

2021 Impact Projects (PRJ) Grant Listings

Purpose: What is the intended impact of this program?

The **Impact Projects** grant program intends to support collaborative projects that center artists and artistic practice in responding to issues facing California at this time, including the pervasive social, political, and economic inequalities experienced by those communities most vulnerable to, and adversely affected by, the COVID-19 pandemic. This program prioritizes local artists and forms of arts and cultural expression that are unique to, and/or historically rooted in, the specific communities to be served.

Impact Projects grants support arts organizations for collaborations between local artist(s) and community members to develop and express their own creative and artistic goals and address a community-defined need. Collaborative projects will utilize various creative practices to impact social issues affecting their communities, including but not limited to systemic/structural racism, education, poverty, health disparities, housing insecurity, violence, food insecurity, cultural/ social justice, intergenerational learning, environmental sustainability, and the digital divide.

Applying for the Impact Projects grant does not restrict an organization from applying for other CAC grants. Learn more at https://arts.ca.gov/grant_program/impact-projects/.

Number of Grants Awarded: 248

Total Investment: \$ 4,156,516
