Introduction

Paracetamol, also known as acetaminophen or APAP, is a medication used to treat pain and fever. It is typically used for mild to moderate pain. The quality of the evidence regarding the use for fever relief in children is poor. It is often sold in combination with other ingredients such as in many cold medications.

In combination with opioid pain medication, paracetamol is used for more severe pain such as cancer pain and after surgery. It is typically used either by mouth or rectally but is also available intravenously. Effects last between two and four hours.

Paracetamol lacks anti-inflammatory action in rheumatic disorders. However, it is less toxic than the Aspirin and does not produce anemia and liver damage, which sometimes result from the continued use of acetanilide and acetophenotidine. It is also an important intermediate in the manufacture of other pharmaceuticals like the antimalarial amodiaquine.

Market Outlook

The pharmaceutical industry in India ranks 3rd in the world terms of volume and 14th in terms of value. 20% of global exports in generics, making it the largest provider of generic medicines globally. USD 45 Billion in revenue by 2020, revenue of USD 55 billion by 2020 as base case, and can grow to USD 70 billion in an aggressive case scenario. USD 26.1 Billion in generics by 2016. USD 200 Billion to be spent on infrastructure by 2024.

Global acetaminophen market was valued at around USD 801.3 million in 2014 and is expected to reach USD 999.4 million in 2020, growing at a CAGR of around 3.8% between 2015 and 2020. In terms of volume, the global acetaminophen market stood at above 149.3 kilo tons in 2014.

Global Acetaminophen Market, 2014-202(Kilo Tons) (USD Million)

The global paracetamol market is expected to reach US\$1,049.7 mn by 2022 as compared to its valuation of US\$900.2 mn in 2014.

Reasons for buying our report:

- This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product
- This report provides vital information on the product like it's characteristics and segmentation
- This report helps you market and place the product correctly by identifying the target customer group of the product

- This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
- The report provides a glimpse of government regulations applicable on the industry
- The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions

Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

Scope of the Report

The report titled "Market Survey cum Detailed Techno Economic Feasibility Report on Paracetamol (Acetaminophen) " provides an insight into the Paracetamol (Acetaminophen) market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Paracetamol (Acetaminophen) project. The report assesses the market sizing and growth of the Indian Paracetamol (Acetaminophen) Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Paracetamol (Acetaminophen) sector in India along with its business prospects. Through this report we have identified Paracetamol (Acetaminophen) project as a lucrative investment avenue.
