# THE FOBUS STORY SINCE 1978

The brand 'Fobus' was established by the late Mr. Chanan Har-Shen in 1978, starting out with leather holsters. At the turn of the Millennium, Fobus International Ltd. was the first holster maker worldwide to introduce mold-injected polymer holsters into the market, contributing greatly to the holster & firearms industry.

Today, Fobus International is Israel's largest manufacturer of holsters, magazine pouches and accessories for small arms. Fobus products are used by police, security, SWAT, anti-terrorist teams and gun owners in Israel, Europe, United States and worldwide.

**Fobus holsters and pouches feature passive & active retention systems, and enjoy these advantages:**

- Contoured for maximum comfort
- Combat Proven
- Light weight (approx. 2 oz)
- Virtually indestructible, made of High Density Polymers (not Kydex)
- Extremely Low Profile
- Perform in all conditions, not sensitive to high/low temperature or wet conditions, completely washable
- Firmly hold your firearm in place and allow quick holstering and re-holstering (one-handed)
- Lifetime warranty

**Fobus holsters include a number of product series, all detailed in this Catalog.**

## TECHNICAL INFORMATION

**Holster Material** Mold injected polymer formula.

**Holster Mechanism** Passive retention.

**Passive Retention** Fobus passive retention system allows an instinctive and quick draw of the gun and is proven to be the most effective way to draw a weapon. The holster mechanism acts like a spring on the trigger guard area and holds the gun firmly in place.

## STANDARD

### FITTING

Duty, Off Duty, Concealed Carry, Military.

### HOW TO USE

1. Tighten your belt.
2. Place the holster on your hip and make sure the paddle is pushed all the way down on your belt.
3. Draw fast and decisive, in an upwards motion as if you were in a real critical situation.
4. The holster also offers an adjustment screw for a more accurate retention pressure and personal preference.
5. A silicone spray can be used at the holster's trigger guard area, in order to lower the level of retention.

### AVAILABLE FOR

Astra, Baikal, Beretta, Browning, Colt, CZ, Diamondback, Feg, FN, Glock, H&K, High Point, HS 2000, IWI Israel, Kel-Tec, Kimber, Norinco, Ruger, Sarsilmaz, Sig/Sauer, Smith & Wesson, Springfield, Taurus, Walther
