## Diversifying Psychology Weekend

Thirty-one students attended this year’s **Diversifying Psychology Weekend (DPW)** on April 7 – April 9, 2022. This two-and-a-half-day event brings together talented ethnic/racial minority undergraduates and college graduates invested in pursuing doctoral level training in psychology and neuroscience, and is an event UNC Psychology & Neuroscience has been proud to host since 2014. The event originally began as “Diversifying Clinical Psychology Weekend,” with only one doctoral program hosting the weekend for those interested in the Clinical Psychology Ph.D. However, the 2022 DPW was especially notable, as for the first time, the event includes prospective graduate students interested primarily in each of our program areas across the department: Behavioral & Integrative Neuroscience, Clinical Psychology, Cognitive Psychology, Developmental Psychology, Quantitative Psychology, and Social Psychology.

DPW was held virtually this year, due to the ongoing pandemic, and began on Thursday evening with introductions to our six doctoral programs. Each PhD program representative shared strengths of their faculty and research, what past alumni have been able to achieve with their degree, innovative technology and resources researchers can encounter on the Carolina campus, and their goals to make novel contributions to the field of psychology. Dr. Barbara Fredrickson, Social Psychology Program Director, noted, “I am especially proud of our collegiality and engagement.” Dr. Andrea Hussong, who co-hosted the event with Dr. Charlotte Boettiger and the DPW planning team, agreed, “Each of our programs are distinct, but realize that you can do so much across all fields of study! You can really do that at UNC.”

Over 40 of our graduate students, postdoctoral scholars, and faculty were involved in this year’s event, which included extensive planning, advertising, selecting participants, preparing resources, and hosting panels and workshops. Esme Navarro, a first-year doctoral student in Clinical Psychology, was a past participant in the first-ever virtual DPW in 2020 and this year, served as a volunteer. She said, “From the event I participated in 2020, I gained important insight as to what I should consider when choosing a graduate program, and the things professors were looking for when choosing a grad student. I also had the opportunity to meet with students and professors - everyone’s kindness and willingness to help convinced me to apply to UNC! Now that I’m a student here, I have really enjoyed helping plan the event. It’s been fun working with professors and students across the departments, ‘behind the scenes,’ and seeing the program come together!” Fellow doctoral student, Yolanda Yang, who also assisted with the 2022 DPW scholar selection, agreed. “I felt truly inspired learning about diverse applicants’ unique journeys and backgrounds. I enjoyed “meeting” the 31 impressive applicants joining us for DPW this year – and I hope to help empower these applicants and enhance their sense of belonging in academia during their time at DPW!”

# Diversifying Psychology Weekend

Continued

This year's DPW scholars participated in a wide range of events, including seminars, workshops, panels, and social gatherings. Workshops included perspectives from students and faculty in helping these prospective graduate students make more informed decisions such as how to select a graduate school or program, advice on applying to graduate school, and how to best craft a research statement and CV. Attendees also joined panels to meet UNC faculty, discuss funding and life in grad school, and advice on how to gain experience and build connections. One student-only session talked about being a part of a racial/ethnic minority group in graduate school and served as an opportunity to attendees to ask current racial/ethnic minority graduate students candid questions about their experiences at UNC, the broader Chapel Hill region, and in academia.

In the last wrap-up session, attendees had time to reflect on the 2022 DPW experience and ask final questions. One participant, Alexia Martinez, shared, "It can be hard to talk to people in virtual conferences, but everything was so different here. I am grateful for the variety of perspectives and for everyone's time." Fellow attendee, Evan Reynolds, agreed, "This program gave me a lot of confidence in the direction I want to go in, especially to meet people who look like me and are pursuing a career path I am interested in." UNC's Diversifying Psychology Weekend is a competitive admission process, and Dr. Hussong noted that we at UNC honor our scholars and recognize their accomplishments. All 31 UNC DPW 2022 scholars are recognized for this distinction on our website, <https://tarheels.live/uncdpw/>, and additional resources, included recorded presentations, handouts, and panel slides, are available online for anyone who may be interested in pursuing a PhD in psychology.
