WELCOME TO FRANK KEY

Whether you want to kick back and escape in your own oasis, seamlessly connect indoor and outdoor spaces or simply update a current plot, this guide will provide the landscaping inspiration you require.

As a leading supplier of building, timber and landscaping products, we will supply everything you need to create your perfect garden. From the coveted landscaping products in this guide, to quality building supplies such as sand, cement and hardcore, through to specialist hire equipment, you can easily complete your project with Frank Key.

We are proud to be regional partners of Bradstone, renown for quality, performance and style. The Bradstone product range, available from Frank Key, boasts paving ranges from the elegantly smooth and hardwearing finishes of the porcelain range to the inherent organic beauty of ethically sourced natural stone products, meaning you are sure to find your perfect look.

This year the guide also features Trex Composite Decking, giving you an eco-friendly and high performing outdoor space. Produced with 95% recycled material and available in a number of finishes, you can relax knowing you've made the right sustainable choice for you.

In the unlikely event you do not find the product you want in this guide, we will ensure you will not need to compromise

your design. Our strong supplier relationships mean Frank Key can source the right product for you on a short lead time, allowing you to continue with your dream project.

Along with using this guide you will be able to get landscaping inspiration at any of our six locations across Nottinghamshire, Derbyshire and South Yorkshire. Please use the branch selector at the back of the guide to find your nearest stockist, where you will be able to see the products on display and speak to our friendly and highly trained staff about your project. Also, unlike other outlets, we have our newly refurbished dedicated hard landscaping display at Patioworld, Brookfields Garden Centre in Mapperley Plains, ideal if you are looking for landscaping ideas at the weekend.

USING THIS GUIDE

This guide details all the landscaping materials Frank Key supply, which location holds the product (see location key below) and the indicative price. The pricing given shows the charge for the unit shown (single, per m2, per patio pack). In most cases discounts are available where a higher quantity is purchased. For more information, please speak to one of the Frank Key team.

We hope you find this guide useful in completing your landscaping project.

Please visit our landscaping section on www.frank-key.co.uk for more information.

Disclaimer: The products represent lines available from our stocks or on display at one or more of our outlets. All prices in this guide are correct as of 1st April 2018, and the VAT inclusive prices are stated at the current rate (20%). Should the VAT rate change, these prices will be amended accordingly. The company reserves the right to change any specification or prices without prior notice, any alterations will be published in the landscaping section of the website. Sizes given in this brochure are approximate and are given for use as a guide only. Where unwanted items are returned, a restocking charge may be applied, special order items (non-stock products) may not be returned, we recommend you obtain a sample prior to ordering. Where a product is defective or damaged, the company may use a supplier representative to ensure the product is faulty.

UTILITY PAVING

These are tough, hard wearing, budget paving solutions. Ideal as a base for utility areas and sheds. They are not recommended for feature patios, as with utility products the colour and finish will vary.

38MM THICK
 DON'T BE FOOLED
 BY INFERIOR
 ALTERNATIVES

OUR GUIDE TO GOOD DECK BUILDING

- Plan the deck carefully before commencing any construction work.
- A scale drawing of the proposed deck and surroundings will help visualise the overall size and shape.
- Materials stored on site before and during deck building should be protected from rain using a waterproof cover.
- Spend time preparing the proposed site. Remove all vegetation, apply a proprietary weed killer and weed block.
- For decks over 600mm above ground level, consult a reputable builder or structural engineer.
- Do not bridge the damp course or cover air bricks if fixing to the side of a house.
- All cut ends and drilled holes must be treated with a suitable proprietary end coat.
