WELCOME TO EDITION 7

Well it's that time again where we are delighted to offer you our brand new catalogue. Packed full with over 80 new products, and a host of price savings, we think that it's time that you knew all about them.

I hope that you enjoy the read, and can find just what you are looking for.

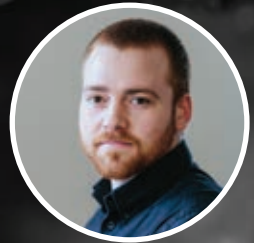

Richard Bingham
MANAGING DIRECTOR

CUSTOM PARTS & NEW PRODUCT DEVELOPMENT

With new machines, and a dedicated R&D team, we are able to rapid prototype and produce new products in-house to the BEST Fittings quality that you have come to expect.

As always, if there is something that you hoped to see, but it is not here, then feel free to give us a call or drop us an email, and just see what we can do for you...

QUICK COUPLER KITS & PARTS

INTRODUCTION

Our Quick Coupler fittings are the preferred choice at many airgun clubs and charging stations. Suitable for use with all pre charged air weapons featuring the industry standard 1/8" BSP fill probe or connector.

Our fittings are simple to fit, easy to use and certified safe for use up to 320BAR.

Once fitted no spanners are required to swap from one filling probe to another.

QUICK COUPLER STARTER KIT

Our time proven and industry leading Quick Coupler Starter Kit offers a high quality, cost effective, slim-line solution enabling quick and easy interchange from one fill probe type to another. Additional plugs are readily available to add more probes to your setup.

BEST Fittings Quick Coupler Starter Kit

Compatible with all fill probes with the Industry Standard 1/8" BSP male thread and hoses with a 1/8" BSP Female.

Contains: 1 x Quick Coupler Socket, 2 x Quick Coupler Plugs, 1 x Stainless Steel Pressure Test/Dust plug.

NEW EXTRA PLUG BUNDLES

AIR ARMS FITMENT

Air Arms Early Type Female Coupling

Air Arms Old Style Female Coupling. Can be used with Valveless AA Male shown below as an alternative quick interchange system. As used on S400/S410/S200. Pre 'T' bar type. Includes 1/8" BSP male/male adaptor for direct connection to your hose.

CODE	DESCRIPTION	PRICE
03A1-FM01	Air Arms Early Type Female Coupling	£12.00

Air Arms VALVELESS Male

An alternative component for quick coupler setup utilising the older Air Arms style snap coupling. Complete with bonded seal washer. Simply fit to your new fill probe and you can then simply 'Snap' it into your old style Air Arms Connector instead of spanning your fittings on and off.

CODE	DESCRIPTION	PRICE
03A1-ML04	Air Arms VALVELESS Male	£9.00

Air Arms Male - Cylinder Pressure Check Plug

Valveless Air Arms Male fitted with 1/8" blank plug. Use with standard Air Arms female snap connector for quick checking of the residual pressure in your cylinder.

CODE	DESCRIPTION	PRICE
03A1-ML05	Air Arms Male - Cylinder Pressure Check Plug	£9.50

BROCOCK / TAWNADO FITMENT

Quick Coupler Plug - Brocock OE / Tawnado Smart Coupling Fit - Denoted by twin notches on body.

BROCOCK O.E. SNAP COUPLER Compatible Quick Coupler Plug. Quality Stainless Steel. Compatible with all 1/8" BSP connectors. Complete with a bonded seal washer for easy fitting.

CODE	DESCRIPTION	PRICE
02B3-ML04	Quick Coupler Plug - Brocock OE Fit	£7.50

Cylinder Pressure Test Plug - Brocock OE / Tawnado Smart Coupling Fit - Denoted by centre groove.

To read the residual cylinder pressure, install the plug into the fill connector, close the bleed valve on the cylinder and slowly open the cylinder air control valve. The pressure inside the cylinder will be indicated on the cylinder or charging head gauge. Bleed system after use.

CODE	DESCRIPTION	PRICE
02B3-ML06	Cylinder Pressure Test Plug - Brocock OE Fit	£7.50

Air Arms FTP 900 Fill Probe

Standard 1/8" BSP male thread for direct fitting to a flexible fill line or one of our Quick Coupler Plugs. Complete with two spare 'O' rings and a sachet of silicone grease.

CODE	DESCRIPTION	PRICE
03A1-ML06	NEW Air Arms FTP 900 Fill Probe	£15.00
03A1-PC01	NEW Fill Probe Cover Cap	£6.50
03A1-SK03	Fill Probe Service Kit - 6 'O' Rings + Grease	£4.50

Air Arms Early Type Female Coupling

Air Arms Replacement Female Fill Coupling. Suits Air Arms S400/410/200. Pre 'T' bar type. Also fits Logun Pro MK1. Includes 1/8" BSP male/male adaptor for direct connection to your hose.

CODE	DESCRIPTION	PRICE
03A1-FM01	Air Arms Early Type Female Coupling	£12.00

Air Arms Male Fill Valve. Pre T-Bar type

Air Arms Replacement Fill Valve S400/410/200. Early style with push on valve cover. Pre T-Bar style valve.

CODE	DESCRIPTION	PRICE
03A1-ML02	Air Arms Male Fill Valve. Pre T-Bar type	£9.00

Air Arms Current Style Fill Coupling. T Slot

Current Style Air Arms Female Fill Adaptor. Suits the Air Arms S400/410/200 and the new S510. This is the hose fitting with 'T' Bar slot.

CODE	DESCRIPTION	PRICE
03A1-FM02	Air Arms Current Style Fill Coupling. T Slot	£15.00

Air Arms Current Style Fill Valve. T-Bar Type

Replace that damaged or leaking valve. **Parts included:** Main Body with Integral Filter, all 'O' rings, Inner Piston, Piston Seal and Piston Spring. Suits Air Arms S200/S400/S410/S510 with current style valve.

CODE	DESCRIPTION	PRICE
03A1-ML03	Air Arms Current Style Fill Valve. T-Bar Type	£17.50
03A1-SK01	Air Arms Current Style Fill Valve Service Kit	£4.50

Air Arms - BEST Fittings Fill Valve Upgrade Kit For Old Style AA Snap Coupler Reservoirs

Upgrade to the BEST Fittings Snap Coupler System. Suits S400/410/510. Not suitable for the Air Arms S200.

IMPORTANT SAFETY WARNING

Only divers quality, normal breathing air is recommended for airgun users. Different gasses have different densities and flow characteristics and could lead to unexpected variations in power output. Oxygen or flammable gases can spontaneously detonate in the air reservoir leading to serious injury or death!

ONLY USE DIVERS QUALITY BREATHING AIR IN YOUR AIRGUN

Air Rifle, Air Pistol, Paintball and AirSoft Charging Kits

BEST Fittings have responded to customer demand, and have now released our own brand of Charging Kits incorporating a Push Button Bleed facility. They also feature our own custom dial 50mm High Accuracy Steel Cased Pressure Gauge, and a removable safety air flow restrictor installed in the air inlet stem that prevents inaccurate readings on the pressure gauge during the filling process.

These kits are designed to be used on cylinders that have a basic cylinder valve with no pressure gauge or air bleed facility.

04B3-SK03 DIN Face 'O' rings - 5 Pack £4.50

BEST Fittings DIN 200/300 BAR Charging Kits with **NEW** Thumb Push Bleed

DIN Kits can be used on DIN 200/300 BAR diving cylinder valves that have a G5/8 thread and flat bottom inside the valve outlet.

CODE	DESCRIPTION	PRICE
04B3-DK00	DIN Charging Kit for Buddy Bottle Filling - No Hose	£47.50
04B3-DK45	DIN Charging Kit + 450mm Microbore Hose	£52.50
04B3-DK60	DIN Charging Kit + 600mm Ultima Hose	£57.50
04B3-DK10	DIN Charging Kit + 1000mm Ultima Hose	£57.50
04B3-DK20	DIN Charging Kit + 2000mm Ultima Hose	£62.50

BEST Fittings 'A' Clamp / K Valve / Yoke Charging Kits with **NEW** Thumb Push Bleed

'A' Clamp / K Valve / Yoke Clamp kits can be used on basic 200/230 BAR diving cylinder pillar valves.

CODE	DESCRIPTION	PRICE
04B3-AK00	'A' Type Clamp Kit for Buddy Bottle Filling - No Hose	£49.50
04B3-AK45	'A' Type Clamp Charging Kit + 450mm Microbore Hose	£54.50
04B3-AK60	'A' Type Clamp Charging Kit + 600mm Ultima Hose	£59.50
04B3-AK10	'A' Type Clamp Charging Kit + 1000mm Ultima Hose	£59.50
04B3-AK20	'A' Type Clamp Charging Kit + 2000mm Ultima Hose	£64.50

BOC Bullnose Charging Kit 300 BAR MAX with **NEW** Thumb Push Bleed

BOC Bullnose can be used on commercial gas cylinders with a standard G5/8 R/H Bullnose outlet.

WARNING ONLY USE DIVERS QUALITY BREATHING AIR

08B3-ML01	5/8" BSP (DIN 300)	£15.00

CYLINDER DUST PROTECTION

'A' Clamp Type Cylinder Valve Dust Cap

Protect your cylinder 'A' Clamp Outlet from dirt and damage. Supplied with nylon attachment cord.

CODE	DESCRIPTION	PRICE
08B2-AC02	'A' Clamp Type Cylinder Valve Dust Cap	£3.50

DIN Dust Plugs

Keeps the spiders out of your kit! Supplied with nylon attachment cord. Chromed Brass unit can be used for residual pressure test with gun valve gauge. No cord.

CODE	DESCRIPTION	PRICE
16 08B2-AC03	Blue Alloy	£8.50
17 08B3-ML01	Chromed Brass	£15.00

CYLINDER CONNECTORS

DIN Male to 'A' Clamp Discharge Connector

Allows the use of an 'A' Clamp (K-Valve) charging kit on a 200/300 BAR DIN Cylinder valve. Also enables part filling of a 300 BAR DIN Cylinder from a compressor with a 230 BAR 'A' Clamp filling whip.

CODE	DESCRIPTION	PRICE
08B2-SP05	DIN Male to 'A' Clamp Discharge Connector	£27.50

200/300 BAR DIN Female to 'A' Clamp Adaptors

Used to adapt a DIN male connector to an 'A' clamp (K-Valve) style cylinder valve for filling or discharging purposes.

Please observe max filling pressures for your equipment.

CODE	DESCRIPTION	PRICE
08B2-AD23	200/232 BAR DIN to 'A' Clamp	£21.75
08B2-AD30	300 BAR DIN to 'A' Clamp	£22.75

'A' Clamp to BSPP Male 60° Connector

'A' Clamp (K-Valve) x BSPP Male 60° Internal Cone. Maximum working pressure of 232 Bar. Used to provide connections to 1/8" or 1/4" BSP female fittings.

CODE	DESCRIPTION	PRICE
08M1-SP02	1/8" BSP	£25.00
04B3-AC01	1/4" BSP	£18.50

DIN Hand Wheel to 1/8" BSP Female

Suits 200/300 BAR DIN female outlets. Supplied fitted with a 1/8" BSP male/male adaptor and bonded seal washer for connection to a standard fill line or quick coupler plug.

CODE	DESCRIPTION	PRICE
08B2-SP01	DIN Hand Wheel to 1/8" BSP Female	£21.50

DIN Male Discharge Connector to 1/4" BSP Male

200/300BAR DIN Male to 1/4" BSP Male Flow Restricted Connector with BEST Fittings large easy grip chromed brass handwheel. Suitable for standard charging kits when changing from 'A' Clamp format, or 1/4" BSP female charging whip ends. Removable Flow Restrictor.

CODE	DESCRIPTION	PRICE
08B3-SP01	DIN Male Discharge Connector x 1/4" BSP Male	£17.50
04B3-SK03	DIN Face O-Ring	£4.50

Flow Restricted Stems to 1/4" BSP Male

200/300BAR DIN Male and BOC Bullnose Male to 1/4" BSP Male. Replacement stems for standard MDE and other charging kits with a 1/4" BSP female outlet. Offers a controlled flow from the cylinder through the charging head maintaining a correct reading on your pressure gauge throughout the filling operation. Removable Restrictor.

CODE	DESCRIPTION	PRICE
04B3-FR02	200/300 DIN to 1/4" BSP Male	£14.00
04B3-FR03	BOC Bull Nose to 1/4" BSP Male	£14.00

2 09T1-SP01	Non-Return Valve Body to convert "Slim Jim" Pump	£12.50
05H3-MB30	300mm Microbore Hose	£12.50

INTRODUCTION

Shooters have struggled for years with fill lines that are just too short, not to mention vulnerable to kinking damage. We are happy to be able to provide you with a real alternative in the form of our Ultima Fill Lines.

With our high quality, longer fill lines, you can now quickly and easily fill your equipment and leave your cylinder standing on the floor. If you are out on a shooting trip, there is now no need to drag your heavy cylinder from the boot of the car just to get to your gun close enough to fill it!

Ultima Fill Lines - Made by BEST Fittings

Ultima Fill Line with 1/8" BSP Female Ends. PVC coated Stainless Steel outer braid with solid 303 Stainless Steel end fittings. 3mm bore.

Extremely durable, flexible, and almost indestructible.

CODE	DESCRIPTION	PRICE
05H2-UL01	150mm (6")	£15.00
05H2-UL30	300mm (12")	£25.00
05H2-UL45	450mm (18")	£25.00
05H2-UL60	600mm (24")	£27.50

06F5-TE04	1/4" BSP Fixed Female	£8.00

Fill Adaptor to Fill Line Fitting - Correct Procedure

If you are fitting a **standard fill adaptor** to a **standard fill hose** do not use jointing tape or jointing compounds. The seal is made between the recess in the end of the fill probe and the nipple inside the hose fitting, not on the fill probe threads. See picture below.

You should tighten finger tight + approx 1/2 - 3/4 of a turn. This is usually sufficient for all applications encountered. If the connection leaks on initial pressurization, you can tighten by further 1/4 turns until a seal is achieved.

If the fitting is **over-tightened**, it can actually **cause leaks**. Over-tightening creates a groove in the softer material which prevents the two components mating and sealing correctly.

If you are screwing a male fitting into a fixed female outlet, such as found on a cylinder valve or charging head outlet, then the correct sized bonded seal washer should be used on the male thread. See picture below.

Jointing tape or **jointing compounds** should only be used on **tapered fittings** such as BSPT and NPT threads.

For further information or fitting advice, please feel free to contact us.

CARBON CYLINDERS

SEE PAGES 34-35

3 LITRE

Small enough to put in your rucksack, and light enough to wonder whether it is there! With enough air to top up this 200cc paintball tank over 10 times this has to be a real contender when buying your new cylinder. Re-Fill your Air Arms S410 20 times!

9 LITRE

For when you don't want to carry a heavy cylinder for miles or have a ton of shooting to get done down at the club with your mates, then this is the right cylinder choice for you!

Light weight, large capacity, top spec airgun charging cylinder.

Re-Fill your Air Arms S410 60 times!

1.1 LITRE

A brand new fully grown cylinder in a compact and versatile living space. Giving approx 7 refills on an S410, or 14+ on the new SMK Artemis PP700S-A Pistol, this is a real "weekender" solution.
