Products

The Stoeger Airguns X-Series are modern, high-tech air rifles with the look and feel of quality European sporting arms. Developed by Italian engineers and designers, Stoeger air rifles combine rugged, efficient design with quality manufacturing.

- _ Available in caliber 4,5 mm or 5,5 mm, for high velocity alloy or hard-hitting lead pellets.
- _ Powered by a fast, convenient, break-barrel spring-and-piston system.
- _ Ready to shoot with a single cocking stroke.
- _ No expensive CO2 cartridges or propellant cans needed.
- _ Propel pellets at blazing speeds.
- _ Suitable for a variety of shooting interests.
- _ Improved automatic safety.
- _ Precision, fiber-optic front and rear sights.
- _ Fully adjustable rear sights with knobs for elevation and windage.

- _ Green, fiber-optic rear sighting inserts for maximum visibility.
- _ Polymer hood to protect front sight.
- _ Red, fiber-optic front sighting insert for fast, accurate target acquisition.
- _ Range of stocks available in Monte Carlo or straight-comb style.
- _ Stock finishes include quality hardwood, lightweight black synthetic, and Advantage Timber® HD™ camo.
- _ Some stocks feature checkered panels on grips and fore-ends.
- _ Non-slip, rubber butt-pads for comfort.
- _ Solid shoulder mounts.
- _ Scope combo packages available.

X3 150 m/s

DESIGNED SPECIALLY FOR YOUTHS

Convenient ultra compact break-action, single shot calibre 4,5mm / .177, spring requiring less force to cock, double stage trigger. Like all Stoeger Airguns, the X3 incorporates an ambidextrous automatic safety, conveniently located at the rear of the receiver, thereby eliminating the need to place your finger near the trigger to operate the safety.

THE IDEAL AIRGUN FOR YOUNG PEOPLE AND BEGINNERS

Compact size, mid-power break airgun with cocking grip, rifled precision barrel, fully adjustable rear sight with fibre optic bead, two stage trigger, automatic ambidextrous safety, ambidextrous wood or black synthetic stock, rubber recoil pad and a deeply grooved receiver that ensures a scope can be mounted securely.

- 1 The ambidextrous automatic safety is conveniently located at the rear of the receiver where it can easily be engaged or disengaged while aiming. The receiver-mounted safety provides an extra level of safety over trigger-guard-mounted systems.
- 2 The precision, fiber-optic rear sight is fully adjustable for elevation and windage with click-numbered adjustment knobs. It features green fiber-optic sighting inserts for maximum visibility.

- 3 The protected front sight with a bright-red fiber-optic insert guarantees fast, accurate target acquisition. The ergonomically designed cocking grip allows for easy operation of the powerful, spring-piston action.
- 4 X5 models are available mounted in a Monte Carlo-style stock that makes target acquisition quick and easy. Stocks are available in hardwood and black synthetic with full checkering.
- 5 A high-impact polymer trigger guard protects the two-stage trigger. The trigger assembly is factory set.

X10 - BLACK SYNTHETIC COMBO

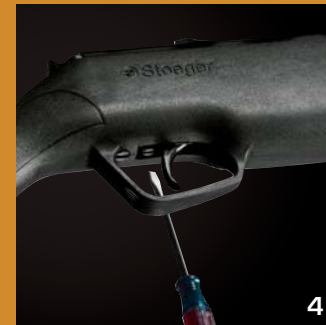

X10 - BLACK SYNTHETIC

THE ADULT SPORTS RIFLE

Full size, full power, break barrel airgun with cocking grip, rifled precision barrel, fully adjustable rear sight with fibre optic bead, adjustable two stage trigger, automatic ambidextrous safety, ambidextrous straight wood stock, rubber recoil pad and a deeply grooved receiver that ensures a scope can be mounted securely.

X10 - WOOD COMBO

X10 - WOOD

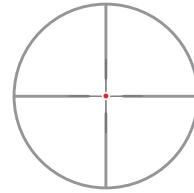

- 1 The ambidextrous automatic safety is conveniently located at the rear of the receiver where it can easily be engaged or disengaged while aiming. The receiver-mounted safety provides an extra level of safety over trigger-guard-mounted systems.
- 2 The precision, fiber-optic rear sight is fully adjustable for elevation and windage with click-numbered adjustment knobs. It features green fiber-optic sighting inserts for maximum visibility.
- 3 The protected front sight with a bright-red fiber-optic insert guarantees fast, accurate target acquisition. The ergonomically designed cocking grip allows for easy operation of the powerful, spring-piston action.
- 4 A high-impact polymer trigger guard protects the two-stage trigger. The trigger assembly is factory set and can be screw-adjusted for second-stage length.
- 5 X10 models are fitted with hunter straight-style hardwood or polymer stocks. Rubber buttpad provide recoil reduction and a comfortable, non-slip shoulder mount.

Finish available

X20 305 m/s SUPPRESSOR

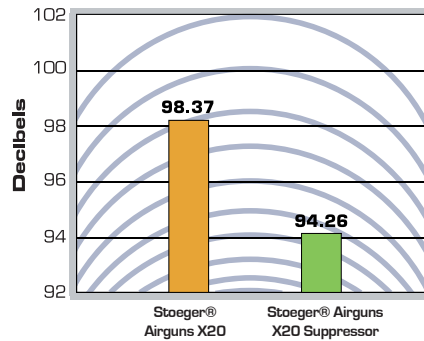

X20 SUPPRESSOR

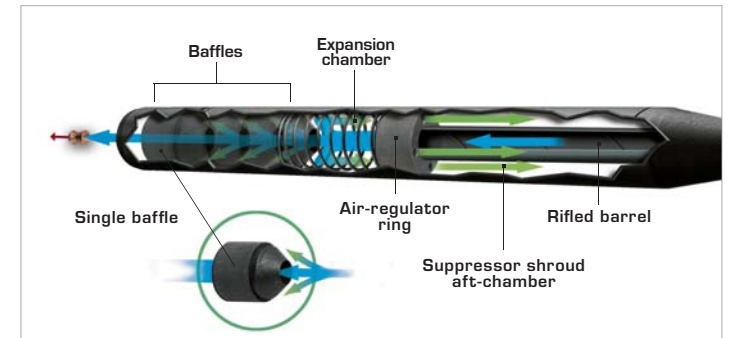

Full size, full power, break barrel airgun with non-removable sound moderator. The new technology regulates the decompression - sound dampening - more comfort. Rifled barrel, adjustable two stage trigger, automatic ambidextrous safety, ambidextrous hunting black synthetic stock, double cheekpiece, full checkering. High performance 4x32 compact scope with red or green dot reticle.

X20 - SUPPRESSOR

Based on tests conducted and certified by F-Squared Laboratories an independent testing laboratory. (Tests performed in a certified anechoic chamber.)

- 1 The ambidextrous automatic safety is conveniently located at the rear of the receiver where it can be easily engaged or disengaged while aiming. The receiver-mounted safety provides an extra level of safety over trigger guard mounted systems.
- 2 A quality Stoeger 4x32 compact airgun scope features crosshairs with an illuminated red/green reticle dot. The scope is factory mounted and boresighted with rings that attach directly to an integral dove-tail. The dove-tail incorporates a cross-slot locking groove, ensuring that the scope is positioned with a solid and immovable mounting system.

ATAC 305 m/s Suppressor

ATAC - SUPPRESSOR

ATAC SUPPRESSOR REVOLUTIONIZES TACTICAL AIRGUN PERFORMANCE

Gas-Ram Technology (GRT), Airflow Control (AFC) suppressor and a tactical synthetic stock with integrated Picatinny rails attached to both sides of the forend and receiver. The ATAC Suppressor relies on a simple, quiet Gas-Ram driven action that cocks with a break-open barrel. Gas-Ram Technology reduces vibration and eliminates the sound that comes from a traditional spring-driven airgun power plant. Accuracy is enhanced with this system through the elimination of vibrations and velocities are consistent because of exact and repeatable gas-pressure release.

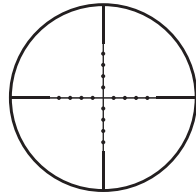

- 1 4-16x40AO Mil dot reticle is the standard in tactical rifle scopes. For snipers the mil dot reticle has a reliable means of determining distances to targets, establishing leads for moving targets, and for alternate aiming points for windage and elevation holds.
- 2 The ambidextrous automatic safety is conveniently located at the rear of the receiver where it can be easily engaged or disengaged while aiming. The receiver-mounted safety provides an extra level of safety over trigger guard mounted systems.

Pellets

ACCURACY TO MEET EVERY REQUIREMENT FOR AIR RIFLES

Every shooter has specific requirements for his airgun when it comes to the ammunition. Our finely classified programme with a wide range of pellet shapes and weights will satisfy every need. Accuracy is a combination of several variables, the quality of the pellets is most important. Stoeger pellets are Made in Germany with high tech technology.

6-PACK 4.5MM / .177 DIFFERENT PELLETS

Test all our premium pellets in your airgun and choice the most appropriate for you:

- **Velocity**
- **Shock effect**
- **Penetration**

X-MATCH . X-MAGNUM . X-POWER . X-HUNT . X-FIELD . X-SPEED
35 pellets in each tube.

PRACTICE TARGET

Lightweight accurate pellet for training and hobby shooting. Meets all underlying requirements. For universal use, at an extremely favourable price. Cal. 4,5mm / .177 and 5,5mm / .22

SUPER ACCURATE

Extremely accurate competition and training pellet for performance-oriented shooters. Tight shot groups, clean-cut bullet holes, excellent value for money. Cal. 4,5mm / .177 and 5,5mm / .22

GREAT PENETRATION

Medium-weight, very accurate pellet for hunting and precision shooting at medium ranges. Aerodynamic design for flat trajectories and perfect penetration. Cal. 4,5mm / .177 and 5,5mm / .22

MAX SHOCK

Heavy, accurate hunting pellet for medium ranges. High impact and penetration with maximum shock effect, with blood grooves. Cal. 4,5mm / .177 and 5,5mm / .22

HIGH IMPACT

Medium-weight, extremely accurate competition pellet with flat trajectory for medium ranges. Exceptional aerodynamic design for high impact and penetration. Tightest shot groups. Lowest rate of lead fouling and consistent shot spreads thanks to special alloy and lubrication. Cal. 4,5mm / .177 and 5,5mm / .22

MAX PENETRATION

Heavy, exceptionally accurate pellet for long ranges. No lead-fouling, improved drive in barrel, no contact with lead thanks to special copper coating (20% harder than comparable lead pellets). First-class aerodynamic design for high impact and penetration. Low deformation of pellet. Tight shot groups. Cal. 4,5mm / .177 and 5,5mm / .22

EXTREME VELOCITY

Lead-free, lightweight high-velocity pellet with exceptional accuracy for competition and hunting. Supersonic and with very flat trajectory for medium ranges. No lead-fouling, improved drive in the barrel, no contact with lead thanks to special tin alloy. High impact and tight shot groups. Cal. 4,5mm / .177 and 5,5mm / .22
