Preface

You're about to embark on a journey to wealth and prosperity. The information you receive here will change your life and change the way you think. Most likely, you have never been exposed to what you will read here. You may feel the techniques given here are a little bit 'out there' for your tastes but do yourself a favor and have an open mind when you're reading.

The chapters are not to be read and theorized about. You'll find specific exercises you need to do in order to accomplish what you expect to receive from this information. After all, if you already had the wealth, prosperity and life-style you want, you would have never picked up this book.

Now, get comfortable and change your life.
Tom Murasso, March 14, 2007

Abundance isn't a thing, it's a feeling.

Acknowledgements

Thank you God, Source, the Creative Spirit, Mom and Dad, Glauca, Rhonda Bryne, Esther Hicks and Abraham, Michael Losier, Oprah, Barry Goss, Jack Canfield, Michael Beckwith, Bob Proctor, James Ray, Randy Gage, Dr. Robert Anthony, Michael Talbot, Debbie Ford, Ghalil, Gary Craig, Bob Scheinfeld, Carol Look, David Icke, Me, and so many others who have guided me on my journey. I love you all.

Table of Contents

Chapter	Page
Preface	i
Acknowledgements	iv
1. Money	1
2. Creating Your Desire	13
3. Visualization	19
4. A Leap of Faith	25
5. Expecting Abundance	31
6. The Law of Attraction	37
7. Seed Money	45
8. Penny Millions Strategy	117

The quickest way to double your money is to fold it over and put it back in your pocket.

1

MONEY

Money is the root of all evil.

To be rich you need to be dishonest.

You can't lead a spiritual life and be concerned about money.

Money makes the world go 'round.

There's more to life than money.

Money isn't important.

Have you heard any of these statements? How do you feel about the words written above? How do you feel when I use the word, money? How do you feel when you hold money in your hand? How do you feel when

PROSPERITY CONSCIOUSNESS

you spend money? To buy something you want; to pay the electric bill?

If you're like most people reading this book, you have mixed feelings about money. Most certainly, there is a positive or negative 'charge' you feel when it comes to money.

Money is important. In our society, in our global economy, most people would agree nothing can take the place of money.

However, let me caution you concerning how you feel about money. Know that money is for our use. Money is our servant. It is not our master. Many people get this backwards. The first principal concerning financial freedom and developing a "Prosperity Consciousness" is to know that it is important to use money and love people. Do you know someone who loves money and uses people? You should always love people and use money, instead of the other way around.

Luck has nothing do with acquiring money. How many times have you heard statements like, "Bill is so lucky when it comes to money" or "He was just in the right place at the right time" or something to that effect? Some people may argue that luck does indeed play some part in financial success; it is never the only ingredient to wealth.

MONEY

I mentioned earlier that money is to be used. Actually it has to be used to have any value. If it's stashed away under your mattress or buried in the backyard, it is essentially worthless. Money needs to circulate to serve us. Otherwise it is only as valuable as the paper it is printed on.

I'm sure you've heard stories about a beggar-type person who dies and it's discovered that he had a hoard of over \$150,000 .00 in cash packed in boxes throughout his house. Why would someone choose to live like a pauper when he had so much money at his disposal? He could have used the money and had a wonderful productive life. He could have invested it or simply left it in a bank to earn interest. But he chose to keep it in boxes and thereby rendered it absolutely useless.

Please note when I say money needs to be kept in circulation I do not mean it should be squandered and spent foolishly. There is a difference and you will learn more in the following pages.

Prosperity Consciousness

A clue to developing Prosperity Consciousness lies in the term itself. It is a conscious act; something that is done in the mind. If you've read my book, "Born to Manifest", you are already aware of the fact that everything that you create, be it money, health, romantic relationships or wealth, first is formed in the mind before it can manifest in the physical. There is much

PROSPERITY CONSCIOUSNESS

power in thought and people who have lived their lives using the power of thought have come to be some of the greatest men and women in history.

Without going into much detail about the ‘why’ this is true, let us briefly use a technique which you can begin using immediately to start attracting the money you desire.

Start by picturing yourself as wealthy. Do whatever needs to be done to ‘see’ your self as financially free and abundant. How would you feel? If you’re like most people, you would probably feel a little uncomfortable. Realize however, that wealthy people never feel uncomfortable concerning money. It’s not because they already have money either. People don’t feel comfortable about money because they have it. They have money because they feel comfortable about money! Wealthy people have developed a Prosperity Consciousness concerning money and it stands to reason if you want lots of money you will need to develop Prosperity Consciousness as well.

How do you go about developing Prosperity Consciousness? The best way is with the power of thought. Start seeing yourself as if you already possessed the amount of money you desire. In your mind’s eye, picture yourself as financially free. How would that feel? What would that look like? What would you do with all that money?

MONEY

You see the reason this technique works is because the subconscious mind does not know if what you are thinking is true, imaginary, or whatever. When you succeed in convincing your subconscious mind that you are wealthy and that it feels good to be wealthy, your subconscious mind will unfold and make the image you have formed manifest into reality.

This may sound like pure mumbo-jumbo to you at this point, but I'll be speaking more about Prosperity Consciousness in this book and before you're finished, the 'imaginary' game we just played will make a lot more sense.

Fear and Worry

If you want more money, it is imperative that you release any and all fear and worry about whether or not you will get it. Fear and worry about money are limited beliefs we hold concerning lack and limitation. Fear and worry is about something that hasn't happened; a future that doesn't exist.

Remember the rich pauper I talked about earlier. Why didn't he ever use the \$150,000.00 he had? Most likely it was because he held a fear or worry about being poor. The ironic thing was because of this fear; he lived as a poor pauper anyway.

PROSPERITY CONSCIOUSNESS

In later chapters I'll explain how having this fear, worry, and belief will attract the very thing you don't want to happen!

You Have the Power

Know that you are responsible for creating your life. No one and no thing can change your reality but you. Take back your power. Do not listen to people who tell you that you will not succeed. In fact, don't even tell others you are reading this book and what you're learning. Most people who fail to accumulate the money to live the life they desire are the same people who are easily influenced by other people's opinions. Maybe you read somewhere or heard on the television that the economy is bad or some other doom and gloom story. If you have been influenced by other people's opinions in the past concerning money or any other area of life for that matter, in this very moment make the decision to take back your power. The power we are born with; the power that is sometimes stripped away by our family, friends and society; the power to create our reality.

Consciously Aware

If you're not aware of something, you can not hold it in your experience. If we had no awareness about traveling by airplane, we would never experience it. If we had no awareness about telephones, a conversation using a piece of plastic with buttons on it would not exist. A car, electricity, penicillin, television, movies; the list

MONEY

can go on forever. My point is before all these wonderful inventions existed someone had to form the image of them in their minds. Before we could benefit from these inventions someone had to take the fabric of the universal field, the All-That-Is, the mind of God; whatever you want to call it and form the ideas and images in their minds to manifest them for our use.

You see, everything already exists. Every invention, idea, or thing, all that can be, all knowledge already exists in the universal consciousness. We are swimming in a sea of thought energy where all knowledge that ever was or ever will be is present. We are surrounded by abundance. Everywhere we look we see abundance. There is no lack and limitation in nature. Nature is perfectly abundant. We simply need to think. We need to be aware of our thoughts. We need to be deliberate in our thinking and deliberately thinking of prosperity.

And, what is deliberate thinking? Please note I'm not talking about simply running old memory tapes from your past in your head. I'm stressing the importance of deliberately creating an image in your mind about how you want it to be and holding that image in your mind.

The mind is all-powerful. When you start to think 'relax', every muscle in your body starts to relax. When you worry, every fiber of your being tenses with fear of the unknown. When you think prosperity and begin to hold thoughts of yourself as wealthy swimming in a sea of abundance, your mind and body will instantly vi-

PROSPERITY CONSCIOUSNESS

brate the ideal you hold and you will begin to attract everything you need to become wealthy.

I know this may sound crazy if this is the first time you've been exposed to these ideas. But believe me, developing awareness of prosperity in your mind always proceeds creating wealth in your reality. Look at children born to wealthy parents. They have never known lack or poverty. The only way they know how to think about money is abundance.

Most people have not been born to wealthy parents and were not conditioned to think that way. We must, therefore, develop an understanding of how we have been taught to think and how to change the way we have been conditioned to think about money.

It's a simple process; however it's not easy to do. It takes discipline and desire. It takes deliberate thinking. Regardless, it can be done and the rewards are staggering. The fact that you are reading this book shows you have the desire to change. This book will show you how to develop discipline and deliberate thought.

You Hold the Key

You may not realize it but your thoughts are things. Thoughts can actually be measured by scientific instruments. Thoughts cause a vibration. A negative thought like worry or fear, creates a low vibration or frequency. A positive thought like joy, happiness and

MONEY

wealth creates a high vibrating frequency. The frequencies you create with your thoughts match like vibrations and are attracted to your vibrations. It only stands to reason that you would want to hold positive thoughts so you can attract positive things into your life. This is the very reason we start to develop a Prosperity Consciousness and create a positive image of ourselves in possession of great wealth. Doing so creates the vibrational frequency to attract the riches you want. Remember, you must hold something mentally before you can hold it physically.

No one can do this for you. Only you have the power to create what you want. This may seem like a game you are playing with yourself but your subconscious mind can't tell the difference between actually doing something and visualizing yourself doing something.

You are learning self-development and you are about to discover the true sense of your being. You, my friend, are multi-dimensional. Oh no, you're thinking; not that woo-woo stuff again. Let me explain.

For one thing, I think we can all agree we are physical beings. And, if you start to 'think' about it, we now can agree that we are mental beings as well. Then there are the feelings we have which shows we are emotional beings. It's a little difficult to pinpoint the next dimension we operate from as it takes a bit of faith to believe it. It's called spirit. We are spiritual beings. Some say a 'spark' of God having a physical experi-

PROSPERITY CONSCIOUSNESS

ence. This is your divine nature where your power to create comes from; your life force, your soul-energy.

So by using your God-given creative ability, you deliberately form the idea of prosperity by seeing yourself as prosperous. Then the idea of 'financial freedom' is built in the mental which turns on our emotions (feels good!) and ultimately manifests in the physical. As you read through the chapters in this book, you will have a clearer picture of how this process works.

Let's take a look at the process again. Keep in mind this process works in all areas of life, including the financial example below.

Spirit = the thought of prosperity

Mental = the idea of financial freedom

Emotions = feels good

Physical = the manifested result: money and abundance

Most people who are not consciously creating turn the process inside out. For example, most people will look at their empty bank account (manifested result) and let that dictate their thoughts.

Physical = the manifested result: empty bank account

Emotions = feels bad, worrisome

Spirit = the thought of lack and loss

Mental = the idea of poverty

MONEY

Since the thought of lack and loss is now the vibrational frequency they are holding in their subconscious, they are actually attracting the very thing they do not want; an empty bank account.

Some of you will argue that an empty bank account is an empty bank account and it isn't realistic to look at an empty bank account and visualize yourself as prosperous. This is the very reason poor people stay broke. You must understand that your current state of affairs is the manifested result of previous thinking. If you truly want to change your results, you must change your thoughts, and you must change them now!

People who have accomplished great things, created wonderful inventions, or manifested wealth first chose their thoughts in order to build the picture in their minds of what is now manifested in their life. They chose those thoughts from the universal source which is available to all of us.

This is how the greatest artists, inventors, and athletes consciously create. Tiger Woods and Michael Jordan picture in the mind's eye the ball going into the hole or hoop. In other words, they see the picture of the result they want and then simply 'play-out' the picture in real life.

So keep thinking, "I am wealthy, I am prosperous, money is my servant." See yourself in your mind's eye doing what you will do when you have your ideal.

PROSPERITY CONSCIOUSNESS

Visualize and feel how it feels when you have possession of the wealth you want.

2

CREATING YOUR DESIRE

In order to attract the wealth you desire, it is important to be specific in your intent. You must determine exactly what you want and more importantly, how much you want. You are working with a scientific principal that checks and matches the intention or vibrational frequency you're holding. It doesn't think. It merely accepts the image you're sending and unfolds in the physical. If your desire is 'a bunch of money', your intention is too vague to manifest.

You must decide how much money you want. What will help you determine how much money is enough? You cannot simply say, "I want enough money to pay my bills and live comfortably." Your desire must be an actual number that will cover the cost of your bills and allow you to live comfortably. To accomplish this goal it will require some 'pencil-pushing' on your part. I

PROSPERITY CONSCIOUSNESS

would suggest making a list of your bills and all the activities and things you will use the wealth for.

I'll give you a few categories to get you started, but bear in mind your list will be a work in progress as you look at your current situation and imagine even more ways to use your money. You should use the next 12 months as a time frame.

In the next year, I expect to use this amount of money on:

- Housing
- Food
- Clothes
- Transportation
- Utilities
- Self-Improvement
- Entertainment
- Vacations
- Insurance
- Savings

Keep working on your list until it is complete. Remember not to use the amounts you are now spending. Rather, imagine how your new rich fulfilling life will be and how much money you will need to realize that. For example, you may be spending \$75 a month on personal care; haircuts, etc. Why not add the cost of a massage or two to the figure? That's the figure you're looking for; the cost to have your dream life!

CREATING YOUR DESIRE

Maybe you're renting now or driving an old car. You may want to add the purchase of a new home and new car to your list. It's your life you're visualizing; make it as rich and rewarding as you want. Your mind may start playing with you at this point, and if you hear the voice of doubt rearing its ugly tune, simply ignore it and remember other wealthy people were once in your shoes and used this process to change their lives.

You are learning how to be deliberate in your thought process. Rather than picking a number out of thin air, take the time to really think about what it will cost to live the life you want. After you are done, add everything up and write the total in big bold figures. You have just determined the exact amount of money you desire to attract.

Financial Freedom Account

How often do you pay yourself? You may be thinking, "After I pay everyone else, I never have enough money to pay myself!" It is imperative to pay a portion of the money you earn to yourself. Before you pay the mortgage, your car payment, the electric bill or anyone else, pay yourself 10% of your income. Put it straight into your savings account and keep it there. Before you know it, you will have created a large sum of money for your estate or any wise investments coming your way.

PROSPERITY CONSCIOUSNESS

Debt Repayment Plan

In today's world, debt seems to be a part of life. The majority of people have debt in excess of \$5,000 or more. With finance charges and minimum payments, the bills never go away eating up your entire paycheck and leaving nothing for you. However, there is a solution.

First of all if you have a mortgage payment, consider this debt an investment. For your other debts you should set aside 20% of your income for repayment. Determine the amount you owe each creditor and divide the 20% you set aside for payment. For example, let's say 20% of your monthly income equals \$400. Depending on how much you owe, creditor #1 may receive \$90, creditor #2 may receive \$50, and creditors #3, 4 and 5 equal shares of what's left. You will also need to contact each creditor with your intention of repayment. Use the following letter as a template you can customize for your specific needs.

Dear ABC Credit,

This letter is to inform you of my intention to pay the full amount I owe you, \$_____ plus interest. To achieve this objective, I have set up a plan whereby I will put myself into a stable financial situation without stress or worry. Twenty percent of my income has been set aside to cover my debts and still enable me to have available resources to live on.

CREATING YOUR DESIRE

Each month you will receive a check in the amount of \$_____ until my account is paid in full. I am aware that this is not the figure I previously agreed to pay, but with this plan I am allowed to pay my debt and not incur any more. I know you will appreciate I have devised a system which will allow me to pay my debt in full.

If you have any questions, please contact me. I am very excited about this and if you would like to suggest the use of this plan with other people who are in your debt, please feel free to do so.

Thanking you in advance,
Jack Smith

By using this letter you're not asking your creditor for permission. You are stating your intention to pay and the plan you have implemented to do so. Of course your letter needs to be nicely typed and printed on clean paper and you will enclose your first payment when you send it. Be prepared for a phone call from a creditor who tries to intimidate you by threatening you with court, etc. Just say thank you and stay with your plan. Any court in the land would agree your intentions are well placed and you have a specific plan for debt reduction. Besides, most creditors will not go to the expense of a court case anyway.

Let's recap what you have created thus far.

PROSPERITY CONSCIOUSNESS

You have a financial freedom account (10% of your income).

You have implemented a debt re-payment plan (20% of your income).

You now have 70% of your income to pay for living expenses.

Your mind is free of the word 'debt' and you can now give your energy, attention and focus to manifesting your ideal (wealth)!

It is important to focus on how you want it to be and not on how it currently is. Know that your present situation is a result of the thoughts and vibrational frequencies you held in the past. Now you have implemented a plan to take care of the present situation so your mind is free to create the wealth you desire.

Next I will explain in detail the importance of visualizing yourself as having already acquired the financial figure you've calculated at the beginning of this chapter.

3

VISUALIZATION

Visualization is a creative process that we always use. We may not be aware of how powerful we are and the fact that everything that has come into our lives is a direct result of visualization. Everything good... and bad!

Images are mental pictures that are created from thoughts. Human beings have a God-given ability to think which simply means; we can form a thought and create an image in our minds of what we are thinking.

Stop reading for a moment and play with your thoughts. If we think of a ball, an image of a ball flashes on the movie screen of our mind. If we think of a silver coin, the thought we're thinking forms into an image of a silver coin.

PROSPERITY CONSCIOUSNESS

Anything that is created is first preceded by the image we have made in our minds. Henry Ford had an image of an automobile in his mind before he built one. Bill Gates had an image of a computer operating system before Microsoft Windows became a reality. We think first, form an image, and then we manifest the ‘thing’.

Think of a fork. You know, we didn’t always have forks. Many, many years ago someone became tired of using their hands to move food to their mouths. This person started to think and formed an image in his mind of a tool for eating. He probably saw himself eating with this ‘thing’ that had a handle and prongs to grab the food. The image he formed appealed to him because he imagined it would be more civilized to use and certainly less of a mess.

Since this image appealed to this person, he thought of it often and brought about a desire to build a replica of the image in the physical world. Once he had built this ‘thing’ he used it and found it was good. He called the thing a ‘fork’. The word fork is a symbol that forms an image of a fork in your mind when you hear the word used.

Someone noticed a fork did not work well for soup, so the spoon was born. Someone got tired of sleeping on the ground and the next thing you know we have a bed. We have literally created our world.

VISUALIZATION

Henry Ford imaged a car. The Wright Brothers imaged a plane. Everything ever accomplished was at first an image held in the mind. We create our lives in the same way.

I'm going to get a little 'cosmic' for a moment. But, if you really think about what I'm saying, you'll see it makes sense. Quantum physics has determined that everything that exists in our reality is the creation of thought and observation. And, the substance used for creation is called the Creative Field. Now, I've heard the Creative Field called the Universal Mind, the All-That-Is, and the Super-Consciousness. Whatever terminology we use to call it, know that this is the creative substance that is all around us. This is the substance we use to form images in our minds. Most people are not consciously aware of the power here. We can deliberately tap into this Creative Field and form anything we desire. Deliberately form an image of yourself already in possession of the amount of money you want and living the life-style you desire. On the other hand, you also have the ability to form an image of yourself in debt and wondering how you're going to pay the mortgage. It's a simple choice of which image you should hold in your mind.

Anybody can do this. Everybody does this. Everyone has used this visualization process from the greatest people throughout history to the beggars on the streets. Whatever you can imagine in your mind, you can build in the physical.

PROSPERITY CONSCIOUSNESS

We are truly responsible for our own realities. Just build an image of prosperity in your mind and watch what is attracted to you. You may see some set-backs along the road, but you must continue to hold the image of prosperity. Persistence is the key. Do not let anyone or anything discourage you... not even that inner voice of doubt. I realize that it is not always an easy thing to do because it takes great mental strength. It means taking control of your mind to create and hold the image of what you desire. Build an image of what you desire and then act as if you have already received it. In other words, act like the person you want to become.

Take a moment now to get completely relaxed. Let your mind form an image of yourself living an abundant life. See yourself in possession of what you desire. Become aware of the Creative Field which surrounds you where all creation takes place. Tap into this substance and create your new life in your mind. Write a brief description of your image on a card and carry it with you every day. Read it several times a day until the image fills your consciousness.

Start your description with these words: Thank you. I am so happy and grateful now that I ...

Visualization is a process that has been taught by all the great teachers throughout history. The reason visualization is so powerful is because as you create an image in your mind of yourself in possession of your

VISUALIZATION

desires, you are creating powerful feelings which send out a signal to the Creative Field to build the image in the physical.

Dr. Denis Waitley used the visualization process in the Olympic program. When you visualize, you materialize. He told the Olympic athletes to run their event in their minds and hooked them up to sophisticated bio-feedback machines. An amazing thing happened. The same muscles fired in the same sequence when they were running the race in their minds as when they were running on the track. This is because the mind can't distinguish between imagining it and really doing it.

Anything that has ever been invented or created started as a picture in someone's mind. They held the image clearly, and by focusing on the picture of the end result in their minds, the Creative Field brought the creation into the physical. In this field you have everything now.

PROSPERITY CONSCIOUSNESS

People are where they are because that's exactly where they really want to be whether they'll admit that or not.

4

A LEAP OF FAITH

Sometimes life deals what appears to be an insurmountable problem and we feel overwhelmed. We're not sure what decision to make or which way to turn. Our doubts take control and we wish we didn't feel like we were all alone.

Other times we may be wishing we had this or that, trying to hold on to the image of prosperity in our minds, yet hoping a genie with a magic wand would come along and give us what we want.

Friends, there is a Genie. You CAN have the things you want, and if you use the processes in this book, you will have them. You are going to learn a new awareness of how things really are. Of course if you shared this information with others, 9 out of 10 people will think you've lost your marbles. For now, keep it to

PROSPERITY CONSCIOUSNESS

yourself and after you're living your life of prosperity, maybe they'll believe you.

Everything you see around you, including yourself, is the expression of the Creative Source. This 'spirit' is forever flowing through you and everything around you. This powerful 'energy' fills the space and nothingness everywhere. Everything comes from this one 'force' and it operates by universal law. The image of prosperity you hold in your mind can only come to you (physical manifestation) by way of the law and your belief and faith in it.

Faith is the ability to see the invisible force at work in the universe. Faith is the ability to believe in the incredible. And, believing is the ability to receive what the non-believers think is impossible. If a person achieves great things, you can rest assured that she has faith in her God-given ability to achieve what she imagines. She has faith in the 'spirit' that resides inside of her and indeed, in all of us.

Few people have got a grasp on how faith in oneself (the spirit inside) has to do with achievement. Faith is all-powerful. Whatever you accomplish in life will be in direct proportion to the faith you have. You must *believe* and have complete faith that whatever must unfold in the universe will unfold and bring you the people, events and things to bring about your desires. You see, it's not that people lack the ability to create

A LEAP OF FAITH

what they want; it's the fact that they do not have faith in themselves, in God, and in the process.

People were never taught that God, Spirit, Universal Force, the I Am, resides inside. We were told God is 'out there'. However, we simply need to tap into this all-powerful spirit within us to make a connection with the Source and create our dreams. Beware if you do not make this connection, you will never be what you long to be or have what you want to have. Your wish will go unanswered.

If you are full of fear of failure or forming 'what-if' negative images in your mind, you will not accomplish your desires. You will achieve what you desire, and be what you want to be, only by abiding by this law.

We are working with Spirit and realizing Spirit is everywhere at every moment, we can tap into this source energy anytime and anywhere we wish. Once you come to realize that this spirit-energy flows through you, you will never be anything less than positive, vibrant, forceful and self-reliant in your dealings with the world. You will realize you are a child of God, and as such, are a co-creator in manifesting your life. Nothing and no one can drag you down and crush your enthusiasm. Understanding and allowing this truth will cause the universe to unfold and help you reach your goals.

Spirit's power is boundless and forever moving through. We can refer to this movement as thought

PROSPERITY CONSCIOUSNESS

forming in our consciousness. As thought moves into you, you choose the vision or image you wish to form with it. We do this all the time. We can form pictures in our minds of friends, family, houses, and cars that are already in our lives and of people, places and things that are not in our lives. Try it now when I ask you to form an image of a basketball. Most people will conjure up a picture of a basketball on the movie screen of their minds with little or no difficulty. You may have even formed a picture of a basketball including Michael Jordan getting ready to sink it into the hoop.

So even though this thought-substance or Spirit is always flowing through you, it is your job to form it into an image. Your assistance (or intent) is required to co-create and manifest the things you desire. God or Spirit will not manifest the basketball or whatever. Your input is needed for creation in your reality. This is why we have free will or the right to choose. People tell me, "God will take care of me," and indeed he will, but only if you ask, and you ask by forming the thought-substance into the picture of your desire.

You must always build the image and know in your heart the image will appear in the physical. You must look at God as the great provider or source-energy and as soon as you ask and believe, God (the universe) will unfold to match the vibrational frequency you're holding. As your vibrational frequency changes, you will begin to feel differently which will cause your actions to change and you will begin to attract to you other

A LEAP OF FAITH

like-minded people. Wonderful things will begin to happen and your job is to keep your vibrational frequency positive and accept the good things that come your way. As long as you keep the image of the good you desire in your mind, you will always receive your desire. Just 'keep the faith' and know that Spirit has been impressed upon by your image (imagination) and has the ability to bring about the results you desire.

From time to time, you may not see immediate results and may even seem like your back-peddling. However, keep your focus no matter how bad it gets and know that holding the image of your perfect desire will move you in the direction to manifest it.

The image that you form must be heart-felt in the sense that you're not merely playing an image-making game. You must feel the passion that is fueling your desire. There is no room for doubt, fear, pessimism or negative thinking. These negative emotions will only drain you, lower your vibrations and delay your goal. You must employ enthusiasm, ambition, hope, faith and everything else which keep your energy positive, purposeful and creative. When you're feeling down, immediately change your mood to positive by knowing God, the Source, the Spiritual power of the creator is in you.

If you try to force the process you will only negate the results as trying to do it 'your way' by forcing things to happen is not necessarily Spirit's way. Learn to listen to the God within that speaks in feelings. Because

PROSPERITY CONSCIOUSNESS

when you feel good, you are connected with Source. When you feel bad, you're off course. Understand that if you do stumble, the minute you realize you have, reform your image and Spirit will pick up right where it left off.

Follow what you 'hear' inside you and not what others may be telling you to do. That inner voice often tells you to do things that run counter to the way most people live their lives. Do not be concerned with what others think. You are creating your life, not theirs.

Remember to build the image of yourself already in possession of what you desire and the universe will manifest the image you have created in the physical.

5

EXPECTING ABUNDANCE

You understand you cannot have wealth in the physical world until you have first visualized wealth in your mind. You must create an image of your desire. By doing this process you are developing a Prosperity Consciousness. But what does this really mean? It means that before we can overcome limitation and the poverty consciousness that is buried deep within.

Prosperity is simply the inner awareness of the unlimited abundance that is the universe, God, or Source. It is impossible to feel poor when you have come to understand your connection with the All-That-Is, which is an endless supply of everything.

This bounty of plenty always flow toward the open mind of the one who expects to receive it. You must not only desire what you want, you must expect to receive it.

PROSPERITY CONSCIOUSNESS

If you're like most people, you were brought up to believe that if you have enough desire you will reach your goal. But you must understand if your desire is not coupled with expectation that you will receive what you want, you will become frustrated and disillusioned by your lack of results. If you think back at the goals you have accomplished, you will realize that not only did you desire to reach your goal but also expected to attain it.

Desire without expectation is really just wishful thinking. Since most people wish with a positive desire but expect negative results, they seldom attain what they want. Your ideal or intent, the wealth you desire, can only be realized if the proper expectant attitude has been combined with the desire so it is not diluted with negative thoughts and emotions.

To understand how this works, let's review what we learned. As you remember we started off talking about money and its role as our servant to be used and circulated. We must use money and love people.

Next, we learned how to determine how much money was necessary to provide for the life-style we desired. We need to be specific in the amount of money we would need to live the way we want. Once we have established the figure we need, we then learned the importance of forming an image in our minds of ourselves already in possession of the wealth on the movie

EXPECTING ABUNDANCE

screen of our consciousness. We examined the importance of immersing ourselves in a vibrational frequency of imaging already having what we want and what it would feel like.

In the previous chapter we became aware that we are co-creators with God or Spirit. We learned we have the ability to tap into the universal thought substance and choose any image we chose to build in our minds. Focusing on this image will set the universe in motion to begin the manifestation process. We discovered that when we finally grasp this process and our role in it, expectation becomes second-nature regardless of what may be going on in the outside world or what others are saying to us. We learned we must have an undying faith and an expectation that our desire will become a reality. You cannot just believe you will receive what you want; you must know you will receive what you want. Once we have developed this mindset, nothing will cause you to waver.

Desire is the engine and expectation is the force which attracts what you want. So see yourself moving towards the wealth you visualize and see the wealth you visualize being attracted to you. Know that you will come to possess the wealth that is moving towards you. How much time will it take? No one knows, so don't become impatient and frustrated if you don't get what you want overnight. Know this though, your desire has been created and it is on its way to you.

PROSPERITY CONSCIOUSNESS

It is not necessary to speak with anyone about this. It is not necessary for anyone to believe you will receive your desire but you. The only thing necessary is for you to image it and believe you will receive it. Only you can control your truth and control your power. Know without a doubt you will receive what you have imagined.

Many people live their lives on the basis of “seeing is believing.” The only images they can focus on are the ones they can understand with the five senses. The individuals with real “vision” have always known the principal of what you think is what you see. The images in the mind come before the images we see. The world we see around us with all its modern conveniences has been created by men and women of vision; image-makers.

As you become accustomed to the process of the power of Spirit, it will become easier and easier to believe you will attract your desire. All things are possible with God. The creative substance sole purpose is expansion and growth. However, this expansion and growth can only express its potential in accordance with the limitations the co-creator (you) put on it with your belief system. Therefore, any doubt or blockages caused by limited beliefs you hold in your mind dictate the limits Source can express through you. If you hold an image of poverty in your mine, what you have created will be seen in your material world. However, since you are

EXPECTING ABUNDANCE

now holding an image of prosperity, wealth and abundance will be expressed.

Keep visualizing yourself as a perfect vessel for Spirit to create the desires you want and you will find it easier and easier to expect the good you want to manifest. You will understand that doubt and resistance obstructs the flow of the creation and only when you imagine and expect the results will you see your desire in the physical.

You must guard your mind constantly against doubt for it is a negative vibration which will diffuse the positive vibration you are holding. When you expect something wonderful to happen, you must never let the voice of doubt enter your thoughts. Think of a farmer who plants a seed. He waters it every day with the expectation that the seed will grow into a plant. He doesn't dig up the seed every day to see if the seed is germinating. He expects the result without doubt. When you entertain doubts and create that image in your mind, you are actually creating an image of what you don't want and that is what you will attract.

Whenever you catch yourself having doubts, relax and form the image of yourself already in possession of the wealth you desire. When you do this you are developing a habit of deliberately controlling your thoughts. Program your mind to expect the results you want.

PROSPERITY CONSCIOUSNESS

Many people live their lives by default. That is, they form images in their minds from their current situations. If the mailbox is full of bills, the image they form in their minds can be anything from waiting for the paycheck to questioning themselves about how they will be able to pay the debts and have any left over to provide for their family. This is not a pretty image to hold.

Let's recap the steps for achieving abundance in all areas of your life:

Identify desire and form an image, give your desire attention, energy and focus and without a doubt, expect to receive it.

6

THE LAW OF ATTRACTION

Everything is vibrating. You, me, a tree, a rock; at its deepest level, everything is vibrating or said another way, everything is a vibration. Nothing is idle. Everything is in a constant state of motion. From the electron to the universe, everything is varying degrees of vibration. To vibrate is to move back and forth at a rate of speed.

The rate of vibration for a certain thing is called a frequency. The higher the frequency is, the more powerful the force of the vibration. Thought is one of the highest frequencies and therefore, one of the most powerful.

Look at the back of your hand while keeping it perfectly still. While there looks like there is no movement, know that the particles that make up the hand are in a constant state of motion. Although the

PROSPERITY CONSCIOUSNESS

movement cannot be seen by the naked eye, under a high-powered microscope this movement can be seen.

Now, quickly move your hand back and forth. We know the particles in your hand are moving and now you have deliberately increased its vibration.

Positive and Negative

Usually people will fall into one of two categories; positive (optimistic) and negative (pessimistic). People who are positive in their thoughts tend to look upon life with a happy joyful attitude (the glass is half full). They try to always see the good, even when things are bad. Positive people attract positive people, events and things.

On the other hand, negative people look at life as dark, gloomy and depressing. Even when things are good they find the bad (the glass is half empty). They are sending out negative vibrations and they anticipate and expect to receive the worse. They, of course, attract the very negativity they don't want. Negative people are depressing to be around. They radiate doom and gloom and seem to enjoy living in the funk they have created.

We do have free will and as such, have the choice to adopt a positive or negative personality. A negative person may, through awareness and effort, change himself into a positive person.

THE LAW OF ATTRACTION

The brain is like a super computer sending vibratory signals to the body. It controls the body through vibrational energy. The brain also sends vibratory signals out to the universe. The vast majority of people are not aware of the connection between the vibrations they send and the results in their life.

That's good news because you have the ability to change your thoughts which change the vibrations you send and consequently your results will change. You can improve your life just by changing your thoughts.

Scientists have determined that everything is vibrating at a certain frequency. Like frequencies attract like frequencies. A wine glass may vibrate in resonance with a certain note on a piano, yet will not vibrate when another key is pressed. The wine glass and the piano key are two entirely different objects with different sizes, shapes and weight, yet they resonate with each other because they reside in the same vibratory field. This field is sometimes called the sphere of relative motion.

All things have their particular rate of vibrational frequency which corresponds to the number of times the object vibrates back and forth. You are starting to see the importance of getting your thought frequencies in line with the positive vibrational energy that awaits you.

Everything is Energy

PROSPERITY CONSCIOUSNESS

Everyone and everything is energy. Knowing this, you come to realize that everything in this entire universe is connected. You too are connected to everything in this universe. The fact that you don't see the connection does not alter the fact that the only difference between one thing and another thing is its rate of vibration.

As you create an image in your mind of what you want, your thoughts create a vibration. As you focus your attention on the image you have created, you actually give more density to your thought. This in turn sets up a vibrational frequency in your whole being.

We have already discussed how two things could be entirely different as far as size, shape and weight could still be in resonance with each other. This is because both objects occupy the same vibratory field. When you hold the image of your desire in your mind you are in resonance with every particle necessary for the manifestation of your image in the physical. All things are creations of energy.

Vibrational You

You are constantly giving off a vibration, either negative or positive. When you first meet someone and like them, you are vibrating at a similar frequency. Controlling your thoughts gives you a powerful tool to attract positive people into your life. Imagine you are like a "broadcast tower" sending out a frequency with

THE LAW OF ATTRACTION

every thought. When someone sending out a similar frequency comes in contact with you a harmony is formed and often each person knows what the other is thinking.

Every physical thing gives off a vibration. Everything you see, hear, taste, smell or touch is sending off a vibration. If you get near enough to enter the vibratory field surrounding the thing, you will be affected by it. Did you ever notice how sitting by a body of water brings a calm feeling over you?

The same is true of the vibratory nature of people. Everyone is sending off positive or negative vibrations looking for similar vibrations. Let's say you wake up one morning in a bad mood. Basically you're having a bad day. Other people who are in bad moods will be attracted to you.

The same is true if someone is vibrating anger. If you are the type of person who is easily angered and you come into contact with the other person who is giving off anger vibrations, you will become angry because the frequency you have come in contact with resonates with the vibrational frequencies you hold.

The only thing which stops a thought which you or someone else is sending is that which resonates with it. If you come in contact with a negative field, and you are easily influenced, you will become negative your-

PROSPERITY CONSCIOUSNESS

self. Conversely, if you come into contact with a positive field, you will experience the positive.

Each and every day negative and positive thoughts are filling the space we occupy. Both types of vibrations are bombarding your brain. If you are not deliberately controlling your thoughts, you can feel like a victim of the world around you. Once you understand how to control your thoughts and stay in a positive vibration, you will begin to attract the people, events and things that you choose.

Everything is Still Energy

In only stands to reason that if everything is energy (Source), and energy is neither created or destroyed, everything that you are intending is already here and choosing your thoughts (your image) and staying in harmony vibration with your ideal will attract it to you. Everything you are looking for is looking for you. Everything you want is already yours. So you're really not getting something, your task is to become more aware that you already possess it.

When you bring your life into harmony with what you want and loose any thoughts of doubt, the cause of any negativity in your life will be removed and you will no longer attract what you don't want.

Everything around you, everything you can see and everything you can't see, is an expression of the crea-

THE LAW OF ATTRACTION

tive Spirit. This is an orderly universe, governed by law. The images you form in your mind set up a vibration by which the Law of Attraction manifests the form in your reality. If your image is focused you will receive the desired results. However, if your image is continually fluctuating between expectation and doubt, you set up a chaotic process which will deliver chaotic results. Unfortunately, people who are unaware of the power of their thoughts are thinking prosperity one minute and lack the next. They are continually switching their vibrations from positive to negative. The sad truth is most people spend their entire lives oscillating back and forth between the two extremes and the result is a little bit of this and a little bit of that.

It is a fact that everything you want is already here. Your job is to get into harmony with it. You will never get into harmony with prosperity if you insist on thinking of lack and limitation. You are responsible for your thoughts and responsible for the results you receive. You always get your wish, whether it's what you want or what you don't!

PROSPERITY CONSCIOUSNESS

“With perfect safety, without any risk whatever, our seed money so planted will return to us tenfold.”

7

SEED MONEY

Based on the book, *Seed Money in Action* by Jon Speller (used with permission)

Within the last fifty years many thousands of people have read John Hoshor's wonderful, **SEED MONEY: THE LAW OF TENFOLD RETURN AND HOW IT WORKS**. They have grasped the scientific principle behind the Seed Money Formula and have successfully applied it in their daily lives to end their money troubles. Others have not, for various reasons. This book is to help people get to prosperity, who didn't get it the first time.

John Hoshor wrote [in a booklet published by the Church of Religious Science]: “Let us imagine that we have \$50 in U.S. currency. We could put the money in a savings bank and it would return us approximately \$2

PROSPERITY CONSCIOUSNESS

a year. We could buy a mortgage certificate and get a return of \$3 or even \$4 a year. Or we might use the money to buy a share or, depending on the price, several shares of stock in some corporation, perhaps get dividends and, provided we bought at the right time and sold at the right time; make a profit on the transaction.”

“Of course, we could also use the \$50 for food, rent, clothing, books, and tools or for other needs or just for pleasure... That is why money is the medium of exchange. It can be used for many things.”

“One of the things for which money can be used--which at this writing is not generally known--is as SEED MONEY. This means that we can so use money that we reap a harvest of multiplied money.”

Here are a few of the blocks that some people have had using the Seed Money Principle.

A retired man called me long-distance from California. He said that he has read SEED MONEY, followed the formula faithfully, but could not get a return. It seemed that his greatest joy in retirement was driving his car on vacation. One day the old car just gave out--it couldn't go another mile and it had to be towed to a wrecking yard. For two months the man tried to use Seed Money to demonstrate enough money to buy a new car. He gave his Seed Money to his Church, believing he would get a tenfold return. But nothing happened.

SEED MONEY

He seemed to understand the principle clearly and to have complete faith in its workings. He puzzled me for a while. Then he said, "I better hang up. The call costs too much filthy money."

I asked, "Why do you say that money is filthy?"

His reply gave me the answer to his failure to receive his tenfold return: "Isn't money the root of all evil?" he asked.

I told him: "The Bible doesn't say that 'money is the root of all evil.' It says '**the love of money**' is the root of all evil and even that needs explanation." In Biblical days money as we know it today was very seldom used. Most exchanges were on the barter system. A carpenter would exchange a table for some bushels of grapes. A farmer would exchange grain for clothing, and so on. Money, in gold and silver, was only used for large transactions.

Today money is a universal medium of exchange for all goods and services. When we fix it firmly in our minds that the service that money provides is different from the love of gain, profit and advantage, then we can positively view money as a tool, not as a goad or something to hoard.

The Bible says you 'cannot serve God and mammon.' [Luke 16:13] Mammon represents hoarded money--that which is not placed into circulation. Money in circula-

PROSPERITY CONSCIOUSNESS

tion is God in action. Money, which is hoarded, is useless, for money is merely the medium of exchange.

I said to the man, who called me, "You have had a hatred of money because you thought it was evil. Since like attracts like, you have attracted the hatred of money back to you, returned you no good even for the good you have done."

"Don't think of money as a dead object of greed. Think of it as a living means of acquiring your needs--good for yourself and for others. Right now, money should represent for you the car that will give you mobility and options--both of which are good."

He thanked me and two weeks later I heard from him again. "It's marvelous," he said with great joy in his voice. "I received my tenfold return. Yesterday my married daughter drove up from Los Angeles in her Volkswagen. She gave me the keys, telling me that her husband had just bought her a new station wagon so that they and their children could go on camping trips in the mountains. She knew that my old car had given out, so instead of selling the Volkswagen, she gave it to me."

"Wonderful," I said.

"You know," he said, "once I realized that it wasn't money for money's sake that I wanted but the good I could buy with it, I overcame that mental block. The Volkswagen is worth even more than ten times my

SEED MONEY

Seed Money, and on top of that it doesn't use as much as my old car--I can travel much farther for the same money.”

This is just one illustration how a person's changing their concept of money enables the use of the Seed Money Principle.

Every creative act begins with a thought. Have you been thinking of money as evil? Or, have you been thinking of money as the good that it represents and manifests in your life?

John Hoshor wrote: “Just **how** do we plant seed money? What happens when we do plant it? We give it to our Church or to a hospital, school or college or to any of the Social Service organizations, which subsist on donations. Or, if we to wish, we could give it to any needy person, friend or stranger.”

“Then we follow a specific mental formula derived from the Great Teacher and proven absolutely true and dependable by such financial giants as the first John D. Rockefeller, Andrew Carnegie, Julius Rosenwald, Andrew Mellon and others of great wealth.”

“With perfect safety, without any risk whatever, our seed money so planted will return to us tenfold. We will receive back \$500.”

The second block often found in people who have not yet succeeded in practicing the Principle of Seed

PROSPERITY CONSCIOUSNESS

Money is this: many people don't understand how the giving of Seed Money produces its tenfold return **without any risk whatever**. But it is a fact. The Law of Tenfold Return always works. There is absolutely **no risk whatever** in the Principle of Seed Money. If you do not follow the formula precisely, there **is** risk, but then you are not actually practicing the Principle.

I received a rather irate letter from an airplane stewardess flying on charter flights out of Chicago. She wrote: "Mr. Hoshor's Seed Money doesn't work. I know because I tried it. When I fly to Las Vegas I play the slot machines. Sometimes I win. With Seed Money I don't get back a dime."

Writing back to her I gently informed her that the Seed Money Principle itself always works but that she apparently is not really practicing it.

As illustration I wrote that the Principle of the Parachute is itself infallible. A properly made, properly packed, properly checked, and properly used parachute never fails to open.

If the parachute is not made properly, is not packed properly, is not checked properly or is not used properly it will not open. That is not the fault of the Principle of the Parachute or of the parachute itself. It is the fault of the person, or persons, who made, packed, checked or used the parachute.

SEED MONEY

The Principle of Seed Money works in the same way as the Principle of the Parachute, or as any other Principle, for that matter. If the Principle isn't properly applied you aren't working the Principle.

The Seed Money Principle is not a gamble such a slot machine or a lottery. When you think that you **may** get your tenfold return from 'planting' some Seed Money - - you **won't**. When you believe that you **will** get a tenfold return on your Seed Money, you **will**.

Jesus said, "What things so ever ye desire, when ye pray, **believe** that ye receive them, and ye shall have them." [Mark 11:24] He did not say that you **won't** have them. He did not say that you **might** have them. He said that you **shall** have them.

The 'magic' word Jesus used there is 'believe.' There is no room for chance in believing. There is no room for chance in the Law of Tenfold Return.

I advised the stewardess to only practice Seed Money when she felt that she could remove all doubts about receiving her return. If she couldn't try to remove her doubts about receiving her return and if she couldn't try to remove her doubts, I advised her to forget it.

Two months later I received another letter from the stewardess. She said that her reason for wanting her tenfold return was because she wished to have enough money to visit her fiancé at the US Air Force at Wiesbaden, Germany. As a non-scheduled domestic airline

PROSPERITY CONSCIOUSNESS

stewardess she didn't get reduced fares, which most airline employees have. She said that with one week's meditation on the Principle of Seed Money--after she had received my letter--she had become convinced that the Law of Tenfold Return worked in Principle and that she could apply that to attain her desired trip. She gave ten dollars, following the formula properly in every step, to her Church that Sunday. On the following Wednesday she received an offer to take the place of a MATS (Military Air Transportation Service) stewardess on a European flight--to Wiesbaden Germany.

Her tenfold return? She called her parents to tell them of her new assignment. Her father told her that he had just received the return of his income tax overpayments. He sent her a gift of one hundred dollars for extra spending money.

This is just one example of many deserving people who give, and give, and give Seed Money, without really believing they will ever get their return. They don't, until they really believe that they will.

Do you think that you only **may** get your tenfold return? Or do you **believe** that you **will** get your tenfold return?

Some people have the same problem the stewardess had, but in a different way. They give their Seed Money to their church, believing they will receive their return. Then a member of their family, a friend, a co-worker or some other person scoffs at their belief.

SEED MONEY

Doubt creeps in. Their return is deflected, and the Law appears not to work.

John Hoshor writes: “Can't you just see the bankers and the economists holding up their hands in horror at Seed Money? They will tell you its impossible!”

“You are welcome to believe them and lay this booklet aside or give it to someone else. Or you can read it and learn **how** SEED MONEY multiplies, **why** it multiplies and by following the principles and methods set forth, prove its truth and worth for yourself.”

“Incidentally, it has often been said, many times inaptly, that ‘The truth shall make you free.’ The only truth that will make you free is the truth that you prove for yourself. If you cannot prove something in your own experience--if you cannot apply it and demonstrate it in your daily life--whatever truth it is, or is not, will not make you free.”

A housewife visited me with the complaint that her husband didn't believe that the Seed Money Principle really works. “He laughs and calls it a fool's gimmick,” she said, “He keeps me from receiving my tenfold return.”

I told her, “No one can prevent you from receiving your tenfold return except you yourself. Your husband's remarks cannot prevent your tenfold return unless you yourself give them the permission and power to do so.”

PROSPERITY CONSCIOUSNESS

As Ernest Holmes wrote in his great book, *THE SCIENCE OF MIND*, **“Nothing can happen to us unless it happens through us.** That which we refuse to accept **to us cannot be**, and that which to us **‘is’** cannot help becoming a reality in our lives.”

I asked her to remove the blocks caused by her acceptance of her husband's remarks by denying they had any effect on her exercise of the infallible Principle of Seed Money. I asked her to affirm that she and she alone, puts the Power and Abundance of the Universe into motion for her tenfold return.

I asked her, recognizing her great faith in the promises of the Scriptures, to recite--as an addition to the Seed Money process--when giving her Seed Money: “Surely, blessing I will bless thee, and multiplying I will multiply thee.” [Hebrews 6:14] So God promised. So is it with Tenfold Return.

Six weeks later the housewife paid me another visit. She was now practicing the Law of Tenfold Return successfully. There was an interesting sequel. Her husband, seeing his wife's success with Seed Money--despite his scoffing--secretly started applying the Seed Money Principle himself. He finally, rather sheepishly told his wife, “It works.” And it does work.

The Law of Tenfold Return does not only work here and now, but forevermore in the future. The Law of Tenfold Return has always worked throughout the ages. John Hoshor writes:

SEED MONEY

“Long ago the prophet Malachi knew about SEED MONEY. A prophet becomes a prophet because he is inspired to rise to higher levels than most people and thus can more clearly see things and know things for what they really are.”

Malachi said: “Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the LORD of hosts, if I will not open you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it.”

In present day words Malachi's inspired statement means that you should give your Seed Money to your Church so that, as you freely give, so you shall freely receive. And it will be proved NOW, declares the Law of Tenfold Return, that the horn of Infinite Plenty shall be opened and pour you such an Overflowing Abundance of Good that you shall not have room enough to consume it.

A man I know is in the printing business. He was one of the printers of John Hoshor's SEED MONEY. His business had taken a turn for the worse. His printing presses were idle more often than they were busy. His overhead--rent, payroll, utilities, etc.--was pushing him deeper and deeper into debt.

He asked me, “Does Seed Money really work?” I told him, “Of course--when you follow the process faith-

PROSPERITY CONSCIOUSNESS

fully, the Law of Tenfold Return always works. It's simple **CAUSE and EFFECT.**"

"But can I receive as much as I need?" he asked.

"Nothing can limit what you receive except for the limits you place on yourself," I replied, "do you know the Twenty-Third Psalm?"

"Yes," he said.

I counseled, "Then remember David's words: "Thou preparest a table before me in the presence of mine enemies; though anointest my head with oil; **my cup runneth over.**" [Psalm 23:5] It doesn't say **could** runneth; it says **runneth**. Isn't that definite? It doesn't say half full. It doesn't say full. It says runneth **over**. Isn't more than enough, enough?"

"Yes," the printer said. I could see that he understood. Several months later I called him to order another five thousand copies of SEED MONEY.

He said, "My business is running at more than capacity. Even with overtime I can't keep up with the demand. Thanks to Seed Money. But I'll print the books for you and Seed Money the overtime charges."

This printer is now so prosperous that he spends three months of every year in Florida--thanks to his understanding and practicing of the principle of Seed Money.

SEED MONEY

Do you demonstrate ten times one dollar, but fail at ten times ten dollars or ten times one hundred dollars? Or, do you know that the Law of Tenfold Return works equally well on a thousand dollars as it does on a single dollar?

The only limitation on your return is caused by yourself. As Dr. Raymond Charles Barker of First Church of Religious Science in New York City says: “All causation is from your subconscious mind, and your subconscious mind can be changed. **You are the only one who can change it.**”

You alone can affect your reaping of your tenfold harvest--regardless of the amount of cash, valuables or skill-effort involved, [by changing your behavior].

As John Hoshor says, “Were Malachi around today to witness for us he would tell you that our \$50 planted as SEED MONEY and properly cultivated would certainly return us \$500 and that other seed money sums would return proportional harvests.” Jesus, too, was focused on seeding change, giving, giving, giving; and He knew what the outcome would be.

As money is solely a medium of exchange, your tenfold return is not necessarily in the form of currency. John Hoshor cited how a friend of his proved Malachi’s promise--Malachi 3:10--with [an example of, of all things] typewriters:

PROSPERITY CONSCIOUSNESS

My friend Sigmund was studying to be a writer. He felt that he could progress faster if he had a typewriter. Sigmund asked me to help him demonstrate a typewriter. I agreed and we started to work that night.

Although Sigmund had often been writing at his desk when his landlady came to straighten up the apartment, the very next morning she suggested that he go to the basement and get the typewriter some folks who had once lived there had left. She told Sigmund that he might have the typewriter.

Sigmund phoned that day and gave me an account of what had happened. He said, however, that the machine was not new and that he had taken it to have it cleaned and put in working order.

The following day Sigmund picked up the typewriter and asked me to come and see it. I went to his place. I'm quite certain that it was not the first typewriter ever manufactured, but it could have been the second. The two of us sat quietly and looked at it.

“Does it work?” I asked him.

Sigmund laughed and said, “It does, in a manner of speaking.”

During the next few weeks the machine needed fixing several times and Sigmund told me that he had finally decided to leave it in the repair shop.

SEED MONEY

Soon after, I was called to Phoenix, Arizona where I spent several months. When I returned to California I went again to see Sigmund.

He asked, "Why don't we try the typewriter demonstration again?"

"What kind of machine do you want?"

Sigmund thought and answered, "It doesn't have to be new but it should be a late model of a standard make and also be in good working condition."

I said, "All right, that's our pattern, a late model standard make in perfect working order."

We both went to work on it that night.

It was three days before I spoke with Sigmund again. He phoned and said that he had tried to reach me the day before. I explained that I had been away on a business appointment and asked what happened.

Sigmund said, "A friend of mine who's been drafted into the Army brought me a typewriter that is only three months old. I once lent him my car to drive his mother to Seattle and he said he didn't know when he'd need the typewriter again, if ever, and he wanted me to have it."

I asked, "What kind of condition is it in?"

PROSPERITY CONSCIOUSNESS

“Perfect,” was Sigmund's answer.

I said, “Fine.”

Sigmund said, “That’s not all. You remember my telling you about my friends who live across the street?”

“The ones for whom you mowed the lawn when the man had his ankle broken?” I asked.

“The same. When I came back from the store this afternoon, Mary--she's the wife--called me over. They are going back East and have more than they can haul in their car. They bought a typewriter a couple of years ago when they tried out the mail order business at home, but the business didn't prosper so they gave me the machine. Mary said that they had been watching me writing in longhand at my window and they wanted me to have it. I couldn't refuse it so I brought it home with me.”

I said, “Great. Is it in good condition too?”

Sigmund said that it was in perfect condition. Then I pointed out to him that we had demonstrated two typewriters. I heard him laughing over the phone.

I asked, “What are you laughing about?”

He answered, “I have three. This morning when I went for the mail there was an almost new machine in front

SEED MONEY

of my apartment door with a typewritten note--This is a gift--I thought that perhaps you had sent it.”

I told him, and I told him truthfully, “Sigmund, not only did I not send it; I know nothing at all about it.”

Sigmund said, “We’d better turn it off. I don’t want to go into the typewriter business.”

Since those years Sigmund has used the formula time and again and is today a prosperous writer and lecturer on the subject.

The demonstration of Sigmund's typewriters is an illustration of but one of many articles of value received in accordance with the Law of Tenfold Return. When my wife was approaching the time of the birth of our first child, we moved from Manhattan to an apartment in Kew Gardens. Our child was still to be delivered in the hospital in Manhattan where we had already made arrangements.

It was a wintry January in New York, and we didn't have a car. We applied the Law of Tenfold Return to demonstrate transportation for the day when our baby would arrive.

Although on the day when my wife had to go to the hospital the weather was so bad that that most people could not find a taxi--we had not one, not two, but three vehicles to take us to the hospital.

PROSPERITY CONSCIOUSNESS

Leo and Olga, a couple we know, were there with their car. Another friend, Pete, dropped by with his car. And a taxi I had called also arrived.

I gave the taxi to some people who couldn't locate a cab. The taxi-driver was surprised when I put a dollar in his hand anyway. He didn't know that it was Seed Money.

Olga and Leo drove us to the hospital in Manhattan. Pete asked if he could drive my wife and the baby back to Queens on the day when they would be released from the hospital. Little did he know that the ten dollars in taxi fares, which he would save us, represented ten-fold return of the dollar I had given to the driver of the taxicab.

The day came when my wife and new baby daughter were released from the hospital. It was also the day after a big snow-storm. Pete's car was snowed under--we had no shovel to dig out the wheels.

I started an Affirmation. I had hardly finished when seemingly from nowhere a very small boy carrying a very large shovel appeared. He had been shoveling sidewalks and had noticed our plight. In no time the car was free from the snow and ice and we were on our way to Manhattan.

The Law of Tenfold Return can fulfill every desire. It is not limited by price. It is not limited by lack. As John Hoshor wrote: "The resources of the Infinite are Infi-

SEED MONEY

nite, and every human being [--human being defined as a physical will be directed by an Infinite Spirit--] has direct access to these resources.”

Jesus knew about SEED MONEY and how to multiply it. He referred to it more than a few times and with the loaves and fishes demonstrated it with great success before a huge throng of people. [Each person receiving a piece of fish or loaf broke off a small piece and passed the remainder on.]

In the parable of the talents Jesus told about three men. One had been given one talent, another had been given two talents and the third had been given five talents.

A Roman talent was a denomination of money approximately equivalent to \$500 [in U.S. 1960's currency].

The man who had the two talents doubled his, as did the man who had the five talents. They were each commended and promised: “Thou has been faithful over a few things, I will make thee ruler over many things” [Matt 25:21 & 23]. In effect, this was saying that the principle they had applied could be used over and over again ad infinitum, that it was Unlimited in its operation.

The man who had one talent did not multiply it but instead buried it in the ground. He was reprimanded and told that his one talent would be taken from him.

PROSPERITY CONSCIOUSNESS

Use part of your money as SEED MONEY and you will become prosperous--enough.

In the parable of the talents Jesus illustrated why many people fail even today in their attempts to practice the Principle of Seed Money.

The man with the one talent--who failed to increase it--explained: "I was afraid, and went and hid thy talent in the earth."

Many people who sometimes attempt to work the Law of Tenfold Return fail through **fear**--created and perpetuated only by themselves. The Law of Tenfold Return is only the orderly working of God in our minds, our bodies, and our affairs. In United States dollar bills is written, 'IN GOD WE TRUST'--very good advice.

Those who do not receive their tenfold return because of fear that it will be lost, lose their money as surely as the man who buried his talent in the ground ultimately lost his [to God's Judgment that he manifest NO TRUST]. In trusting God one cannot fear--and the Principle of Seed Money demands absolute trust in God--Omniscience, Omnipotence, and Omnipresence.

A doctor wrote to me that he could see the scientific basis of the Principle of Seed Money in harmony with the fundamental One Law of the Universe--but he couldn't overcome the gnawing fear that his Seed Money would be lost.

SEED MONEY

I wrote him what Job had said: “For the thing which I greatly feared is come upon me, and that which I was afraid of is come unto me” [Job 3:25].

I told him that the Law of Tenfold Return knows no evil. If one fears that he will lose what he has, he will surely lose what he has, for his thoughts of fear express what he wants.

The doctor realized the boomerang caused by his fear--one that had cost him not only his tenfold return, but had caused him a tenfold loss. He saw the truth in Jesus' words: “For unto every one that hath shall be given, and he shall have abundance: but from him that hath not shall be taken away even that which he hath” [Matt 25:29].

Today the doctor has banished the word ‘fear’ from his vocabulary. Through the Principle of Seed Money he has built up a flourishing and satisfying practice. He gives a copy of SEED MONEY to every new patient.

John Hoshor put it: “Fail to use money as SEED MONEY and you will remain or become needy.” Why? Because the needs of Life are forever eating up your Substance, your earnings, your capital. These must be constantly replenished and extended--renewed--just as you have to forever renew your Breath of Life.

A very small percentage of our population today uses the Law of Seed Money in one form or another. These are the rich, and especially, the very rich. Yet, perhaps

PROSPERITY CONSCIOUSNESS

one in ten thousand of these few use the Seed Money Principle consciously, knowing what they are doing. The others have conditioned themselves to follow certain business practices, some of which are not contrary to the Law of Seed Money and which, part of the time at least, are harmonious with that Law. Their financial success is in direct proportion to how closely they follow that Law.

It should go without saying that success will be greater where one practices the Seed Money principle consciously and constantly than where one uses it only spasmodically and accidentally.

A typical business operation in harmony with The Law of SEED MONEY might be as follows: A man gets an idea for a new product which will confer benefit upon those who buy it. He takes the idea to a friend. They study it and agree that people will buy it and be pleased with having and using it. They also agree it will require X dollars to develop and market the product. They calculate that they can sell the item in volume and estimate that they can profit to the extent of ten times the X dollars they must invest in it. So they go into business, follow their agreed-upon course and make the profit.

Details will differ in every case but the foregoing operational procedure is that utilized in almost every successful business venture.

SEED MONEY

A man telephoned from the South. He said that he was down to his last two hundred dollars. The only other thing he owned was some worthless land on the outskirts of his town. He had no prospects of any income.

I told him that “the earth is full of the goodness of the Lord” [Psalm 33:5]. This doesn't mean that the earth is empty of good, nor only half full of good. It means that the earth is **full** of good.

When you have a full dozen eggs you don't have six, you don't eleven--you have twelve, the **full** dozen. Our good is exactly the same. With God there is no short-changing.

But your supply is only equal to your demand, and it is up to you to make your own demand on the Infinite. There is **no lack of supply**, only a **lack of demand**. **You have to claim what you want, not what you don't want.**

When you plant your Seed Money and claim ‘weeds’--you can't expect to receive a harvest of abundance of anything but ‘weeds.’

A little tree in Canada serves as a fine example.

The Jack Pine was once a ‘weed.’ It was not only too small to use for lumber, but a substance within its cellular structure prevented its use for pulp in the manufacture of paper. Jack Pine was considered a ‘true weed,’ with little present value and none foreseeable.

PROSPERITY CONSCIOUSNESS

Millions of acres of Jack Pine were considered wasteland--an area larger than the State of Connecticut.

But men of a paper company in Michigan **believed** "that a weed is merely a plant for which man has not yet found a use." They did what others considered impossible. They found an economical way to remove the substance contained in Jack Pine's cellular structure, which had prevented its use for paper pulp.

As a result, this firm is now making a beautiful, high-quality paper out of Jack Pine--employing many thousands of working people in this work.

Those who claimed nothing from Jack Pine--received nothing. Those who planted their seeds, **believing in** their own success--reaped the harvest.

I told the Southerner that he must not try to select a specific channel for the transmission of his return to him, that correct use of the Seed Money formula leaves the means of providing the tenfold return to its ultimate source, God.

As Eric Butterworth of the Unity Center in New York affirms in his book, "Unity, A Quest for Truth": "God is my All-Sufficient Resource. He is my Instant, Constant and Abundant Supply."

Dr. Butterworth explains: "God is my supply, everywhere evenly present, and as immediately available as the air I breathe. The moment a need arises in my life,

SEED MONEY

God's infinite substance is immediately at hand to fill it. I am a child of God, and it is right and good that I manifest abundance. As God's child, I have been given the wisdom and intelligence to bring into expression all that is needed for my well-being and comfort. God inspires me with good judgment in handling the supply that is already mine, and opens the way to greater good, greater blessings, greater opportunities.”

I asked the Southerner to reflect on this when he wondered about the source of his tenfold return. He promised to do so.

Nearly a month later I heard from him again. The Sunday after I had talked with him he had given a check for his entire two hundred dollars to a home for orphans, absolutely sure of his tenfold return because he was following the command to care for the orphaned and poor.

The next day he was visited by a newcomer to town. The newcomer told him that the town needed a driving range for its many avid golfers. He told the Southerner that his ‘worthless’ land on the outskirts of town was ideal for that purpose. He offered to lease the property, put up the capital to build the driving range, and pay him a percentage of the gross receipts.

The Southerner received a down payment of two thousand dollars--ten times his gift--and subsequently will make a comfortable living from his share of the pro-

PROSPERITY CONSCIOUSNESS

ceeds from the driving range so long as he continues to provide SEED MONEY in his community.

His prosperity is only a very small sample of what can be received through the practice of the Principle of Seed Money. The Law of Tenfold Return can make you, as it says in the line from the song, **Pennies from Heaven**—‘as rich as Rockefeller.’ John Hoshor wrote: “The greatest fortune the world ever saw until recently in private hands was amassed by a man who thoroughly knew, understood and **constantly used** the Law of Seed Money.”

The first John D. Rockefeller, through his long life, put his full trust in that Law. Whether in his early days when he gave frugally but regularly to his Church or in his middle and later years when his foundations were giving many millions to better the world, Rockefeller always envisioned the many times multiplication of his gifts **returning to him**.

And they did. **How they did.**

Rockefeller knew the truth of the early Biblical promise, ‘all the land thou seest shall be yours.’ He laid his claim on the Infinite and accepted possession. It came to him. **The Law always works**; it's just people who fail to apply it, that fail.

Rockefeller kept his secret a secret. He taught only his family, and the Principle of Seed Money is still working full time for those Rockefellers who still apply it.

SEED MONEY

The world regarded the elder Rockefeller's practice of giving a new dime to everyone he met as a rich man's idiosyncrasy, but to Rockefeller it was a deeply religious and significant act, each gift another opportunity to multiply his return. Selfish? Greedy? Do not believe it. Here was a man in love with the Law, thoroughly and all-absorbingly in love with the Law. He embraced the Law and it gave, flooding Abundance over him almost beyond human power to count. [Notice, Bill Gates operates similarly--giving huge amounts away as seed money constantly--to restore his supply, at last count, 42 BILLION.]

Van Loon in his **Life of Rembrandt** paints a scene where the bailiffs are moving out the artist's stove and other furniture. In one corner of the hut his wife is lying on a pallet of straw dying of consumption [tuberculosis]. And what is Rembrandt doing? Standing in another corner of the hut painting. As Rembrandt was in love with painting, the first John D. was in love with making the Law of Seed Money work for him.

History has recorded John D. Rockefeller's practice of Seed Money, which he started at the earliest age. Before he had reached twenty-one he was giving \$1.80 per month to his church--out of a salary of only \$3.50 per week.

John D. Rockefeller, Jr., gave us an affirmation of his father's adherence to the Law: "I have been brought up to believe, and the conviction only grows upon me, that

PROSPERITY CONSCIOUSNESS

giving ought to be entered into in just the same careful way as investing.”

He also revealed that his family did not accumulate its vast wealth for purely money’s sake--a negation of the Law--for “Money itself is lifeless, impotent, sterile . . . but man with his brain, brawn and imagination, using money as servant, may feed the hungry, cure the diseased, make the desert places bloom and bring beauty into life.”

“I believe in an all-wise and all-loving God, named by whatever name, and that the individual’s highest fulfillment, greatest happiness and widest usefulness are to be found in living in harmony with His Will.”

John Hoshor cites other notable large-scale beneficiaries of the Law of Tenfold Return:

“Andrew Carnegie, Julius Rosenwald and Andrew Mellon all knew the Law of Seed Money and practiced it throughout long and extremely prosperous lives. Not only did the gifts of these men enrich the entire world of their day, but they also multiplied personal wealth and opportunities of many others--because each of them personally learned how to claim the multiplied return of his gifts, and constantly did so claim.”

It was Andrew Carnegie who revealed that the truly great fortunes were not received through the worship of money for money’s sake. He said that there is “no idol more debasing than the worship of money.” Andrew

SEED MONEY

Carnegie gave and received in his lifetime [1835-1919] \$350,000,000, today the equivalent of \$35 billion.

It was Julius Rosenwald who revealed that the truly great fortunes were not received through hoarding, but through circulating money--giving money freely and receiving back whatever came. He said: "I believe that under no circumstances should funds be held in perpetuity." Julius Rosenwald gave and received in his lifetime [1862-1932] more than \$60,000,000 [today: \$6 billion or more].

Andrew Mellon [1855-1937] although he was a public figure--he served for a time as U.S. Secretary of the Treasury--was one of the most secretive of the great practitioners of the Principle of Seed Money. He knew that no thoughts of others could possibly get into his mind to interrupt his application of the Law if no one knew of his system to multiply his wealth. Thus, Andrew Mellon burned the notes of small debtors at Christmastime and gave away his money in large bundles with the greatest of secrecy. It is said that he gave and received in his lifetime in excess of one billion dollars [equivalent to 100 billion today].

Some of the money these very wealthy practitioners of the Principle of Seed Money gave was in the form of the Biblical tithe. But the bulk of the money given was not ten percent of what had long been received--but ten percent of what was actually received in the consciousness of these men. That was how the money multiplied,

PROSPERITY CONSCIOUSNESS

through these men's growing understanding of, 'whatsoever a man soweth, that shall he also reap,' the better as well as the bitter.

Money isn't **ALL** that is reaped. Neither is 'nice things.' Relationships are embraced or shunned, by giving or not giving: of hospitality, acknowledgment and recognition, of positive expectations or negative expectations.

Six hundred years before Jesus' Great Ministry, the Buddha in India also taught among his sayings: "As we sow, so shall we reap." This Law, unlike the customary or usual Tithe, is not restricted in its Universality nor cultural application. Desert nomads and Inuit tribe's people depend on the Law of Ten applied to hospitality, for their very survival.

John Hoshor says of the Tithe, "Practically everyone knows about the tithe." The tithe meant that one-tenth of the person's income belonged to the Church. It was, in effect, a payment due--a thanks-giving. More than a few are reported to have used the tithe and to have become highly prosperous doing so--in Calvinistic Churches.

There is a distinct difference between the Tithe and Seed Money. The Tithe is a gift **after** you have made the income. Seed Money is a gift in order to claim a tenfold return. Seed Money applies the Law directly, and therefore, much more effectively. In utilizing the Seed Money Principle you are saying in effect: "Here's

SEED MONEY

the SEED I plant. Here's the investment I make with God. Here's the money with which I bless my fellow beings. I claim my tenfold return. I am drawing on my Unlimited account with the Infinite.”

An elderly lady asked me, “Why do I have to run so hard to stay in the same place? I've given my tithe for forty years.”

I told her that many people have become prosperous through use of the Tithe--but generally through their conscious understanding of its direct effect on their financial well-being. I suggested that she continued her tithing, but add recognition that as she freely gives, so **shall** she freely receive. I gave her a copy of SEED MONEY.

The Seed Money Principle changed this lady's life. She grasped it with the greatest of ease. Now she circulates an ever-increasing amount of money in her life. She not only helps many people--but at the same time she now can afford many luxuries she had once denied herself.

Another man I know was up to his ears in debt. He never seemed to be able to catch up with his bills. I showed him these passages in SEED MONEY:

“Paying debts is one of the primary requisites to becoming prosperous. Some may think that they can achieve prosperity by never paying anyone. This is contrary to the Law and simply will not work. Something for nothing is always nothing. You must either

PROSPERITY CONSCIOUSNESS

pay as you go or pay later with interest compounded. The best practice for prosperity is to pay your debts before they are due, insofar as it is possible, and so keep them out of your consciousness.”

The man said, “That’s very true--but I’m in a situation where that amounts to advice to close the barn door after the cow has been taken. I sowed my Seed Money, but the only return I’ve been getting is more harassment from my creditors.”

I told him that apparently his resentments toward his creditors and inner guilt were blocking his tenfold return. Resentment is the same as a boulder blocking a highway--if you don’t remove the boulder once and for all, it will roll back and impede your way again. The prophet Jeremiah recorded this wonderful statement: “I will **forgive** their iniquity, and I will **remember** their sin **no more.**” You must forgive your creditors and forget their resentments toward them.

And it is also important that you forgive yourself--you cannot really forgive others without forgiving yourself. Nor can you really forgive yourself without forgiving others. The Lord’s Prayer makes this very clear: “And **forgive us** our sins [or debts] as we **forgive those** that sin [or are indebted] against us” [Jer. 31:34; Luke 11:4].

This man gradually understood the message. He has cast aside resentment toward his creditors; he has ceased his self-condemnation. Now, through the Law

SEED MONEY

of Tenfold Return, he is almost completely out of debt [because he sat down and worked out a way to settle or pay off his debts that was agreeable to everyone].

Because of his great need, this man had asked: “Why can’t I demonstrate more than ten times my Seed Money?”

I read to him from John Hoshor's SEED MONEY: “Why tenfold and not eleven-fold or twenty-fold or thirty-fivefold or a million-fold? . . . Simply because the number 10 is the easiest of all to multiply by. You merely add a zero to the figure with which you begin. The zero is symbolic, meaning that it is nothing to the Infinite to send you your multiplied return that to the Infinite is less than the air you breathe.”

“Why not a millionfold?”

Because you must be able to conceive yourself as having the amount you claim. In fact, you must imagine that you already have it.

Let us say we plant--give--\$50 in accordance with the Law of Seed Money and lay our claim on the Infinite for \$50,000,000 in return. Then we begin to wonder where all that money is coming from. We begin to doubt. The doubt shuts off our return, creates a block. It will be the doubt that we demonstrate, not the cash. So the proper method is to start the process of giving--planting--but plant no more than you can conceive

PROSPERITY CONSCIOUSNESS

yourself as receiving in return tenfold. Then lay positive claim to that much, and only that much.

This man came to understand the answer to his question from that. Others needed a more detailed explanation.

One such young man said: “The Law knows no limitation. If I can visualize one hundred or one thousand or one millionfold return on my Seed Money, why can’t I do it?”

I answered, “If you can visualize such a return--and hold it unwaveringly--you can do it. Jesus said: “If you have faith, **and doubt not**, ye shall not only do this which is done to the fig tree, but also if ye shall say unto this mountain, Be thou removed, and be thou cast into the sea; it shall be done” [Matt 21:21]. If any doubt seeps into your faith in your return, it will not come.”

A Tenfold Return is a demonstration within the consciousness of practically everyone. For example, most people can conceive of having ten times as much money as they now have in their pocket. Most people also have difficulty in conceiving of a greater multiplication **at one time**. There is where doubt arises. One can reach the same goal progressively--without the strain, which causes doubt.

Surely it is possible to demonstrate a larger than tenfold return. But keep in mind that even Jesus, the Christ Spirit incarnate, did not walk on water all the time.

SEED MONEY

In this way the young man learned the hidden wisdom in moderation and realistic goals.

A young lady had a more basic problem--one which prevented her tenfold return before she had even planted her Seed Money. She lacked gratitude; she never gave thanks for anything.

As John Hoshor writes: "The full figure of your return, however, is and **must be** important to you--important enough to call forth from you a **full hearted thankfulness** as well as the necessary mental work. **Gratitude is the open door to Abundance.** It helps to shorten the time required for your demonstration. Chemists tell us that for each ten degrees' increase in temperature, the speed of a chemical reaction doubles. So add the warmth of thankfulness, of gratitude, to your Seed Money formula--all along the line."

Gratitude is an indispensable catalyst in the working of the Law of Tenfold Return.

I asked the young lady if she knew of the custom of saying Grace before meals.

She replied that she did.

"In saying Grace," I told her, "you are giving thanks to God before the object of the thanks has been received--**and as if it had already been received.**"

PROSPERITY CONSCIOUSNESS

The sowing of Seed Money and the reaping of its harvest of multiplied return is exactly the same. Before we can expect more, we must give thanks for that which we already have.

Everything is in its Source, from God, what we have already received and what we are receiving [*at present through the Law of Tenfold Return*] as well as what we are going to receive in the future by the promise of Grace; for ‘of Him and through Him and to Him are **all things**’ [Rom 11:36].

By giving thanks for what we already have--including that part which we are giving as Seed Money--we assist in expanding our Seed Money to its **full** tenfold return.

Dr. Ervin Seale of the Church of the Truth, New York, says: “Expansion is the law of life.” And Gratitude is an absolutely necessary part of expressing the value and direction that Life is taking.

When the young lady learned of this--and consciously expressed gratitude in every area of her life of which she was consciously aware--she began to see results from working the Law of Tenfold Return.

So many people--not yet understanding that as God is Substance, so God is also the Source of the Tenfold Return--they omitted God in their attempts to practice Seed Money. They have not been keeping their eye upon the doughnut; but upon the hole.

SEED MONEY

God is Infinite **everything**, not limited **nothingness**.

These truths have seemed to create a paradox for some, who rationalize that a specific Tenfold Return is nothing but a limitation. This is not the case. As SEED MONEY says: “You may be told by someone that laying claim to a **specific** amount limits you. This is not the Law. Claiming a specific amount makes the demonstration both easier and more rapid. Actually, you do not limit yourself by making a claim for a specific amount because you can apply and re-apply the principle an endless number of times either in succession or concurrently.”

A practitioner worked the Principle of Seed Money and invariably received her Tenfold Return on Seed Money she had sown both in succession and concurrently. She could conceive of each gift's tenfold return without interference with the return on other gifts. Most people, however, find it easier to practice the Law of Tenfold Return in succession.

Because of subtle negative thoughts, which seem to originate with many people when they have ‘many irons in the fire,’ it is recommended that they, at first, sow their Seed Money in succession. Then each tenfold return helps to fortify faith in the next.

One of the doubts that may arrive especially in concurrent Seed Money harvesting is that regarding Source. This doubt also arises in single Seed Money demonstrations when the individual does not have firmly

PROSPERITY CONSCIOUSNESS

fixed in his consciousness that God is the Source of his Supply and that the words of Jesus, “Father, I thank thee that thou has heard me. And I knew that thou hearest me always” [John 11:41, 42] are as equally true today as they were in Palestine nearly two thousand years ago.

As John Hoshor said: “Do not pay the slightest attention to WHERE your return is coming from. That is neither your work nor your responsibility. The Infinite-God--takes care of both the means and the manner. Your work is to claim the tenfold return of your gift and to leave all constructive ways open for it to reach you.”

“Seed Money return is EXPECTED money return. The means by which it comes to you and the manner in which it comes to you may be unexpected--more than likely it will be unexpected--but the return itself is EXPECTED.”

Because the way and manner of your tenfold return is generally unexpected, some people do not recognize their tenfold return, even when they have received it.

A part-time typist worked one day a week for a leading metropolitan newspaper. Her workday at the paper was Friday. One Friday she received from a friend a copy of SEED MONEY. That Sunday she made a special Seed Money donation to her church.

SEED MONEY

On the next Thursday she told the man in the newspaper office who had given her the booklet: “Seed Money doesn't work. I still haven't received my return--although I believed 100%.”

He questioned her: ‘But why are you working today--and also yesterday--when your only workday here is on Fridays?’”

“Oh,” she replied. “I'm replacing a regular typist who went away on a short trip.”

“Let me call the personnel office and see why you were picked for the extra work,” the man said, who had given her the SEED MONEY booklet. Five minutes later he told the temporary typist: “Personnel said there was no special reason for giving you the extra assignment--when the girl opened the page to the list of their qualified part-time typists her finger just fell by your name.”

The typist's face suddenly glowed: “Oh, I did get my Tenfold Return after all. It is returned to me through the two unexpected extra days of work here--doing what I most enjoy doing.”

She had received her tenfold return before she had given up. Some people always give up before they get their return because they set a time limitation when they plant their Seed Money. That is a great mistake.

PROSPERITY CONSCIOUSNESS

A long time ago a Latin American public official kept me waiting for several hours after the appointment was due. When he finally arrived I said rather crossly: “Aren’t any of you Latin Americans ever on time?”

He replied, smilingly, “No, but we don’t have ulcers.”

Ulcers, as medical science shows, are caused by worry, and time limitations, which we ourselves set and give power to create most worries. Worry about man’s measurement called time can be halted by the realization that God knows but one unit of time--NOW. It is said that ‘tomorrow never comes.’ This is perfectly true, for when tomorrow is here it is no longer tomorrow--but today.

A woman who owned a gift shop repeatedly planted Seed Money and repeatedly failed to receive her tenfold return. She couldn't understand it for, she said: “I know that the Principle of Seed Money works. Why doesn’t it work for me?”

We analyzed her problem. She always said: “**I have received X** dollars (tenfold the expect sum given) in return, with good to all concerned. Thank you. Thank you. Thank you.”

After talking it out, we found that she always [in the back of her mind] added a future date for her return--whether for one day or one week later--which **negated** her statement that **she had received the return.**

SEED MONEY

I told her that we find the Promise in the Book of the prophet Isaiah, “And it shall come to pass, that before they call, I will answer; and while they are yet speaking, I will hear” [Isaiah 65:24].

When we give our Seed Money and **claim our return** we must KNOW that our tenfold return has ALREADY been made. Any thoughts that the return will only be made in the future will postpone our return indefinitely.

The gift shop owner saw her error--dissolved all thoughts of time limitation and thanked God for her return NOW. And then she began working the Principle of Seed Money successfully.

SEED MONEY answers the question, “How long will it take? --There is no time in the Infinite. Time is a human concept. Do your work faithfully and go happily about your normal business. As certainly as the day will dawn on the morrow your effort will be rewarded.”

John Hoshor wrote: “There is an after-the-fact technique that invariably helps shorten the time required for the Law’s demonstration. It aids in registering the pattern clearly in your consciousness.”

“Imagine that you have the return in hand. That much you **must do**. Then, to that add the mental picture of exactly what you are going to do with the *return*. *If you intend to spend it, see yourself obtaining exactly what*

PROSPERITY CONSCIOUSNESS

you want and using it. Go through the details of whatever is its function several times.”

“Or, it may be that you are going to put the Seed Money return to *yet another investment. Carry out the investment in your mind. ... Or, imagine yourself sending a check to your church or to a favorite social service organization as the next SEED MONEY step in establishing stability.”*

I know a businessman who could not succeed at the Law of Tenfold Return because of his mental attitude of lack. As I explained to him:

“A good gardener does not only cultivate flowers--he cultivates SOIL. Thoughts, which you are always sending out, compose the soil of your life. If you are constantly projecting thoughts of lack you will have barren soil. If you project thoughts of plenty your soil will be rich in the humus of Sufficiency, and it is that soil in which your Seed Money grows.”

Jesus tells us that in the parable of the sower: “Behold, a sower went forth to sow: And when he sowed, some seeds fell by the wayside, and the birds came and devoured them up; some fell upon stony places where they had not much earth; and forthwith they sprung up because they had no deepness of earth; but when the sun was up they were scorched; and because they had no root, they withered away.”

SEED MONEY

“And some fell among thorns; and the thorns sprung up, and choked them; but other fell onto good ground, and brought forth fruit, some an hundredfold, some sixtyfold, some thirtyfold” [Matt 13:3-8].

The businessman said, “True, but how can I prepare **my soil?**”

And I quoted: “All [*thought*] is an action of the conscious on the subconscious. Money is God’s idea of circulation. This idea I now accept as the basis of all my financial affairs. Money is God’s activity, that it does good when it serves need. I use it with wisdom; I release it with joy; I send it forth without fear for I know that under Divine Law it comes back to me” [quote from Dr. Ray C. Barker, in “Money is God In Action.”].

The businessman put these ideas into practice and was soon able to reap abundant harvests from his Seed Money, as the others had.

It is very important for us all to get out of our mental patterns of poverty, to realize that, as God knows no lack, neither do we.

John Hoshor writes: “The Law is there for you to use just as air is there for you to breathe. Would you choose to spend your life without fresh air? In an oxygen-deprived, smoke-filled room or in an area constantly saturated with smog? Such conditions take their toll in life and health for those who choose them

PROSPERITY CONSCIOUSNESS

or who permit themselves to live in such surroundings. Similarly, those who are ignorant of the Law of Seed Money and how it works suffer with unfulfilled needs, from the lack of many of the desirable experiences of life which in our day require money to purchase.”

The cost of living, at or near a record high, continues to mount. Rents, mortgages and taxes are the highest ever and are still increasing. Food has never been costlier, nor of poor quality in general. Today all children must be college-educated to compete in their generation successfully. Wage and salary increases do not solve this problem. Other and greater Sources of income, trade, barter and exchange are needed.

The saying that the rich get richer has never been truer. Or that the poor get poorer. The reasons for both are fundamental. ‘Gummint’ favors the rich, who daily apply the Law although, may not be aware of it. This is why Jesus spoke to the Rich and instructed them to give away their money. They have a surplus above their living needs that makes it unnecessary to pay any more than casual attention to those needs. So they do not multiply NEEDS in their consciousness--not theirs nor anyone else's. They live surrounded by riches and the evidence of riches.

“Blessed are the poor in spirit because they will be filled,” makes no sense to the rich. The Law always works. The direction in which it works depends solely upon the contents of an individual's consciousness.

SEED MONEY

Multiplying needs, one is poor. Multiplying from one Source and giving away the excess, one remains conscious of need and is able to assist those overwhelmed by need. But multiplying riches alone merely leaves an individual insensate; so use the Law of Ten with discretion and not with obsessions around obtaining and acquiring, for the purpose of hoarding.

The poor are constantly thinking and talking about their needs. Yet, the Universal Law of Life is that upon which you focus your attention--THAT is what you attract into your life and experience.

The individual's only relief from poverty is to get himself out of the vicious cycle of thinking of need and poverty and stop focusing on these, and instead **focus on sharing, giving and being willing to receive.**

One woman said, "I can never even start to practice Seed Money because I can't even plant any--I never have enough money to spare. I'm too far behind."

I advised her to open her Bible to Proverbs, Chapter 11 and then read verse 24. She read: "There exists the one that is scattering and yet is being increased; also the one that is keeping back from what is right, but it results only in want."

In other words, there are those who circulate that which they have, and what they have increases; and there are those who hold fast to every penny they have, and they reduce their own options.

PROSPERITY CONSCIOUSNESS

This verse from scripture changed her way of thinking. It made her realize WHY she had been unable to increase what she had. She has become an ardent follower of the Law of Tenfold Return.

John Hoshor gave another example of how he helped someone to thrive through the principle of Seed Money:

“A man I know by the name of Sheldon found a way out.”

“This man had many ups and downs. He was twice a millionaire, both times when a million dollars was a lot of money. Some months ago Sheldon's business failed. The immediate cause was a bad credit loss. Yet he knew there was a deeper cause.”

I suggested to Sheldon the John D. Rockefeller technique of giving. When he answered that he had given not thousands, but hundreds of thousands, of dollars away I knew that he spoke the Truth. Sheldon has never been known to refuse a request for help. I explained to him that although giving was necessary, **just giving was not enough**, that one can easily go bankrupt giving without return.

He listened for an hour as I outlined the principles involved in Seed Money to him.

Sheldon asked, “With what do I start? I’m flat broke.”

SEED MONEY

Actually he had \$3 in his pocket. On my advice he exchanged his \$3 for 300 new pennies and started giving them out one at a time. I received the first one. Each time he gave a penny he would multiply it in his consciousness and see the multiplied return as having been made to him. The same evening, before he had given out all of his pennies, a long forgotten creditor came to his home and paid him \$12 on an old bill.

On my advice Sheldon went again to the bank and this time brought back 200 new nickels. Again he started giving them away, one at a time, each time following the Seed Money technique. Within three days he was called in as consultant on a marketing problem and received \$250 for a half day's work.

Still working the Seed Money formula, this time he began with \$100 worth of new quarters. While he was busy giving these out and multiplying and claiming his return, two friends contacted him and offered to finance him in a new business venture. All the capital he needed was placed at his disposal.

Sheldon came to my apartment and we talked over the situation.

He said, "Although I have been in business in New York City for forty years, actually, like Moses, I have been wandering in the wilderness. Never before have I known what I was doing."

PROSPERITY CONSCIOUSNESS

He insisted that he would not have any more ‘downs’ in his life because he had learned the Seed Money formula and practiced it; and it worked. He still gives but now he multiplies and claims his tenfold return, and his new business is prospering mightily.

We have seen that just giving is not enough to work the Law of Tenfold Return, but ‘Why is giving necessary?’

John Hoshor says, “The farmer who wants a crop must give to the earth--must sow or plant the seed--otherwise he will harvest only the weeds that happen to grow.” When you were born the first thing the doctor did was to hold you up by the heels and smack your little bottom. You gave out with a squawk and that started your breathing. Breathing itself is both a giving and a receiving. So is your very life; for discontinue either exhaling or inhaling and your life is over.

When you want the lights on, you flick the switch that opens the circuit and begins the flow of current. The entire Universe is a series of energy circuits--from the earth and other planets in their orbits to the particles of the atom in their orbits. Shut off the flow anywhere along the line and the result is emptiness.

In James Stephens’s classic, “The Crock of Gold,” he observes, “You must be fit to give before you can be fit to receive. The plain and simple truth is that **you must start giving before you can start receiving. This is the kind of Universe in which we live.**”

SEED MONEY

A secretary couldn't understand why prayer alone without giving Seed Money wouldn't work. I told her that Prayer with Thanksgiving are complementary essentials, for "in every thing by prayer and supplication with thanksgiving let your request be made known unto God" [Philippians 4:6]. The gift itself not only subconsciously sets in motion a cycle of ever-increasing energy (which returns to you in your tenfold return) but it also serves to fix firmly in your mind the image of the desired return.

The story of the great prophet Elijah and the widow of Zarephath, where the widow's scant food supply multiplied so that she and the Prophet Elijah, "and her house did eat many days" [1 Kings 17:10-16] proves this truth.

As Dr. Henry M. Ellis writes, "As Elijah proved, an act of faith, evidenced by giving, is prerequisite to receiving."

The importance of the **doing**--of actually giving--is shown not only in the Old and New Testaments, but in other religious works through the ages. In the Koran, the Holy Book of Islam, we find: "He that doeth good Shall have ten times As much to his credit" [Sura VI: 160].

Omitting the actual sowing of Seed Money in the Law of Tenfold Return is the same as sewing without thread--you make a lot of motions, but you don't get anywhere.

PROSPERITY CONSCIOUSNESS

The secretary accepted this, and with some further help was able to practice of the Law of Tenfold Return. She was more fortunate than a man who, receiving a SEED MONEY booklet complained that he had not a penny to his name--he had spent his last fifteen cents on a biscuit.

I turned his booklet to the page in SEED MONEY where it says, "How can I give when I don't have any money?" Then you must start with your muscles, with labor and the sweat of thy brow until you have received some of the currency of the realm. Then start giving it and claiming the multiplication of the tenfold return back to yourself. Continue this as you continue breathing and soon you will be prosperous and surrounded by Sufficiency.

Actually, no one ever achieved security working either at labor or at a white-collar job. Those who experience Freedom are those who organize their minds for self-sufficiency, who direct employees on the one hand and who direct their multiplied claims to the Infinite on the other. As a matter of fact, you do not need to hire anyone to become rich-in-freedom, provided you know the Seed Money technique and use it patiently and persistently. Likewise, you can be an employee, and by using the Seed Money formula constantly in your life you can become more self-reliant than your employer, if he were to fail to use the formula himself.

SEED MONEY

In truth, when people only want money and the power that derives from money, you know and I know they get handed over to Satan and all sorts of temptations, to learn how to place limits on their appetites. So, let's not use the word 'Rich' as a goal or objective because that word implies excess. Let's plan to get off the train at the stop called 'Self-Sufficiency.'

The 'down-and-out' man asked, "Who would hire me?" And I said, "We have some packages to take to the Post Office right now. You can Seed Money your labor and I will give you ten dollars besides."

He cried out, "What? Manual labor? Me? Never." And he ran from the office leaving his SEED MONEY booklet behind. I tried to catch him; but he had gotten into the elevator before I was able to do so.

This man had counted himself 'down-and-out.' He will not get up off the canvas until he realizes that the Law of Tenfold Return decrees that ten times something is that something multiplied by ten. Ten times nothing, however, is still nothing.

An engineer understood this perfectly. He saw that the Law of Tenfold Return was based upon a perfectly logical working of the Power of the Tithe and of Holy Law. But every time he planted Seed Money he began to wonder and speculate as to how and by what mechanics his return would come. So, it didn't come.

PROSPERITY CONSCIOUSNESS

His problem was very simple. He did not exercise unquestioning faith, by merely permitting wonder but never doubting. He did not “let go and let God” determine the means to fulfill this Law.

SEED MONEY states: “Do you remember the saying, ‘A little child shall lead them’? Why shall a little child lead them? Because it is easy for a child to imagine or wonder and because children practice imagination and wonder more than grown-ups do.”

Jesus had said, “Yea; have ye never read, Out of the mouth of babes and sucklings thou hast perfected praise” [Matthew 21:16] ?

The engineer was advised to **claim** his expected return **now**, and leave the workings of his tenfold return to God. And he began to see that as a child can unquestioningly accept that good inevitably produces good, so can he unquestioningly see multiplication of his Seed Money in his life. Jesus had expressed this Truth, “For a good tree bringeth not forth corrupt fruit; neither doth a corrupt tree bring forth good fruit. For every tree is known by its own fruit. For of thorns men do not gather figs, nor of a bramble bush gather they grapes” [Luke 6:43-44].

Recognizing that the Law of Tenfold Return is part of the Universal One Law, the engineer applied to his practice of the Seed Money principle the same childlike faith required in all spiritual unfoldment, as Jesus said,

SEED MONEY

“Whosoever shall not receive the kingdom of God as a little child, he shall not enter therein” [Mark 10:15].

The engineer’s new success in demonstrating through the Law of Tenfold Return occurred because he now understood that it is a method originating with Jesus and the nation of Israel.

As John Hoshor wrote in SEED MONEY: “What is the formula that makes the Law of Seed Money work for you? . . . The formula is derived from Jesus. When properly used, it always produces the desired results.”

Jesus declared very openly: “What things so ever ye desire, when ye pray, believe that ye receive them, and ye shall have them” [Mark 11:24]. And, **that is exactly what He meant.**

Quoting from SEED MONEY: “No words ever spoken or written in any language carry great or more far-reaching import than these words of the Great Master.”

Please note: You are not asked to join any organization. You are not asked to attend any meetings. You are not asked to subscribe to any dogma. You are not asked to follow any ritual. You are not asked to believe in any theories, opinions or suppositions. **You are only asked to believe that you already have received whatever it is you want.** Surely this is not too great a price for you to pay to achieve the self-sufficiency you want to have.

PROSPERITY CONSCIOUSNESS

Imagine that they are yours NOW. **What could be easier?** And it works. It works. IT WORKS. Anyone can prove it conclusively for themselves.

To repeat, the ONLY THING you have to believe is that you have already received that which you want. Your age does not matter. Your creed does not matter. Your race does not matter. Your name does not matter. Your sex does not matter. Your political affiliation does not matter. Your nationality does not matter. Your education or lack of it does not matter.

Simply believe that YOU HAVE ALREADY RECEIVED WHATEVER IT IS YOU NEED. No one else can limit you. If you want to limit yourself, though, you can. Otherwise the entire resources of the Universe may be yours to use (appropriately or inappropriately, your choice).

One lady who had come to the United States from Eastern Europe wasn't having success with her practice of the Seed Money formula. She had a subconscious pattern of limitation due to an image of herself in her own mind that she, as a refugee, was a second-class citizen. She compounded the damage to herself by constantly dwelling on what she had lost instead of being in the HERE and NOW. She resented everyone who owned fine things such as she had lost.

With help, in time she came to realize that God knows only one class--FIRST CLASS--and that she as a child

SEED MONEY

of God was the only person who could possibly even seem to demote her to poverty, in reality.

She came to see that she--not only in order to bring prosperity through the Law of Tenfold Return into her life but in order to attain peace of mind--had to obey the commandments as Jesus had stated them:

“And thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength: this is the first commandment.”

“And the second is like namely this, Thou shalt love thy neighbor as thyself. There is none other commandment greater than these” [Mark 12:30-31].

Only then did this immigrant woman realize that she must lose her resentment against her neighbors if she was to take advantage of the Law of Tenfold Return.

By persistent meditation on these two greatest commandments and their place in her Life, she suddenly found herself able to make demonstrations occur which she, and she alone, had blocked for so long.

She turned her once lonely life of self-punishment into a happy life of abundance and helpfulness to others. This helpfulness--a willingness and readiness to lend a helping hand--often provides opportunities to sow Seed Money under circumstances in which it is remarkably easy to visualize a return--Good for Good, multiplied tenfold.

PROSPERITY CONSCIOUSNESS

John Hoshor related in SEED MONEY: "One morning not long ago I was waiting on a street corner in Manhattan for a bus to take me to my office. A man who had been sitting on a nearby bench arises and shuffled over to where I stood. We spoke and passed the time of day. I noticed that his clothes were old and torn and that instead of shoes he was wearing low-cut rubber overshoes. I asked the question, which he had obviously expected me to ask.

"What happened to your shoes?"

"Someone stole them while I was asleep last night," he told me.

"What are you going to do for shoes?"

"That is what I have been wondering. I found these in the garbage back of the building where I slept," he answered. He showed me the soles which were more holes than rubber.

"What can you get a pair of shoes for?" I asked.

"There's a shoe repair shop I know of where I can get an unclaimed repaired pair for \$4 or maybe \$5."

Then I asked him, "Do you have the money?"

"I don't have a cent," he replied.

"How near is the shoe repair shop?" I asked.

SEED MONEY

He pointed, “Only two blocks over that way.”

“Let’s walk over,” I suggested.

When we reached the shoe repair shop I handed him \$5.

“See what you can get with that. If you need more, tap on the window and I will come in.”

In a few minutes he came out of the store wearing a comfortable looking pair of repaired shoes. He held out a dollar bill towards me, saying, “I got these for four bucks.”

“Keep the dollar,” I told him.

We walked together to the corner and shook hands, thanking each other.

He asked, “Why do you thank me?”

“Because I am happy that I was able to be of service to you,” I told him.

We wished each other good luck and I went on my way back to the bus stop.

As I walked I silently repeated over the Seed Money formula, “I have received \$50 in return, with good to all concerned. Thank you.”

PROSPERITY CONSCIOUSNESS

When I arrived at my office, business took over and I forgot the incident completely.

Mind you, please, I have practiced the formula for years. I have worked it almost countless times, both on a small scale and on a large scale. I have seen friends make it work many times. So, not only did I believe I had received the \$50 in return, I KNEW.

That night as I opened the door of the apartment house in which I live, a pretty girl came out and smilingly thanked me. I noticed she carried a musical score from 'The Pajama Game,' and I asked her,

“Are you a singer?”

“No,” she answered, “I'm a receptionist, but I'm taking singing lessons.”

“Who is your teacher?” I asked.

She mentioned the name of a voice teacher who had been a friend of mine for many years but whom I had not seen for fifteen years. I told her my name and asked her to remember me to her teacher. She said that she would and went on her way.

I went to my apartment, showered and put on fresh clothes. As I was starting out to keep an appointment, the manager of the apartment house came to my door and told me I had a call over her phone. I answered it. The voice teacher was calling and asked me to come to

SEED MONEY

his studio. I went at 10:30 that evening. After we had shaken hands and congratulated each other on none of the fifteen years showing, he said,

“John, before you moved to California you did some publicity for me, which proved very profitable to me. You never sent me a bill.”

I explained that I had done it as a favor that it had not required any time, merely a phone call.

He said, “Had you billed me then, I could not have paid you, but I would like to pay you now.”

He walked over to the Baby Grand piano and picked up a check already made out and offered it to me saying, “Will \$50 be all right?”

I answered him, “\$50 is exactly right.”

There may be some who will scoff and say that I have linked two events which had no fundamental relationship to each other. However, the wiser will believe me when I say that the \$5 given to the needy man for shoes and the \$50 out of the blue for a forgotten service were as surely linked to each other as my fingers are linked to my hands.

Here was a penniless, needy man in rags, without shoes that unknowingly brought to me \$45 in profit in added self-sufficiency, which it is conceivable, might never have otherwise reached me. How was this possible? It

PROSPERITY CONSCIOUSNESS

was possibly only because I knew the Principle of Seed Money, the Law of Tenfold Return, and I took the opportunity that came my way to aid a fellow human being and of then applying the Law and claiming my multiplied return. I thanked him sincerely before we parted and should he ever read this, I would thank him again.

A unique way of sowing Seed Money was that of the advertising manager of a magazine. He read a copy of SEED MONEY and said that he wanted to Seed Money space in his magazine to advertise that booklet.

He did. For nearly a year his advertising revenue increased substantially, which he credits to his practice of Seed Money.

The practice of Seed Money from generation to generation can produce self-sufficiency hardly conceivable to the average person. When one sees a work of art, hears beautiful music, receives the most effective healing assistance from real healers or witnesses advances in space technology, they may not know that many achievements in these fields would not have been possible without the practice of Seed Money by the Guggenheim family.

From 1847 when Meyer Guggenheim immigrated to America until today, a fortune that has conservatively been estimated at \$200,000,000 (\$20 billion in 2000 dollars) has circulated and increased for but one pur-

SEED MONEY

pose, as Ambassador Harry Guggenheim says, ‘for the progress of man.’

Benefits the great Guggenheim fortune have given mankind--through financing, building and developing ideas--are inestimable, and the selection of the title of the Guggenheim family biography bears witness to its growth: SEED MONEY.

The thinking of the Guggenheim family has been the very opposite of lack. The word ‘can’t’ doesn’t seem to be in their vocabulary. And the ability to know that success is right here, even before it has been visibly manifest, has not only characterized Guggenheim success, but is an indispensable factor in practicing Seed Money itself.

As John Hoshor says, “So that there can be no vagueness or misunderstanding in the mind of any reader as to how anyone makes his claim on the Infinite for the multiplied return of his gift, I wish to point out that he does so **by believing he has already received such multiplied return.** It is as simple as that.”

“Instead of continually saying as many do, ‘I want,’ ‘I need,’ or ‘I do not have,’ SAY ‘I have’ and ‘it’s here, I know.’”

In addition to making the gift to start the flow of prosperity to you--believing that you have ALREADY RECEIVED your multiplied return IS YOUR ONLY WORK.

PROSPERITY CONSCIOUSNESS

As it says in SEED MONEY, “There is no telling how the return which you claim will come to you. The only telling for certain is that it will come. You do not want some loved one to die and will you the amount you claim. You do not want to receive it as a result of an injury to yourself. So always include in your multiplied Seed Money claim--or for that matter whenever you draw upon the Infinite for anything, the provision ‘with good to all concerned.’ In this manner you protect yourself and others who may be concerned.”

“Carefully check your motive in each of your Seed Money operations to make certain that there is no content of harm, or intended harm, in it towards anyone concerned. Whether the money is primarily for yourself, or for others, or simply for reserve to practice proving the Law, it should manifest with equal ease. The Law does not care. But if there is harm in your consciousness towards anyone, that harm will multiply also and return to fall upon your own head. You cannot fool--nor sidestep--the Law.”

This is equally true in regard to your physical health as well as your financial health, for God is the Source of all Good and ‘no good thing will be withheld from them that walk uprightly’ [Psalms 84:11].

Expecting to be healed from any ailment is the first step toward physical healing. And in the practice of hygiene and nutrition--just as in the practice of the Ten-fold Return--what you give to your body comes back to

SEED MONEY

you ten times--as feeling good or as feeling worse. **The spirit in which you give [to yourself as well as to others] is the most important thing about your gifts or your health practices: you WILL reap what you sow.**

When an opportunity to give a gift [to someone in need] or to nurture your body [with wholesome food and not food cravings], if you consider it but then decide against it, you are saying in effect, "I better not; I may [something else] myself." And so, as you say, **you will need--most certainly--something ELSE yourself.**

If you give grudgingly or with calculations in mind, these configurations that you imagine will return upon you, ten times, also.

If, however, you give boldly, generously, fullheartedly, impulsively, it shall be returned to you tenfold in the same manner. What is important is that 'in due season we shall reap, if we faint not' [Galatians 6:9].

This is explained very clearly in the Bible: "He which soweth sparingly shall reap also sparingly; and he which soweth bountifully shall reap also bountifully. Every man according as he purposeth in his heart, so let him give; not grudgingly, or of necessity: for God loveth a cheerful giver" [II Corinthians 9:6-7].

PROSPERITY CONSCIOUSNESS

Never pass by an opportunity to sow Seed Money. A lost opportunity to give is a lost opportunity to receive.

John Joshor illustrates this in an incident which happened to him: “The fastest and in some ways most interesting return on a SEED MONEY tenfold claim that I know of happened to me quite recently.”

“I was on my way to a branch post office with an armload of parcel post packages. In addition, I carried--unwrapped but in its own display case--a small appliance I was then distributing. I intended to deliver it to a local purchaser on my way back.”

“As I hurried up the crowded street I passed a blind man with a cup. I thought to myself, ‘I’d give him something if I weren’t loaded down.’”

“Almost instantly I recognized the negative application of the Law. I turned and struggled back through the crowd, reaching the blind man and asked him to stop for a second.”

“I laid my packages on the sidewalk, took all the change from my pocket and put it in his cup. It made a good noise and it seemed as if he were almost on the verge of opening his eyes to LOOK. However, he did not, but repeated his thanks. I recovered my packages, reached the post office and mailed them. Then, taking my unwrapped appliance, I turned to leave the post office. A man stopped me saying,

SEED MONEY

“I'm interested in that product. May I see it?”

“Certainly,” I answered.

We stopped at the first writing counter near the entrance and I took the appliance out of its box and showed him how it worked. It happened to operate on batteries and their sound attracted a small crowd. The man who had inquired looked at it, then handed me his card, saying,

“Where can I buy a couple hundred of these things?”

“I distribute them,” I told him. “I'll be happy to supply you.”

He said, “First, let me buy the special delivery stamp I came for, then we'll do some business.”

On the way to my office he introduced himself. He was the Ohio distributor for one of the reducing food companies and he was in New York looking for a product he could use as a premium to open accounts with dealers. He bought 200, did not ask for the discount to which he was entitled and which I gave him. He paid cash. I do not know exactly how much I gave the blind man. I had made my claim for a general tenfold return, and I'm quite certain that the profit from that sale represented a full measure return, running over.

“Perhaps the most significant part of the transaction was that the buyer was a happy with his purchase as a

PROSPERITY CONSCIOUSNESS

child is with a shining new toy.” Here was John Hoshor himself getting back a tenfold return in according with the Law of Seed Money.

The Law of Seed Money is in itself very simple: In giving money to your church or school or to anyone you know who has a real and legitimate ‘need,’ or in any other way using money to bless someone, help someone do something they could never do of their own accord, aid someone at a distance whom you don't know but whose testimony moves you, you have not only the right and the privilege but you have also the duty of claiming--from the Infinite--a tenfold return, in money or in kind. To claim it is to have received it already subjectively. In a short time, it will also come to you physically.

The Law of Seed Money is the KEY to using the Infinite substance of God: “Now he that ministereth seed to the sower both minister bread for your food and multiply your seed down, and increase the fruits of your righteousness” [II Corinthians 9:10].

The Law of Seed Money works in accord with the words of Jesus: “All things, whatsoever ye shall ask in prayer, believing, ye shall receive” [Matthew 21:22].

The formula for practicing Seed Money is merely a way to help you prove these words in your own experience.

Remember, the formula is very simple:

SEED MONEY

1. Plant seed money. Give the amount you wish to the person you want to assist in some way.
2. Immediately upon making your gift, cultivate a claim and as soon as you are alone, focus on your tenfold claim on the Infinite in a way that expresses something like this: "My return on helping 'X' is \$... so that there would be good out of that gift for all concerned. Thank you."
3. Make sure you believe in your claim. If you need to rehearse it a few times in your mind until it rings 'reasonable' to you, do that, especially just before you fall asleep. Confirm that claim whenever the thought comes up, but don't make an obsession out of it. It is not necessary to overwork it.
4. Begin your gifts at a very modest level, sufficient that your gift and your multiplied return are significant enough; you will do the mental work to retrieve your return. If you begin at so high a value that you wonder from where the money will return, you have defeated yourself. Avoid doubts, or they will manifest as nothing.
5. Never tell anyone of your claim or of your manner of manifesting. Do this in private, whether silently, aloud or written down as a note to yourself. The only person you have to impress is your own consciousness with the reasonableness of your claim.

PROSPERITY CONSCIOUSNESS

6. In the event that your claim does not return the correct amount to you, or does not return as rapidly as you believe it should, thank God for the lesson of learning how to be sufficient in poverty, and mull over the thought how you will make yourself available to help another, in the future, fully faithful to the process. Simply assume you erred somehow, and move on.

7. Affirm your willingness to keep up the practice of Generosity insofar as you are able. And then, no matter how small the amount is, when someone expects a TIP, tip generously. When someone asks for alms, give your lunch money. When someone on the bus needs carfare, give it to them. When your coworker goes without eating for lack of money, share with them. And your generosity will begin to return good to you if you give gifts in the spirit of complete Trust in the Infinite's generosity toward yourself.

The Formula - Do This!

Remember, the formula is very simple:

Seed Money works beautifully for those who work it in faith, as instructed. Try it faithfully for at least thirty days and you will see. Follow these instructions precisely and you will be amazed at the results!

- Accept that God is the Source of your supply.
- Focus your attention on the Source.
- If this is new to you, start with \$1 bills. (If you live outside the USA, equivalent currency will work.) You may also use coins.
- Release each bill as you use the statement in #6.

SEED MONEY

- Each day give one or more dollars as Seed Money. You may do this anonymously, or not.
- Very important: As you plant (give) Seed Money, speak this statement audibly, or silently, several times: **“I have received (ten times the amount given) in return with good to all concerned. Thank You! Thank You! Thank You!”**
- Release it in faith and give no more thought to it. If any thought of lack comes to mind, speak these words several times: **“I HAVE! I HAVE! I HAVE!”** This will drive all thought of lack from your mind.

What is the Difference between the Tithe and Seed Money?

Remember to tithe ten percent of your tenfold return back to God. Seed Money is planted in order to directly apply the **Law of Tenfold Return**; therefore it is given **BEFORE receiving**. The **Tithe** is given **AFTER receiving** in acknowledgment of God as the Source. It completes the circuit and keeps your finances in constant contact with the Source of all your good. It keeps the channels of abundance open, clear, and flowing freely.

Scientists have explored the Universe with powerful telescopes and with powerful microscopes. In all of their search and research they have found only one thing. From the farthest star to the most infinitesimal

PROSPERITY CONSCIOUSNESS

part of the atom the only thing scientists have been able to find is **energy**.

Energy fills the Universe; the Universe IS energy; the Infinite is energy. Then it should come as no surprise that there is a fluid, plastic, invisible energy that flows evermore through the mind, to the senses. It is an unlimited energy, and it will flow into whatever pattern you conceive of--good or ill. This is why thinking--only--of what is beneficial and harmless and progressive is essential for joyful life. And inasmuch as all energy works in a circuit, the energy flowing through your mind brings back to you precisely what you send out in your thoughts, words and emotions. It all comes back upon you.

If you pattern Infinite energy flowing through your mind with Lacking, debts and needs, Lacking is the experience you get back. And if you pattern your energies with the desire to be useful and of service, what will return to you is a God-given role or place of great interest and productivity. But if you program your thoughts and expectations with failures and despair, that will return to you also. [This is WHY drugs are so harmful; they promote the visualization of suffering].

Each of us is the Director, the Selector, the Chooser, the Decider--which of the thoughts that run through our mind are the thoughts we want to express and manifest. That option is called 'Free Will.' Bugs and animals

SEED MONEY

don't have Free Will; they don't have options from which to choose.

-- The Law of Tenfold Return is the Law of Loaves and Fishes. For the necessary material things of life, we must give in order to get back what is sufficient to live—"for your heavenly Father knoweth that ye have need of all these things"--and the principle of Seed Money shall help you stand on your own two feet, despite and no matter what circumstances may influence society, culture or experience.

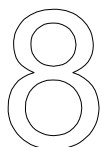

No words or thoughts or emotions of ours ever return to us unfilled. Therefore, be always exceedingly careful that all words from the mouth and thoughts and emotions are positive and beneficial, constructive and specifically applied to doing good.

By guiding and directing that Infinite energy forever flowing through the mind by words and thoughts and emotions that are beneficial, we bless fellow human beings with gifts in appropriate promptings, high expectations, due praise and the push to clarity of thought and Truth itself. The return in giving out God's Truth is that ten times more truth returns as wisdom and clarity.

And so it is. Amen.

PROSPERITY CONSCIOUSNESS

“Gratitude is an indispensable catalyst in the working of the Law of Tenfold Return (Law of Attraction).”

PENNY MILLIONS STRATEGY

By Robert Borowski (used with permission)

The saying “it takes money to make money” may be true, but have you ever considered that it could all be started from just a penny? This incredible article will show you a step-by-step strategy that you could try to make over a million dollars starting from absolutely nothing! Think of this as a fun game with zero risk but the potential to “win” over a million dollars. We were skeptical too... until we made a fortune ourselves following this simple idea.

Many years ago, while I was still just a “wealth aspirant” (wishing for the wealth I have today) I discovered a neat idea while surfing the Internet. I came across a simple little idea, sort of like a game, that taught how to grow from nothing, zero, not even one cent of your own money, to over a million dollars. In fact you have

PROSPERITY CONSCIOUSNESS

to walk around public places to find a penny on the ground to start off with. After reading the concept I was intrigued to say the least, as it really seemed like a sound plan despite the fact that on the surface it seemed ridiculous. In this article I'll teach you the simple concepts. For now just suspend any skepticism or even cynicism you may have, keep an open mind and by the end of this article you might be hooked on playing the "Penny Millions" game yourself.

I started working on the plan immediately and even shared the idea with my wife and our Millionaire Master Mind group (there are 7 of us in this weekly group that have been meeting now for several years). I started off with much enthusiasm but after getting to around \$20 in my plan (starting from \$0.01 that's a 200,000% increase!) I kind of lost steam and took a break from the game... until my wife astonished me.

My wife having been inspired by my enthusiasm over this idea started her own Penny Millions game. She started off a bit slow, but she quickly blew past me. She grew her initial penny (\$0.01) to over a thousand dollars (\$1,000) within about 4 or 5 weeks (that's a HUGE percentage increase)! At that point I realized that there was some serious potential to this plan, and not wanting to be outdone by my wife I vowed to continue from my measly \$20 bucks to hit that million dollar mark. Fast-forwarding a bit, with a bit of a variation to the original plan, I did take that approximately \$20 (which remember grew from a single penny

PENNY MILLIONS STRATEGY

I found on the ground) and within about 2 years grew a company that had around a couple million dollars of revenue!

My good friend and business partner Brian never heard of this plan before I shared it with him but he did something incredible on his own that is very similar. He started his entire business empire, which grew to millions of dollars of revenue too, from only \$2. He's shared this fact with people for the past couple of years, but since I know him I'm going to tell you one of his dirty secrets... he lied. He actually started with less than two bucks but in telling his story he just rounded up to a nice even number.

Does this all sound incredible to you, maybe even unbelievable? Sure, it's outrageous, but what have you got to lose from trying it yourself? Nothing. Would you like to know how to turn a penny you find into a million dollars? Remember, you're risking none of your own money doing this, and you didn't even have to pay anything to learn this plan. Your only "cost" is the time you spend following this plan, but with the potential payoff of doing this surely must be worth it.

Ok, so how does this plan work? Here is the concept in a nutshell, then I'll elaborate further. You start off by finding a penny on the ground somewhere, then by following the step-by-step plan explained below you do various business deals intended on achieving milestone targets to essentially double your money at each step.

PROSPERITY CONSCIOUSNESS

How many steps does it take to go from a penny to over a million dollars? Surprisingly there are only 28 steps between you and your goal.

Chances are that in elementary school your teacher might have taught you an interesting lesson about compound interest. The classical story in the lesson involves a boy going to his father on the first day of the month proposing a change to the allowance his father gives him. He suggests that his father forgoes paying him the usual allowance, instead that today the father pays him one penny, and that each day he doubles the allowance until the end of the month. The father seeing no harm in that, and being a bit of a cheapskate thinking that he'll save money on the allowance this month is happy to agree. On the next day the boy came to collect his two cents allowance, on the next day he approached his dad for the four cent allowance, next day 8 cents, next day 16 cents, and so on and so on each day. It wasn't long before the father realizes the mistake he made in agreeing to this new allowance as he ended up soon paying his son far more than usual, and soon after even had to abort breaking the agreement with his smart son. See the boy was clever knowing that if his father kept paying him just for the rest of the month that he'd get paid several millions of dollars! Here is a fun exercise: sit down with a calculator, start off with 0.01 then keep multiplying by two 31 times, and add up the amounts.

PENNY MILLIONS STRATEGY

In this plan you'll be figuring out how to double your money along the way. Starting from just one penny you'll surpass your million dollar goal in just 28 steps. Here, take a look!

Step 1	\$0.01
Step 2	\$0.02
Step 3	\$0.04
Step 4	\$0.08
Step 5	\$0.16
Step 6	\$0.32
Step 7	\$0.64
Step 8	\$1.28
Step 9	\$2.56
Step 10	\$5.12
Step 11	10.24 (for convenience let's call this \$10)
Step 12	\$20
Step 13	\$40
Step 14	\$80
Step 15	\$160
Step 16	\$320
Step 17	\$640
Step 18	\$1,280
Step 19	\$2,560
Step 20	\$5,120
Step 21	\$10,240 (let's call this \$10,000)
Step 22	\$20,000
Step 23	\$40,000
Step 24	\$80,000
Step 25	\$160,000
Step 26	\$320,000

PROSPERITY CONSCIOUSNESS

Step 27 \$640,000
Step 28 \$1,280,000

The idea is very simple. To begin playing this “game” you must find a penny. Remember, you are not allowed to use any of your own money, so you must go out and find your starting funds. I like to think of the first penny as the “seed” that will grow into a majestic money tree! Go for a walk along some local streets (or even inside a mall if it is cold outside) and sooner or later you're bound to find your first penny. If you happen to find something larger than a penny, like a nickel, dime, quarter or even something larger then good for you, as you've just jumped up to a higher step. For example, if you found a nickel then you've jumped up to Step 3, working towards Step 4 of attaining \$0.08.

RULE #1 – You are not allowed to use any of your own money in playing the Penny Millions game.

Here is a tip for you: you'll frequently find dropped change lying around entrances to convenience stores, gas stations, and a sweet spot is next to drive-thru windows of donut shops and fast food restaurants. Grab a clear glass coffee jar, or whatever container you have handy to store your “Penny Million” funds in, then drop your coin(s) into it.

Once you've found your initial penny, your “seed”, you are now on Step 1, having attained \$0.01, and you are now working on your goal of getting to the next Step,

PENNY MILLIONS STRATEGY

2, of \$0.02. The easiest way to get to Step 2 is to continue walking around until you find another penny. Once you've found your second penny then you'll be on Step 2 working towards Step 3 (\$0.04). Again, the simplest way to get to Step 3 is to continue walking around your neighborhood to find two more cents. Here your pursuit of wealth is good for your health; you're outdoors walking around! Remember, if you find larger coins (like a dime or a quarter) then you jump up to the appropriate higher Step.

Here is another tip for you: sometimes at some grocery stores they use shopping carts that you need to deposit a quarter into the shopping cart to unlock it, but you get the quarter back if you return the cart. Sometime people are lazy and will just abandon the cart in the parking lot. Simply walk the cart back to the locking area and claim your quarter.

For a while you'll probably enjoy going out for walks with your eyes scanning the ground, rejoicing over any coins you happen to find. Sooner or later you're bound to come to an interesting realization; you can't keep on doing this indefinitely. Walking the street is good to get you up the first few steps but soon it'll take way too much time to graduate to successively higher steps. Now you are going to have to start getting creative.

Your challenge is to figure out a way to invest whatever money you currently have to attain the next doubling Step. Now you don't have to accomplish a

PROSPERITY CONSCIOUSNESS

double from a single transaction, you may do several business deals aimed to move you towards your next milestone Step. You are allowed to buy raw materials, only if you can afford it from the Penny Millions funds you currently have (rule #1), and rework them somehow to add value to resell them for a profit. Here is another rule for you to observe:

RULE #2 – You may not use up existing materials that you already own, or in any way personally absorb costs involved in your Penny Millions business dealings.

What does rule #2 mean? All “costs” involved with your Penny Millions business dealings must be segregated and paid for directly from your Penny Millions funds. For example, printing pages from your home computer costs something (paper & ink). Driving your personal car for involves gasoline usage. Don't even think about stealing resources from your place of employment. You may make certain exceptions, such as using your home telephone, computer, or Internet as long as using these items doesn't cost you any more for the usage (i.e. don't make long distance calls). I personally wouldn't worry about the minor costs of electricity for running your computer. You may piggyback a business ride in the car to a store if you happen to be going there for personal reasons anyhow. If you need to use any personal items that incur a cost then calculate how much the total cost is and reimburse yourself from your Penny Millions funds.

PENNY MILLIONS STRATEGY

I'll share with you an embarrassing story of my first business transaction following this plan (not recommended for you to do, just telling you what I did). I printed up a copy of the original Penny Millions report (titled something else) from my home computer. Figuring that the local office supply store charges five cents (\$0.05) per photocopy I reimbursed myself for each sheet I printed. I walked down the street and found some guy waiting at a bus stop. I sheepishly approached him and offered to sell him a report that would teach him how to turn a penny into a million dollars, for a bargain price of just 75 cents. He kind of laughed, but I think the curiosity got the better of him and he bought it from me. Now I had enough money to launch a bigger project. By the way, I grant you permission to sell this report (to a friend?) for the purpose of your Penny Millions project as long as you provide it unedited in its entirety.

Here is another tip for you: eBay along with dollar stores and garage/yard sales can be an easy way to migrate up along some of the earlier Steps of the plan.

Bottom line is you need to start thinking about ways to deal your way up, from the money you currently have, striving to attain the next doubling Step. Remember that you can accomplish a doubling through several transactions; generally speaking you won't get 100% (doubling your money) on single deals. You might need to make multiple deals to get to your next mile-

PROSPERITY CONSCIOUSNESS

stone. It is important to keep focused on the step you are on. This brings us to our next rule:

RULE #3 – Only think about how to accomplish your next doubling, on the Step you are currently on.

Don't worry about how to double \$100,000 into \$200,000 while you are still on the Step 5. Part of what this plan is designed to do is to gradually stretch the envelope of your mind to grow your business sense along the way. Right now the idea of doubling a hundred thousand dollars might boggle your mind, but when you've succeeded in doubling \$25,000 to \$50,000 and that to \$100,000 you might be better mentally prepared for the new challenge. Now it might seem like a huge uncomfortable objective, but by the time you get there it'll simply be the next logical step for you and it won't seem like such an overwhelming task. Step by Step you'll grow in many ways preparing you to handle the next Step. This brings us to our next rule:

RULE #4 – You'll have to change strategies along the way.

We've already pointed out that after the first few steps it'll be impractical to continue walking along streets finding pennies trying to get to successively larger Steps. It would take an absurdly long time to get to a million dollars that way! If, for example, you were to be selling junk on eBay to double your way along the

PENNY MILLIONS STRATEGY

next several steps (or whatever you end up actually doing) it is inevitable that you'll find the same restriction happening; that it gets harder and harder to work your way up to the next step. You'll need to come up with new and different strategies as you graduate to higher and higher Steps. What you do to move from \$100 to \$200 to even \$1000 certainly won't work at the bigger stages, like going from \$10,000 to \$20,000 to \$100,000.

What happens if you engage into a business deal that flops?

RULE #5 – Losses from any Step drops you down to the appropriate Step.

Let's say you happen to be on Step 10 with \$7.48. Pretend you bought something from a garage sale intending to sell it on eBay but accidentally broke it, or listed it on eBay but no one bought it. Now you're left with \$2.19. Too bad, so sad, you've just reverted back down to Step 8 (a drop of two Steps!). You continue on from wherever you are now working towards the next Step (in this case Step 9).

Here is another rule:

RULE #6 – You can't do what you normally do for money.

PROSPERITY CONSCIOUSNESS

You must do something totally different than what you normally do to earn money. For example, if your profession is a “house painter” then you can't take side projects to paint houses since this is your normal line of work and you probably came across the deal through work related interactions anyhow. However, if your line of work has nothing to do with house painting you may start a small business painting houses as part of your Penny Millions project as long as you observe rules #1 and #2 (no out of pocket expenses).

RULE #7 – corollary to Rule #1 – You can't go into personal debt for your Penny Millions project.

You are not allowed to borrow money from yourself, friends or anyone for your Penny Millions project (but you may loan-shark the money to family members. The idea is to only use Penny Millions funds to do your business deals with. If you don't have enough money for something then you simply can't do the deal. Furthermore this plan is for you to make over a million dollars with no risk whatsoever. If you take on personal loans then you are liable for those loans and that is basically a violation of Rule #1. The only exception to getting loans is when you get to the level of playing with big bucks (tens to hundreds of thousands of dollars). If you have a corporation (an absolute must) and are doing some kind of big deal (like Real Estate) you may get a loan from a bank or an OPM deal (read my previous OPM article for ideas) as long as you do NOT personally guarantee the funds. Your only permitted

risk is the Penny Millions funds you have invested in the deal.

Additional tips in working the strategy:

Initially keep your Penny Millions money in a glass jar, an old change purse, or even a zip-lock plastic bag. Treat the actual Penny Millions money as sacred, only using THAT money for purchases, and be sure not to mix that money up with personal money. If you need to buy something with a credit card, such as paying for eBay fees or buying something online, then be sure to immediately reimburse yourself from your Penny Millions funds. Once you've grown to \$20 or so then you may open up a bank checking account (try to get an account with no fees) so that you have the convenience of using checks or even a Visa/debit card. Tip: if your bank gives you some kind of free gift for opening an account with them then see if you can sell the item they give you.

No matter what Step you are currently on, if you happen to find money (a penny or even more) then be sure to pick it up and add it to your Penny Million funds. For many years I've been in the habit of expressing an affirmation of gratitude every time I find a penny or more. The statement I personally say is "I accept I accept I accept all the abundance that I get – thank you thank you thank you God"; though feel free to make up your own affirmation with or without God in it. Put the coin in your pocket and briefly think a good thought

PROSPERITY CONSCIOUSNESS

about your financial prosperity, the success of your Penny Millions project, or just reflect with gratitude about the abundance of blessings and prosperity in your life already (no matter how little you may currently think you have you DO actually have at least some prosperity already – focusing on the good that you have draws more of the same into your life – conversely focusing on the perceived lack of what you don't have draws more of the same into your life too.)

In the early stages you'll probably do deals that involve the bulk or all of your funds on the single deal. When dealing with small amounts of money this is fine, but when dealing with large amounts of money try to limit your financial commitments on single deals so that if the deal turns bad you limit your losses to prevent being completely wiped out. Losing 95% of \$10 is certainly a setback, but won't suck nearly as much as losing \$95,000 from your total of \$100,000.

Keep a journal of your progress. This will become something fun to look at later on and cool to share with your friends that can't believe what you've done.

Education is a valuable investment into yourself and your Penny Millions project. I'm not talking about a College education (though I'm not knocking it either), what I mean is that it is ok, within reason, to buy books, courses or seminars that will teach you something useful to help you move forward faster in your Penny Millions project. Chances are you'll need to

learn a few things along the way to help you to know what to do to make money, particularly at the higher stages of this game. An idea I like telling people is this: sure a \$5,000 sounds expensive, but if it teaches you how to make \$5,000 a month (or even more) then isn't it really cheap?

When your project grows into the tens of thousands of dollars it might be a good idea to consider forming a corporation to contain your Penny Millions project within. There may be certain benefits, like, tax benefits, and shielding yourself from possible liabilities.

Remember, the Government will want a part of the action. Be sure to talk to your accountant to make sure you pay what you have to, but at little as legally possible.

How to Pay Yourself

The original plan I read was pretty strict about this point; the money from following this plan is to be completely “hands off”, you are not to take any of the money until you reached Step 28, over a million dollars, then it's all yours to do whatever you want with it. I'm sure that for most people this is actually a good idea as it removes temptation and will encourage you to become a millionaire.

I however am a non-conformist. I admit to having willingly violated that rule myself, and I've refined the

PROSPERITY CONSCIOUSNESS

strategy so that you can have the best of both worlds. With the variation I'm describing here you'll be able to enjoy the fruits of your labors earlier while giving you structure to fulfill the entire plan of becoming a Millionaire. Furthermore I believe that by having these milestone rewards you will be more encouraged to keep on working the plan. For many people smaller more frequent rewards is more motivating than a huge reward at the end, but having none of it now. This way you get the small rewards along the way AND the big payday!

Until you turn your seed penny into \$10,000 (Step 21) you won't be paying yourself at all. What's the point? It's such small chump change anyhow. However as of Step 21 you are permitted an "allowance", paying yourself 10% for each milestone you reach (10% of the milestone value, not 10% of how much money you have). You may choose to not pay yourself if you prefer, but if you opt to forgo paying yourself that milestone's payday is over (you can't later change your mind). You may only take one "allowance" payday per milestone. So when your project grows to be over \$10,000 you may take your 10% allowance (\$1,000), or not. Note that if you take your allowance your balance will drop down to \$9,000 and so you'll drop back down to Step #20. After you've done some other business deals eventually you'll get back up to Step #21, but since you have previously take a "Step #21 allowance" you can't take another allowance until you reach Step #22, over \$20,000. Then you may take your single

PENNY MILLIONS STRATEGY

“Step #22 allowance” of \$2,000. When you reach Step #23 you may take a \$4,000 allowance. By now you should get the idea. Here is the table showing you your permitted allowances:

Step 21	\$1,000
Step 22	\$2,000
Step 23	\$4,000
Step 24	\$8,000
Step 25	\$16,000
Step 26	\$32,000
Step 27	\$64,000

As you can see your allowances grow pretty quickly, and I'm sure that it'll motivate you along each step to get your reward. But what happened to Step #28, don't you get a \$128,000 allowance? Nope, now you get it all!!! For Step #28 you are entitled to a full \$1.28 Million dollar payday! The money is all yours to do with as you wish! Enjoy!!!

Now you're probably imagining how you could spend \$1.28 Million dollars, but by the time you get to that stage you'll probably find that you've matured somewhat. Of course you're going to go out and blow a small fortune, but the key word is “small”. Surely you'll have the wisdom to keep a good amount of the money to reinvest somehow (as you have obviously skillfully figured out how to do along the way of the plan).

PROSPERITY CONSCIOUSNESS

Remember, the final result of this plan is quite extraordinary, but the real point of this entire experience is actually quite educational. Along each Step of the way you will be faced with new challenges and you will have to grow personally to be able to progress to the next Step. It is inevitable that you are going to learn a tremendous amount about business and about yourself.

Perhaps some of you who've read some of my earlier books might recognize this basic concept in the other things I taught. Well this is the root idea of how I came up with those other inspiring strategies. I try to work in this basic concept into some of the business stuff that I do personally, and invite you to adopt this idea for yourself too.

HYPNOSIS/MEDITATION AUDIOS
by Tom Murasso, CHT

The most difficult step in the **Creative Manifestation** process is **Allowing** and **Believing**. Many people find the vibrational energy they're sending to the **Universe** by positively focusing their attention on what they want changes to negative vibrational energy because of inner emotional stumbling blocks like fear, and belief systems buried in their subconscious. Our **Hypnosis/Meditation Audios** can transform the inner you, bypass the critical ego-mind, and dissolve any negative emotions and beliefs that may be 'stuck' and sabotaging the results desired.

RELEASING NEGATIVITY - \$19.95

Fear, guilt, anger, depression, frustration, worry, blame, revenge, resentment, hate... these are just some of the bad feelings cutting off the flow of well-being. No matter how hard we work at offering positive vibrations, when we don't receive what we want, the problem may be in our subconscious.

SUBCONCIOUS CREATING - \$19.95

Clarify what you want, give your desire energy, and be ready to receive it. Sound simple? Yes, but many people find the process difficult because of beliefs that have a strong-hold on their minds. Bypass the ego and let the 'real' you manifest the life you desire.
