## AIR & VAPOR BARRIERS

TK-AIRMAX® 2101 Non-Permeable		A non-permeable, thermoplastic formulated air/vapor barrier for the interior of single wythe walls.
TK-AIRMAX® 2102 Non-Permeable		A high performance, non-permeable air/vapor barrier for commercial cavity walls. Also available in VOC compliant formulation.
TK-AIRMAX® 2103 Non-Permeable Water Base		A water based, high performance, non-permeable rubberized air/vapor barrier for both commercial and residential cavity walls.
TK-AIRMAX® 2104 Vapor Permeable Water Base		A vapor permeable, high performance, water-borne liquid membrane air barrier for residential and commercial cavity walls.
TK-AIRMAX® 2105 Vapor Permeable Solvent Base		A vapor permeable, high performance, solvent liquid membrane air barrier for residential and commercial cavity walls.

## ANTI-GRAFFITI PRIMERS AND COATINGS

TK-Anti-Graffiti Primer 1450		Urethane primer to be used under Permaclean Anti-Graffiti coating.
TK-Permaclean VOC Anti-Graffiti Coating		An anti-graffiti coating specifically formulated to protect various surfaces from graffiti vandalism. Meets VOC regulations.
TK-Block & Graffiti Guard VOC 5220		A water and graffiti resistant coating for concrete block and other porous masonry surfaces. Meets VOC regulations.

## BONDING AGENTS

TK-Liquid Bonding Agent 225		A high solids, acrylic concrete bonding and admixture agent.
TK-Tri-Bond		A high build, reemulsifiable bonding agent.

## CEMENTITIOUS PATCHING AND COATINGS

TK-Anchoring Cement		A pourable, fast setting, anchoring product.
TK-Complete Concrete Patch		A high early strength, two-component, acrylic/cement and mason sand patching compound.
Tri-Con System		A three-part system for ultimate surface protection, adhesion between components, and an attractively colored/textured finish.
TK-Tri-Mix Cementitious Concrete Surfer		A heavy, cement based waterproof texture coating.
TK-Tri-Mix Plaster Mix Cementitious Concrete Surfer		A heavy, cement based waterproof texture coating.
TK-Vertical Patch		Fast setting, patching mortar for vertical and overhead applications.
TK-Waterplug		Cement-based, fast setting, hydraulic compound to stop running water and seepage through concrete and masonry walls/floors.

# QUICK PRODUCT GUIDE

## CURING AND SEALING COMPOUNDS

TK-Achro Seal AS-1 1315		Acrylic methacrylate curing & sealing compound. Meets ASTM C-1315 Type 1. Also available in VOC compliant formulation.
TK-Achro Kure AK-2 1315		Acrylic curing & sealing compound. Meets ASTM C-1315 Type 1.
TK-Achro Kure AK-2WB		A 100% water based premium acrylic curing & sealing compound. Meets ASTM C-309.
TK-Achro Seal AS-30		30% solids acrylic and methacrylate curing & sealing compound. Meets ASTM C-1315 Type 1.
TK-Bright Kure & Seal		High gloss methacrylate curing & sealing compound for exposed aggregate and colored concrete. Meets ASTM C-1315 Type 1. Also available in VOC compliant formulation.
TK-Bright Glaze		High viscosity cure & seal for exposed aggregate or colored concrete. Also available in VOC compliant formulation.
TK-Kure & Seal 1315		Acrylic curing & sealing compound. Meets ASTM C-1315 Type 1.
Kure & Seal WB		A 100% water based acrylic curing & sealing compound. Meets ASTM C-309.
Tri-Seal 1315		High gloss 100% water based acrylic curing & sealing compound. Meets ASTM C-1315 Type 1.
TK-CCS Concrete Colored Stain		A colored chlorinated rubber epoxy curing & sealing compound designed to hide unevenly colored concrete. Meets ASTM C-1315 Type 2.
TK-DOT Department of Transportation Stain		A highly pigmented concrete colored chlorinated rubber epoxy curing & sealing compound designed for vertical applications and state DOT projects. Meets ASTM C-1315 Type 2.
TK-Dissipating Drying Compound 2519 DC WB		A water base curing compound for fresh concrete. Designed to naturally wear away from the surface, it leaves concrete ready for coating with protective or decorative topcoats.
TK-Tri-Kote 26 UV		Chlorinated rubber epoxy one-coat curing & sealing compound with UV inhibitor added to prevent discoloration. Meets ASTM C-1315 Type 2. Also available in reflective pigment formulation.
TK-Tri-Grip Non-Slip Synthetic Aggregate		A synthetic aggregate that creates a subtly textured, slip resistant surface on new or existing concrete and masonry surfaces.
TK-Tri-Film 2120		Surface evaporation retardant.
TK-Tint Paste 1100		A color additive for use with TK-BRIGHT KURE & SEAL, or TK-ACHRO SEAL AS-1 1315 curing compounds. Used to produce an opaque, uniformly tinted cure and seal.

## DECORATIVE COATINGS & FINISHES

TK-Bright Seal		A high gloss sealer for exposed aggregate panels and burnish block.
TK-Bright Seal WB		A high gloss water based sealer for exposed aggregate, burnish block, colored concrete and stone.

## DECORATIVE COATINGS AND FINISHES, cont.

TK-Concrete Stain 3150	 A durable, water based, opaque stain for adding color to concrete and masonry.
TK-Elasta Block 338-I	 A high quality porous block primer filler.
TK-Tri-Lastic	 A decorative elastomeric acrylic coating that provides long lasting waterproofing for interior or exterior surfaces. Available in smooth, fine and medium textures.
TK-Tri-Methoxane Masonry Coating 2300	A single component coating that provides the water repellency and performance of a silane with the look of a decorative texture. Available in smooth, fine, medium and coarse textures.
TK-Tri-Sheen Acrylic 5342	 A decorative, 100% acrylic, breathable, masonry coating that promotes adhesion and color retention for a long-lasting finish.
TK-Tri-Sheen Concrete Surfer	 A non-cementitious protective texture coating designed for all above grade vertical surfaces. Available in smooth, fine, medium and coarse textures.
TK-Tri-Sheen Pigmented Stain 5272	 An acrylic water based penetrating sealer stain for wood and cementitious surfaces. Available in standard colors.

## EPOXY & RELATED REPAIR MATERIALS

TK-Epoxy Bridge Deck Overlay 2109	A solvent-free, 100% solids, two-component epoxy to provide a flexible, strong bond to bridge decks and parking structures.
TK-Epoxy Bridge Deck & Crack Sealer 2110	A low viscosity, 100% solids epoxy to repair micro and shrinkage cracks in concrete.
TK-MMA Bridge Deck & Crack Sealer 2414	A two-component, low viscosity, solvent-free, rapid curing reactive methacrylate resin to penetrate, repair and seal cracks in concrete surfaces.
TK-Epoxy Crack Filler 9000	A clear, two-component, 100% epoxy crack filler.
TK-Epoxy Crack & Joint Filler 9010	A fast set, flexible two-component epoxy.
TK-Polyurea Joint Filler 9020	A fast set two-component polyurea hybrid.
TK-Polyurea Crack Repair 9030	A fast set low viscosity polyurea hybrid.
TK-EPO Civil Engineering Epoxies	A complete line of epoxy systems meeting ASTM C-881. TK-EPO epoxies are 100% solids, two component, solvent free, moisture insensitive, offering low, medium and gel viscosity to meet all your construction needs.

## EPOXY, POLYASPARTIC & URETHANE COATINGS

TK-Epoxy Color System VOC	A two-component epoxy color system for interior or exterior surfaces. Excellent resistance to chemicals. Meets VOC regulations.
TK-Epoxy Floor Chip Kit	A decorative floor system that includes tinted base coat, clear top coat, and colored chips for broadcast in between. Available in epoxy and epoxy/polyaspartic formulations.

# QUICK PRODUCT GUIDE

## EPOXY, POLYASPARTIC & URETHANE COATINGS, cont.

TK-Epoxy Waterproofing Coating 2671/2675		A two-component epoxy waterproofing system for use on poured concrete surfaces. Available in low solids and high solids formulations.
TK-Hi-Tech 2 Epoxy		A high build, 100% solids, solvent-free epoxy/amine system.
TK-Polyaspartic 2425		A two-component, clear, non-yellowing, fast setting concrete surface treatment with outstanding UV chemical resistance. May be tinted or pigmented to a variety of colors.
TK-Water Based Urethane 1900		A water based, 100% urethane specifically for floor finishing and sealing.

## FORM RELEASE AGENTS

TK-M-176 Form Release Agent		A premium chemical form oil release agent.
TK-Gold VOC Form Release		An economical, low odor form release agent. Meets VOC regulations.
TK-VOC Form Release Concentrate 5334		Concentrated chemical form release agent to be mixed 1:1 with fuel oil.

## HARDENERS & DENSIFIERS

TK-Silhard 1835		A sodium silicate floor hardener.
TK-Floor Hardener & Densifier 5329		A colorless, odorless solution that densifies, hardens and seals concrete surfaces.
TK-LS Hard Lithium Silicate		A premium lithium silicate hardener and densifier for concrete.
TK-LS Hard N Guard Lithium Silicate Blend		A high performance, high gloss, industrial lithium silicate floor surface hardener and protective surface treatment.

## SOLVENTS & CLEANERS

TK-Chemical Cleaner 101		A water-based, heavy duty, all-purpose concentrated cleaner for concrete, metal and wood surfaces.
TK-Kwik Klean 2012		Graffiti remover and curing compound remover.
TK-Revitalizer 12		Wash solvent for cleaning and rejuvenating sealers on colored concrete and decorative surfaces.

## SURFACE RETARDERS

TK-Concrete Surface Retarder 6000		A concrete surface retarder for exposed aggregate.
TK-Concrete Form Surface Retarder 6100		A vertical surface retarder for exposed aggregate.

## WATER REPELLENTS

TK-290 Tri-Siloxane	<i>A siloxane penetrating sealer for horizontal and vertical surfaces. Also available in VOC compliant formulation.</i>
TK-290 Final Seal	<i>A low viscosity, breathable, deep penetrating water repellent. Acts as a final sealer on concrete with existing curing and sealing compounds.</i>
TK-290 BDS (Bridge Deck Sealer)	<i>A low viscosity, breathable, deep penetrating water repellent for concrete bridge decks and parking structures. Also available in VOC compliant formulation.</i>
TK-590-40 Tri-Silane	<i>A silane penetrating concrete sealer. Also available in VOC compliant formulation.</i>
TK-590-100 Tri-Silane	<i>A 100% silane penetrating concrete sealer.</i>
TK-Siloxane Dye	<i>A pigmented water repellent for uniformly colored concrete that is water and chemically resistant.</i>
TK-Salt Protector Plus™ WB	 <i>A ready-to-use, water-borne, VOC compliant, deep penetrating, silane/siloxane blend. It acts as an impenetrable barrier against water and salt for concrete and masonry surfaces.</i>

## WATERPROOFING/DAMPPROOFING

TK-HYDROMAX® 2001 Dampproof Coating	<i>Solvent based, below grade dampproofing. Also available in VOC compliant formulation.</i>
TK-HYDROMAX® 2002 Foundation Waterproof Coating	<i>Solvent based, below grade waterproofing. Available in commercial or residential formulations. Also available in VOC compliant formulation.</i>
TK-HYDROMAX® 2003 Water Based Rubberized Foundation Coating	 <i>Water based, below grade waterproofing. Available in commercial or residential formulations.</i>
TK-HYDRO SEAL® Urethane Injection Crack Repair Kit	<i>A complete Do-It-Yourself kit which includes all of the materials and accessories for low pressure injection and repair of approx. 8-10 linear feet of cracks. For foundation walls.</i>

## THE TK ADVANTAGE

For greater than half a century, TK has been at the **forefront of coating technology**; formulating **advanced concrete coating solutions** and **solving complex application challenges** for a diverse mix of customers and markets.

Across decades our focus has remained unchanged - to provide **REAL concrete solutions for REAL-WORLD challenges.**
