

# PSP LIMITED

## *Retail Fitouts & Commercial Projects Brochure*

PSP Limited proudly offers the industry the highest quality, widest choice and expert advice on the most innovative materials now available.

This brochure showcases our innovative range of products to suit for your future projects.

# Be inspired when refurbishing and modernising your interior space.

---

PSP Limited provide a wide range of innovative and quality architectural solutions with ease of installation, minimal disruption and maintenance in mind, where our goal is to help clients achieve their desired look without extensive labour costs while meeting stringent New Zealand Building regulations.

Our collection of products start with CoverStyl', a textured self-adhesive range that comes in a variety of styles and can instantly transform existing walls, furniture and almost any surface without the hassle of noise, smell and dust resulting in very little downtime for commercial spaces needing to be ready for foot traffic and business the following day.

Upgrading wet areas such as bathrooms and laundry spaces can be quickly achieved using DumaWall, a decorative tile and panel product that is 100% waterproof and simple to install over old tiles and walls. It features an interlocking tongue and groove system, eliminating the need, costs and time for a specialised tiler.

Renovating kitchen spaces that showcase a high-end appearance with the ability to fabricate on site is possible using DesignerSplash, EvoStone and Valchromat. DesignerSplash is ideal for a splashback solution that is suitable behind gas hobs and available in new marble styles. EvoStone is a lightweight benchtop without the need for templating, while Valchromat is a pre-finished coloured wood fibre panel suitable to a range of joinery and cabinetry applications.

Handrails with the balance of smart and sophistication can be completed using Promenaid, a patented aluminium modular clip and screw system. It is ergonomic, easy to install and strong making it ideal for walkways, stairways to bathrooms.

Create a realistic timber wall feature that is lightweight, fire-rated and maintenance free using Covet Battens. Available in an array of sizes and colours, there is a design that will compliment almost any interior setting.

Design features that compliment or highlight commercial settings using our range of Acrylic sheets, ranging from sustainable to solid and bold colours to frosted and illuminated options.

We'll work together with you to achieve your goals, thinking about how our products will meet expectations required for your project. **No job too big, no job too small: We do it all.**

## COVERSTYL' MARBLE/NATURAL STONE RANGE

A selection of popular CoverStyl' patterns and colours in 1220mm wide rolls in various lengths depending on range are now stocked. No need to now wait or pay for airfreighted material, you can get on with your next project straight away.

The stocked range only has a minimum order quantity of 1metre and includes a collection of wood grain, marble, concrete, leather, soft touch and glitter styles.

CoverStyl' also offers hundreds of other different styles to compliment a range of vertical and horizontal interior applications that can be delivered with a lead time of only 9-12 working days and a minimum order quantity of 10metres.

## COVERSTYL' LEATHER/FABRIC RANGE

CoverStyl' creates minimal dust and leaves no lingering smell, installation is clean and quick resulting in very little downtime for the retail space.

Overnight a space can be modernised and refreshed, ready for foot traffic and business the following day.

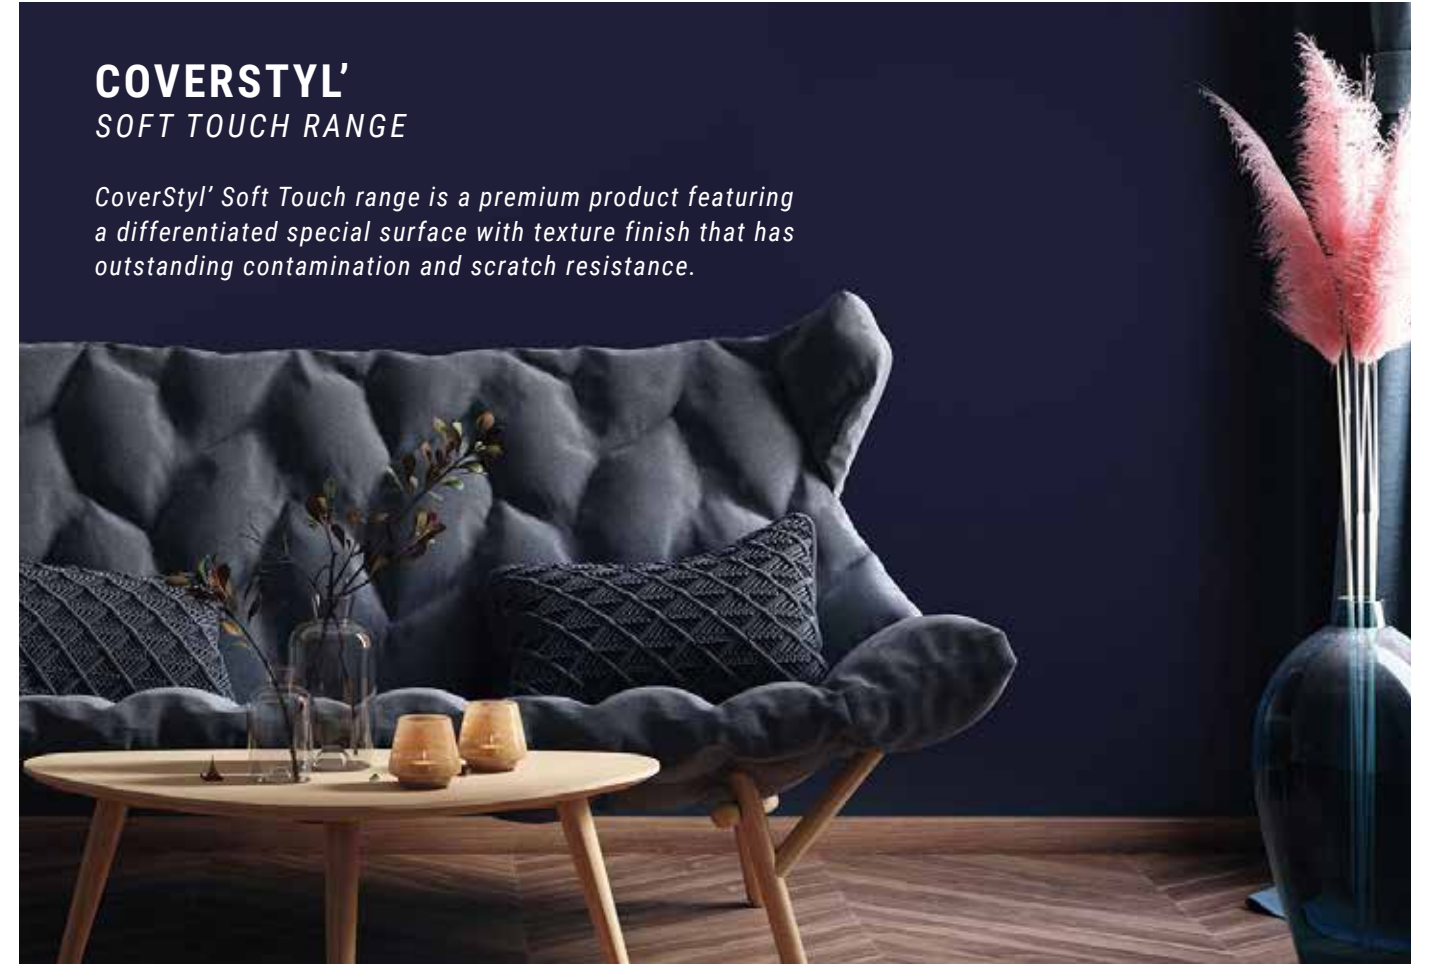

## COVERSTYL' METALLIC/GLITTER RANGE

CoverStyl' is simple to apply and install due to its bubble-free adhesive liner, is fire rated and resistant to heat and humidity. It also has a 10-year guarantee against cracking, yellowing or delamination, making it the ideal solution for residential or commercial refurbishment projects.

## COVERSTYL' SOFT TOUCH RANGE

CoverStyl' Soft Touch range is a premium product featuring a differentiated special surface with texture finish that has outstanding contamination and scratch resistance.

## ACRYLIC

Acrylic is a very versatile, lightweight product which is used in a number of markets and applications, a very unique product which is easy to fabricate.

GreenTick is the new sustainable Acrylic solution as it incorporates recycled materials, while still achieving that premium quality finish.

SatinGlas comes in a satin finish giving the sheets a more frosted looking surface. When backlit by natural or artificial light the colour is enriched creating a vibrant setting.

Available in a wide range of colours, gauges and sheet sizes the product is also available cut to size.
