The Story of Forest Center Herbs

—An excerpt from Dr. Davis' Book, *Herb Healing Rapid Reference...*

"Encountering The Herbal Spirit of Healing"

"The most important early herbal expeditions I made began around 1980. At that time, I studied, collected and prepared extracts of the master herb, Echinacea, flourishing in its native Midwestern habitats...

One night, as I camped beside a lovely patch of Echinacea, there arose a spectacular, shaking electrical storm...I saw the flowering heads of Echinacea...backlit by flashes of lightning, shaken by thunder, and pelted by wind and driving rain. They seemed as joyous, as I was uneasy. It was as if there was a great Echinacea chorus singing to the heavens accompanied by the world's most powerful 'wind instruments' and 'percussion section.

From that experience I came to realize that medicinal plants are not just groups of chemicals but that they are the material embodiment of coalesced nature forces and Earth energies from the area in which they live. I sensed that Echinacea seemed to 'absorb' the stimulating and purifying power of the storm, holding it in its colloidal plant fluid for healing release later into those who would consume it.

... that experience so strongly impressed me, I knew I had to make herbal preparations that preserved the living energy of the plant so that it could be transmitted to my patients and accomplish its healing work.

At that time, no North American manufacturer was making a bona fide fresh plant extract of Echinacea angustifolia, so that is what I did. The rather global healing results of the extract were so outstanding for my patients and for those of close colleagues with whom I shared it, that I was inspired to make it commercially on a small scale. That resulted in the beginning of my herbal company, Phytotherapy Research Laboratories (PRL, Inc), now known as Forest Center Herbs..."

OUR MISSION:

To provide the highest quality, fresh plant herbal extracts and specialty herbal products to help resolve common and challenging health problems.
