# Population Health Series

Series Editor: Richard Riegelman

Bring important population health issues into focus with JONES AND BARTLETT LEARNING'S new **Population Health Series** – a growing series of concise texts that address today's population health issues.

Population health is the emerging discipline that brings together public health, clinical health care, plus health administration and policy to improve the health of the population. *The Population Health Series* builds on the population health expectations of the Clinical Prevention and Population Health framework developed by representatives of health professions educational associations including nursing, physician assistants, pharmacy, medicine, and public health, and is a rapidly becoming a component of accreditation of health professions programs.

## KEY FEATURES

- Concise length makes these texts easy and affordable supplements for a variety of courses
- Affordable bundle option with any other Jones & Bartlett Learning text for an additional \$15
- Suitable for use across the health professions, including public health, health administration, nursing, and clinical health fields
