THE OHIO STATE  
UNIVERSITY

# Quarter to Semester Conversion Guide

## Background

In 2012, The Ohio State University transitioned from a quarter calendar to a semester calendar, with the first semester being held in the Summer Term of 2012. Following the change in calendars, a course conversion search tool was made available online that could be used to determine equivalencies between quarters era courses and the new semesters era courses. Two years after the calendar switch, the conversion search tool was removed from our web site and was permanently replaced by this Quarter to Semester Conversion Guide. The course equivalency information found within this Quarter to Semester Conversion Guide was collected throughout the University's calendar conversion process, and the equivalencies listed herein are final as of July 3, 2014.

## Quarters Era Course Descriptions

All historical course descriptions for The Ohio State University are available online via the University Registrar's web site at: [http://registrar.osu.edu/scheduling/bulletins\\_old.asp](http://registrar.osu.edu/scheduling/bulletins_old.asp).

## University Classification and Course Numbering System

The system of numbering courses offered by the University is as follows:

**1000-1099:** Non-credit courses for orientation, remedial, or other non-college level experiences. These are courses taken in addition to a program's graduation requirements.

**1100-1999:** Basic courses providing undergraduate credit, but not to be counted on a major or field specialization in any department. Courses at this level are beginning, required, or elective courses that may be prerequisites to higher-level courses.

**2000-2999:** Intermediate courses providing undergraduate credit that may be counted toward a major or field of specialization.

**3000-3999:** Upper-level courses providing undergraduate credit that may be counted toward a major or field of specialization.

**4000-4999:** Advanced-level courses providing undergraduate credit that may be counted toward a major or field of specialization. Graduate students may enroll in and receive graduate credit for 4000-level courses outside their own graduate program.

**5000-5999:** Courses that are regularly offered for both graduate and undergraduate credit, and sometimes for foundational coursework or research credit at the professional level. These courses provide credit that may be counted toward an undergraduate major or field of specialization.

**6000-6999:** Foundational coursework and research providing graduate or professional credit.

**7000-7999:** Intermediate coursework and research providing graduate or professional credit.

**8000-8999:** Advanced coursework and research providing graduate or professional credit.

## CHEM

1100 Chem and Society

**Quarter Equivalent:**

Chemistry 100, which was a 5-credit hour quarter course, is being expanded to a 5-credit hour course under semesters, with some expanded content.

1110 Elementary Chem

**Quarter Equivalent:**

Chemistry 101 and 102, with selected content from the 2-quarter sequence to be provided in this new one-semester course.

\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Chem 102 will receive audit credit for Chem 1110. Content of Chem 1110 is derived from both listed quarter courses. \*\*\*

1210 General Chem 1

**Quarter Equivalent:**

Chemistry 121 and part of Chemistry 122.

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for either Chem 122 or 131 will receive audit credit for Chem 1210. Content of Chem 1210 is derived from Chem 121 and 122. \*\*\*

1220 General Chem 2

**Quarter Equivalent:**

Part of Chemistry 122 and all of Chemistry 123.

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for Chem 123 will receive audit credit for Chem 1220. Content of Chem 1220 is derived from Chem 122 and 123. \*\*\*

1250 Gen Chem Engineers

**Quarter Equivalent:**

Chem 121: General Chemistry; Chem 125: Chemistry for Engineer.

\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Chem 125 will receive audit credit for Chem 1250. Content of Chem 1250 is derived from both listed quarter courses. \*\*\*

1610 Gen Chem Majors 1

**Quarter Equivalent:**

Chemistry 161 and part of 162.

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for Chem 162 will receive audit credit for Chem 1610. Content of Chem 1610 is derived from Chem 161 and 162. \*\*\*

1620 Gen Chem Majors 2

**Quarter Equivalent:**

Part of Chemistry 162 and all of 163.  
Part of Chemistry 162 and all of 163.

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for CHEM 163 will receive audit credit for CHEM 1620. Content of CHEM 1620 is derived from CHEM 162 and 163. \*\*\*

1910H Honors Gen Chem 1

**Quarter Equivalent:**

Chemistry 201H and part of 202H.

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for Chem 202H will receive audit credit for Chem 1910H. Content of Chem 1910H is derived from Chem 201H and 202H. \*\*\*

1920H Honors Gen Chem 2

**Quarter Equivalent:**

Part of Chemistry 202H and all of Chemistry 203H

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for Chem 203H will receive audit credit for Chem 1920H. Content of Chem 1920H is derived from Chem 202H and 203H. \*\*\*

2193 Individual Studies

**Quarter Equivalent:**

Independent study course that is related to an existing Chemistry 693 course, but available to more junior undergraduate students.

2194 Group Studies

**Quarter Equivalent:**

Lower-level version of Chemistry 694 for experimental courses in chemistry.

\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for either Chem 294 or 594 will receive audit credit for Chem 2194. Students with credit for Chem 694 will receive audit credit for Chem 5194. Content of Chem 2194 is derived from Chem 694. \*\*\*

2210 Quant Chem Analys

**Quarter Equivalent:**

Chem 221: Analytical Chemistry I (with expanded lecture content).

2210H Honors Quant Analy

**Quarter Equivalent:**

Chem 221H: Analytical Chemistry I (with expanded lecture content).

2310 Intro Organic Chem

**Quarter Equivalent:**

Chemistry 231 (with expanded content)

2510 Organic Chem 1

**Quarter Equivalent:**

Chemistry 251 and part of Chemistry 252.

\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Chem 252 will receive audit credit for Chem 2510. Content of Chem 2510 is derived from both listed quarter courses. \*\*\*

2520 Organic Chem 2

**Quarter Equivalent:**

Part of Chemistry 252 and all of Chemistry 253.

\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Chem 253 will receive audit credit for Chem 2520. Content of Chem 2520 is derived from both listed quarter courses. \*\*\*

2540 Org Chem Lab 1

**Quarter Equivalent:**

Chemistry 254 (with expanded content of spectroscopic methods).

2550 Org Chem Lab 2

**Quarter Equivalent:**

Chemistry 255 (with expanded content of spectroscopic methods)

2610 Org Chem Majors 1

**Quarter Equivalent:**

Chemistry 2610, along with 2620, will be available for chemistry and biochemistry majors only. The content will be taken from Chemistry 251 and part of Chemistry 252.

\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

2620 Org Chem Majors 2

**Quarter Equivalent:**

Chemistry 2620 will be available for chemistry and biochemistry majors only. The content will be taken from part of Chemistry 252 and all of Chemistry 253.

\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

Chemistry 251H and part of Chemistry 252H.

\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

2920H Honors Org Chem 2

**Quarter Equivalent:**

Chem 252H: Organic Chemistry; Chem 253H: Organic Chemistry.

\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

2940H Honors Org Lab 1

**Quarter Equivalent:**

Chemistry 254H: Organic Chemistry Laboratory (with expanded content of spectroscopic methods).

2950H Honors Org Lab 2

**Quarter Equivalent:**

Chemistry 255H (with expanded content of spectroscopic methods)

3510 Inorganic Chem

**Quarter Equivalent:**

Chemistry 651 and 652, converted to a one-semester offering.

\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

4193 Individual Studies

**Quarter Equivalent:**

Independent study course that is related to an existing Chemistry 693 course, but available to upper-level undergraduate students.

\*\*\*CONVERSION NOTE: For degree audit purposes, Chem 4193 has no equivalent quarter course. Students with credit for Chem 693 will receive credit for Chem 5193. Content of Chem 4193 is derived from Chem 693. \*\*\*

4194 Group Studies

**Quarter Equivalent:**

Upper-level version of Chemistry 694 for advanced experimental courses in chemistry.

\*\*\*CONVERSION NOTE: For degree audit purposes, Chem 4194 has no equivalent quarter course. Students with credit for Chem 694 will receive credit for Chem 5194. Content of Chem 4194 is derived from Chem 694. \*\*\*

4200 Fund Phys Chem 1

**Quarter Equivalent:**

Chem 520: Physical Chemistry; Chem 521: Physical Chemistry (Content expanded to 2 semesters). Part of Chemistry 162 and all of 163.

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for Chem 520 will receive audit credit for Chem 4200. Content of Chem 4200 is derived from Chem 520 and 521. \*\*\*

4210 Fund Phys Chem 2

**Quarter Equivalent:**

Chem 520: Physical Chemistry; Chem 521: Physical Chemistry (Content expanded to 2 semesters).

\*\*\*CONVERSION NOTE: For degree audit purposes, students with credit for Chem 521 will receive audit credit for Chem 4210. Content of Chem 4210 is derived from Chem 520 and 521. \*\*\*

4300 Physical Chem 1

**Quarter Equivalent:**

Reorganized components of Chem 530 - 531 - 532.

\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Chem 532 will receive audit credit for both Chem 4300 and 4310. Content of Chem 4310 is derived from all listed quarter courses. \*\*\*

4310 Physical Chem 2

**Quarter Equivalent:**

Reorganized components of Chemistry 530 - 531 - 532.

\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Chem 532 will receive audit credit for both Chem 4300 and 4310. Content of Chem 4310 is derived from all listed quarter courses. \*\*\*

4410 Physical Chem Lab

**Quarter Equivalent:**

Chem 541: Physical Chemistry Laboratory (with expanded content).

4550 Inorganic Chem Lab

**Quarter Equivalent:**

Chem 755: Inorganic Chemistry Laboratory (with conversion of content and laboratory experience for undergraduate focus).

4870 Instrum Chem Anly

**Quarter Equivalent:**

EarthSci 100: Planet Earth - How It Works. 5 to 4 credit hour conversion used for courses with labs. There will be 3 lectures and 1 lab per week, which maintains the same total lecture time and same lecture/lab ratio as in existing 5 hour courses.

1105 Geol Natl Parks

**Quarter Equivalent:**

EarthSci 105: Geology of the National Parks.

1107 Field Intro Ocean

**Quarter Equivalent:**

EarthSci 107: Field-based Introduction to Oceanography.

1108 Gemstones

**Quarter Equivalent:**

EarthSci 108: Gemstones.

1108H Honors Gems

**Quarter Equivalent:**

EarthSci 108H: Honors Gems. 5 to 4 credit hour conversion used for courses with labs. There will be 3 lectures & 1 lab per week, which maintains the same total lecture time & same lecture/lab ratio as in existing 5 hour courses.

1110 Hist Life on Earth

**Quarter Equivalent:**

EarthSci 110: History of Life on Earth - Global Change in the Biosphere.

1110H Hnr Hist Life

**Quarter Equivalent:**

EarthSci 110H: Honors History of Life on Earth.

1121 Dynamic Earth

**Quarter Equivalent:**

EarthSci 121: The Dynamic Earth. 5 to 4 cr/hr conversion used for courses with labs. There will be 3 lectures & 1 lab per week, which maintains the same total lecture time & same lecture/lab ratio as in existing 5 hour courses.

1121H Hnrs Dynamic Earth

**Quarter Equivalent:**

EarthSci 121H: Honors The Dynamic Earth. 5 to 4 cr/hr conversion used for courses with labs. There will be 3 lectures & 1 lab per week, which maintains the same total lecture time & same lecture/lab ratio as in existing 5 hour courses.

1122 Earth Through Time

**Quarter Equivalent:**

EarthSci 122: Earth Through Time. 5 to 4 cr/hr conversion used for courses with labs. There will be 3 lectures & 1 lab per week, which maintains the same total lecture time & same lecture/lab ratio as in existing 5 hour courses.

1122H Hnrs EarthThruTime

**Quarter Equivalent:**

EarthSci 122H: Honors Earth Through Time. 5 to 4 cr/hr conversion used for courses with labs. There will be 3 lectures & 1 lab per week, which maintains the same total lecture time & same lecture/lab ratio as in existing 5 hour courses.

1151 Natural Hazards

**Quarter Equivalent:**

EarthSci 151: Natural Hazards.

2155 Energy and Envirmt

**Quarter Equivalent:**

EarthSci 155: Energy and Environment. 5 to 4 cr/hr conversion used for courses with labs. There will be 3 lectures & 1 lab per week, which maintains the same total lecture time & same lecture/lab ratio as in existing 5 hour courses.

**Quarter Equivalent:**

EarthSci 205: The Planets.

2206 Princ Oceanography

**Quarter Equivalent:**

EarthSci 206: Principles of Oceanography.

2210 Energy Min Res Soc

**Quarter Equivalent:**

EarthSci 210: Energy, Mineral Resources, and Society.

2212 Intro Earth Matrls

**Quarter Equivalent:**

EarthSci 212: Introduction to Earth Materials. 5 to 4 cr/hr conversion used for courses with labs. There will be 3 lectures & 1 lab per week, which maintains the same total lecture time & same lecture/lab ratio as existing 5 hour course.

2220H Topics Earth Sci

**Quarter Equivalent:**

EarthSci 220H: Contemporary Topics in Geological Sciences.

2245 Intro Data Anlys

**Quarter Equivalent:**

EarthSci 245: Introductory Data Analysis for Earth and Environmental Sciences. 5 to 4 credit conversion for courses with labs. There will be 3 lecs and 1 lab/week, maintaining the same total lec time and same lec/lab ratio as in existing course.

3193 Individual Studies

**Quarter Equivalent:**

EarthSci 293: Individual Studies.

3310 EarthSysDataCollec

**Quarter Equivalent:**

EarthSci 310: Earth Systems Data Collection and Analysis.

3315 Evol Intdscprspct

**Quarter Equivalent:**

EarthSci 315: Evolution - Contemporary and Interdisciplinary Perspectives.

3411 Water Security

**Quarter Equivalent:**

EarthSci 411: Water Security in the 21st Century.\*\*\* CONVERSION NOTE: Students with credit for either EarthSci 411 or 421 will receive audit credit for EarthSci 3411. \*\*\*

4194 Group Studies

**Quarter Equivalent:**

EarthSci 746: Rheological Properties of Solids.

5751 QuantResModeling

**Quarter Equivalent:**

EarthSci 751: Quantitative Ground-Water Flow Modeling. Credit hours increased to maintain total lecture time from quarters, and to provide appropriate distribution of lecture vs. lab.

5752 Contam AqueousSyst

**Quarter Equivalent:**

EarthSci 752: Contaminants in Aqueous Systems. Credit hours increased to maintain total lecture time from quarters, and to provide appropriate distribution of lecture vs. lab.

5754 RiskAssmnt Mngmnt

**Quarter Equivalent:**

EarthSci 754: Risk Assessment and Management in Earth Systems. Credit hours increased to maintain total lecture time from quarters, and to provide appropriate distribution of lecture vs. lab.

5779 Sem PhysProp MinRx

**Quarter Equivalent:**

EarthSci 779: Physical Properties of Rocks and Minerals.

5780 Reflectn Seismolgy

**Quarter Equivalent:**

EarthSci 780: Reflection Seismology. Credit hours increased to maintain total lecture time from quarters, and to provide appropriate distribution of lecture vs. lab.

5781 Gravty Exploration

**Quarter Equivalent:**

EarthSci 781: Gravimetry. Credit hours increased to accurately represent increased course content.

5782 Magntic Explration

**Quarter Equivalent:**

EarthSci 782: Magnetometry. Credit hours increased to accurately indicate increased course content.

6421 Earth Materials

**Quarter Equivalent:**

EarthSci 421: Introductory Mineralogy and Crystallography. A graduate-level introduction to earth materials, allowing co-offering with EarthSci 4421. Graduate students in EarthSci 6421 will have extra assignments and more rigorous grading.

6423 Petrology

**Quarter Equivalent:**

EarthSci 423: Introductory Petrology. A graduate-level introduction to petrology, allowing co-offering with EarthSci 4423. Graduate students in EarthSci 6423 will have extra assignments and more rigorous grading.

6502 Stratigraphy &amp; Sed

**Quarter Equivalent:**

EarthSci 502: Stratigraphy & Sedimentation. Graduate-level introduction, allowing co-offering with EarthSci 4502. Students in EarthSci 6502 will have extra assignments and more rigorous grading. Credit hours maintain lab/lecture balance.

6530 Structural Geology

**Quarter Equivalent:**

EarthSci 530: Structural Geology. Graduate-level introduction, allowing co-offering with EarthSci 4530. Students in EarthSci 6530 will have extra assignments and more rigorous grading. Credit hour increase to maintain lecture/lab balance.

6560 Applied Geophysics

This course was created at the request of ENG.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

2182H Honors Calc 2

**Quarter Equivalent:**

Math 263.01H: Accelerated Calculus with Analytic Geometry III; and part of Math 162.01H: Accelerated Calculus with Analytic Geometry II.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Math 263.01H will receive audit credit for Math 2182H. Content of Math 2183H is derived from listed quarter course or courses. \*\*\*

2191.01 Field Experience

**Quarter Equivalent:**

ARTSSCI 489.01: Professional Practice: Credit Cooperative Education Program.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

2191.02 Field Experience

**Quarter Equivalent:**

ARTSSCI 489.02: Professional Practice: Noncredit Cooperative Education Program.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

2194 Group Studies

**Quarter Equivalent:**

Math 294: Special Topics in Mathematics.

2255 Diff Equations

**Quarter Equivalent:**

Math 255: Differential Equations and Their Applications. TAG Differential Equations.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for any decimalized version of Math 255 will receive audit credit for Math 2255. \*\*\*

2366 Intro Disc Math

**Quarter Equivalent:**

Math 366: Discrete Mathematical Structures I; intended for MIS majors.

2415 ODE and PDE

**Quarter Equivalent:**

Math 415.xx: Ordinary and Partial Differential Equations.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for any decimalized version of Math 415 will receive audit credit for Math 2415. \*\*\*

2566 Discrete Math

**Quarter Equivalent:**

Parts of Math 366: Discrete Mathematical Structures I & 566: Discrete Mathematical Structures II. Intended for CptrInf, CSE, ECE majors.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Math 566 will receive audit credit for Math 2566. Content of Math 2566 is derived from listed quarter course or courses. \*\*\*

2568 Linear Algebra

**Quarter Equivalent:**

Math 568: Introductory Linear Algebra or Math 571: Linear Algebra for Applications I. TAG Linear Algebra.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for either Math 568 or Math 571 will receive audit credit for Math 2568. \*\*\*

3345 Fdn Higher Math

**Quarter Equivalent:**

Math 345: Foundations of Higher Mathematics

3350 Intro Math Biology

**Quarter Equivalent:**

Math 350: Introduction to Mathematical Biology

3532 Math Fdn Act Sci

**Quarter Equivalent:**

Math 532: Mathematical Foundations of Actuarial Science.

3588 Pract in Act Sci

**Quarter Equivalent:**

Math 588: Math 588: Practicum in Actuarial Science

3589 Intro Finance Math

**Quarter Equivalent:**

Math 589: Introduction to Mathematical Finance

3618 Theory of Interest

**Quarter Equivalent:**

Math 618: Theory of Interest.

4181H Honors Analysis 1

**Quarter Equivalent:**

Math 190H: Elementary Analysis I; part of Math 191H: Elementary Analysis II.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Math 191H will receive audit credit for Math 4181H. Content of Math 4181H is derived from listed quarter course or courses. \*\*\*

# MATH

4182H Honors Analysis 2

**Quarter Equivalent:**

Math 264H: Elementary Analysis III.

4193 Individual Studies

**Quarter Equivalent:**

Math 593: Individual Studies

4194 Group Studies

**Quarter Equivalent:**

Math 594: Group Studies.

4504 History of Math

**Quarter Equivalent:**

Math 504: History of Mathematics.

4507 Geometry

**Quarter Equivalent:**

Math 507: Advanced Geometry

4512 Applied PDE

**Quarter Equivalent:**

Math 557: Differential Equations II or Math 512: Partial Differential Equations and Boundary Value Problems.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Math 512 will receive audit credit for Math 4512. Content of Math 4512 is derived from listed quarter course or courses. \*\*\*

4530 Probability

**Quarter Equivalent:**

Math 530: Probability.

4547 Intro Analysis 1

**Quarter Equivalent:**

Math 547: Introductory Analysis I and part of Math 548: Introductory Analysis II.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

4548 Intro Analysis 2

**Quarter Equivalent:**

Math 549: Introductory Analysis III and part of Math 548: Introductory Analysis II.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

4551 Vector Analysis

**Quarter Equivalent:**

Math 551: Vector Analysis or Math 513: Vector Analysis for Engineers.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for either one of Math 513 or 551 will receive audit credit for Math 4551. \*\*\*

4552 Complex Analysis

**Quarter Equivalent:**

Math 514: Complex Variables for Engineers; or Math 552: Introduction to the Theory of Functions of a Complex Variable.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for either one of Math 514 or 552 will receive audit credit for Math 4552. \*\*\*

4556 Dynamical Systems

**Quarter Equivalent:**

Math 556: Differential Equations I.

4557 Partial Diff Eq

**Quarter Equivalent:**

Math 557: Differential Equations II

4568 Linear Algebra

**Quarter Equivalent:**

Math 568: Introductory Linear Algebra or Math 571: Linear Algebra from Applications I.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for either one of Math 568 or 571 will receive audit credit for Math 4568. \*\*\*

4573 Number Theory

**Quarter Equivalent:**

Math 573: Elementary Number Theory.

4575 Combinatorics

**Quarter Equivalent:**

Math 575: Combinatorial Mathematics and Graph Theory

4578 Discret Mth Models

**Quarter Equivalent:**

Math 578: Discrete Mathematical Models  
4578 includes training in MATLAB/Octave. Students use that software in their course projects. This replaces the CSE prerequisite required for 578.

4580 Abstract Algebra 1

**Quarter Equivalent:**

Math 580: Algebra I; and part of Math 581: Algebra II.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

4581 Abstract Algebra 2

**Quarter Equivalent:**

Part of Math 581: Algebra II, and Math 582: Algebra III.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

4998H Hon Und Rsrch

**Quarter Equivalent:**

Math 783H: Honors Research.

4999H Hon Und Thesis

**Quarter Equivalent:**

Math 783H: Honors Research.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5001 Intro Set Theory

**Quarter Equivalent:**

Math 647: Set Theory (3 q-cr) converted to Math 5001 (3 s-cr). While Math 647 was an introduction to set theory targeted at logic students, Math 5001 will be a general introduction to basic set theoretic techniques used throughout mathematics.

5051 Intro Math Logic

**Quarter Equivalent:**

The quarter sequence Math 648: Mathematical Logic I, 649: Mathematical Logic II (3 q-cr each) is converted to the semester course Math 5051 (3 s-cr).\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5101 Finite Linear Math

**Quarter Equivalent:**

Quarter sequence Math 601: Mathematical Principles in Science I, 602: Mathematical Principles in Science II, 603.02: Mathematical Principles in Science III, B (3 q-cr each) converted to semester sequence Math 5101, 5102 (3 s-cr each).\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5102 Infin Linear Math

**Quarter Equivalent:**

Quarter sequence Math 601: Mathematical Principles in Science I, 602: Mathematical Principles in Science II, 603.02: Mathematical Principles in Science III, B (3 q-cr each) converted to semester sequence Math 5101, 5102 (3 s-cr each).\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5111 Algebra 1

**Quarter Equivalent:**

Quarter sequence Math 670: Algebra I, 671: Algebra II, 672: Algebra III (5 q-cr. each) converted to semester sequence Math 5111, 5112 (5 s-cr. each).\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5112 Algebra 2

**Quarter Equivalent:**

Quarter sequence Math 670: Algebra I, 671: Algebra II, 672: Algebra III (5 q-cr. each) converted to semester sequence Math 5111, 5112 (5 s-cr. each).\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5152 Intro Number Thy

**Quarter Equivalent:**

Conversion of quarter course Math 683: Topics in Number Theory and Algebra (4 q-cr) to semester course Math 5152 (3 s-cr).

5168 Intro Finite Elem

**Quarter Equivalent:**

CivilEn 768: Introduction to the Finite Element Method.\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5194 Group Studies

**Quarter Equivalent:**

Conversion of Math 694: Group Studies.

5194H Group Studies

**Quarter Equivalent:**

Math 594H: Group Studies

5201 Intro Real Anly 1

**Quarter Equivalent:**

Quarter sequence Math 651: Introduction to Real Analysis I, 652: Introduction to Real Analysis II, 653: Introduction to Real Analysis III (5 q-cr each) converted to semester sequence Math 5201, 5202 (5 s-cr each).\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5202 Intro Real Anly 2

**Quarter Equivalent:**

Quarter sequence Math 651: Introduction to Real Analysis I, 652: Introduction to Real Analysis II, 653: Introduction to Real Analysis III (5 q-cr each) converted to semester sequence Math 5201, 5202 (5 s-cr each).\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5221 Int Compl Analysis

**Quarter Equivalent:**

Conversion of quarter course Math 660: Intro Complex Analysis (5 q-cr) to semester course Math 5221 (3 s-cr). Increase in time from 654: Modern Math Methods in Relativity Theory I to 5251 is balanced with decrease in time from 660 to 5221.

5251 Complex Var &amp; App

**Quarter Equivalent:**

Conversion of quarter course Math 654: Complex Variables (3 q-cr) to semester course Math 5251 (3 s-cr). Increase in time from 654 to 5251 is balanced with decrease in time from 660: Introductory Complex Analysis to 5221.

5401 Appl Diff Eqs 1

**Quarter Equivalent:**

Quarter sequence Math 615: Applied Differential Equations I, 616: Applied Differential Equations II, 617: Applied Differential Equations III (3 q-cr each) converted to semester sequence Math 5401, 5402 (3 s-cr each).\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5402 Appl Diff Eqs 2

**Quarter Equivalent:**

Quarter sequence Math 615: Applied Differential Equations I, 616: Applied Differential Equations II, 617: Applied Differential Equations III (3 q-cr each) converted to semester sequence Math 5401, 5402 (3 s-cr each).\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5451 Variat &amp; Tens Calc

**Quarter Equivalent:**

Conversion of quarter course Math 701: Mathematical Methods in Science (5 q-cr) to semester course Math 5451 (3 s-cr).

5520H Hon Lin Alg &amp; D Eq

**Quarter Equivalent:**

Math 520H: Linear Algebra; Math 521H: Differential Equations.\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5522H Honors Cx Analysis

**Quarter Equivalent:**

Math 522H: Honors Complex Analysis.

5529H Honors Combin

**Quarter Equivalent:**

Math 594H: Group Studies.\*\*\* **CONVERSION NOTE:** For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5530H Honors Probability

**Quarter Equivalent:**

Math 531H: Rigorous Probability

5540H Diff Geom

**Quarter Equivalent:**

Math 540H: Geometry and Calculus in Euclidean Spaces and on Manifolds I; Math 541H: Geometry and Calculus in Euclidean Spaces and on Manifolds II.\*\*\* **CONVERSION NOTE:** For degree audit purposes, students with credit for Math 541H will receive audit credit for Math 5540H. Content of Math 5540H is derived from listed quarter course or courses. \*\*\*

5576H Hon Number Thy

**Quarter Equivalent:**

Math 576H: Number Theory through History I and Math 577H: Number Theory through History II.\*\*\* **CONVERSION NOTE:** For degree audit purposes, students with credit for Math 577H will receive audit credit for Math 5576H. Content of Math 5576H is derived from listed quarter course or courses. \*\*\*

5590H Hon Abst Alg 1

**Quarter Equivalent:**

Math 590H: Algebraic Structures I and part of Math 591H: Algebraic Structures II.\*\*\* **CONVERSION NOTE:** For degree audit purposes, students with credit for Math 591H will receive audit credit for Math 5590H. Content of Math 5590H is derived from listed quarter course or courses. \*\*\*

5591H Hon Abst Alg 2

**Quarter Equivalent:**

Math 592H: Algebraic Structures III and part of Math 591H: Algebraic Structures II.\*\*\* **CONVERSION NOTE:** For degree audit purposes, students with credit for Math 592H will receive audit credit for Math 5591H. Content of Math 5591H is derived from listed quarter course or courses. \*\*\*

5601 Ess Numer Methods

**Quarter Equivalent:**

The previously independent 606: Intr to Num Analy of Partial Diff Equations, 607: Essentials of Numerical Analysis (3 and 5 q-cr) are reorganized into sequence 5601, 5602 (3 s-cr each). 606 is the more advanced course and has most overlap with 5602.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5602 Computational PDEs

**Quarter Equivalent:**

The previously independent 606: Intr to Num Analy of Partial Diff Equations, 607: Essentials of Numerical Analysis (3 and 5 q-cr) are reorganized into sequence 5601, 5602 (3 s-cr each). 606 is the more advanced course and has most overlap with 5602.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5630 Life Continge 1

**Quarter Equivalent:**

Parts of Math 630: Actuarial Mathematics I and Math 631: Actuarial Mathematics II.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Math 630 will receive audit credit for Math 5630. Content of Math 5630 is derived from listed quarter course or courses. \*\*\*

5631 Life Continge 2

**Quarter Equivalent:**

Parts of Math 631: Actuarial Mathematics II and Math 632: Actuarial Mathematics III.\*\*\* CONVERSION NOTE: For degree audit purposes, students with credit for Math 631 will receive audit credit for Math 5631. Content of Math 5631 is derived from listed quarter course or courses. \*\*\*

5632 Fin Ec for Actuars

**Quarter Equivalent:**

Math 632: Actuarial Mathematics III.

5651 Math Mod Bio Proc

**Quarter Equivalent:**

Math 865: Topics in Applied Mathematics (3 q-cr) provides the foundation for the required summer internships of our Math-Biology MS program. The time allotted in Math 865 was too short so that it is extended to the 3 hour semester course Math 5651.

5660 Integ Mol Cell Bio

**Quarter Equivalent:**

The quarter sequence MolGen 660, 661: Integrated Molecular and Cellular Biology for Non-Biologists I, II is converted to MolGen 5660. The crosslisting with Math 5660 allows more flexibility with teaching credit for faculty with shared appointments.\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5702 Curves & Surfaces

**Quarter Equivalent:**

Quarter sequence Math 640: General Topology, 641: Elementary Low-Dimensional Topology, 642: Geometry of Curves and Surfaces (3 q-cr each) converted to semester sequence Math 5801, 5702 (3 s-cr each).\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5756 Meth Relativ Thy 1

**Quarter Equivalent:**

Quarter sequence Math 665, 666: Modern Mathematical Methods in Relativity Theory I, II (4 q-cr each) converted to semester sequence Math 5756, 5757 (3 s-cr each).\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5757 Meth Relativ Thy 2

**Quarter Equivalent:**

Quarter sequence Math 665, 666: Modern Mathematical Methods in Relativity Theory I, II (4 q-cr each) converted to semester sequence Math 5756, 5757 (3 s-cr each).\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

5801 Gen Topol & Knots

**Quarter Equivalent:**

Quarter sequence Math 640: General Topology, 641: Elementary Low-Dimensional Topology, 642: Geometry of Curves and Surfaces (3 q-cr each) converted to semester sequence Math 5801, 5702 (3 s-cr each).\*\*\* CONVERSION NOTE: For degree audit purposes, this semester course may not have a quarter course equivalent. Please review your specific degree audit and speak with your advisor for a final determination of how your quarter courses count toward your degree completion. Content for this semester course is derived from the listed quarter course or courses. \*\*\*

6001 Adv Math Logic 1

**Quarter Equivalent:**

Math 745: Advanced Mathematical Logic I; Math 746: Advanced Mathematical Logic II; Math 747: Advanced Mathematical Logic III

6002 Adv Math Logic 2

**Quarter Equivalent:**

Quarter sequence 745, 746, 747: Advanced Mathematical Logic I, II, III (3 q-cr each, offered annually) converted to two-year semester sequence Math 6001, 6002, 6003, 6004 (each course 3 s-cr and offered biennially).

6003 Adv Math Logic 3

**Quarter Equivalent:**

Quarter sequence Math 745, 746, 747: Advanced Mathematical Logic I, II, III (3 q-cr each, offered annually) converted to two-year semester sequence Math 6001, 6002, 6003, 6004 (each course 3 s-cr and offered biennially).

6004 Adv Math Logic 4

**Quarter Equivalent:**

Quarter sequence Math 745, 746, 747: Advanced Mathematical Logic I, II, III (3 q-cr each, offered annually) converted to two-year semester sequence Math 6001, 6002, 6003, 6004 (each course 3 s-cr and offered biennially).

6111 Abstract Algebra 1

**Quarter Equivalent:**

Quarter sequence Math 770, 771, 772: Abstract Algebra I, II, III (5 q-cr each) converted to semester sequence Math 6111, 6112 (5 s-cr each).

6112 Abstract Algebra 2

**Quarter Equivalent:**

Quarter sequence Math 770, 771, 772: Abstract Algebra I, II, III (5 q-cr each) converted to semester sequence Math 6111, 6112 (5 s-cr each).

6151 Commutativ Algebra

**Quarter Equivalent:**

Quarter course Math 978: Topics in Ring Theory (2-5 q-cr) converted to semester course Math 6151 (3 s-cr). This course will be offered, by demand, biennially during school year or during summer.

6152 NonCommut Algebra

**Quarter Equivalent:**

Quarter course Math 982: Topics in Algebra (3 q-cr) converted to semester course Math 6152 (3 s-cr) with expanded content. This course will be offered, by demand, biennially during school year or during summer.

6211 Real Analysis 1

**Quarter Equivalent:**

Quarter sequence Math 750, 751, 752: Real Analysis I, II, III (5 q-cr each) converted to semester sequence Math 6211, 6212 (5 s-cr each).

6212 Real Analysis 2

**Quarter Equivalent:**

Quarter sequence Math 750, 751, 752: Real Analysis I, II, III (5 q-cr each) converted to semester sequence Math 6211, 6212 (5 s-cr each).

6221 Complex Analysis 1

**Quarter Equivalent:**

Quarter sequence Math 753, 754: Complex Analysis I, II (5 q-cr each) converted to semester sequence Math 6221, 6222 (3 s-cr each).

6222 Complex Analysis 2

**Quarter Equivalent:**

Quarter sequence Math 753, 754: Complex Analysis I, II (5 q-cr each) converted to semester sequence Math 6221, 6222 (3 s-cr each).

6251 Thy Probability 1

**Quarter Equivalent:**

Quarter sequence Math 722, 723, 724: Theory of Probability I, II, III (4 q-cr each) converted to semester sequence Math 6251, 6252 (4 s-cr each).

6252 Thy Probability 2

**Quarter Equivalent:**

Quarter sequence Math 722, 723, 724: Theory of Probability I, II, III (4 q-cr each) converted to semester sequence Math 6251, 6252 (4 s-cr each).

6411 Ordin Differ Eqs 1

**Quarter Equivalent:**

Quarter sequence Math 715, 716, 717: Differential Equations I, II, III (3 q-cr each) converted to semester sequence Math 6411, 6451 (3 s-cr each).

6451 Part Differ Eqs 1

**Quarter Equivalent:**

Quarter sequence Math 715, 716, 717: Differential Equations I, II, III (3 q-cr each) converted to semester sequence Math 6411, 6451 (3 s-cr each).

6501 Combin Graph Thy 1

**Quarter Equivalent:**

Quarter sequence Math 775, 776, 777: Combinatorics and Graph Theory I, II, III (5 q-cr each) converted to semester sequence Math 6501, 6502 (5 s-cr each).

6502 Combin Graph Thy 2

**Quarter Equivalent:**

Quarter sequence Math 775, 776, 777: Combinatorics and Graph Theory I, II, III (5 q-cr each) converted to semester sequence Math 6501, 6502 (5 s-cr each).

6601 Num Meth Sc Comp 1

**Quarter Equivalent:**

Math 707: Numerical Methods in Scientific Computing I; Math 708: Numerical Methods in Scientific Computing II

6602 Num Meth Sc Comp 2

**Quarter Equivalent:**

Math 708: Numerical Methods in Scientific Computing II; Math 709: Numerical Methods in Scientific Computing III

6701 Differen Manifolds

**Quarter Equivalent:**

765: Differentiable Manifolds, 766: Introductory Riemannian Geometry (4 q-cr ea) ? 6701, 6702 (3 s-cr ea). Hour reductions for topology (6801,6802,7811) in favor of increases for geometry (6701,6702,7711,7721) correct imbalance between fields.

6702 Different Geometry

**Quarter Equivalent:**

765: Differentiable Manifolds, 766: Introductory Riemannian Geometry (4 q-cr ea) ? 6701, 6702 (3 s-cr ea). Hour reductions for topology (6801,6802,7811) in favor of increases for geometry (6701,6702,7711,7721) correct imbalance between fields.

6801 Algebr Topology 1

**Quarter Equivalent:**

7211 Functnl Analysis 1

**Quarter Equivalent:**

Functional analysis was offered as 857: Intro Functional Analysis in autumn and continued as Math 961: Topics in Functional Analysis in winter and spring - equivalent to a 3 quarter sequence of 3 q-cr each. It is converted to 7211, 7212 (3 s-cr ea).

7212 Functnl Analysis 2

**Quarter Equivalent:**

Functional analysis was offered as 857: Intro Functional Analysis in autumn and continued as Math 961: Topics in Functional Analysis in winter and spring - equivalent to a 3 quarter sequence of 3 q-cr each. It is converted to 7211, 7212 (3 s-cr ea).

7221 Ergodic Theory 1

**Quarter Equivalent:**

Ergodic Theory was offered as 931, 932: Ergodic Theory I, II in autumn and winter and as 950: Topics in Real Analysis in spring and is equivalent to a 3 quarter sequence of 3 q-cr each. It is converted to 7221, 7222 (3 s-cr each).

7222 Ergodic Theory 2

**Quarter Equivalent:**

Ergodic Theory quarter sequence was offered as Math 931: Ergodic Theory I, 932: Ergodic Theory II in autumn and winter and as Math 950: Topics in Real Analysis in spring and is thus equivalent to a 3 quarter sequence of 3 q-cr each. It is converted to semester sequence Math 7221, 7222 (3 s-cr each).

7412 Ordin Differ Eqs 2

**Quarter Equivalent:**

Quarter sequence Math 820, 821, 822: Ordinary Differential Equations I, II, III (3 q-cr each) converted to semester sequence Math 7412, 7413 (3 s-cr each)

7413 Ordin Differ Eqs 3

**Quarter Equivalent:**

Quarter sequence Math 820, 821, 822: Ordinary Differential Equations I, II, III (3 q-cr each) converted to semester sequence Math 7412, 7413 (3 s-cr each).

7452 Part Differ Eqs 2

**Quarter Equivalent:**

Recent changes in the composition of our faculty and student interest have increased the need for a more thorough training in PDE. The sequence 835-836: Partial Differential Equations I, II thus needed to be extended to a standard sequence 7452-7453.

7453 Part Differ Eqs 3

**Quarter Equivalent:**

Recent changes in the composition of our faculty and student interest have increased the need for a more thorough training in PDE. The sequence 835-836: Partial Differential Equations I, II thus needed to be extended to a standard sequence 7452-7453.

7611 Computational PDE 1

**Quarter Equivalent:**

Quarter sequence Math 807, 808, 809: Numerical Solution of Partial Differential Equations I, II, III (3 q-cr each) converted to semester sequence Math 7611, 7612 (3 s-cr each).

7612 Computational PDE 2

**Quarter Equivalent:**

Quarter sequence Math 807, 808, 809: Numerical Solution of Partial Differential Equations I, II, III (3 q-cr each) converted to semester sequence Math 7611, 7612 (3 s-cr each).

7651 Appl Comp Vars 1

**Quarter Equivalent:**

Quarter sequence Math 804, 805, 806: Applied Complex Variables and Asymptotics I, II, III (3 q-cr each) converted to semester sequence Math 7651, 7652 (3 s-cr each).

7652 Appl Comp Vars 2

**Quarter Equivalent:**

Quarter sequence Math 804, 805, 806: Applied Complex Variables and Asymptotics I, II, III (3 q-cr each) converted to semester sequence Math 7651, 7652 (3 s-cr each).

7711 Riemann Geometry

**Quarter Equivalent:**

Math 851, 852: Differential Geometry I, II (3 q-cr ea) ? Math 7711, 7721 (3 s-cr ea). Hour reductions for topology courses (6801,6802,7811) in favor of increases for geometry courses (6701,6702,7711,7721) correct curricular imbalance between fields.

7721 Kahler Geometry

**Quarter Equivalent:**

851, 852: Differential Geometry I, II (3 q-cr ea) ? 7711, 7721 (3 s-cr ea). Hour reductions for topology courses (6801,6802,7811) in favor of increases for geometry courses (6701,6702,7711,7721) correct curricular imbalance between fields.

7811 Homotopy Theory

**Quarter Equivalent:**

Sequence 861, 862: Algebraic Topology II, III (3 q-cr ea) ? 7811 (3 s-cr). Hour reductions for topology courses (6801,6802,7811) in favor of increases for geometry courses (6701,6702,7711,7721) correct curricular imbalance between fields.

7851 Differ Topology 1

**Quarter Equivalent:**

Quarter sequence Math 866: Differential Topology I, 867: Differential Topology II, 868: Differential Topology III (3 q-cr each) converted to semester sequence Math 7851, 7852 (3 s-cr each).

7852 Differ Topology 2

**Quarter Equivalent:**

Quarter sequence Math 866: Differential Topology I, 867: Differential Topology II, 868: Differential Topology III (3 q-cr each) converted to semester sequence Math 7851, 7852 (3 s-cr each).

**Quarter Equivalent:**

Old Sequence: 821 (Classical Dynamics), 846, 847 (Statistical Physics 1, 2). New Sequence: 7601, 7602 (Classical and Statistical Physics 1, 2). New sequence has reduced material on same general topics, so 1st year GTAs can take all core courses.

7602 Class/Stat Phys II

**Quarter Equivalent:**

Old Sequence: 821 (Classical Dynamics), 846, 847 (Statistical Physics 1, 2). New Sequence: 7601, 7602 (Classical and Statistical Physics 1, 2). New sequence has reduced material on same general topics, so 1st year GTAs can take all core courses

7603 Adv Stat Physics

**Quarter Equivalent:**

Old course: 848 (Advanced Statistical Physics). New course: 7603 (Advanced Statistical Physics). Same as old course except with expanded content.

7701 Math Meth in Phys

**Quarter Equivalent:**

Old course: 730 (Methods of Theoretical Physics). New course: 7701 (Analytic and Numeric Methods of Physics). New course contains more advanced topics, including several topics contained in the old course 834 (Electromagnetic Field Theory I)

7891 Seminar/Workshop

**Quarter Equivalent:**

Old course: 816 (Topics in Physics). New course: 7891 (Dept. Seminar or Workshop). Under semesters, 816 split into 7891 (Seminar or Workshop) or 7998 (Research).

7998 Grad Research

**Quarter Equivalent:**

Old course: 816 (Topics in Physics). New course: 7998 (Graduate Research). Under semesters, 816 split into 7891 (Seminar or Workshop) or 7998 (Research).

8301 Elas &amp; Fluid Mech

**Quarter Equivalent:**

Old course: 822 (Elasticity and Fluid Mechanics). New course: 8301 (Elasticity and Fluid Mechanics). Same as old course except with expanded content.

8802.01 Elem Particle Phys

**Quarter Equivalent:**

Old course sequence: 880.02 (Elementary Particle Physics). New course: 8802.01 (Elementary Particle Physics 1). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8802.02 Elem Part Phys 2

**Quarter Equivalent:**

Old course sequence: 880.02 (Elementary Particle Physics). New course: 8802.02 (Elementary Particle Physics 2). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8803.01 Astropart Phys 1

**Quarter Equivalent:**

Old course sequence: 880.20 (Special Topics-Astroparticle Physics Phys.). New course: 8803.01 (Astroparticle Physics Phys. 1). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8803.02 Astropart Phys 2

**Quarter Equivalent:**

Old course sequence: 880.20 (Special Topics - Astroparticle Physics Phys). New course: 8803.02 (Astroparticle Physics Phys. 2). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8804.01 Atom&amp;Molec Phys 1

**Quarter Equivalent:**

Old courses: 880.20 (Special Topics - Atomic and Molecular Physics). New course: 8804.01 (Atomic and Molecular Physics 1). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8804.02 Atom&amp;Molec Phys 2

**Quarter Equivalent:**

Old courses: 880.20 (Special Topics - Atomic and Molecular Physics). New course: 8804.02 (Atomic and Molecular Physics 2). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8805.01 Nuclear Physics 1

**Quarter Equivalent:**

Old course sequence: 880.05 (Nuclear Physics). New course: 8805.01 (Nuclear Physics 1). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8805.02 Nuclear Physics 2

**Quarter Equivalent:**

Old course sequence: 880.05 (Nuclear Physics). New course: 8805.02 (Nuclear Physics 2). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8806.01 Condensed Matter 1

**Quarter Equivalent:**

Old course sequence: 880.06 (Condensed Matter Physics). New course: 8806.01 (Condensed Matter Physics 1). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8806.02 Condensed Matter 2

**Quarter Equivalent:**

Old course sequence: 880.06 (Condensed Matter Physics). New course: 8806.02 (Condensed Matter Physics 2). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8808.01 Quant Field Th 1

**Quarter Equivalent:**

Old course sequence: 880.08 (Special Topics - Theory of Quantized Fields). New course: 8808.01 (Quantum Field Theory 1). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8808.02 Quant Field Th 2

**Quarter Equivalent:**

Old course sequence: 880.08 (Special Topics - Theory of Quantized Fields). New course: 8808.02 (Quantum Field Theory 2). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8809.01 Biophysics 1

**Quarter Equivalent:**

Old course sequence: 880.20 (Special Topics - Biophysics). New course: 8809.01 (Biophysics 1). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8809.02 Biophysics 2

**Quarter Equivalent:**

Old course: 880.20 (Special Topics - Biophysics). New course: 8809.02 (Biophysics 2). Content of semester course expanded so that two semesters of new course has same content as three quarters of old course.

8820 Special Topics

**Quarter Equivalent:**

Old course: 880.20 (Special Topics). New course: 8820 (Special Topics). Content expanded to reflect increased total class time in one semester compared with total class time in one quarter.
