WELCOME TO

Rotel

There is no substitute for experience. More than fifty-five years of designing, engineering, and manufacturing audio/video components has put us at the top of the audio field. We have always been a family owned business. That is why we take the time to build, test, and critically evaluate each new model before it goes into production. Our reputation is personal.

The transformer is the fundamental building block of a solid power supply. Rotel transformers are made in house ensuring we have complete control over the quality of this critical component.

HOME THEATER

RSP-1582 Surround Processor
RMB-1585 Multichannel Amplifier

Immerse
Yourself

Ultra-high performance.

The RAP-1580 features separates performance in a single chassis.

RAP-1580

RAP-1580 is the ideal home theater solution for those who don't have space for separate components, yet still desire uncompromising performance. It is an ultra-high-performance multichannel integrated amplifier with surround processing that brings music and movies to life in a startlingly vivid way.

8 HDMI 2.0a inputs capable of 4K/UHD video passthrough

10 channel Parametric EQ for optimizing room acoustics

6 x Wolfson premium 24-bit/192kHz Digital to Analog Converters

Decodes DTS:X

Bluetooth with aptX

3 HDMI inputs and both HDMI outputs support HDCP 2.2

7 x 100W class AB amplification

Supports Dolby Atmos 7.1.4 processing

PC-USB input supporting 24-bit 192kHz audio

Moving Magnet Phono Input

Available in Black and Silver

RAP-1580 Surround Amplified Processor
Bowers & Wilkins **HTM2 D3** center channel
Bowers & Wilkins **802 D3** floorstanding speaker

RMB-1585 Multichannel Amplifier

RSP-1582 Surround Processor

Maximum fidelity.

Envelops you in dramatic cinematic sound, but also does full justice to pure music listening.

RSP-1582

Our flagship surround processor has been designed for highest performance and maximum flexibility. The RSP-1582 is a home theater preamplifier/processor, of course, but first and foremost, it truly shines as an audio component.

Decodes Dolby TrueHD

Supports DTS HD Master Audio

8 HDMI inputs capable of 4K video pass-through

3 HDMI inputs and both HDMI outputs support HDCP 2.2

Bluetooth with aptX

Front panel USB for Apple iOS devices

Balanced XLR inputs and outputs

Moving magnet phono input for turntable connection

10 channel Parametric EQ for optimizing room acoustics

6 x Wolfson premium 24-bit/192kHz DACS

Rack ears included

Available in Black and Silver

Exceptional sound.

Rotel amplifiers excel at extracting all of the drama, suspense and action from your favorite movies and concerts.

RMB-1585

The pinnacle of performance in our superb multichannel power amplifier range, the RMB-1585 features 5 x 200 Watts to drive even the largest home theater speaker systems.

5 x 200 Watts of robust power

Class AB amplifier design

Massive power supply using Dual Toroidal Transformers

High quality slit foil capacitors made in Britain

Rack ears included

Available in Black and Silver

RMB-1555

With only slightly less power than its big brother, the RMB-1555 retains a very robust power supply to deliver 5 x 120 Watts per channel to medium and large home theaters.

5 x 120 Watts of robust power

Class AB amplifier design

High quality slit foil capacitors made in Britain

12 volt trigger input

Rack ears included

Available in Black and Silver

MUSIC SYSTEMS

CD14 CD Player

A14 Integrated Amplifier

A photograph of a window with a view of a bright outdoor scene, possibly a beach or a large open area. The window frame is visible, and the view outside is very bright and somewhat blurry. In the foreground on the right, there is a blurry, reddish-brown object, possibly a piece of furniture or a decorative item.

Sound
at its best

Made for the modern listener.

All the connectivity you need and the advanced audiophile technology to really bring it to life.

RA-1592

The RA-1592 Integrated Amplifier leverages the strengths of our award winning RC-1590 preamplifier and RB-1582 MkII power amplifier in a sleek single chassis design.

2 x 200 Watts of robust Class AB power

iOS control App

Bluetooth with aptX

AKM premium 32-bit/768kHz
Digital to Analog Converter

Balanced XLR inputs

Available in Black and Silver

RA-1572

The RA-1572 combines proven analog design with sophisticated digital circuits to bring all of your sources to life with amazing fidelity.

2 x 120 Watts of robust Class AB power

iOS control App

Bluetooth with aptX

AKM premium 32-bit/768kHz
Digital to Analog Converter

Moving magnet phono input
for turntable connection

Available in Black and Silver

RA-1572 Integrated Amplifier

A14

The A14 is a high performance, 80-watt per channel integrated amplifier that delivers superb music reproduction and features connections for both analog and digital sources, along with Bluetooth with aptX streaming.

2 x 80 Watts of robust Class AB power

iOS control App

Integrated Bluetooth aptX

AKM premium 32-bit/768kHz
Digital to Analog Converter

Moving magnet phono input
for turntable connection

Available in Black and Silver

A12

Rotel's A12 integrated amplifier offers impressive audio performance as well, but with slightly less output at 60-watts per channel. Input connections include both analog and digital, along with aptX Bluetooth streaming capability.

2 x 60 Watts of robust Class AB power

Front panel USB for Apple iOS devices

Bluetooth with aptX

Wolfson premium 24-bit/192kHz
Digital to Analog Converter

Moving magnet phono input
for turntable connection

Available in Black and Silver

STEREO PREAMPLIFIERS

STEREO DAC

Control & flexibility.

From bluetooth to analog turntables, CD players to digital streams, Rotel Preamplifiers allow you unprecedented control and flexibility to listen how you like.

Superior sonics.

Upgrade the performance of your digital music sources.

RC-1590

For music enthusiasts who won't accept compromise, the reference RC-1590 preamplifier is in a class by itself.

AKM premium 32-bit/768kHz Digital to Analog Converter

iOS control App

Bluetooth with aptX

Dual toroidal transformers isolate the analog and digital signal paths

Balanced XLR inputs and dual outputs

Available in Black and Silver

RC-1572

The RC-1572 provides an entryway into higher performing separate components with all of the analog and digital inputs required by today's sources.

AKM premium 32-bit/768kHz Digital to Analog Converter

iOS control App

Bluetooth with aptX

Moving magnet phono input for turntable connection

Balanced XLR inputs and outputs

Available in Black and Silver

RDD-1580

Rotel's digital-to-analog converter envelops the listener in the most accurate audio reproduction possible from any digital source, whether it be legacy PCM sources or the latest digital file formats.

Dual Wolfson premium 24-bit/192kHz Digital to Analog Converters

Rear panel PC-USB input supports files up to 24-bit / 192kHz

Balanced XLR outputs

Rack ears included

Available in Black and Silver

CD PLAYERS

Elevating performance.

Refined technology and evolved circuitry will bring your CDs to life.

RCD-1572

The culmination of more than three decades of Rotel CD technology refinement, the RCD-1572 is the flagship CD player in Rotel's 15 Series.

Wolfson premium 24-bit/192kHz Digital to Analog Converter

iOS control App (requires connection to 15 Series RA/RC models)

Includes remote control

Balanced XLR outputs

Available in Black and Silver

CD14

Enjoy your CD collection investment with Rotel's CD14 compact disc player. As with all 14 series components, it features a high performance power supply and intuitive operation.

Wolfson premium 24-bit/192kHz Digital to Analog Converter

iOS control App (requires connection to A14)

Includes remote control

12 volt trigger input

Available in Black and Silver

CD14 CD Player

Power & refinement.

Engineered to be robust, yet able to extract every last nuance out of even the most complex musical score.

RB-1590

The RB-1590 is at the top of its class as a 2 x 350 Watts stereo amplifier with dual toroidal transformers and special slit foil capacitors.

2 x 350 Watts of robust power

Class AB amplifier design

Massive power supply using Dual Toroidal Transformers

High quality slit foil capacitors made in Britain

Balanced XLR inputs

Available in Black and Silver

RB-1582 MkII

At 2 x 200 Watts per channel and utilizing Rotel's Balanced Design Concept for superior performance, the RB-1582 MkII is a compelling stereo amplifier.

2 x 200 Watts of robust power

Class AB amplifier design

High quality slit foil capacitors made in Britain

Balanced XLR inputs

Rack ears included

Available in Black and Silver

RB-1552 MkII

RB-1552 MkII is built upon the same platform as the RB-1582 MkII with only a slightly smaller power output capability at 2 x 130 Watts.

2 x 130 Watts of robust power

Class AB amplifier design

High quality slit foil capacitors
made in Britain

Balanced XLR inputs

Rack ears included

Available in Black and Silver

Music everywhere

Performance & flexibility.

Allows you to listen to what you want, wherever you want.

RKB-8100

8 x 100 Watts of robust power

RKB-D8100

8 x 100 Watts of robust power

RKB-850

8 x 50 Watts of robust power

The RKB distribution amplifiers come in one eight-channel configuration at 8 x 50 watts and two at 8 x 100 watts RMS per channel into 8 ohms, all channels driven. All RKBs can double that output into 4 ohms as a result of their sophisticated, efficient Class D design. The amplifiers are rugged and extremely reliable, but Rotel has taken additional further precautions to maximize service life by utilizing dual thermostatically controlled fans to exhaust heat away from the output modules and power supply.

The Digital version (Designated by a "D" in the nomenclature) feature four Toslink digital inputs with individual stereo DACS for each pair of channels in addition to the four analog inputs. When a digital audio source is detected on the Toslink input the unit will automatically switch to the digital input. If an analog input is connected, that source similarly will be detected. No user configuration is required. Each digital input supports up to 24 Bit/192 kHz LPCM audio.

SHARED FEATURES:

Class D amplifier design

Rack ears included

Automatic signal sensing

12 volt trigger input

Input linking

Available in Black

RKB-D8100 only:

4 individual 24-bit/192kHz
Digital to Analog Converters

RMB-1512

No longer do you need to purchase several large amplifiers to obtain a high performance multizone audio system. The RMB-1512 features an advanced Class D design that provides plenty of power (12 x 100 Watts into 8 ohms) for the most demanding multizone audio systems, but never runs the danger of overheating itself or other electronic components placed in the same vicinity.

The RMB-1512 features everything needed for remote operation and custom installation including 12 volt trigger, signal sensing, input bussing, sum-to-mono, buffered link output, front panel attenuation controls, five-way binding posts and screw terminals.

12 x 100 Watts of robust power

Class D amplifier design

Rack ears included

Automatic signal sensing

12 volt trigger input

Available in Black

RMB-1506

The RMB-1506 is perfect for less elaborate multizone audio systems and can be mated with our surround receiver or our preamp/processors to add music throughout three additional living areas or “zones” of your home. A buffered link output allows you to link additional amplifiers for larger multizone applications.

As with all Rotel custom amplifiers it includes the most wanted custom installation features such as front panel attenuation control, input linking, 12-volt trigger, buffered link output, five-way binding posts and an IEC detachable power cord.

6 x 50 Watts of robust power

Class AB amplifier design

Rack ears included

Automatic signal sensing

12 volt trigger input

Available in Black
