ProEst® Estimating

NEW

Construction Partner
for QuickBooks® Users

Do you wish you could estimate more jobs and improve your accuracy?

In today's competitive construction market, the success of your company relies more than ever on your ability to generate quick, accurate estimate information.

Here's a few more questions:

- 1) Have you ever won a job as the low bidder only to find out you forgot to include a few items?
- 2) Do you know your exact profit margin and whether or not you can negotiate the price on a job and still make money?
- 3) Does your estimate data carry through to your QuickBooks system for job costing?

ProEst Estimating answers all of these questions and through our 27-year history has helped over 6,500 leading construction firms create competitive winning bids.

Whether you're currently estimating with a spreadsheet or another estimating system, the ProEst Estimating solution by Construction Management Software will improve your process significantly.

To learn more about the new ProEst Estimating software for QuickBooks call **800-255-7407** or visit our site at www.idnaddons.com/ProEst to order your free trial CD.

Instant \$500 savings for QuickBooks users.

Construction Management Software

Software Truly Right For Your Business

Welcome to the latest issue of the QuickBooks Software Add-ons catalog from the Intuit Developer Network.

At Intuit, we focus on providing the right solution for every small business by offering products and services that address your unique needs. One of the ways Intuit delivers on this commitment is to work with third-party software companies in the Intuit Developer Network who create QuickBooks software add-ons.

Through hundreds of conversations with small business owners like you, we understand that having incompatible applications and databases is a source of enormous frustration. By partnering with third-party developers to integrate applications and services with QuickBooks and Intuit's other small business products, we are able to offer you hundreds of QuickBooks software add-ons that will make your day-to-day business management easier.

When software is integrated with QuickBooks, it can share selected sales, customer, or financial data with QuickBooks automatically. This can greatly reduce the time you spend on tasks such as estimating, customer management, shipping, transactions, project management, and many others. As a result, you save time, increase productivity, and reduce errors.

Developers have created many useful applications that integrate with QuickBooks, examples of which are featured in the pages that follow. They range from business productivity software such as data exporting tools or contact management applications, to software designed for a wide variety of industries, including:

- **Construction**
- **Manufacturing**
- **Nonprofit**
- **Services**
- **Retail**
- **And others!**

In addition to this printed catalog, you can use the QuickBooks Solutions Marketplace, an online resource with more than 300 software applications that work with QuickBooks. Search applications by industry, read user reviews, or download free trials and demos, simply by visiting <http://www.qbmarketplace.com>.

Discover what QuickBooks software add-ons can do for your business. You'll be glad you did.

Best regards,
 Scott Cook
 Co-founder, Chairman and Office of the CEO, Intuit

HOW TO USE THE QUICKBOOKS SOFTWARE ADD-ONS CATALOG FROM THE INTUIT DEVELOPER NETWORK

Applications in this catalog are listed by industry categories that can be found at the top of each page. In addition to the Table of Contents on page 5, a directory of all listings is available at the back of the catalog for your reference.

The products featured in this catalog have the ability to exchange data with QuickBooks Pro and Premier Editions 2002, 2003, and 2004, QuickBooks Enterprise Solutions, or QuickBooks Online Edition. Many applications also work with Canadian editions of QuickBooks Pro or Premier 2003 and 2004. You can easily identify those applications by the "Also Integrates with Canadian Editions of QuickBooks 2004" symbol on the page. All prices are in US\$ unless otherwise noted.

As you consider each application, be sure to check specific system requirements to make sure that you can take advantage of the integration features.

ESC

Electronic Service Control

800-226-7529

The Most Powerful Service Management Software Available

**Service Dispatching - Equipment Tracking - Service Contracts
Service History - Purchasing - Sales - Paging - Bar Coding
Inventory Management - Mapping - Mobile Computing**

You can't miss this...

If you run a service business you can't afford to pass up Electronic Service Control. This incredible software package can change the way you do business. Have you been struggling to manage your service company using software that wasn't designed to do the job? If you have, that's all about to change.

An impressive suite of tools...

Electronic Service Control will provide you with an impressive suite of features and benefits. Imagine a software package that can: Track customers, jobs, work orders and technician time; automatically schedule and bill repeat maintenance; manage multiple warehouse inventories. These are just a few of the many outstanding ESC features!

The experience to produce results...

For the past 23 years we have been producing the most powerful software available for the HVAC, Electrical, Plumbing, Telecom, Pest Control, Pool & Spa, Security, Landscaping, Appliance, Repair Services and more. Simply put, our experience puts us way ahead of our competitors.

A revolutionary approach...

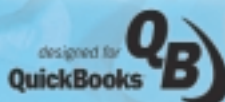

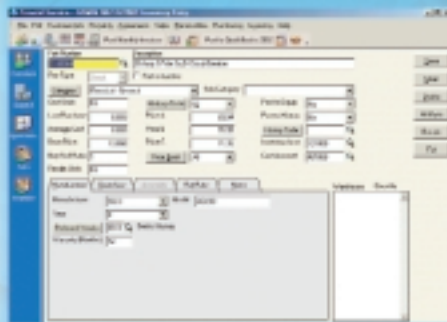

Imagine the best accounting software and the best service software exchanging information so well they work like one program. That's what you will experience with our latest integration with the QuickBooks® 2002 and 2003 family of products.*

Don't take our word for it...

"I currently use ESC and its mobile PDA module for dispatching my service technicians. It has significantly increased productivity in my service division. I have been extremely happy with the software but what is more important to me is the support that I have received. The support personnel have always made an extra effort to get the issue resolved. Kudos to Coastal and its dedicated employees."

Kirby, Kore Irrigation Ltd.

Fallacy # 1

"QuickBooks® software only suits small, simple businesses with a few employees."

Facts:

- Over 250,000 businesses with more than 20 employees use QuickBooks.
- QuickBooks Enterprise Solutions supports up to 10 simultaneous users.

Fallacy # 2

"Business Intelligence software costs a fortune to buy and implement. It's too complicated for small business."

Facts:

- BizTools BI software is affordable, cost effective and designed for Business users and Accountants.
- BizTools BI solutions integrate with QuickBooks software and provide "out of the box" functionality. No "Techheads" required!

Visit the BizTools stand at the 2003 IDN Conference in San Jose, California December 9, 10 & 11.

Discover BizTools, the "new paradigm" in Business Intelligence for Business Owners, Managers, and Accountants and be eligible for special offers, discounts and more!

SERVICE DISPATCHING, SERVICE CONTRACTS, SERVICE HISTORY, EQUIPMENT TRACKING, DETAILED INVOICING, PURCHASE ORDERS, INVENTORY MANAGEMENT, PAGING, MAPPING, IN THE TRUCK INVOICING & MORE!

The one tool that no service company should be without!

ACOWIN for Windows® is a complete service management software solution that integrates directly with QuickBooks® 2003/2004 family of products*. It is easy to use, and is designed specifically for the service industry. With ACOWIN for Windows®, you can track your customers, monitor the activities of your personnel, keep track of all costs and profitability associated with each job or service call, track movement of inventory in and out of warehouses and trucks, and manage service agreements.

Why ACOWIN for Windows? Benefit from 30+ Years Experience!

The owners and developers of ACOWIN for Windows® have been in the business of developing, writing and supporting service management software packages for over 30 years. They have combined their priceless experience and knowledge into this outstanding software package. You would have to look long and hard to find a comparable product with this much experience behind it!

What do users of ACOWIN for Windows® have to say?

"I have found ACOWIN to be the perfect tool for managing my service business. The screens are attractive, easy to learn and the drag-and-drop dispatching system is so intuitive that anyone can pick it up. My office has become much more efficient, now that detailed service history is only a mouse click away. Accounting is a breeze, since my ACOWIN invoices are fed directly into QuickBooks; ready for financial statements and analysis reports. In fact ACOWIN for Windows® integrates so smoothly with QuickBooks; it seems like we are running only one program." William - Arlington, Texas

Take Back Control of Your Shop. . . .

The E2 Shop System is the leading shop management system for job shops, contract manufacturers and make-to-order manufacturers. Over 3,000+ shops worldwide use the E2 Shop System to quote accurately, schedule realistically, manage materials effectively, track jobs and everything in between.

The Best Of Both Worlds

E2 Shop System is a fully integrated solution that streamlines literally every aspect of the shop from quotes to entering orders to shipping it out the door.

The E2 Shop System also integrates simply with QuickBooks®, so no double entry is required.

You get the best of both worlds. Your shop floor runs efficiently on the E2 Shop System and the office keeps running on your QuickBooks accounting software. If you decide to combine everything into one system, E2 also has its own integrated accounting.

E2 Can Do All Of Your:

- Quoting: Get your quotes out fast.
- Order Entry: Convert quotes into orders with one click. No double entry required.
- Shop Floor Control: Schedule jobs realistically to improve on-time deliveries.
- Bar Code Data Collection: Track jobs through the shop in real-time by using barcode data collection.
- Material Tracking: E2 can purchase all of your material directly to a job or for stock.
- Shipping: Generate packing slips, Bill of ladings, Certs and labels in one easy step.

Lifesaving Utilities for QuickBooks® : Move-It!™ Data Correction

QuickBooks allows you to edit one transaction at a time. Add one of the Move-It! utilities to your QuickBooks system and you can move and correct dozens, even hundreds of transactions at one time!

Select the **Move-It!** version you need. Each **Move-It!** utility is only \$39.95 per year and is available for immediate download. Substantial discounts are available when purchasing more than one version.

- Move-It! for Accounts
- Move-It! for Vendors
- Move-It! for Customers
- Move-It! for Items

With the **Move-It!** utilities you can move and correct dozens, even hundreds of transactions in QuickBooks at one time including:

- Bills
- Bill payments (checks)
- Bill payments (credit cards)
- Charges
- Checks
- Credit card charges
- Credit card transactions
- Credit memos
- Deposits
- Estimates
- Invoices
- Inventory adjustments
- Journal entries
- Purchase orders
- Payments
- Sales receipts
- Vendor checks

Time is money! And incorrect or inaccurate data in your QuickBooks file costs your company money! With **Move-It!** utilities you can quickly, easily and safely correct your most common QuickBooks data errors.

**Special offers
for QuickBooks
ProAdvisorsSM**

Do you have job costs posted to the wrong job? Were all the deposits for the last quarter credited to the wrong bank account? You don't need to edit, one-by-one, each incorrect entry. You can just point to the transactions that need to be moved, then point to where they should be and let **Move-It!** take care of all the work for you.

Move-It! is a simple to use utility that gives you the power to move many transactions in QuickBooks at one time by various sort criteria or by using drag and drop features. **Move-It!** is available in several versions for the different types of corrections you might need to make. Simply grab the transactions from the account where they were incorrectly recorded and drop them into the correct account. You can filter the results by date ranges, types of transactions and even the individual transactions if you desire.

"We used Move-It! to help one of our construction clients clean up their job cost information and it took us less than a half hour to move about 300 things posted wrong.

Move-It! saved our client hundreds of dollars and made us look like heroes." –Bret Scholl, CPA, Scholl & Company

FREE get to know us offer: Visit our web site and you can get a free copy of the publication, *How to Hire Your Bookkeeper and Come Out Money Ahead*, including a pre-employment bookkeeper evaluation test, a value of \$29.95, yours free for visiting our site.

Plan for Success!

Business Plan Pro 2004
\$99.99

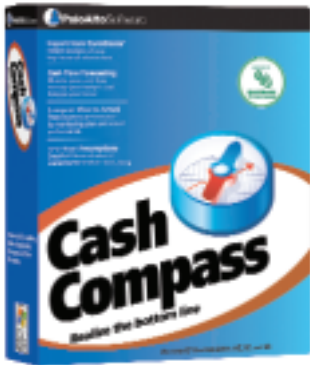

Business Plan Pro 2004 is the best-selling, most-used business planning software available. Whether your business is large or small, established or start-up, this software has everything you need to produce a great-looking, professional business plan that gets results.

Test your idea: 10,000 industry profiles included.

Create your plan: 400+ complete sample business plans.

Get funded: The preferred format of bankers, investors, and the SBA.

#1 Rated and Best Selling: Outsold all competitors combined since 1999.

Cash Compass
\$249.99

Cash Compass is a business performance management tool that will help you build and grow a successful business. Working directly with your QuickBooks® accounting data, Cash Compass will help you optimize performance against goals and accurately forecast for the future. Monitor your cash flow, manage your budgets and forecast your future—month by month, year by year.

Regular forecasting: Update your monthly budget and financial plan.

Detailed financial plan: Business scenarios for company management.

Continuous planning: Move away from the "yearly" budget.

In-depth analysis: Make faster, smarter business decisions.

Track performance: Monitor plan versus actual results.

Easily import your financials into both Business Plan Pro and Cash Compass with the click of a button from Intuit's QuickBooks®. If you use QuickBooks Pro or Premier Editions 2002, or newer versions of these products, you can easily start your business plan or financial forecast by importing your QuickBooks data.

Free articles and information on business planning and cash flow planning can be found on our BPLANS web site which includes over 60 free sample business plans, practical advice on cash flow planning, and a panel of experts who have answered more than 3,000 questions.

ProEst® Estimating Software

New Construction Partner for QuickBooks® Users

In today's competitive construction market, the success of your company relies more than ever on your ability to generate quick, accurate estimate information.

A FEW IMPORTANT QUESTIONS:

- Do you wish you could estimate more jobs and improve your accuracy?
- Do you know your exact profit margin and whether or not you can negotiate the price on a job and still make money?
- Have you ever won a job as the low bidder only to find out you forgot to include a few items?

To learn more about ProEst Estimating for QuickBooks, please call or visit our web site today.

The fastest, easiest way to share information between QuickBooks® and ACT!™

ACT! Link™ for QuickBooks provides access to accounting information from within ACT!. With ACT! Link users can view: invoices, estimates, credits, sales summary, payments, purchase orders, bills, reports, and other transactions for any linked QuickBooks contact.

In addition, ACT! Link reduces double data entry by importing ACT! contacts directly into QuickBooks and QuickBooks contacts into ACT!, so sales and accounting departments have access to the same information. Great for single users as well as workgroups using ACT! and QuickBooks data in a shared environment.

If you have 5 or more users, please ask your corporate sales representative about our volume pricing discounts and other Corporate License benefits.

See accounting details in ACT! for any linked QuickBooks contact record

eBRIDGE: Quick & Easy Data & Application Integration for QuickBooks®

Are your customers demanding that you become Electronic Data Interchange (EDI) compliant? Do you have a web storefront that would be more efficient if online orders were entered directly into your accounting application for quick turnaround? Do you want to increase the value of your CRM solution by transferring data electronically to and from your QuickBooks program?

eBRIDGE is the leading provider of EDI/eCommerce and application integration solutions for small and medium-size businesses (SMBs). eBRIDGE has the optimal solution to transfer data between QuickBooks and/or customers and/or applications including CRM, web storefronts, and warehouse management systems. Your data can be transferred in various formats (EDI, XML, CSV and/or flat file) and over various data communication methods (traditional VANS, Internet VANS, AS2, FTP, HTTP(S), dial-up or email). Contact eBRIDGE for a more detailed understanding of how we can help you solve your integration issues.

THE BEST AND MOST COMPREHENSIVE QUOTING SOLUTION. GUARANTEED!

QuoteWerks VERSION 4.0

SQL
edition
available

New version
4.0
for 2004

Extend the power of QuickBooks® with QuoteWerks™

QuoteWerks introduces seldom found flexibility and efficiency to the quoting and ordering process. Do you want all your sales reps to have access to your accounting information? QuoteWerks gives your sales reps the flexibility they need to rapidly turn around a quote without compromising your confidential accounting information.

LINK TO CONTACT MANAGERS

Use customer and prospect information stored in leading contact management software ACT!™, GoldMine®, Maximizer®, Outlook®, salesforce.com®, SalesLogix® and TeleMagic®

CREATE QUOTES/ORDERS /INVOICES REMOTELY

Create quotes, orders, and invoices on laptops or home computers away from the office and send them back to the main office.

NO MORE MAXIMUM USER LIMIT

No limit on the number of people that can use QuoteWerks at the same time.

EXPORT CUSTOMERS, PRODUCTS/SERVICES, AND INVOICES TO QUICKBOOKS

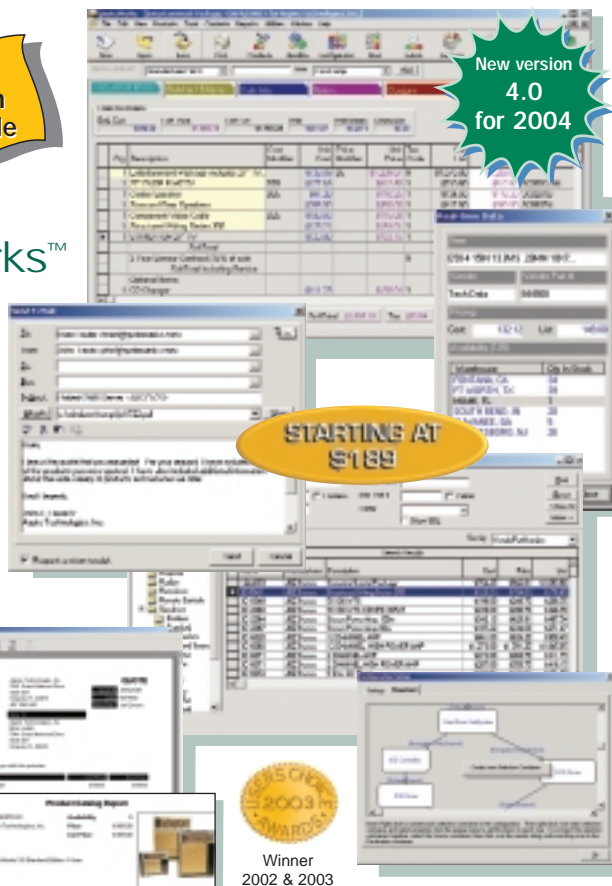

Enter items "on-the-fly" into your quote. No need to create an item in QuickBooks before you can quote it. If the quote turns into an order, the item will be created for you in QuickBooks when you export the order to QuickBooks.

LINK TO PRODUCT DATA SOURCES

Use QuickBooks product list without importing, or Import from spreadsheets/text files, or manually enter products into product and services databases. Link to any ODBC compliant data source including MS Access, SQL, Ingram Micro® and Tech Data®'s offline price guides. Real-time web pricing and availability for Tech Data is now available.

SUPPORTS NINE PRICING METHODS

Many ways to price your products and services such as customer price levels, customer/product based matrix, volume, fixed, markup, margin, list, discount, and formula. Volume costing is also supported!

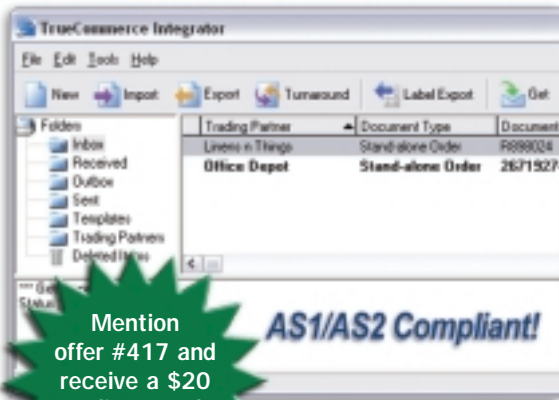

PLUS

- Print Pictures of Quoted Items
- Track Commissions
- Know Your Profit Margin
- Customize Quote Formats
- Compare Prices Between Vendors
- Bundle Your Products
- Email Your Quotes
- Configure Your Products
- Automatically Track Quote Revisions
- Required Items Support
- Create Sales Reports
- Security Features
- International Features
- See Product Price History
- Organize Products in Folders

Take Back Control of Your Shop. . .

The E2 Shop System is the leading shop management system for job shops, contract manufacturers and make-to-order manufacturers. Over 3,000+ shops worldwide use the E2 Shop System to quote accurately, schedule realistically, manage materials effectively, track jobs and everything in between.

THE BEST OF BOTH WORLDS

E2 Shop System is a fully integrated solution that streamlines literally every aspect of the shop from quotes to entering orders to shipping it out the door.

The E2 Shop System also integrates simply with QuickBooks®, so no double entry is required.

You get the best of both worlds. Your shop floor runs efficiently on the E2 Shop System and the office keeps running on your QuickBooks accounting software. If you decide to combine everything into one system, E2 also has its own integrated accounting.

- No per-user install (BigTime is loaded on a single PC or server).
- Access to time, expense and project data from any PC/MAC.
- Choose a timesheet you like: weekly, spreadsheet or timer-based entry available.

GIVE YOUR MANAGERS THE DATA THEY NEED

- Customizable security lets you serve up only the information your managers require.
- BigTime's project dashboard lets managers track budgets, input time, billable time, expenses, tasks, project status and more.
- Over 50 customizable reports let your team review billings to date, profitability, unbilled time/ expenses and more without installing QuickBooks®.

LINK IT ALL TO QUICKBOOKS AUTOMATICALLY

- BigTime uses your existing customers, projects, sub-projects, staff, vendors and items.
- Enter expenses in QuickBooks and view or bill them in BigTime!
- Flexible posting rules for sharing time entries, expense entries, invoices and more.
- Automatically compute charges for any type of project: T&M, retainer, payment-based and more.
- Robust rate calculators and invoicing rules can be tailored per project.

"I don't think that I have ever purchased any software program that was as easy to get up and running. Plus, when we had a question Edison's Attic support staff was terrific."

Chicago, IL 60602

Acroprint knows that when it comes to your business, **Every Minute Counts™**. To help you track these minutes, we're introducing the new **ATRx ProxTime®**.

You can NOW automate employee time cards or time sheets—saving you valuable time and preventing errors associated with manually preparing payroll.

ATRx ProxTime is a Time and Attendance System with Proximity Technology. This technology enables employees to clock "IN/OUT" at the terminal with the wave of a badge. Proximity Badges are good for any environment, and they are more durable than Magnetic Stripe or Bar code Badges.

This versatile system offers a wide range of management reports and will accommodate your holiday, overtime, shift and pay-period policies. The system eliminates the need for paper time cards and handwritten records, and transfers data directly from the ATRx ProxTime terminal to the desktop computer.

THIS TIME AND ATTENDANCE SOFTWARE FEATURES:

12 different shifts/schedules, Company and Individual Employee Messages, Clock IN/OUT from the PC, Submit Employee Time Slips, Require Approval of Timecards, Manage Hourly & Salaried Employees separately, 2 Levels of Daily & Weekly Overtime, 7th Day Overtime, Manage Vacations, Sick Days, Holidays, FMLA, Automatic Holiday Pay, View who is currently IN and OUT using the real-time IN/OUT Board.

TWELVE REPORTS AVAILABLE INCLUDING THE FOLLOWING:

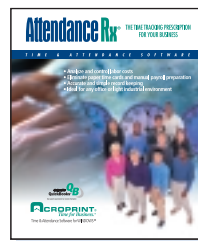

- Time Cards, Hours Summary, Who's IN/OUT, Approaching Overtime, FMLA

EASILY INTEGRATES WITH QUICKBOOKS®

- Import your employees to and from QuickBooks
- Export your Timecards to QuickBooks

Take control of your labor costs with ATRx ProxTime®. Lost minutes could be costing you thousands of dollars per year.

Also available without the Terminal. Attendance Rx Software, Single or Network versions allow Employees to punch "IN/OUT" at a PC.

Effortless Time & Billing

EASY TO DEPLOY, USE & MAINTAIN

- Integrate with your current accounting system
- Collect and approve both timesheets and expenses automatically
- Manage employee time banks: vacation, sick days, overtime
- Sub-contractor tracking
- Fully customizable invoices
- Automatic invoice generation
- Customizable user features
- 100% available via Internet
- Seamless MS-Project integration available
- Incredible drill-down screens and customizable reports detailing budgets, work in progress, tasks completed, performance analysis, and WIP aging

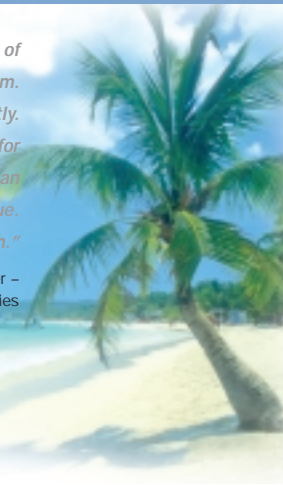

NEW ADD-ONS:

- Payroll Integration
- Remote Offline Entry (timesheets, expenses)
- Import/Export (timesheets, expenses, entries)

"I have been so impressed by the level of support I have received from the Abak team. My questions are always answered promptly. The staff at Abak seems to thank me for thinking of them every time I call with an inquiry even if it is a technical issue. They are patient and very thorough."

The most revolutionary mobile accounting since the pencil

It seems today's mobile professional has to be in two places at once—out on the road getting the job done and back in the office keeping track of the work. That's why we created PocketBooks. The new mobile accounting software that lets you take QuickBooks® wherever you go.

Now you can keep track of parts, labor, and inventory—most of your office accounting, including complete customer history—all on your Palm Pilot. You can even print customer invoices as you go. It's easy and it's quick with PocketBooks.

PocketBooks is the complete accounting application you need to capture and complete every transaction on the spot. It's like taking your office on the road. Find out more at our web site and put your business in the palm of your hand.

- Enter Data like Orders and Payments directly to QuickBooks® Wirelessly or via Cradle
- Increase sales force productivity and effectiveness
- Improves the quality of customer interactions
- Improve enterprise cash flow
- Manage sales force visiting schedule
- View Product Pricing and Inventory while in the field

What is MobileSales?

e-Nabler MobileSales is a customizable, packaged mobile software application that increases sales force productivity and improves the quality of customer interaction, maintaining a wireless virtual real-time connection with QuickBooks.

Sales professionals can enter sales orders, access product pricing and description, time-critical information, including sales opportunities, account details, service requests and other sales data, while in the field or at the point of customer contact and then import wirelessly or via cradle to QuickBooks. Through pervasive and frequent data access, e-Nabler MobileSales keeps sales professionals better informed with current data for faster selling cycle and improved decision making.

Typically companies have to invest thousands of dollars in Sales Force Automation (SFA) systems to help manage their businesses. Now with e-Nabler MobileSales customizable software, e-Nabler Corporation has lowered the price of implementation to a fraction of what it used to be, while improving system effectiveness with an almost immediate return of investment.

e-Nabler MobileSales Modules:

- Orders
- Payments
- Products
- Customers
- Route Management

Are YOU leaving
a paper trail
and
hard-earned money
BEHIND?

FieldRanger
dispatches detailed
job data to handheld
devices in the field—
then sends every shred
of information back to
QuickBooks® in the office,
where it can be shared,
stored and analyzed.

Capture every
approval—
and every dollar—
with FieldRanger™

What if you could
automate every aspect
of every work order to
capture countless
hours of lost revenue?
FieldRanger is the
wireless work order
solution that ends
time-consuming
paperwork, inaccurate
job costing, missing
invoices and more.

With FieldRanger, you
can track all work order
data electronically in the
field including employee
time, materials used,
service information, and
job notes. And when the
job is finished, capture
customer approval with
FieldRanger's electronic
signature feature.

Find out more—
and get your **FREE**
*Contractors Guide
to Field Force
Automation*, filled with
tips and tricks to
maximize your profits.
