ABOUT US

Botho University was established in 1997 and has rapidly evolved over the years to become a leading multidisciplinary high-quality tertiary education provider. Botho University was one of the first local tertiary institutions in Botswana to be accredited by the Human Resources Development Council (HRDC). Botho University is now expanding in to the SADC region and getting more accreditation and international recognition in the countries operating in; Eswatini Higher Education Council (ESHEC), Lesotho Council of Higher Education (CHE) and Namibia Council of Higher Education (NCHE).

Botho University is now in Eswatini, and in full operation as per the ESHEC authority in accordance with section 19 of The Higher Education Act of 2013, with effect from July 2019. BU goal in Eswatini is to offer academic programmes of high intellectual and entrepreneurial nature in fields that meet the needs of the Eswatini economy, in order to develop a nation that is already proud of its culture. Focusing on teaching and learning, research, community engagement and internalization, Botho University Eswatini will constantly address the unique needs, competencies and characteristics of the

Eswatini environment, with the ultimate goal of cementing our position as the preferred higher education institution within the Eswatini Higher Education sector. This will be achieved through the offering of academic programmes from the Faculties of Computing, Health & Education and Business & Accounting. This approach will unearth the envisioned focus areas of business, accounting, computing, health and education. It is important that the identified focus areas need to be addressed in an all-inclusive manner to achieve the vision and strategic objectives of the University.

Botho University Eswatini is determined and passionate about contributing to the economic development of Eswatini, and to achieve this, the university will form solid and respectful partnerships that focus on the complex needs of Eswatini. The establishment, alignment and conformity to the Eswatini Higher Education landscape was informed by various national and regional policies, plans and protocols including the Eswatini Higher Education Act; SADC Protocol on Education and Training, National Education and Sector Policy 2018 and the National Development Strategy (NDS).

ABOUT US (CONTINUED)

Studying in Eswatini

Botho University Eswatini is a relatively new university in the Kingdom of Eswatini, established in 2019, with the goal of offering academic programmes of high intellectual and entrepreneurial nature in fields that meet the needs of the Eswatini economy, in order to develop a nation that is already proud of its culture. The campus is located in the city of Manzini, the second largest urban centre behind Mbabane with a population of 78, 000. The local currency is the Eswatini Lilangeni. It is known as “The Hub” of Eswatini and lies on the MR3 road. Eswatini’s primary industrial site at Matsapha lies near the town’s western border.

The population is primarily ethnic Swazis. The language is Swazi (siSwati in native form). The country is known for its best cultural event the Umhlanga Reed Dance, one of the biggest and most spectacular cultural events in Africa. The economy of Eswatini is diversified with agriculture, mining, manufacturing and forestry which contributes to a 13 percent of GDP.

Botho University also has several partnerships with well-known regional and international institutions such as University of Venda-RSA, KTH Royal Institute of Technology-Sweden, Black Hills State University-USA, University of Louisville-USA, Indian School of Mines-India, Manipal University in India and recently World Tourism Forum Lucerne-Switzerland. Baswati Students studying with Botho University have an immense opportunity to take advantage of these international partnerships through various collaborative efforts that may include student exchange programmes and internships, thus giving them incredible international exposure.

Botho University firmly believes in providing its students with a superior learning environment. The University continually invests in excellent

infrastructure and the latest technology driven learning resources. Enormous plans are in pipeline to implement environmentally friendly projects in the university’s existing and future infrastructure.

Academic rigor combined with excellence in all extracurricular activities, ensures that Botho University graduates possess a potent combination of skills.

Botho University is driven by the core values of integrity, excellence, and inclusiveness and aims to produce well-rounded, entrepreneurial, and globally-employable graduates with the attitude, knowledge, skills, and competencies to create value and drive productivity increases needed to catalyse sustainable economic growth. The focus on quality has resulted in Botho University becoming the only university in Botswana with a BOS ISO 9001:2015 certification. With an impeccable reputation for quality in the market, Botho University graduates are leading the way in transforming the economy.

ABOUT US (CONTINUED)

Studying in Botswana

With a population of just over 2 million, the people of Botswana have enjoyed independence for over 50 years. English is the official language and the medium of instruction in higher educational institutions though Setswana is also widely spoken.

Botswana enjoys a politically stable climate and is generally safe with a low crime rate. Transparency International ranks it as the least corrupt country in Africa. The main source of income for the country is from diamonds, with Debswana, the world's largest diamond producing company located here. The government has implemented an Economic Diversification Drive (EDD) to reduce the overreliance on diamonds. The EDD has created jobs in several industries necessitating the need for qualified graduates.

The two largest cities in Botswana are the Capital City Gaborone and the "Capital of the North" Francistown. Botho University has campuses in both cities. The local currency is the Botswana Pula (BWP). 1USD = 10.42 BWP (approximately).

Tourism and Culture

Botswana is well-known for its diverse wildlife and is home to what is popularly known as the Big Five - namely the lion, elephant, rhino, leopard, and buffalo. Tourist attractions include the Chobe National Park and Moremi Game Reserve. Botswana is also home to the world-famous Okavango Delta – one of the world's largest inland deltas. Other reserves include the Central Kalahari Game Reserve located in the Kalahari Desert, Makgadikgadi Pans National Park, and Nxai Pan National Park. There are also specialised sanctuaries like the Khama Rhino Sanctuary (for rhinoceros) and Makgadikgadi Pans Sanctuary (for flamingos). Botswana's internationally revered safaris are simply a drive away for tourists, making them an attractive option for a quick getaway.

ABOUT US (CONTINUED)

Music and dance form a very integral part of the local culture and traditions. Traditional musical instruments and clapping of hands are used to create music and rhythms. The local communities are also known for their skills in basket weaving and pottery (producing beautiful products for commercial use).

Studying in Lesotho

The Kingdom of Lesotho is an independent country, with a population of roughly 2 million people, which has the distinction of being surrounded by another country, the Republic of South Africa. It is one of the few remaining monarchies in Africa. The Lesotho Government is a parliamentary or constitutional monarchy.

Botho University Lesotho campus is in Maseru, which is the country's capital and the largest city. The name 'Lesotho' loosely translates into "the land of the people who speak Sesotho." The official languages of Lesotho are Sesotho and English. Sesotho is closely related to Setswana which is the most widely spoken & indigenous language in Botswana.

The local currency is the Lesotho loti, plural maloti (LSL). 1 USD = 13.25 LSL (approximately). Situated between 28 and 31 degrees south and between 27 and 30 degrees east, Lesotho lies entirely outside the tropics, at a considerable height above sea level, and is thus free of bilharzia and malaria. It has a land area of approximately 30, 555 km², making it similar in size to Belgium or a little larger than the State of Maryland in the USA.

A land of mountains, Lesotho is the only country in the world which has all its land lying at altitudes more than 1500m above sea-level; it is a land of heights and extremes. The highest mountain in Southern Africa, Thabana-Ntlenyana, is in Lesotho, with a height of 3, 482m, while the highest single drop falls in Southern Africa,

Maletsunyane, is also found there, with a height of 192m. Finally, Lesotho also has the highest abseiling cliff in the world at 204m.

Studying in Namibia

Botho Higher Education Institution, Namibia aspires to be the regional hub of academic excellence. We strongly believe International students bring uniqueness to the student community at Botho Higher Education Institution. An international student complement allows for cross-cultural enrichment producing a truly global graduate.

At Botho Higher Education Institution, the Student and Alumni Affairs Department (SAAD) is dedicated to international students. The Admissions department is responsible for international student enrolment providing all assistance in this regard from application to registration as a student. SAAD is responsible for the processing of study permits for international students and providing all assistance required by after they enrol and arrive to study with Botho Higher Education Institution in Namibia.

GENERAL ADMISSIONS INFORMATION

GENERAL CRITERIA

1. Applying to Botho University

Before applying to Botho University, students are encouraged to take time out to familiarise themselves with all the programmes on offer. Applicants must meet all the relevant minimum requirements for the programme of study they wish to study. It is also important for applicants to assess whether the programme they choose interests them and that they want to make a career out of it. Our friendly Admission Team Counsellors will provide information needed about the programmes and assist applicants to make informed choices. Details on programmes are available on our website:

www.bothouniversity.com

2. How to calculate points

The admission point system is used to measure your academic achievement based on your school-leaving results. Your school-leaving subject grades or percentages are converted into points as per the table (see Table 1) and based on your qualification. These points are added up to arrive at the number of points you have obtained.
