AND REFURBISHED
MEDICAL EQUIPMENT

Single Source Solutions From the Top Names in the Industry

Seattle Technology
3915 152nd Street. NE
Marysville, WA 98271
1-800-827-3747
1-360-657-7900

The equipment you need at a price you can afford.

For more than 20 years, our company has set the standard in the refurbished equipment market.

Our level of workmanship is reflected in every product shipped. Our customers have come to expect like-new product, with the industries best warranties, at 40-60% savings over the price of purchasing new.

Every product is backed by our caring customer service team and helpful technical support staff.

ABOUT SEATTLE TECHNOLOGY

Seattle Technology (ST Surg) mission is to deliver the very best quality products combined with the highest level of customer service. Backed by 20 years of delivering great products and attentive service, our customer loyalty continues to grow. Having established our business in Washington State, we have progressively expanded our operations to provide on-the-ground sales coverage to the entire U.S., parts of Canada and beyond.

We continually strive to align our business goals with that of our customers which is reflected in our continued growth. As the healthcare landscape shifts to meet higher levels of patient care we play a large part to help assure our customers meet their fiscal goals.

While our company was built on supplying top quality refurbished products, we have expanded our product line to include state-of-the-art new equipment as well. Whether your needs are for service parts or a fully integrated operating room, we have the product portfolio you need, the experienced staff to support you through the decision making process and the technical support team to complete your installation and train your staff.

If you haven't already joined the movement towards the use of green products, we hope to hear from you soon!

OUR FACILITY

We welcome you to visit our state-of-the-art facility and showroom, which is nestled between the Cascade Mountains and the beautiful Puget Sound. Located one hour north of Seattle, the **ST Surg**' headquarters houses all the operational elements of our business in a facility specifically designed for refurbishing medical equipment. The two-story building is home to the **ST Surg**' team, and also features a fully-equipped showroom/operating room.

We welcome all of our customers to take a tour of our facility and experience firsthand the care and attention that goes into every piece of equipment we refurbish.

We also invite you to utilize our facility which can be used to showcase the equipment you will need for your upcoming project.

ST SURG REFURBISHING PROCESS

At **ST Surg**, we completely disassemble each piece of equipment down to its component parts. Each part is cleaned, inspected, repaired or replaced as needed and it is carefully rebuilt from the ground up.

Special attention is given to the finish, as well as the electrical and mechanical condition, so that it will look as great as it works.

The final product is a high quality piece of equipment that has been returned to the original manufacturer's specifications.

All of **ST Surg's** equipment is refurbished to the highest standards. Our customer service is thorough, prompt, and courteous. We back all of our equipment with full warranties so you can be sure that you are getting the equipment you need, for the procedures you perform, at a price you can afford.

ST Surg is able to fill the entire operating room with new and refurbished equipment for your surgical needs. We refurbish equipment only from top manufacturers, such as:

SURGICAL LIGHTS, BOOMS, CAMERAS & TABLES

The MAQUET Modutec Ceiling Service Ceiling Unit (Boom)

has a large internal diameter that provides the capability for the greatest number of services (electrical, gas and data) available, as well as any and all integration cabling that may be required – now or in the future

The MAQUET PowerLED surgical lights

- Higher luminous efficiency
- Heat-free light
- Optimized service life up to 40,000 hours
- Patented LED luminous flux management
- Low energy consumption

MAQUET

MAQUET ORCHIDE HD Surgical Camera

Full HD quality. Intuitively designed, has a slim profile for unlimited positioning versatility. It is fully compatible with the OR platform thanks to its serial link interfaces.

VISTOR MINOR SURGICAL LED LIGHTS

Introducing the latest additions to the Vistor line of Minor Surgical, Procedure and Examination Lights. The Vistor MS and PRO Lights both possess the signature feature of "Total Control" from the Sterile Handle. The combinations of Light Heads when paired with the mounting options is unprecedented in the industry.

VISTOR MINOR SURGICAL, EXAMINATION AND SPOT LED LIGHTS, EXAM/DERMATOLOGY LED LIGHTS AND SURGICAL HEAD LIGHTS

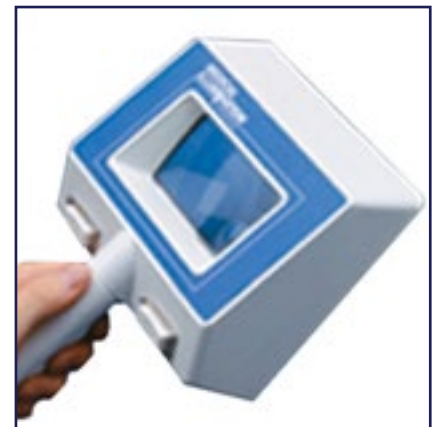

NUVO Vistor Minor Surgical Lights

- Vistor Surgical Light generates 100,000 lux of light intensity
- Vistor PRO Procedure Light delivers 64,500 lux of light intensity
- Vistor EX Examination Light provides 45,000 lux of light intensity
- Vistor SP Spot Light has an output of 21,500 Lux of light intensity
- Vistor SPF Spot Light with Fiber Optic Head Light attachment. Accommodates ACMI, Wolf, Olympus and Storz Light Systems as well as most head lights

Note: All lights are available as Ceiling Mounted, Wall Mounted or on a Mobile Floor Stand.

WOODS Light
