The Peekskill City School District transports approximately 1700 pupils in grades K – 6 to three elementary schools located in the district. Pupils in grades K – 1, living more than ½ mile from school are transported to Woodside Elementary School. Pupils living more than one mile from school are transported to Oakside (grades 2 - 3) and Hillcrest (grades 4 - 5) Elementary Schools. No transportation is provided for pre-K, middle and high school pupils.

Peekskill is a compact, urban school district encompassing 4.9 square miles. Vans and 11 – 66 passenger buses are routed by Transfinder software (see Appendix A). Each Montauk Transportation Bus has a driver and a monitor. Monitors assist pupils in loading and unloading and enforce the district's seatbelt policy. All pupils are required to wear seatbelts.

Bus Monitors and vigilant police pressure reminds the motoring public to stop for school buses at school bus stops, many of which are located at intersections. Intersection bus stops are not desirable because school bus flashing red lights only control traffic in two directions.

Recommendation 1:

Bus stop location should be examined and relocated where feasible away from street intersections.

Bus Utilization

Students are assigned to stops and routes using the Transfinder counts for all eligible riders. However, not all eligible riders actually ride the school buses. The following advice is from the New York State Education Department website, which answers the questions: Do you need a seat for every student?

Education Law section 3635-c prohibits standing passengers except during the first ten days of school and in an emergency. This should be not interpreted as having a seat for every student regardless of actual ridership. In fact, numerous Commissioner's decisions have emphasized the responsibility and authority of boards of education to provide not only a safe, but an efficient transportation system. School officials should design routes and assign buses so that buses are used safely and efficiently. Whenever possible, buses should be filled to capacity. We encourage school districts to gather information on the capacity use of their transportation fleets. School districts should instruct drivers to take an actual count of pupils riding the bus periodically on each route and should maintain records in case of an appeal.

Some Districts have a policy of holding an available seat for every potential rider. This policy goes against cost-effectiveness and gives the appearance of under use of school buses. The Department encourages school districts to have an available seat only for those students who are expected to ride the bus. They may wish to survey parents on their intentions but in no case can a parent's response be seen as waiving their right to transportation for their child. It is advisable to have an additional 10 percent of the seats

available in case of unanticipated riders, in relation to the district's own routing calculations based on the students transported (not the posted capacity). It is not prudent to have buses with 50 percent of the seats empty in order to accommodate every possible student. We encourage school districts to have a backup plan as part of their emergency management practices for pupil transportation in the event that a bus is filled beyond capacity.

See Commissioner's Decisions 14,444, 14,094, 13,355, 14,376, 14,015 and 13,680.

The following charts using bus head counts for November 4th and 5th indicate that almost one third of bus seats are empty. A count done once again on November 11, 2015 surprisingly showed that 41% of the bus seats were empty.

Large Bus Loads, Peekskill City SD & Montauk Bus						
Bus #	Capacity	Max		Max		Seats
		Transfinder		Actual 10/45		Available
		Hillcrest	Woodside	Hillcrest	Woodside	
1	66	50	52	40	30	26
2	66	57	58	41	41	25
3	66	58	42	48	35	18
4	66	65	45	52	38	14
5	66	57	55	39	47	19
10	66	13	54	22	43	23
11	66	56	31	44	22	22
Subtotal	462					147

Bus #	Capacity	Oakside	Woodside	Oakside	Woodside	Available
6	66	45	44	48	44	18
7	66	45	56	43	53	13
8	66	49	51	30	50	17
12	66	23	47	22	29	37
Subtotal	264					85
Total	726					232

$$232/726 = 0.32$$

32% of the seats are empty November 4 & 5, 2015.

Bus #	Capacity	Hillcrest	Woodside
1	66	35	29
2	66	42	41
3	66	42	40
4	66	43	39
5	66	52	48
Subtotal	330		
	Capacity	Oakside	Woodside
6	66	41	36
7	66	38	39
8	66	28	42
Subtotal	198		
	Capacity	Hillcrest	Woodside
10	66	24	31
11	66	44	23
Subtotal	132		
	Capacity	Oakside	Woodside
12	66	17	21
Total	726		

Hillcrest – Woodside excess capacity = 173

Oakside – Woodside excess capacity = 121

294/726 = 41% empty seats on November 11, 2015

School bell times in the morning would allow the district to reduce buses. However, the spreading of P.M. bell times would need to be adjusted to allow five to ten minutes extra route time. Up to two buses could be eliminated from Hillcrest-Woodside service and Bus #12 could be eliminated from Oakside-Woodside service, if time spreads were increased allowing three buses to pick up at Bus #12 stops.

Recommendation 2:

Transfinder re-route to fill buses to near capacity

In discussions, with Transportation Secretary Karen Gard, the consultant was told that Mrs. Gard might retire in September 2016. Since she enters all of the data on Transfinder software, and is an expert on providing the transportation contractor and district with routes and reports, she can produce new routes for the start of the school in the fall. Never-the-less, someone needs to be trained for a seamless transition in the transportation office. The consultant was impressed with the professionalism of the Montauk Transportation operation. Managers, Drivers and monitors demonstrated that pupil safety was paramount. Universal use of seatbelts by bus riders is the result of a wise policy and diligent enforcement of the policy by drivers and monitors.

Appendix A

Route Trip Summary Transfinder Report

66 Passenger Buses and Vans
