

## Promoting Humanistic Culture in Dental Education

ADEA Regional Accreditation Workshop  
Atlanta, GA  
Thursday, December 6, 2012

Shelia S. Price, DDS, EdD  
West Virginia University School of Dentistry  
Associate Dean of Admissions, Recruitment & Access  
Email: [sprice@hsc.wvu.edu](mailto:sprice@hsc.wvu.edu)

---

---

---

---

---

---

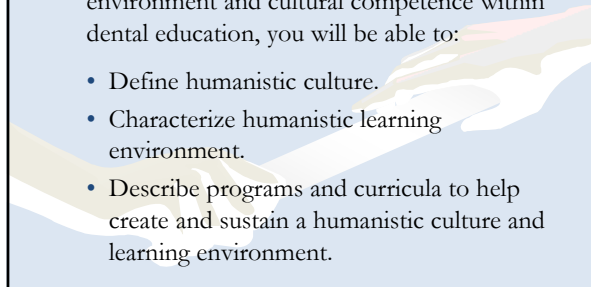

---

---

## Objectives

With regard to diversity, a multicultural environment and cultural competence within dental education, you will be able to:

- Define humanistic culture.
- Characterize humanistic learning environment.
- Describe programs and curricula to help create and sustain a humanistic culture and learning environment.

---

---

---

---

---

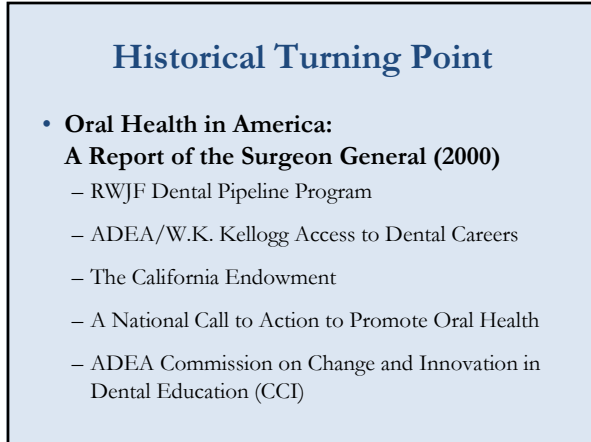

---

---

---

## Historical Turning Point

- **Oral Health in America:  
A Report of the Surgeon General (2000)**
  - RWJF Dental Pipeline Program
  - ADEA/W.K. Kellogg Access to Dental Careers
  - The California Endowment
  - A National Call to Action to Promote Oral Health
  - ADEA Commission on Change and Innovation in Dental Education (CCI)

---

---

---

---

---

---

---

---

*What is Humanism?*

*Relationships*

---

---

---

---

---

---

---

---

## Humanism

- Describes relationships between physicians and their patients that are **respectful** and **compassionate**.
- Is reflected in attitudes and behaviors that are sensitive to the values, autonomy, cultural and ethnic backgrounds of others.

Reference: The Arnold P. Gold Foundation, Gold Humanism Honor Society, [http://humanism-in-medicine.org/index.php/about/what\\_is\\_humanism\\_in\\_medicine](http://humanism-in-medicine.org/index.php/about/what_is_humanism_in_medicine)

---

---

---

---

---

---

---

---

## *Humanistic Characteristics*

- Integrity
- Excellence
- Compassion
- Altruism
- Respect
- Empathy
- Service

*"I.E., C.A.R.E.S."*

Reference: The Arnold P. Gold Foundation, Gold Humanism Honor Society, [http://humanism-in-medicine.org/index.php/about/what\\_is\\_humanism\\_in\\_medicine](http://humanism-in-medicine.org/index.php/about/what_is_humanism_in_medicine)

---

---

---

---

---

---

---

---

“It is much more important to know what kind of person has a disease, than what kind of disease a person has.”

-Sir William Osler

1849-1919

---

---

---

---

---

---

---

---

## Humanistic Environment

“A humanistic pedagogy inculcates respect, tolerance, understanding, and concern for others and is fostered by mentoring, advising and small group interaction.”

Commission on Dental Accreditation.  
Accreditation Standards for Dental Education Programs.  
(Implementation July 1, 2013)

---

---

---

---

---

---

---

---

## CCI Principles: Humanistic Environment

- Critical Thinking
- Lifelong and Self-Directed Learning
- Humanistic Environment
- Scientific Discovery and the Integration of Knowledge
- Evidence-Based Oral Health Care
- Assessment
- Faculty Development
- The Health Care Team
- Diversity

“A humanistic environment establishes a context for the development of **interpersonal skills** necessary for learning, for patient care, and for making meaningful contributions to the profession.”

The dental education environment. ADEA Commission on Change and Innovation in Dental Education. J Dent Educ. 2006;70(12):1265-1270.

---

---

---

---

---

---

---

---

## Humanistic Environment

**Why is it important?**

- Model caring and enhance quality of care
- Enrich educational experiences
- Enhance mentoring opportunities and outcomes
- Improve access to healthcare
- Fulfill Accreditation Standards

---

---

---

---

---

---

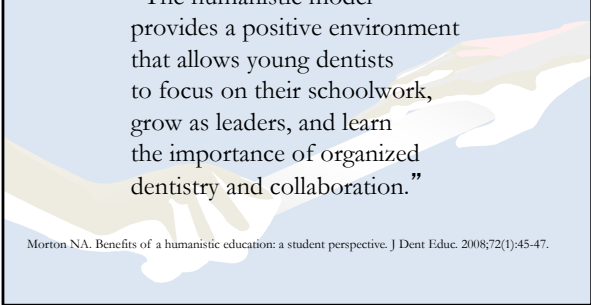

---

---

## Student Perspective

“The humanistic model provides a positive environment that allows young dentists to focus on their schoolwork, grow as leaders, and learn the importance of organized dentistry and collaboration.”

Morton NA. Benefits of a humanistic education: a student perspective. J Dent Educ. 2008;72(1):45-47.

---

---

---

---

---

---

---

---

## Diversity

“Cultural competence cannot be effectively acquired in a relatively homogeneous environment.”

Reference: CODA Accreditation Standards for Dental Education

---

---

---

---

---

---

---

---

## Dimensions of Diversity

- Structural
- Curriculum
- Institutional Climate

Reference: Commission on Dental Accreditation: Accreditation Standards for Dental Education Programs. (Implementation July 1, 2013)

---

---

---

---

---

---

---

---

ADEA Regional Accreditation Workshop  
February 7, 2012

Promoting and Assessing Humanistic Culture and Learning Environment in Dental School  
Readiness Self-Assessment of Dimensions of Diversity in 2013 CODA Standards

| Dimensions of Diversity | Rate level of preparedness<br>(Scale 1-3)<br>1=not prepared<br>2=prepared<br>3=well prepared | To what degree and how are these dimensions exemplified? (Scale 1-4)<br>1=poor, 2=fair, 3=good, 4=very good, 5=excellent | What are the challenges to achieving these dimensions? | What are potential solutions to the identified challenges or barriers? |
|-------------------------|----------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|------------------------------------------------------------------------|
| Structural              |                                                                                              |                                                                                                                          |                                                        |                                                                        |
| Curriculum              |                                                                                              |                                                                                                                          |                                                        |                                                                        |
| Institutional Climate   |                                                                                              |                                                                                                                          |                                                        |                                                                        |

---

---

---

---

---

---

---

---

## Structural Diversity

- Recruit diverse classes
- Diversify admissions committees
- Utilize holistic application review
- Foster welcoming environment
- Develop mentor/advising programs
- Provide support and access to counseling
- Offer financial aid/scholarships

---

---

---

---

---

---

---

---

## Student Recruitment

Stephanie "then" ...high school senior

*"Coming from an underserved community, the program gave me the tools to achieve my goal of becoming a dentist that would have otherwise been near impossible to obtain. It is for this reason I want to dedicate my professional career to serving those in need and giving back to my community."*

Stephanie "now" ...Dr. Henderson, Class of 2012

---

---

---

---

---

---

---

---

## Admissions

- Holistic File Review
- Diverse Committee
- Communications
  - Committee Mission Statement
  - Email/Web Presence
  - Offer Letter

---

---

---

---

---

---

---

---

## University of Kentucky Office of Institutional Diversity

<http://www.uky.edu/diversity/>

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Student Orientation

- Create a sense of community among diverse incoming dental and dental hygiene students
- Raise awareness of getting prepared to treat diverse patients
  - Classroom-based sessions
  - Field trips

References:  
2010 ADEA Annual Session: Poster Abstracts. 209 Building Community in Times of Diversity: Fieldtrips During Dental and Dental Hygiene Orientations. Kenneth B. May, University of Michigan; Marilyn W. Woolfolk, University of Michigan; Maria R. Inglehart, University of Michigan. J Dent Educ 2010; 74(2):149-210.

---

---

Scenes from East Carolina University School of Dental Medicine Student Orientation Program

---

---

---

---

---

---

---

---

## Professionalism Assembly

Students read pledge in unison and sign document individually.

---

---

---

---

---

---

---

---

---

---

## First-Year Dental and Medical Student Diversity Forum

- Interprofessional Panel
- Case Studies
- Anonymous questions answered by panel
- The program helps students:
  1. learn about the University's commitment to diversity, inclusiveness, and social justice
  2. identify biases, stereotypes and assumptions that are counterproductive to delivery of quality health care
  3. identify barriers and solutions to effective communication in diverse environments

---

---

---

---

---

---

---

---

---

---

## White Coat Ceremony

- “Cloak of Compassion”
- Reaffirms commitment to professionalism
- Symbolizes dedication to quality patient care

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**Preventive Dentistry Course**

- 1<sup>st</sup> year Dental Curriculum
- “Culture and Preventive Attitudes & Practice”
- Goal
  - To discuss the relationship between cultural awareness and promotion to preventative attitudes and oral health practices
- Objectives
  - Define cultural competence and explain the rationale for cultural sensitivity in the oral health care setting
  - Understand the importance of effective cross-cultural communication in the oral health care environment
  - Understand barriers to optimal oral health for culturally diverse patient populations
  - Discuss culturally sensitive strategies to promote preventive attitudes and to improve oral health

---

---

---

---

---

---

---

---

**Law & Ethics Course**

- 3<sup>rd</sup> Year Dental Curriculum
- “Improving Access to Oral Health Care: Rationale and Basic Approaches”
- Objectives
  - Students have the opportunity to:
    1. Examine the rationale for enhancing cultural awareness in dental education
    2. Discuss barriers to quality oral health care
    3. Explore helpful solutions to improve access to oral health care

---

---

---

---

---

---

---

---

## Senior Seminar

- Interprofessional Panel:  
*"Our Changing Culture and Patient Care"*
- Attended by dental students and faculty
- Goal:  
To promote mutual understanding and respect toward people from other cultures and to provide essential tools that foster positive interactions.

DeBise, C.B., Price, S.S. Raising Cultural Awareness through Interprofessional Engagement. (Poster #570); J. Dent. Educ. 2012, 76:2

---

---

---

---

---

---

---

---

## Senior Seminar

### *"Utilizing Interpreters to Enhance Cross-Language Communication in the Clinical Environment"*

- Objectives
  - Underscore the relevance of effective cross-language communication to quality health care
  - Discuss interpreter selection and roles
  - Illustrate the use of interpreters in the clinical setting

Paul Glassman, DDS, MBA  
University of the Pacific  
Arthur A. Dugoni School of Dentistry

---

---

---

---

---

---

---

---

## Senior Service Learning Program

Kelly A. Gould, RDH, MA, Course Director  
Creighton University School of Dentistry

---

---

---

---

---

---

---

---

## Multidisciplinary UnSheltered Homeless Relief Outreach Of Morgantown (MUSHROOM)

- Interprofessional outreach to the homeless
- Alternating Thursday evenings
- Distribute oral health aids and other basic personal care items
- Discuss income-based and free-care clinics

---

---

---

---

---

---

---

---

## Institutional Climate (Interactional Diversity)

---

---

---

---

---

---

---

---

## Communication

---

---

---

---

---

---

---

---

## Building Blocks for Effective Communication

- Preparation
- Introduction
- Interview
  - Listen
  - Explain
  - Acknowledge
  - Recommend
  - Negotiate

Reference: Gadenwartz, L., Rowe, A. Managing Diversity in Health Care. Jossey-Bass Publishers. San Francisco, 1998.

---

---

---

---

---

---

---

---

## The Learning Environment

*“The teacher who is indeed wise, does not bid you to enter the house of his wisdom, but rather leads you to the threshold of your mind.”*

- Kahlil Gibran

---

---

---

---

---

---

---

---

*Vision*

Leadership

**MISSION**

---

---

---

---

---

---

---

---

## Faculty Development

*“Alumni Perspectives:  
Promoting Careers in Dentistry for Ethnic Minority Students”*

Faculty learn firsthand about issues uniquely affecting ethnic minority students.

---

---

---

---

---

---

---

---

## Leadership

---

---

---

---

---

---

---

---

## Benefits of a Humanistic Education: Student Perspective

“The humanistic model provides a positive environment that allows young dentists to focus on their schoolwork, grow as leaders, and learn the importance of organized dentistry and collaboration...”

“I write this article to encourage dental faculty, staff, and especially deans to consider taking a look at the environment at your school.”

Morton NA. Benefits of a humanistic education: a student perspective. J Dent Educ. 2008;72(1):45-47.

---

---

---

---

---

---

---

---

## Humanistic Environment

### Examples from the University of Michigan School of Dentistry

- Hired a part-time counselor to help promote personal wellness among dental hygiene, DDS, and grad students
- Development Sessions:
  - For students: Sleep Deprivation
  - For faculty: "Creating a positive Learning Environment"
- Assigned each student a faculty mentor
- Instituted "flex time" which means that students have off one afternoon.
- Re-configured study spaces to provide mixtures of quiet spaces and collaborative spaces.

---

---

---

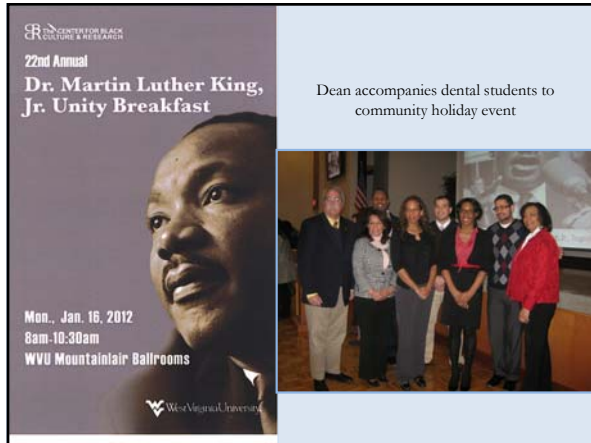

---

---

---

---

---

22nd Annual  
**Dr. Martin Luther King,  
Jr. Unity Breakfast**

Mon., Jan. 16, 2012  
8am-10:30am  
WVU Mountainlair Ballrooms

West Virginia University

- Recruitment Committee

---

---

---

---

---

---

---

---

2012 Student Ambassador Program

- 2012 Student Ambassador Program Saturday, 10/20/12, Hilton San Francisco Hotel, San Francisco, CA
- In conjunction with the ADA Annual Session
- Highlighting model student-initiated outreach and recruitment efforts
- Furthering collaborations with Admission Offices, Prehealth Advisors and others

Sponsored by the ADA Career Guidance and Diversity Activities Committee with representatives from the ADA, ASDA, HDA, NAAMP, NDA, SAID, student groups and others.

Special thanks to the American Dental Education Association for generous support of the 2012 program.

ADA American Dental Association  
www.ada.org

---

---

---

---

---

---

---

---

---

---

Diversity Week

- Showcase students' diverse talents
- Learn about international customs through music, dance, and pictorial descriptions of countries represented in the student body.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

## Interprofessional Teaching & Learning

- Culture and Health Special Topics Course

### Course objectives

- Increase interdisciplinary awareness about culture and health topics.
- Examine the role of culture in health care and its multifaceted domains, comparing and contrasting different cultures.
- Provide opportunity for development of skills necessary for culturally based health assessment, communication, and care.

---

---

---

---

---

---

---

---

## Global Health Week

*Cultural Intelligence in Healthcare: Student and Resident Perspectives*

### **Interprofessional panel:**

- 1) Increases awareness of diverse cultures in the global community
- 2) Identifies challenges and approaches to cross cultural health care
- 3) Prepares individuals to be more culturally proficient

---

---

---

---

---

---

---

---

**IMPEDIMENTS TO  
HUMANISTIC ENVIRONMENT  
(GENERALIZING AND  
STEREOTYPING)**

---

---

---

---

---

---

---

---

## STEREOTYPES

- Assumptions based on perceptions
- Learned early and difficult to unlearn
- Does not consider if assumptions are correct or incorrect
- Negative stereotypes are usually remembered (rather than positive ones)

Reference: Melissa Welch MD, MPH  
Teaching Cross-Cultural Competence in  
Health Care, 2003.

---

---

---

---

---

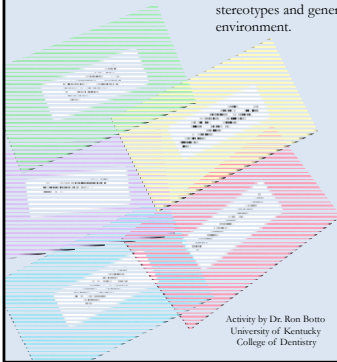

---

---

---

## Labeling

The purpose of this exercise is to have students examine stereotypes and generalizations in a fun, yet safe and serious environment.

Activity by Dr. Ron Bono  
University of Kentucky  
College of Dentistry

### QUESTIONS

- What did you experience?
- What did people say to you?
- How did you feel about these comments?
- Were you able to recognize your label?
- Were you comfortable with it?
- How might this relate to other experiences you have had?
- Did you begin to act your label? Why?
- How will you use this experience in the future?

---

---

---

---

---

---

---

---

## Communication

---

---

---

---

---

---

---

---

## Communication Concepts

- **Association**  
*Prior associations impact communication.*
- **Conscious vs. Unconscious Communication**  
*Much of communication is unconscious.*
- **Expectations**

Reference: R. Kohls and J. Knight. Developing Intercultural Awareness A Cross-Cultural Training Handbook, 2<sup>nd</sup> edition, page 59-61.

---

---

---

---

---

---

---

---

## BUILDING COMMUNITY

---

---

---

---

---

---

---

---

## Student Mentoring

### East Carolina University

- Big Brother/Big Sister Programs
- Advisor/Student Teams (1<sup>st</sup> year)
- Faculty/Student Mentor Pairs (2<sup>nd</sup> year)
- Student Mentoring in partnership with NC Dental Society
  - Optional, one-year renewable mentor dyads
  - Students select from list of dentist volunteers
  - Reception for mentor teams at state dental meeting

---

---

---

---

---

---

---

---

## ECU Building Community

- Faculty meetings
- Staff meetings
- Combined faculty/staff meetings
- Faculty/staff monthly birthday celebrations
- Informal gatherings of women faculty and wives of male faculty

---

---

---

---

---

---

---

---

## Endnotes

- Anchor humanistic culture to strategic plan, mission, and vision
- Integrate into new faculty/staff/student orientation
- Engage diverse groups in holistic assessment
- Increase interprofessional programs
- Look to parent institution guidelines (Dentistry has opportunity to lead)
- Develop “best practices”

---

---

---

---

---

---

---

---

## *CURA PERSONALIS*

*“Care for the Person”*

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---
