# New Products

## Luxxbox

sixteen5hundred is pleased to announce the addition of Luxxbox to our linecard!

Luxxbox acoustic lighting and collaborative products turn down the volume to increase productivity, creating happy, healthy workspaces the world over.

Pictured is the Linea. Linea is a slim line acoustic LED system. Boasting superior noise absorbing properties as well as class leading LED performance, Linea is a functional luminaire that doubles as a tool for sound management for all environments. Fixtures can be used independently or in a continuous run over workstations as a functional illumination source.

## Align by A Light

Align is an easily specifiable and highly configurable lighting system designed to accommodate the changing needs of any space. The magnetic modules come with multiple light and mounting options and, with tool-free installation and removal capabilities, the opportunity to create unique configurations are almost infinite.

This lighting system was specifically designed for ease of specification, installation, and re-configuration to accommodate changes in any space..

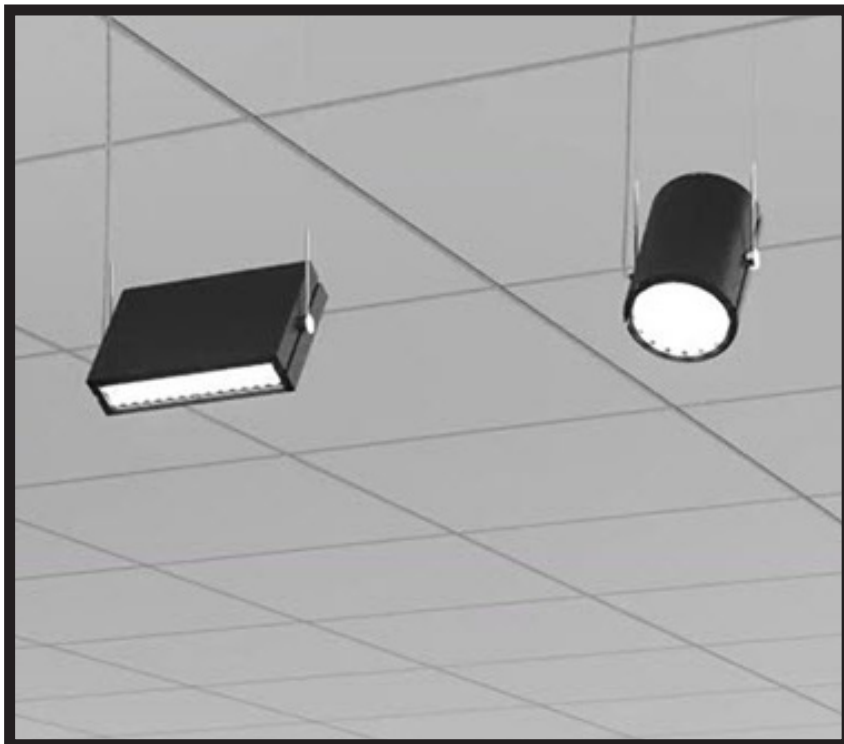

# New Products

## Expo by Eureka

Not your average, ubiquitous tube lighting, Expo's slender profile makes all the difference in the visual effect whether surface mounted or suspended. Careful attention to detail and impressive light output for such a fine wand of a fixture round out the package.

- Miniature Ø1-3/8" profile
- High efficacy up to 148 lm/W
- Output up to 1263 lm/ft
- Three lengths (24", 36" and 48")
- Three mounting types (wall or ceiling surface mounting and suspension)
- Black and white finishes
- Concave aluminum end caps
- Slim mounting plate for an ADA compliant fixture less than 2" deep
- No visible hardware

## Matrex by Beta Calco

Introducing the Matrex by Beta Calco, available in round and rectangular profiles with single and dual configurations.

- Sleek compact size offering superior performance.
- Unique cooling mechanism with no visible heat sink.
- 4 beam angles with precise performance - 15°, 30°, 50° and 70°.
- 32.5° fixture angle adjustability.
- Suspension points originate from the side allowing for unobstructed uplight.
- Multiple stunning finishes to enhance any space.

# New Products

## TROV Flex by Ecosense

Unlock the true value of science and engineering with an ultra-discreet, durable, flexible luminaire.

- Smallest exterior graze on the market
- Silicone housing offers superior resistance to the elements and won't crack or yellow over time
- IP67 rated for outdoor and indoor applications
- 3 beam angle options
- 2-step binning
- 4 CCTS: 2700K, 3000K, 3500K and 4000
- 90+ CRI standard
- Field-cuttable to 6-inch increments

## Chute by Pinnacle

Introducing Chute – an open-concept fixture – perfect for your next project. Designed and executed down to every detail, Chute brings a fresh feel to linear lighting. No glare, no exposed components, and no compromises.

Enhance the open nature of your space with Chute suspended, recessed, and surface mount options. All suspended housings have been designed with equivalent dimensions which incorporate the enclosure of all components. The housing can accommodate an integral driver while maintaining a slim and sleek profile.

Four distinct endcaps offer a unique finish to each individual fixture.

## Novato Ring Acoustic by SPI Lighting

Beautifully combine great light output and effective noise reduction with new acoustic panel options for Novato Ring.

Choose from two appealing neutrals or ask about our extended color palette. Made with premium half-inch thick felt, the acoustic material exhibits superior sound absorption qualities, achieving a material Noise Reduction Coefficient (NRC) up to 0.80.

Three fully-luminous sides brighten spaces and highlight the acoustic panel's texture. Special hand-fabricated construction gives the rings a crisp, well-defined form.

## USAI + Woodworks

Committed to making lighting and ceiling integration consistent, easy and perfect, USAI® Lighting is proud to announce our latest collaboration with Armstrong® Ceiling Solutions. USAI + WoodWorks®

USAI's Micro®, BeveLED Mini® and BeveLED® 2.2 are integrated with WoodWorks® Grille, WoodWorks® Grille Tegular and WoodWorks® Linear Solid Wood Panels.
