PROJECT MASTER LIST OF CONTROLLED DOCUMENTS, CONTRACT # DE-AC08-87NV10576

Enclosed for your information and use is the Yucca Mountain Project Master List of Controlled Documents, identifying the versions current as of September 25, 1989. This listing of document status should be used to verify that documents held for use are current and that out-of-date material is not used for the conduct of Project work. The documents listed may change their revision status before the next listing, to be issued in October.

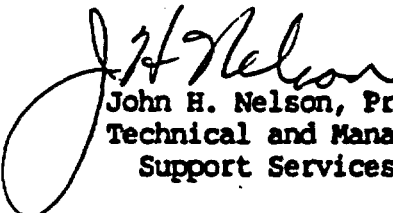

T&MSS administrative documents previously listed in the master list have been removed from this listing and will no longer be a part of the master list. These documents are applicable to T&MSS staff only and a separate listing of these type of documents will be provided to T&MSS staff document holders each month. The first report will be forthcoming shortly.

Copies of revisions to these documents are forwarded to controlled document holders so the controlled sets can stay current. If deficiencies in the controlled copies of these documents are identified, correct copies may be obtained by forwarding deficiency listings to the attention of Document Control at the company address listed below:
