MINIMUM AGE REQUIREMENT

PLAYERS MUST HAVE REACHED THE AGE OF NINETEEN (19) TO PURCHASE, PLAY OR REDEEM LOTTERY TICKETS.

You must ask for identification if the player looks younger than twenty-five (25) years of age to confirm that he/she meets the minimum age requirement before providing lottery tickets to the customer. Players must have reached the age of nineteen (19) to purchase, play or redeem lottery tickets.

It's not always easy to tell how old someone is (or isn't), so to be sure, Atlantic Lottery recommends that you use 25 years of age as a benchmark for deciding when to ask a customer for identification. Doing this helps to ensure that our products are only enjoyed by their intended audience – adults.

Atlantic Lottery monitors retailer compliance to this policy. Failure to comply may result in corrective action including fees or termination of the lottery ticket retailer agreement. For complete details and current fees, refer to your retailer policies.

PAYMENT FOR LOTTERY PRODUCTS

Lottery tickets can only be sold to customers who ask to buy tickets in person at your premises. You can accept payment by Interac or credit card, as well as cash.

You cannot sell lottery products to customers who order them over the phone, online or through the mail.

RETAILER PLAY | GROUP PLAY

RETAILER PLAY

The RETAILER PLAY button allows Retailers and Retailer employees to stamp their draw based games and sports tickets they purchase as RETAILER PLAY.

Whenever Retailers or Retailer employees' purchase draw or sports tickets at their own store or any other retailer establishment they should use the RETAILER PLAY function. RETAILER PLAY demonstrates that you are the rightful owner of the winning ticket.

You can access this feature by selecting the RETAILER PLAY button on bottom of the MAIN SELLING SCREEN.

Atlantic Lottery will waive the standard 30 day wait period for all Retailers and Retail employee wins that used RETAILER PLAY on their ticket.

GROUP PLAY

In the event a member of the general public buys a ticket on behalf of a group, they should use the GROUP PLAY option. You can access this feature by selecting the GROUP PLAY button located on the bottom of MAIN SELLING SCREEN. When GROUP PLAY has been selected, all tickets and the player receipt that are produced will print with "GROUP PLAY".

LOTTERY POOLS

You must not offer, administer or participate in any arrangement in which you collect and pool funds from a number of customers and use those funds to purchase lottery tickets on behalf of the group.

VOID

If a mistake is made when creating a ticket, or if a customer refused to accept a ticket that has been printed, you must **immediately** VOID the ticket.

After accepting and paying for an On-Line Ticket, a Player can return an On-Line Ticket for a refund or exchange but only to the same Retailer where the ticket was purchased, only prior to the time of ATLANTIC LOTTERY's system shutdown for the earliest draw for which the ticket was purchased and only on the same day on which the On-Line Ticket was issued.

Sports tickets must be voided at the selling retail location on the same day they were printed AND prior to the start of the first event.

1. Select the VOID button on the MAIN SELLING SCREEN.
2. Scan the barcode located on the bottom of the ticket you wish to void.
3. When the barcode number appears on the screen, select ENTER. A void slip will be printed.
4. Mark VOID directly on the ticket and staple the void slip to the ticket.

TICKETS MUST BE PAID FOR AT THE TIME OF SALE. VOID ALL TICKETS IMMEDIATELY IF THE PLAYER DOES NOT HAVE THE FUNDS TO PAY FOR THEIR TICKETS.

All voided tickets along with the corresponding void slips must be kept for three months for auditing purposes.

You must not buy tickets that are generated in error, or offer them for sale to other customers.

VALIDATING TICKETS

All lottery tickets must be validated on the terminal before the prize is paid out (including Barcoded Breakopen).

Never accept a ticket for validation unless it has been signed by the customer. This applies to all tickets except Breakopen tickets since they do not have a signature line and are not required to be signed by the ticket holder.

Having players sign their ticket eliminates any dispute over the ownership or identification of the ticket once it has left his/her possession. This measure is in place for the protection of players as well as retailers and retailer employees.

You must not validate tickets for, or pay prizes to anyone under 19. If a player looks younger than 25, you must ask for ID to confirm that he/she has reached the minimum age requirement. It's our policy.

All activities associated with validating a ticket must be completed in an open manner that is visible to players, and the area where tickets are validated must be kept clear of other lottery tickets. If players wish to keep their ticket in their possession while validating, the scanner can be removed from its position on the terminal to scan.

YOU MUST GIVE THE PLAYER RECEIPT TO THE CUSTOMER ALONG WITH ALL VALIDATED TICKETS.

X _____
It's your ticket. *Simply sign it*
C'est votre billet, alors, signez-le!

VALIDATION SUMMARY ON/OFF

Validation Summary is an optional feature on the GENe terminal that is intended for your use and not meant for the player.

If **PRINT VALIDATION SUMMARY** has been turned on, a Validation Summary will print after each Customer Session in which tickets have been validated for a prize. This summary shows validations only and not purchases.

To turn on this feature, go to MANAGER'S AREA/TERMINAL OPTIONS/VALIDATION SUMMARY. Select **PRINT VALIDATION SUMMARY**.

ACTIVATION OF INSTANT AND BARCODED BREAKOPEN TICKETS

Retailers and retailer employees must activate Instant and Barcoded Breakopen tickets prior to selling these tickets to players; in the event a retailer or retailer employee fails to activate the tickets, Atlantic Lottery reserves the right to activate the tickets.

All active and non-active products should be kept in a secure location.

If the ticket is not a winner, give the player receipt and the ticket to the customer.

When a ticket is validated for a prize of $250 or less, pay the customer the prize amount printed on the player receipt. Return the ticket to the player along with the player receipt.

Some retailers are authorized to pay prizes above $250. If you are setup to pay prizes over $250, when a ticket is validated for a prize over $250 and under your maximum payout limit, you are required to pay the prize amount. Return the ticket to the player along with the player receipt.

PRIZES OVER ENCASHMENT LEVEL

When a ticket is validated for a prize over your encashment level the player receipt will say "RETAILER CANNOT PAY PRIZE". As indicated on the receipt, the player will need to contact Atlantic Lottery or visit alc.ca for instructions on how to claim their prize. Do not pay the prize. Give the player receipt and the winning ticket to the player.

Prizes up to $9,999 can be claimed at any branch of Scotiabank. To claim their prize the customer will need to present two pieces of identification, one being a photo ID. Give the player receipt and the winning ticket to the player.

Prizes of $10,000 or more must be claimed at an office of Atlantic Lottery. The customer should contact our Customer Care Center for instructions on where to claim the prize. Give the player receipt and the winning ticket to the player.

Note: prize amount will display upon first validation only.

- TWIST is only available in Atlantic Canada

How to Play?

To play TWIST, customers complete their LOTTO MAX selection slip and mark the TWIST box. If playing by InstaPik (lottery terminal randomly generates numbers), they can ask to add TWIST to the LOTTO MAX ticket. Seven (7) of the 21 LOTTO MAX numbers will be randomly shaded on their ticket.

How to Win?

If all shaded TWIST numbers match the LOTTO MAX winning numbers, they win the top prize. Bonus number does not apply.

Players can have the same number appear more than once on their TWIST selection.
For example, if the number 34 is shaded twice on a ticket and the number 34 is drawn, this counts as having matched 2 TWIST numbers correctly. See chart for prize payout.
