, the County Legislature revised the budget several times. These budget amendments fall into three categories:

- Amendments and supplemental appropriations approved shortly after the beginning of the year to reflect the actual beginning account balances (correcting the estimated amounts in the budget adopted for 2004).
- Changes made to account for significant events.
- Increases in appropriations to prevent budget overruns.

**CAPITAL ASSET AND DEBT ADMINISTRATION:****Capital Assets**

At the end of fiscal year 2005, the governmental activities of the County had \$52,563,346 invested in land, construction in progress, buildings, land improvements, infrastructure, and machinery and equipment, net of accumulated depreciation. This amount represents an increase (including additions, deletions and adjustments) of \$26,070,466, or 98.4%, over last year. Depreciation expense of \$12,655,005 has been recorded in the current year. Additional information on the County's capital assets can be found in notes to these financial statements. As a requirement of GASB No. 34, this is the third year that infrastructure has appeared as a fixed asset. The County recognized any new infrastructure for 2005 and continues to phase in the remaining roads and culverts to reach completion by the required reporting date of December 31, 2007.

Table 6 shows the fiscal 2005 and 2004 balances for the major classes of assets:

The County's bond rating was Baa2 with Moody's and A with Standard and Poor's for 2005 and 2004, respectively.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET:**

The County's elected and appointed officials considered many factors when preparing and later adopting a budget for the fiscal year 2005, most of all the impact on the local taxpayer. One of the biggest factors in Allegany County is the economy. Over the past several years, unemployment has risen, while businesses have left the area or reduced their staff in order to maintain their operations. This has a double impact when considering the level of income in Allegany County. Most residents are eligible for some form of aid thru Social Services. This has contributed to the County's cost of Medicaid and other programs available to the citizens of Allegany County. Even with the State Cap placed on Medicaid, the cost of that one program is a large portion of our County's tax levy. In 2005 the actual cost of Medicaid was approximately 41% of our tax levy. Medicaid, even with the "cap" continues to put local strain on county budgets for New York State Counties. Allegany in order to absorb the costs of Medicaid and other unfunded mandates has increased taxes over the last 4 years from a low of 3.35% in 2002 to a high in 2003 of 21.51%. In order to meet our unexpected overruns and shortfalls since 2001, our general undesignated fund balance has "dried up" and continues to have a deficit balance of \$923,500. For the last two fiscal years we have reduced this deficit by over \$3.4 million, \$702,000 in 2004 and \$2.7 million in 2005.

Allegany County is in the process of completing a \$23.7 million Public Safety Complex and by fall of 2006 expect to be operating this new facility. It is hoped that adding additional pods for housing inmates, we will experience a revenue source to offset the payment of this construction. The facility was imposed on Allegany County by the State of NY as a result of our current facility's size, housing style and our prison population. Allegany County will be issuing bonds in 2006 in order to cover the cost of this project.

As part of the construction of the Public Safety Complex, the County established a new water district and we are hoping that in the future this will provide an infrastructure to encourage development along State Route 19 south of the Town of Amity. The County also is participating in projects with the surrounding townships to develop sewer and water line construction at the intersection of State Route 19 and Interstate 86 to encourage economic development at the Crossroad site, north of the Town of Amity.

The Board of Legislators, Ways and Means Committee and Budget Officer have continued to make great improvements in the development and monitoring of our current year operating budgets and have made efforts to develop a five-year plan in order to eliminate the deficit in undesignated fund balance and experience a "real" surplus. This would allow Allegany County the funds necessary to enhance development and bring other incentives for economic growth to the table, help stabilize our financial position and continue to serve the taxpayers of our County.

**Note 1. Summary of Significant Accounting Policies:**

The financial statements of the County of Allegany, State of New York (the "County") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units (hereinafter referred to as generally accepted accounting principals (GAAP). The Government Accounting Standards Board (GASB) is the accepted standard setting body for establishing government accounting and financial reporting principles. The following is a summary of significant accounting policies and reporting practices of the County:

**A. Reporting Entity**

**Primary Government** - The County of Allegany, is a municipal corporation established in 1806, which performs local governmental functions within its jurisdiction including: law enforcement services; economic assistance; health and nursing services; and maintenance of County roads. The County is governed by County Law, general laws of the State of New York (the "State") and various local laws and ordinances. The County Legislature, which is the legislative body responsible for the overall operation of the County, consists of fifteen legislators. The Chairman of the Legislature serves as the Chief Executive Officer, and the County Treasurer serves as the Chief Fiscal Officer of the County. The County Administrator, appointed by the legislature, is responsible for the overall administration of the County government.

The County provides mandated social service programs such as Medicaid, Temporary Assistance for Needy Families and Safety Net. The County also provides services and facilities in the areas of culture, recreation, education, police, youth, health, senior services, roads, and sanitary sewerage. These general government programs and services are financed by various taxes, state and federal aid and departmental revenue (which is primarily comprised of service fees and various types of program-related charges).

**B. Basis of Presentation**

**1. Government-wide Statements**

The government-wide financial statements, (i.e., the statement of net assets and the statement of activities), report information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange transactions. The business-type activities is comprised of the self-insurance fund.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or program. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include 1) fees, fines, and charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements.

**2. Fund Financial Statements**

The fund financial statements provide information about the County's funds, including governmental, proprietary and fiduciary. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining funds are aggregated and reported as non-major funds.

## ANNUAL REPORTS

**COUNTY OF ALLEGANY**  
**Notes To Financial Statements**

---

- a. The County reports the following major governmental funds:
  - i. The General Fund is the County's primary operating fund and is always considered a major fund. It accounts for all the financial resources of the general government, except those required to be accounted for in another fund.
  - ii. For the year ended December 31, 2005, the County Jail Project and the remaining Capital Projects were major funds.
- b. The County reports the following component units:
  - i. The Allegany County Soil and Water Conservation District ("SWCD") was established in accordance with the Soil and Water Conservation Districts Law, to provide for the conservation of the County's soil and water resources. Members of the SWCD's board of directors are appointed by the Legislature, and administrative costs of the SWCD are funded primarily through County appropriations. The SWCD does derive other revenues and perform other activities outside the County's general oversight responsibilities. The directors of the SWCD have sole responsibility for management of the SWCD and full accountability for fiscal matters.

**C. Fund Types****1. Governmental Fund Types**

Governmental funds are those through which most governmental functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus of the governmental funds is upon determination of financial position and changes in financial position. The following are the County's governmental fund types:

General Fund - The General Fund is the general operating fund of the County. The fund is used to account for all financial resources except for those required to be accounted for in a separate fund.

Special Revenue Funds - The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes or for which separate accounting is required by administrative action.

Housing Rehabilitation Fund - Federal/State aided program for Community Development Block Grants administered by the ACCORD Corp. and passed thru the County to recipients for housing rehabilitation projects.

Micro-Enterprise Grant Fund - Federal/State aided program administered by the County Economic Development Department. This is primarily a revolving loan fund to aid small businesses in Allegany County, either for start up funds or rehabilitation funds.

Special Grant Fund - To account for use of Federal monies received under the Workforce Investment Act.

County Road - To account for the repairs and maintenance of County roads in accordance with New York State Laws.

Road Machinery - To account for the purchase of highway machinery and equipment in accordance with New York State Laws.

Debt Service Fund - The Debt Service Fund is used to finance and account for revenues raised for the payment of interest and principal on debt and to account for those expenditures. In fiscal 2005, there were no special assessments and revenue was generated by interest earned on the capital project funds.

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment when bond anticipation notes or capital notes are issued to finance such acquisitions or construction.

**COUNTY OF ALLEGANY**  
**Notes To Financial Statements**

**2. Proprietary Fund Types (Business-type Activities)**

Proprietary Funds - Used to account for the financing of goods or services provided by one County fund for the other County funds on a cost reimbursement basis. The Self-insurance Reserve Fund is a type of propriety fund used to accumulate reserve funds to account for certain claims, judgments and losses in lieu of, or in addition to, purchasing insurance coverage from an insurance company.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associate with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

Internal Service Funds - are used to account for special activities or services provided by one department to other departments or to other governments on a cost-reimbursement basis. This fund includes the following:

- a. Self Insurance Fund - The Self-Insurance Fund is used to accumulate reserve funds to account for certain claims, judgments, and losses in lieu of, or in addition to, purchasing insurance coverage from an insurance company.
- b. Risk Retention Fund - The Risk Retention Fund is used to account for its risk management activities.
- c. Risk Retention - Health Fund - The Risk Retention - Health Fund is used to account for its risk management activities relating to health services.

**3. Fiduciary Funds (Trust and Agency Funds)**

Fiduciary funds are used to account for fiduciary activities. Fiduciary activities are those in which the County acts as trustee or agent for resources that belong to others. These activities are not included in the government-wide financial statements because their resources do not belong to the County and are not available for use. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

**D. Measurement Focus and Basis of Accounting**

**1. Accrual Basis**

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resource measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements except when the elimination would distort direct costs and program revenue reported for the various functions concerned.

## ANNUAL REPORTS

**COUNTY OF ALLEGANY**  
**Notes To Financial Statements**

---

**2. Modified Accrual Basis**

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when both measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes, sales taxes, franchise taxes, licenses, and interest are considered to be susceptible to accrual. Expenditures are recorded when the fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

All governmental and business-type activities of the County follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

**3. Use of Estimates**

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and, as such, include amounts based on informed estimates and judgments of management with consideration given to materiality. Actual results could differ from these estimates.

**4. Reserves and Fund Designations**

In the fund financial statements, designations of non-proprietary fund balances are used to show the amounts within unreserved fund equity which are intended to be used for specific purposes; primarily to provide funding for appropriations in the subsequent fiscal year and for specific program purposes. At December 31, 2005, the total amount designated as appropriated for the 2006 budget was \$0. The following is a summary of the reserves for specific program purposes as of December 31, 2005:

**5. Budgetary Data**

The budget of the County is a detailed operating plan which identifies estimated costs and results in relation to estimated revenues. The budget utilizes the modified accrual method of accounting and includes:

- The programs, projects, services and activities to be carried on during the fiscal year.
- The estimated revenue available to finance the operating plan.
- The estimated spending requirements of the operating plan.

The County follows these procedures in establishing the budgetary data reflected in the financial statements.

- No later than November 15th, the Budget Officer submits a tentative budget to the Legislature for the fiscal year commencing the following January 1.
- Public hearings are conducted to obtain taxpayers' comments.
- After public hearings are conducted to obtain taxpayer comments, no later than December 20th, the governing board adopts the budget.
- Budgetary controls are established for the capital projects fund through resolutions authorizing individual projects, these resolutions remain in effect for the life of the project.
- During the year the Board has, by resolution, authorized additional appropriations and increased existing appropriations. The additional funds were provided from any unencumbered balances in appropriations, the contingency funds, or from anticipated revenues and appropriated cash surplus. All unused, unencumbered appropriations lapse at the end of the fiscal year.

**6. Cash and Cash Equivalents**

For purposes of reporting in these financial statements, the County includes all cash accounts and all highly liquid debt instruments purchased with a maturity of three months or less from the date of purchase as cash and cash equivalents.

**7. Inventories**

Inventories are stated at the lower of average cost or market, using the first-in, first-out (FIFO) method.

**8. Capital Assets**

Purchased or constructed capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, sidewalks and similar items), are reported in the applicable governmental type activity column in the government-wide financial statements. Capital assets are defined by the County within the capitalization policy as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight line method over the following estimated useful lives:

	<u>Years</u>
Buildings and improvements	20-40
Land improvements	20
Machinery and equipment	3-10
Infrastructure	10-100

**COUNTY OF ALLEGANY**  
**Notes To Financial Statements**

**9. Compensated Absences, Vacation and Sick Leave**

Qualified County employees are granted vacation and sick leave and earn compensatory absences in varying amounts. The liability for compensated absences has been calculated using the vesting method. In the event of termination, or upon retirement, an employee is entitled to payment for accumulated vacation and sick leave and unused compensatory absences at various rates subject to certain maximum limitations. Estimated vacation and sick leave and compensatory absences have been recorded in the government-wide financial statements.

Payment of vacation and sick leave, as recorded in the government-wide financial statements, is dependent upon many factors, therefore, timing of future payments is not readily determinable. However, management believes that sufficient resources will be made available for the payments of vacation and sick leave and compensatory absences when such payments become due.

**10. Post Employment Benefits**

In addition to providing pension benefits, the County provides post-employment health insurance coverage to its retired employees and their survivors until the death of the retired employee at which time all benefits cease. Substantially all employees may become eligible for these benefits when they reach age 62 and have worked 10 consecutive years for the County. Currently 24 retirees meet those eligibility requirements. The County pays 100% of the cost of premiums to an insurance company which provides health care insurance. During 2005, the County recognized the cost of providing benefits by recording approximately \$64,335, its share of the insurance premiums for the currently enrolled retirees, as expenditures in various funds.

**11. Deferred Compensation Plan**

In October 1997, the Governmental Accounting Standards Board issued Statement No. 32 Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. This statement established accounting and financial reporting standards for Internal Revenue Code Section 457 deferred compensation plans of state and local governments.

As of October 1, 1997, the New York State Deferred Compensation Board (Board) created a Trust and Custody agreement making Chase Manhattan Bank the trustee and custodian of the Plan. Consequently, Statement No. 32 became effective for the New York State Deferred Compensation Plan as of October 1, 1997. Since the Board is no longer the trustee of the plan, the plan no longer meets criteria for inclusion in New York State's financial statements.

Therefore, municipalities which participate in New York State's Deferred Compensation Plan are no longer required to record the value of the plan assets.

**12. Interfund Transfers**

Interfund transfers are generally recorded as operating transfers in (out) except for the following types of transactions:

- Interfund revenues which are recorded as revenues of the performing fund and expenditures of the requesting fund.
- Reimbursements for services performed, which are recorded as a reduction of expenditures in the performing fund and an expenditure of the requesting fund.

**13. Encumbrances**

Encumbrance accounting, under which purchase order, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations, is employed as a control in preventing over expenditure of established appropriations. Open encumbrances are reported as a reservation of fund balance since such commitments will be honored through budget appropriations in the subsequent year.

**COUNTY OF ALLEGANY**  
**Notes To Financial Statements**

---

**E. Property Taxes**

The Countywide property tax is levied by the County Legislature effective January 1 of the year the taxes are recognizable as revenue. Taxes become a lien on the related property on January 1 of the year for which they are levied. In the fund financial statements, property tax is only recognized as revenue in the year for which the levy is made and to the extent that such taxes are received within the reporting period or sixty days thereafter.

Delinquent property taxes not collected at year-end (excluding collections in the 60-day subsequent period) are recorded as deferred revenue in the fund financial statements.

The towns and special districts receive the full amount of their levies annually out of the first amounts collected on the combined bills. The County assumes the enforcement responsibility for all taxes levied in the towns.

Unpaid village and school district taxes are turned over to the County for enforcement and are re-levied with the County taxes in subsequent years.

**Note 2. Deposits and Investments:**

The County's investment policies are governed by State statutes. In addition, the County has its own written investment policy. County monies must be deposited in FDIC-insured commercial banks or trust companies located within the State. The County is authorized to invest in certificates of deposit, time deposit accounts, obligations of New York State and the U.S. Government and repurchase agreements. At December 31, 2005, cash and cash equivalents are entirely composed of demand accounts and certificates of deposit.

Collateral is required for time deposits and certificates of deposit at 102 percent of all deposits not covered by the federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and towns.

The written investment policy requires repurchase agreements to be purchased from banks located within the State and that underlying securities must be obligations of the federal government. Underlying securities must have a market value of at least 102 percent of the cost of the repurchase agreement.

Deposits:

At year-end the County's bank balances can be categorized as follows:

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Cash and cash equivalents, including proprietary and trust funds	\$ 11,315,551	\$ 12,640,594

**Note 4. Bond Anticipation Notes Payable:**

Liabilities for bond anticipation notes (BANs) are generally accounted for in the Capital Projects Fund. The original notes are generally issued for one year. Renewal thereof may not extend more than two years beyond the original date of issue unless a portion is redeemed within two years and within each 12 month period thereafter. BANs issued for capital purposes must be converted to long-term obligations within five years after the original issue date. However, BANs issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made. The due dates of the BANs listed below are in consideration of anticipated renewals.

The governmental activities had the following bond anticipation notes outstanding as of December 31, 2005:

<u>Purpose</u>	<u>Due Date / Interest Rate</u>	<u>Balance 12/31/04</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance 12/31/05</u>

The revenue anticipation notes represent a liability that will be extinguished by the use of expendable, available resources of the fund. The tax anticipation note represents a liability that will be extinguished by the receipt of taxes levied.

**Note 6. Bonds Payable, Notes Payable and Other Long-term Debt:**

At December 31, 2005, total outstanding indebtedness of the County was \$5,445,000. The County borrows money in order to acquire land or equipment or construction of buildings and improvements. This enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. These long-term liabilities are full faith and credit debt of the local government. The following is a description of bonds payable obligations as of December 31, 2005:

**Note 10. Retirement Plan:**

The County participates in the New York State Employees' Retirement System (ERS) (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law (NYSRSSL). As set forth in the NYSRSSL, the Comptroller of the State of New York (Comptroller) serves as sole trustee and administrative head of the System. The Comptroller shall adopt and may amend rules and regulations for the administration and transaction of the business of the System and for the custody and control of their funds. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing New York State and Local Retirement Systems, Gov. Alfred E. Smith, State Office Building, Albany, NY 12244.

The System is noncontributory except for employees who joined the New York State and Local Employees' Retirement System after July 27, 1976, who contribute 3% of their salary. Under the authority of the NYSRSSL, the Comptroller shall certify annually the rates expressed as proportions of payroll of members, which shall be used in computing the contributions required to be made by employers to the pension accumulations fund.

## ANNUAL REPORTS

**COUNTY OF ALLEGANY**  
**Notes To Financial Statements**

---

The County of Allegany is required to contribute at an actuarially determined rate. The required contributions for the current year and two preceding years were:

	<u>ERS</u>
2005	\$ 2,232,141
2004	\$ 2,479,000
2003	\$ 1,238,882

Since 1989, the System's billings have been based on Chapter 62 of the Laws of 1989 of the State of New York. This legislation requires participating employers to make payments on a current basis. While amortizing existing unpaid amounts relating to the System's fiscal years ending March 31, 1988 and 1989 (which otherwise were to have been paid on June 30, 1989 and 1990, respectively) over a 17-year period, with an 8.75% interest factor added. Local governments were given the option to prepay this liability. The County of Allegany elected to prepay the retirement liability. (The total unpaid liability at the end of the fiscal year was \$109,657.) In July, 2004, Governor Pataki signed into law Chapter 260 which contained three components which alter the way municipalities contribute to the state pension system: (1) revision of the payment due date, (2) extension of the period of time for pension debt amortization, and (3) authorization to establish a pension reserve fund. Effective for 2004, the annual required contribution was due February 1 annually instead of December 15. As a result no payment was due in 2004. The law also provided the option to municipalities to create a Pension Contribution Reserve Fund. The unclear aspect of the law was the accounting treatment of the payment date changes. Allegany County chose to accrue 75% of the pension liability in 2004 (consistent with salaries accrued during the three quarters starting April 1, the starting date of the retirement system billing period, and a December 31 local government fiscal year end) and defer the remaining 25% to 2005.

**Note 11. Contingencies:**

The County is involved in litigation arising in the ordinary course of its operations. The County believes that its ultimate liability, if any, in connection with these matters will not have a material effect on the County's financial condition or results of operations.

Also in the normal course of operations the County receives grant funds from various Federal and State agencies. These grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any disallowed expenditures resulting from such audits could become a liability of the governmental funds. While the amount of any expenditures which may be disallowed cannot be determined at this time, management expects any amounts to be immaterial.

**Note 12. Self-Insurance Reserve Fund:**

As its predominant participant, the County maintains its Workers' Compensation program within its Internal Service Fund. Certain local towns and villages also participate. The objective of this fund is to provide worker's compensation benefits at a moderate cost as a result of pooling the loss experience of its participants. Premiums charged to participants are based on assessed land values and expected claim expenditures. The County records this liability in the Internal Service Fund. The total claims liability of \$1,870,000 is derived based on the requirements of GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the total liability in 2005 and 2004 were:

	<u>Beginning of</u> <u>Fiscal Year</u> <u>Liability</u>	<u>Changes in</u> <u>Estimates</u>	<u>Claims</u> <u>Payments</u>	<u>Balance</u> <u>at Fiscal</u> <u>Year-End</u>
2004	\$ 2,371,658	\$ 584,703	\$ (584,342)	\$ 2,372,019
2005	\$ 2,372,019	\$ 34,476	\$ (536,495)	\$ 1,870,000

The County assumes the liability for some risk including, but not limited to, general and personal injury liability, and unemployment claims. Judgments and claims are recorded at the time a liability has been incurred and an award has been made. The County's risk relating to general liability is limited, under an insurance policy, to \$100,000 per incident with an aggregate of \$375,000. Additional amounts are provided in excess of \$1,000,000 per incident and \$3,000,000 in aggregate. No amounts in excess of aggregate were paid in 2005.

The County is self-insured for the cost of hospital, medical and prescription drugs for its employees, board members and retirees at no cost to the insured. The County maintains excess insurance coverage for significant long-term claims. The County accounts for this activity in an internal service fund. The County's liability for unpaid medical claims was \$385,000 at December 31, 2005.

**Note 13. Stewardship, Compliance, Accountability:**

**Material Violations Of Finance-Related Provisions**

Expenditures exceeding the budget are explained as follows:

General Fund

Expenditures for education, public safety, culture and recreation and debt interest exceeded the budgeted amount. Historically, the County has used surplus to modify budgeted expenditures to cover increased expenses. During 2005, the County did not have surplus to cover increased expenses, especially education, public safety, culture and recreation and debt interest, which increased significantly.

## ANNUAL REPORTS

**COUNTY OF ALLEGANY**  
**Notes To Financial Statements**

---

**Note 14. Landfill Closure Costs:**

State and Federal laws and regulations require the County to place a final cover on the Allegany County Sanitary Landfill when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post-closure care costs in its non-current liabilities on the government-wide statement of net assets based on landfill capacity used as of each balance sheet date. The \$6,142,607 reported as landfill closure and postclosure care liability at December 31, 2005, represents 52% of the estimated closure costs and 61% of the estimated postclosure costs of the remaining cells based on the use of the estimated capacity of the landfill.

The County will recognize the remaining estimated cost of closure and post closure care costs as the remaining capacity is filled. The County expects to close the remaining cells of the landfill in the year 2012. Actual cost may be higher due to inflation, changes in technology, or changes in regulations. Such costs will be recognized as an expenditure in the general or capital projects fund when they require the use of available and measurable resources.

The County has reserved \$2,195,367 of the general fund balance as of December 31, 2005 for these purposes, and the remaining balance will be funded through the use of bonds, when necessary.

**Note 15. Deficits and Management Plans:**

As shown in the governmental funds balance sheet as of December 31, 2005, total governmental funds undesignated fund balance deficits are \$18,886,547. The share of the undesignated deficit attributable to the general fund and capital projects fund was \$(2,315,031) and \$18,766,827, respectively. Total fund equity for General Fund was reduced by a total of \$2,716,537, from \$401,506 to \$(2,315,031). This was accomplished because of many issues including staff reductions, increase in real property taxes, other non-property taxes and certain charges and fees. Allegany County also began the construction of a new Public Safety Complex and Jail. This is being short term funded through BAN issues at different stages until completion at which time the County will go out for long term bonded financing. In 2004, the County borrowed a BAN of \$13,000,000 dedicated to this capital project. The County is continuing its efforts to remedy its deficits and stabilize financial position through a combination of increases in real property tax, other non-property taxes, and certain charges and fees.

**Note 16. Restatements:**

Governmental Activities Net Assets balance (deficit) at January 1, 2005 has been restated for the Self Insurance Fund is more appropriately reported as a discretely presented proprietary fund. In addition, GASB Statement No. 34 allows for the transitional reporting of infrastructure capital assets through December 31, 2007.
